

CONTENTS OF VOLUME 123, No. 1, 1971

	PAGE		PAGE
Cathepsin D. Characteristics of immunoinhibition and the confirmation of a role in cartilage breakdown. By J. T. Dingle, A. J. Barrett and P. D. Weston	1	The catabolism of phosphatidylethanolamine by the rumen protozoon <i>Entodinium caudatum</i> and its conversion into the N-(1-carboxyethyl) derivative. By G. S. Coleman, P. Kemp and R. M. C. Dawson	97
Bile salts of germ-free domestic fowl and pigs. By G. A. D. Haslewood	15	Studies on an extract of rat testicular microsomal fraction that catalyses the transformation of progesterone into 17-hydroxyprogesterone and androgens. By H. C. Ford and V. J. O'Donnell	105
The metabolism of phosphatidylinositol in the thyroid gland of the pig. By F. B. Jungalwala, N. Freinkel and R. M. C. Dawson	19	Location of aromatic amino acids and helix content in <i>Escherichia coli</i> ribonucleic acid polymerase. By B. H. Nicholson	117
Phosphoenolpyruvate carboxykinase of kidney. Subcellular distribution and response to acid-base changes. By H. Flores and G. A. O. Alleyne	35	SHORT COMMUNICATIONS	
Androgen dynamics <i>in vitro</i> in the normal and hyperplastic human prostate gland. By E. P. Giorgi, J. C. Stewart, J. K. Grant and R. Scott	41	The pattern of synthesis of ribonucleic acid species under the action of spermine in the chick embryo. By B. Barbiroli, A. Corti and C. M. Caldarera	123
Amino acid sequence of the encephalitogenic basic protein from human myelin. By P. R. Carnegie	57	Imidazole groups of iron-saturated transferrin. By A. Bezkorovainy and D. Grohlich	125
Isolation and partial characterization of methylated arginines from the encephalitogenic basic protein of myelin. By G. S. Baldwin and P. R. Carnegie	69	Further characterization of a protein promoting aggregation of retina cells. By E. H. Creaser and L. M. Russell	127
An active-site peptide from pepsin C. By J. Kay and A. P. Ryle	75		
Metabolism of rat brain mitochondria. Studies on the potassium ion-stimulated oxidation of pyruvate. By W. J. Nicklas, J. B. Clark and J. R. Williamson	83
