

## CONTENTS OF VOLUME 114, No. 4, 1969

	PAGE		PAGE
Cathepsin B, the lysosomal thiol proteinase of calf liver. By <b>O. Snellman</b> . . . . .	673	The effect of pancreatic ribonuclease on rabbit reticulocyte ribosomes and its interpretation in terms of ribosome structure. By <b>R. A. Cox</b> . . . . .	753
The interaction of aflatoxin B <sub>1</sub> with polynucleotides and its effect on ribonucleic acid polymerase. By <b>A. M. Q. King</b> and <b>B. H. Nicholson</b> . . . . .	679	A possible structure of the rabbit reticulocyte ribosome. An exercise in model building. By <b>R. A. Cox</b> and <b>S. A. Bonanou</b> . . . . .	769
Vitamin A and carotenoids. The enzymic conversion of $\beta$ -carotene into retinal in hog intestinal mucosa. By <b>N. H. Fidge</b> , <b>F. R. Smith</b> and <b>DeW. S. Goodman</b> . . . . .	689	Reversible activation of succinate dehydrogenase. By <b>R. G. McDonald-Gibson</b> and <b>M. B. Thorn</b> . . . . .	775
Mass-spectrometric determination of the amino acid sequences in peptides isolated from protein silk fibroin of <i>Bombyx mori</i> . By <b>A. J. Geddes</b> , <b>G. N. Graham</b> , <b>H. R. Morris</b> , <b>F. Lucas</b> , <b>M. Barber</b> and <b>W. A. Wolstenholme</b> . . . . .	695	Studies <i>in vitro</i> on the effects of 1 <i>H</i> ,2 <i>H</i> ,4 <i>H</i> -(5 <i>H</i> )-octafluorocyclohexane and 1 <i>H</i> ,4 <i>H</i> -(2 <i>H</i> )-nonafluorocyclohexane on enzymes and organelles. By <b>J. Nath</b> and <b>H. G. Bray</b> . . . . .	785
Carbonic acid production and the role of carbonic anhydrase in decarboxylation in brain. By <b>J. W. Severinghaus</b> , <b>F. N. Hamilton</b> and <b>S. Cotev</b> . . . . .	703	Multiple light-induced reactions of cytochromes <i>b</i> and <i>c</i> in <i>Rhodospseudomonas spheroides</i> . By <b>O. T. G. Jones</b> . . . . .	793
Hydrolysis of dehydroepiandrosterone sulphate by human placental steroid $3\beta$ -sulphatase in [ <sup>18</sup> O]water. By <b>G. G. Logan</b> and <b>J. C. Warren</b> . . . . .	707	The incorporation of a hydrogen atom at C-15 of cholesterol biosynthesized from squalene. By <b>M. Akhtar</b> , <b>A. D. Rahimtula</b> and <b>D. C. Wilton</b> . . . . .	801
The delayed neurotoxic effect of some organophosphorus compounds. Identification of the phosphorylation site as an esterase. By <b>M. K. Johnson</b> . . . . .	711	Further observations on the inhibitory effect of extracellular potassium ions on glycine uptake by mouse ascites-tumour cells. By <b>A. A. Eddy</b> and <b>M. C. Hogg</b> . . . . .	807
The combination of carbon monoxide-haem with apoperoxidase. By <b>C. Phelps</b> and <b>E. Antonini</b> . . . . .	719	Biochemical and cytological heterogeneity of the differentiating cells of the cellular slime mould <i>Dictyostelium discoideum</i> . By <b>Z. I. Miller</b> , <b>J. Quance</b> and <b>J. M. Ashworth</b> . . . . .	815
'Rapidly Appearing' molybdenum electron-paramagnetic-resonance signals from reduced xanthine oxidase. By <b>R. C. Bray</b> and <b>T. Vänngård</b> . . . . .	725	Studies on the structure of hyaluronic acid. Characterization of the product formed when hyaluronic acid is treated with ascorbic acid. By <b>D. A. Swann</b> . . . . .	819
Complex-formation between reduced xanthine oxidase and purine substrates demonstrated by electron paramagnetic resonance. By <b>F. M. Pick</b> and <b>R. C. Bray</b> . . . . .	735	The chemical synthesis of 1- <i>O</i> -(indol-3'-ylacetyl)- $\beta$ -D-glucopyranose. The higher activity of the glucoside in comparison with exogenous indol-3-ylacetic acid in plant-section elongation tests. By <b>D. Keglević</b> and <b>M. Pokorný</b> . . . . .	827
A study of the effects of reaction with formaldehyde on some optical and physical properties of reticulocyte ribosomes. By <b>R. A. Cox</b> . . . . .	743	The transport of oxidized glutathione from the erythrocytes of various species in the presence of chromate. By <b>S. K. Srivastava</b> and <b>E. Beutler</b> . . . . .	833

	PAGE		PAGE
Factors affecting the lactate dehydrogenase isoenzyme pattern of cultured kidney-cortex cells. By <b>F. Güttler</b> and <b>J. Clausen</b> . . . . .	839	The biochemical status of metabolites of alkane-utilizing <i>Pseudomonas</i> organisms. By <b>C. W. Bird</b> and <b>P. Molton</b> . . . . .	881
Effect of polyamines on the stability of brain-cortex ribosomes. By <b>R. K. Datta</b> , <b>S. Sen</b> and <b>J. J. Ghosh</b> . . . . .	847	Incorporation of [2- <sup>14</sup> C,(5 <i>R</i> )-5- <sup>3</sup> H <sub>1</sub> ]mevalonic acid into cholesterol by a rat liver homogenate and into β-sitosterol and 28-isofucoesterol by <i>Larix decidua</i> leaves. By <b>L. J. Goad</b> , <b>G. F. Gibbons</b> , <b>L. M. Bolger</b> , <b>H. H. Rees</b> and <b>T. W. Goodwin</b> . . . . .	885
The sites of hydrolysis of dipeptides containing leucine and glycine by rat jejunum <i>in vitro</i> . By <b>E. B. Fern</b> , <b>R. C. Hider</b> and <b>D. R. London</b> . . . . .	855	<i>Addendum</i> : Incorporation of [2- <sup>14</sup> C]-mevalonic acid into 28-isofucoesterol by leaves of <i>Pisum sativum</i> . By <b>L. M. Bolger</b> , <b>H. H. Rees</b> , <b>L. J. Goad</b> and <b>T. W. Goodwin</b> . . . . .	892
Solution properties of polygalacturonic acid. By <b>R. W. Stoddart</b> , <b>I. P. C. Spires</b> and <b>K. F. Tipton</b> . . . . .	863		
Characterization of protein-polysaccharides of articular cartilage from mature and immature pigs. By <b>K. D. Brandt</b> and <b>H. Muir</b> . . . . .	871	SHORT COMMUNICATION	
Strain differences in the activities of rat liver enzymes. By <b>L. V. Eggleston</b> and <b>H. A. Krebs</b> . . . . .	877	Studies on insect moulting hormones: biosynthesis of ponasterone A and ecdysterone from [2- <sup>14</sup> C]mevalonate in <i>Taxus baccata</i> . By <b>N. J. de Souza</b> , <b>E. L. Ghisalberti</b> , <b>H. H. Rees</b> and <b>T. W. Goodwin</b> . . . . .	895

*Proceedings of The Biochemical Society*

	PAGE
Fatty acid mobilization in adipose tissue, with particular reference to the effects of this process on fat-cell metabolism. By <b>B. JEANRENAUD</b> . . . . .	45 P
Transport of lipid across the small intestine. By <b>B. HÜBSCHER</b> . . . . .	46 P
The role of the liver in fatty acid transport. By <b>P. A. MAYES</b> . . . . .	47 P
The use of fatty acids by muscle during exercise. By <b>L. A. CARLSON</b> . . . . .	49 P
Conformations of nucleohistones and histones. By <b>E. M. BRADBURY</b> . . . . .	49 P
Histone changes and cell division. By <b>L. A. STOCKEN</b> and <b>M. G. ORD</b> . . . . .	51 P
Formation and processing of ribonucleic acid in subnuclear components of <i>Chironomus tentans</i> . By <b>J.-E. EDSTRÖM</b> , <b>B. DANEHOLT</b> , <b>E. EGYHÁZI</b> , <b>B. LAMBERT</b> and <b>U. RINGBORG</b> . . . . .	51 P
Cytoplasmic proteins and the control of nuclear activity in early amphibian development. By <b>J. B. GURDON</b> and <b>R. S. WEIR</b> . . . . .	52 P
The aggregation of calf thymus histone fractions in solution. By <b>P. A. EDWARDS</b> and <b>K. V. SHOOTER</b> . . . . .	53 P
The interaction of fraction F2(b) from calf thymus histone with deoxyribonucleic acid. By <b>P. A. EDWARDS</b> and <b>K. V. SHOOTER</b> . . . . .	54 P
Enzymic phosphorylation of histone F1 in regenerating rat liver. By <b>A. R. PAWSE</b> , <b>M. G. ORD</b> and <b>L. A. STOCKEN</b> . . . . .	54 P
Fractionation of the lysine-rich histones. By <b>R. H. BUCKINGHAM</b> and <b>L. A. STOCKEN</b> . . . . .	55 P
Lack of correlation between the presence of 7-methylguanine in deoxyribonucleic acid and ribonucleic acid of organs and the localization of tumours after a single carcinogenic dose of <i>N</i> -methyl- <i>N</i> -nitrosourethane. By <b>R. SCHOENTAL</b> . . . . .	55 P
Methylation of herpes-simplex-virus deoxyribonucleic acid. By <b>M. Low</b> and <b>J. HAY</b> . . . . .	56 P
Enzymic methylation of chromatin protein: a new reaction. By <b>R. H. BURDON</b> and <b>E. V. GARVIN</b> . . . . .	56 P
Changes in activity of nuclear deoxyribonucleic acid polymerase in synchronized mouse cells. By <b>R. L. P. ADAMS</b> and <b>J. G. LINDSAY</b> . . . . .	57 P
The effect of bisdioxopiperazines on the synthesis of deoxyribonucleic acid, ribonucleic acid and protein in growing mouse embryo fibroblasts. By <b>A. M. CREIGHTON</b> and <b>G. D. BIRNIE</b> . . . . .	58 P
The effect of some stilboestrol compounds on deoxyribonucleic acid polymerase from human and canine prostatic tissue. By <b>M. E. HARPER</b> , <b>C. G. PIERREPOINT</b> , <b>K. GRIFFITHS</b> , <b>A. R. FAHMY</b> and <b>R. W. BLAMEY</b> . . . . .	58 P

## CONTENTS

iii

	PAGE
Effects of oestradiol-17 $\beta$ and progesterone on nuclear-protein synthesis in the mouse uterus. By J. A. SMITH, L. MARTIN and R. J. B. KING . . . . .	59 P
The protein phosphokinase activity of the oestradiol-17 $\beta$ -binding fraction from uterine nuclei and its stimulation by oestradiol-17 $\beta$ . By R. J. B. KING and J. GORDON . . . . .	59 P
Incorporation of [2- <sup>14</sup> C]thymidine into deoxyribonucleic acid of rat brain during postnatal development: effect of thyroid hormone. By S. KOVÁCS, W. A. COCKS and R. BALÁZS . . . . .	60 P
Stimulation of hen erythrocyte chromatin by extracts of rat liver or uterus. By R. E. LEAKE and J. M. BARRY . . . . .	61 P
Physical studies on partially dissociated nucleohistone. By P. HENSON and I. O. WALKER . . . . .	61 P
Increased incorporation of L-[ <sup>14</sup> C]valine into proteins of the nuclear fraction from guinea-pig brain slices incubated with ouabain. By C. T. JONES and P. BANKS . . . . .	62 P
Isolation of ribosomes from cell walls of barley ( <i>Hordeum vulgare</i> ). By L. JERVIS and M. HALLAWAY . . . . .	62 P
Variations in the average lifetime of bacterial messenger ribonucleic acid with growth medium and temperature. By W. J. H. GRAY and J. E. M. MIDGLEY . . . . .	63 P
Growth hormone and the binding of aminoacyl-transfer-ribonucleic acid to liver ribosomes. By C. C. LIEW and A. KORNER . . . . .	63 P
Synthesis of ribonuclease-resistant ribonucleic acid by fowl-plague-virus-induced ribonucleic acid polymerase. By B. J. W. MAHY and P. A. BROMLEY . . . . .	64 P
The use of gradient centrifugation to study events in the life cycle of cultured cells. By A. M. H. WARMSLEY, J. J. M. BERGERON and C. A. PASTERNAK . . . . .	64 P
Subcellular fractionation of <i>Polytomella caeca</i> by zonal centrifugation. By R. A. COOPER, M. G. JONES, S. E. VENABLES and D. LLOYD . . . . .	65 P
Palmitic acid uptake and metabolism by isolated rat liver cells. By J. D. WRIGHT and C. GREEN . . . . .	65 P
The transport of palmitic acid across intestinal brush-border membranes. By K. A. MUNDAY, B. J. PARSONS and D. A. YORK . . . . .	66 P
Inhibition of palmitoyl-L-carnitine oxidation in rat liver mitochondria by pent-4-enoyl-L-carnitine. By P. C. HOLLAND and H. S. A. SHERRATT . . . . .	67 P
The chain length of fatty acids synthesized by fatty acid synthetase. By E. M. CAREY, R. DILS and H. HANSEN . . . . .	67 P
The polyenoic acids and their elongation products in the muscle tissue of <i>Phacochoerus aethiopicus</i> : a re-evaluation of 'animal fat'. By M. A. CRAWFORD, M. M. GALE and M. H. WOODFORD . . . . .	68 P
Brain and cerebellum fatty acid pattern changes in the encephalomalacic chick and the presence of a homeostatic mechanism. By P. M. PFEIFER and M. MCC. BARNES . . . . .	68 P
Antiketogenic action of glucocorticoids in the cow. By G. D. BAIRD and R. J. HEITZMAN . . . . .	69 P
Acetyl-coenzyme A formation in the tissues of the developing lamb. By R. V. BRIERLEY, M. K. JEACOCK and D. A. L. SHEPHERD . . . . .	70 P
Catalysis of transamination by acetate. By S. VAN HEYNINGEN and H. B. F. DIXON . . . . .	70 P
Stabilization and partial purification of lipoprotein lipase. By D. REICHL . . . . .	71 P
Extracellular release of lysosomal phospholipases from the perfused adrenal gland. By A. D. SMITH . . . . .	72 P
Lipid composition at different depths in the cow snout epidermis. By V. J. W. LONG . . . . .	72 P
Comparison of steroid sulphate and free steroids as substrates of a crystalline oxidoreductase. By T. POCKLINGTON and J. JEFFERY . . . . .	73 P
Stimulation by glucose of steroidogenesis from acetate by the superovulated rat ovary <i>in vitro</i> . By A. P. F. FLINT and R. M. DENTON . . . . .	73 P
Absorption and tissue uptake of $\alpha$ -tocopherol in the rat. By J. KELLEHER, T. DAVIES and M. S. LOSOWSKY . . . . .	74 P
The distribution of vitamin D <sub>3</sub> metabolites in human serum and tissues. By E. B. MAWER and K. SCHAEFER . . . . .	74 P
The metabolism of 4-hydroxypyridine by <i>Agrobacterium</i> sp.: a new ring cleavage of the pyridine nucleus. By C. HOUGHTON, G. K. WATSON and R. B. CAIN . . . . .	75 P
The regulation of enzymes of aromatic-ring fission in fungi: organisms using both catechol and protocatechuate pathways. By B. E. HALSALL, J. A. DARRAH and R. B. CAIN . . . . .	75 P

	PAGE
The regulation of enzymes of aromatic-ring fission in fungi: organisms using only the proto-catechuate pathway. By R. B. CAIN . . . . .	76 P
The regulation of the enzymes of aromatic-ring fission in an actinomycete. By D. L. RANN and R. B. CAIN . . . . .	77 P
A dietary factor required for the induction of hepatic microsomal cytochrome <i>P</i> -450 by phenobarbitone. By W. J. MARSHALL and A. E. M. MCLEAN . . . . .	77 P
Gut bacteria and the metabolism of cyclamate in the rat. By A. G. RENWICK and R. T. WILLIAMS	78 P
The physical properties and mechanism of action of deoxyoxoglucuronate dehydratase from <i>Pseudomonas acidovorans</i> . By H. HASSALL, R. JEFFCOAT and S. DAGLEY . . . . .	78 P
Multiple polymers of histidine ammonia-lyase. By A. K. SOUTAR and H. HASSALL . . . . .	79 P
Further properties of multiple forms of mitochondrial monoamine oxidase. By G. G. S. COLLINS and M. B. H. YODIM . . . . .	80 P
The importance of $\alpha$ -glycerophosphate oxidase in oxidation of extramitochondrial reduced nicotinamide-adenine dinucleotide in vertebrate and insect muscle. By B. CRABTREE and E. A. NEWSHOLME . . . . .	80 P
The effects of calcium ions on the activities of hexokinase, phosphofructokinase and fructose 1,6-diphosphatase from vertebrate and insect muscles. By H. VAUGHAN and E. A. NEWSHOLME .	81 P
Studies on equine trypsinogen and trypsin. By C. I. HARRIS and T. HOFMANN . . . . .	82 P
Zinc-dependent conformational stability in the alkaline phosphatase of <i>Escherichia coli</i> . By C. N. A. TROTMAN and C. GREENWOOD . . . . .	82 P
Insulin conformations. By S. LEWIN . . . . .	83 P
Order of strength of ionic linkages in protein interactions. By S. LEWIN . . . . .	83 P
Effect of intravenous infusion of L-tryptophan on the cerebral metabolism of 5-hydroxyindoles and dopamine (3,4-dihydroxyphenethylamine). By A. T. B. MOIR . . . . .	84 P
Isotopic exchange between acetylcholine and [ <i>Me</i> - <sup>14</sup> C]choline catalysed by human placental choline acetyltransferase. By D. MORRIS and D. S. GREWAAL . . . . .	85 P
Isolation of a mucoprotein from porcine gastric mucosa. By D. SNARY and A. ALLEN . . . . .	85 P
Properties of an $\alpha$ -D-galactosyltransferase in human tissues obtained from blood-group B donors. By C. RACE and W. M. WATKINS . . . . .	86 P
Properties of $\alpha$ -galactosidase I from <i>Vicia faba</i> . By P. M. DEY and J. B. PRIDHAM . . . . .	86 P
Protein-polysaccharide complexes secreted by the calf tracheal epithelium <i>in vitro</i> . By P. W. KENT, I. J. MOLINEUX, M. R. HAEGELE and F. K. STEVENSON . . . . .	87 P
Countercurrent studies of some porphyrins of various tissues. By S. G. SMITH, R. V. BELCHER and R. MAHLER . . . . .	88 P
Glutathione-protein mixed disulphides in human lens. By J. J. HARDING . . . . .	88 P
Diquat cataract in the rat. By A. PIRIE, J. R. REES and N. J. HOLMBERG . . . . .	89 P
Spontaneous reversal of arsenate-induced swelling of mitochondria. By A. P. DAWSON, N. GAINS and M. J. SELWYN . . . . .	89 P
Proton transport in mitochondrial oxidative phosphorylation. By M. J. SELWYN and A. P. DAWSON	90 P
The electron-transport chain of <i>Tetrahymena pyriformis</i> strain ST. By G. TURNER, D. LLOYD and B. CHANCE . . . . .	91 P
The dialysis of small volumes (5-50 $\mu$ l.) of fluid. By N. G. HEATLEY . . . . .	91 P
