

The Biochemical Journal

THE BIOCHEMICAL SOCIETY

OFFICERS AND COMMITTEE, 1970-71

Chairman of the Committee

G. A. D. HASLEWOOD

Committee Secretary

A. N. DAVISON

Meetings Secretary

H. M. KEIR

International Secretary

A. P. MATHIAS

Treasurer

W. F. J. CUTHBERTSON

Assistant Treasurer

D. F. ELLIOTT

Committee

J. S. D. BACON

W. BARTLEY

R. B. BEECHEY

R. M. C. DAWSON

D. T. ELMORE

R. HOFFENBERG*‡

A. KORNER

H. A. KREBS

D. J. MANNERS*†

S. V. PERRY

D. C. PHILLIPS

P. J. RANDLE

D. S. ROBINSON*†

R. M. S. SMELLIE§

D. G. WALKER*†

* *Ex officio* Member of Committee.

† Representative of Editorial Board of the *Biochemical Journal*.

‡ Representative of Editorial Board of *Clinical Science*.

§ Symposium Organizer.

The **Biochemical Society** exists to advance the science of biochemistry through meetings and publications. Eleven meetings a year are held, each at a different place; original papers are presented and special topics are discussed at symposia and colloquia.

Persons interested in biochemistry are eligible for election as Members. Details of further facilities accorded to Members, and forms of application for membership, are available from the Executive Secretary, The Biochemical Society, 7 Warwick Court, London WC1R 5DP (01-242 1076/7/8/9).

The **Biochemical Journal** is published and distributed by the Biochemical Society. It is published twice monthly, in four or more volumes per year. It is planned that five volumes will appear in 1971. The index for each volume is published separately.

Subscriptions to the *Biochemical Journal*. For non-members of the Biochemical Society the subscription to the Journal at the present rate of publication is £45 per year (£9 per volume). For non-members in the U.S.A. the 1971 subscription is \$110 per year (\$22 per volume). All subscriptions are payable in advance at the time of ordering. Orders and subscriptions should be sent to the Biochemical Society (Publications), 7 Warwick Court, London WC1R 5DP.

Claims regarding issues lost or damaged in transit should be addressed to the Biochemical Society at the address in the preceding paragraph. No claims can be entertained if they are received later than three months after the date of posting of the Journal.

Back Numbers. Enquiries for volumes 1-19 should be addressed to William Dawson & Sons Ltd., Back Issues Department, Cannon House, Park Farm Road, Folkestone, Kent. Quotations for available issues of subsequent volumes and parts may be obtained on application to Walter J. Johnson Ltd., Berkeley Square House, Berkeley Square, London W1X 6BA, or to the Biochemical Society.

Advertisements. Applications for advertising space should be sent to the Advertising Department, The Biochemical Society, 7 Warwick Court, London WC1R 5DP (01-242 1076/7/8/9). Copy is required eight weeks before publication date. Rate cards are available on request.

Microfilms. Volumes 1-89 (1906-1963) have been recorded on microfilm by Micro Methods Ltd., East Ardsley, Wakefield, Yorks. Details are available from the firm or the Biochemical Society.

London: The Biochemical Society© 1971

INDEX TO AUTHORS

	PAGE		PAGE
Applebaum, S. W.	317, 321	Llambías, E. B. C.	327
Asp, N.-G.	299	Lloyd, J. B.	245
Bailey, A. J.	257	Lowe, J. M.	203
Ballard, F. J.	169	Meitner, P. A.	249
Battle, A. M. del C.	327	Mendelsohn, F. A.	241
Brady, A. H.	179	Mills, D. C. B.	185
Brandt, K. D.	261	Milstein, C.	211, 217
Caffrey, M.	161	Milstein, C. P.	211
Dawes, E. A.	309	Muir, H.	261
Ellwood, D. C.	349	Öbrink, B.	227
Foster, S. J.	287	Peach, C. M.	257
Frangione, B.	217	Pirt, S. J.	293
Franklin, T. J.	287	Pitot, H. C.	271
Getz, G. S.	341	Podoler, H.	317, 321
Grant, M. E.	197	Rabinowitz, M.	341
Gutfreund, H.	235	Ragland, W. L.	271
Haddock, J.	341	Ritchie, G. A. F.	309
Hawtrey, A. O.	279	Robinson, D.	161
Herrington, M. D.	279	Ryan, J. W.	179
Jackson, D. S.	197	Sandberg, L. B.	197
Jakovcic, S.	341	Senior, P. J.	309
Johnston, C. I.	241	Shires, T. K.	271
Kassell, B.	249	Smith, J. B.	185
		Steven, F. S.	197

PAPERS ACCEPTED FOR PUBLICATION

- Isotopic studies of the conversion of oxophlorins and their ferrihaems into bile pigments in the rat. By T. KONDO, D. C. NICHOLSON, A. H. JACKSON and G. W. KENNER
- Sulphur utilization during growth of *Pseudomonas fluorescens* on potassium D-glucose 6-O-sulphate. By J. W. FITZGERALD and K. S. DODGSON
- γ -Glutamyl and D- or L-peptide linkages in mycobacillin, a cyclic peptide antibiotic. By S. SENGUPTA, A. B. BANERJEE and S. K. BOSE
- Deoxyribonucleic acid synthesis in mammalian nuclei. Incorporation of deoxyribonucleotides and chain-terminating nucleotide analogues. By M. A. WAQAR, L. A. BURGoyNE and M. R. ATKINSON
- Autolysis of *Bacillus cereus* cell walls and isolation of structural component. By R. C. HUGHES
- A polymer of glucose and N-acetylgalactosamine 1-phosphate in the wall of *Micrococcus* sp. A1. By M. D. PARTRIDGE, A. L. DAVISON and J. BADDILEY
- The products from papain and pepsin hydrolysis of guinea-pig immunoglobulins γ_1 G and γ_2 G. By R. G. Q. LESLIE and S. COHEN
- Studies on type II glycogenosis. Effects of cortisone derivatives on acid α -glucosidase. By E. J. BOURNE, K. CLARKE, J. B. PRIDHAM and J. J. M. ROWE
- Nicotinamide nucleotide synthesis in regenerating rat liver. By G. M. FERRIS and J. B. CLARK
- The reaction of aralkyl sulphate esters with glutathione catalysed by rat liver preparations. By B. GILLHAM
- Purification and some kinetic properties of rat liver glucosamine synthetase. By P. J. WINTERBURN and C. F. PHELPS
- Studies on the control of hexosamine biosynthesis by glucosamine synthetase. By P. J. WINTERBURN and C. F. PHELPS
- The binding of substrates and modifiers to glucosamine synthetase. By P. J. WINTERBURN and C. F. PHELPS
- Protein synthesis by membrane-bound and free ribosomes of secretory and non-secretory cells. By T. M. ANDREWS and J. R. TATA

NOTES FOR CONTRIBUTORS

It is the policy of the *Biochemical Journal* to publish papers in English in all fields of biochemistry, provided that they make a sufficient contribution to biochemical knowledge. Papers may include new results obtained experimentally, descriptions of new experimental methods of biochemical importance, or new interpretations of existing results. All work presented should have as its aim the development of biochemical concepts rather than the mere recording of facts. Theoretical contributions will be considered equally with papers dealing with experimental work. Preliminary or inconclusive experiments should not generally be described.

For detailed instructions on the preparation of papers contributors should refer to *Policy of the Journal and Instructions to Authors* [*Biochem. J.* (1971), **121**, 1] (obtainable from the Executive Secretary, The Biochemical Society, 7 Warwick Court, London WC1R 5DP, price 20p. post free). In general the *Biochemical Journal* uses the recommended SI (Système Internationale) symbols [see *Symbols, Signs and Abbreviations Recommended for British Scientific Publications* (1969) (London: The Royal Society)]. For biochemical nomenclature authors should as far as possible follow the Tentative Rules and Proposals of the IUPAC-IUB Commission on Biochemical Nomenclature [see *Biochem. J.* (1971), **121**, 11]. For chemical nomenclature the IUPAC Rules should be followed [see *Biochem. J.* (1971), **121**, 11]. The *Biochemical Journal* uses as a standard of spelling the *Concise Oxford Dictionary of Current English* (Oxford: Clarendon Press).

Two types of paper are accepted by the editors: **Full-length papers.** Papers submitted for publication should be sent together with an extra copy of the synopsis to the Editorial Secretary, The Biochemical Journal, 7 Warwick Court, London WC1R 5DP. Typescripts should bear the name and address of the person to whom the proof of the paper is to be sent.

Papers submitted should be written concisely. Typescripts that are not concise or do not conform to the conventions of the *Biochemical Journal* will be returned to the authors for revision. If a paper that has been returned to an author for revision is not resubmitted within one month, it will, on resubmission, be deemed to be a new paper and the date of receipt altered accordingly. A revised paper

containing a significant amount of new material will also be redated.

Submission of a paper to the Editorial Board implies that it reports unpublished work, that it is not under consideration for publication elsewhere, and that if accepted for the *Biochemical Journal* it will not be published elsewhere in the same form, either in English or in any other language, without the consent of the Editorial Board.

Papers should be headed by a concise but informative title, by the names of the authors and by the name and address of the establishment where the work was performed. Details of financial support may appear in the acknowledgements at the end of the paper.

Before preparing papers authors should consult a current issue of the Journal to make themselves familiar with the general format, such as the use of cross-headings, lay-out of tables and citation of references. Papers should be in double-spaced typing throughout (including references and legends of tables and figures) on sheets of uniform size with wide margins. The top copy should be submitted. It cannot be overemphasized that the need for revision of badly prepared typescripts inevitably leads to delays in publication.

Papers on specialized subjects should be presented so that they are intelligible to the ordinary reader of the Journal. Sufficient information must be included to permit repetition of the experimental work.

Short Communications. Typescripts should be submitted *in duplicate*, written in English, and conform strictly to the form of the Journal as far as spelling and abbreviations are concerned. Such communications must not exceed 1200 words of text, but in addition may include either one table, typed on a separate sheet, or one figure, drawn according to the rules of the Journal. If no figure or table is included the text may be expanded to 1400 words. Communications should be addressed to the Editorial Secretary, The Biochemical Journal, 7 Warwick Court, London WC1R 5DP. Papers should be complete in themselves; (1) the methods used in experimental work must be adequately described or sufficient references given to allow repetition of the work; (2) sufficient indication of the results of experimental work must be included to justify the claims made.
