	PAGE		PAGE
IUPAC Commission on the Nomenclature of Organic Chemistry and IUPAC-IUB Commission on Biochemical Nomenclature. Tentative rules for the nomenclature of carotenoids	741	The bacterial oxidation of <i>N</i> -methylisonicotinate, a photolytic product of Paraquat. <i>By</i> C. G. Orpin, M. Knight & W. C. Evans	833
IUPAC-IUB Commission on Biochemical Nomenclature. Abbreviated nomenclature of synthetic polypeptides (polymerized amino acids). Revised recommendations (1971)	753	The microbial biosynthesis of methionine. <i>By</i> A. R. Salem & M. A. Foster	845
The oligosaccharide units of rabbit immunoglobulin G. Multiple carbohydrate attachment sites. <i>By</i> M. W. Fanger & D. G. Smyth	757	Effect of compounds of the urea-guanidinium class on renaturation and thermal stability of acid-soluble collagen. <i>By</i> A. E. Russell & D. R. Cooper	855
The oligosaccharide units of rabbit immunoglobulin G. Asymmetric attachment of C2-oligosaccharide. <i>By</i> M. W. Fanger & D. G. Smyth	767	Intracellular distribution of serum albumin and its possible precursors in rat liver. <i>By</i> D. M. Geller, J. D. Judah & M. R. Nicholls	865
Replacement of asparagine by aspartic acid in hen ovalbumin and a difference in immunochemical reactivity. <i>By</i> R. L. Wiseman, J. E. Fothergill & L. A. Fothergill	775	Oxidation of <i>p</i> -dimethylaminomethylbenzylamine by pig kidney diamine oxidase. A new method for spectrophotometric assay. <i>By</i> W. G. Bardsley, M. J. C. Crabbe, J. S. Shindler & J. S. Ashford	875
The functional significance of variants of fructose 1,6-diphosphatase in the gill and hypodermis of a marine crustacean. A kinetic study. <i>By</i> P. W. Hochachka	781	Relative changes in the function of muscle ribosomes and mitochondria during the early phase of steroid-induced catabolism. <i>By</i> G. Bullock, E. E. Carter, P. Elliott, R. F. Peters, P. Simpson & A. M. White	881
Effects of proteins and polynucleotides on the activity of various hydrolases. <i>By</i> M. J. Palmieri & O. Koldovský	795	Function of arginase in lactating mammary gland. <i>By</i> M. C. M. Yip & W. E. Knox	893
Mercaptan-induced fragmentation of a subunit-like proteolytic fragment of immunoglobulin M. <i>By</i> G. M. Butchko & F. P. Inman	801	Folate metabolism in <i>Streptococcus faecalis</i> . <i>By</i> P. G. McElwee & J. M. Scott	901
The interaction of catecholamines and adrenal corticosteroids in the induction of phosphopyruvate carboxylase in rat liver and adipose tissue. <i>By</i> L. Reshef & R. W. Hanson	809	<b>Short Communications</b>	
The bacterial oxidation of picolinamide, a photolytic product of Diquat. <i>By</i> C. G. Orpin, M. Knight & W. C. Evans	819	The reaction between bilirubin and aromatic diazo compounds. <i>By</i> D. W. Hutchinson, B. Johnson & A. J. Knell	907
		Properties of agarose-bound soya-bean lipoxygenase. <i>By</i> S. Grossman, M. Trop, P. Budowski, M. Perl & A. Pinsky	909
		The concentrations of sugar nucleotides in bovine corneal epithelium and endothelium. <i>By</i> C. J. Handley & C. F. Phelps	911

**Proceedings of the Biochemical Society**

	PAGE		PAGE
A natural inhibitor of liver glutamine amino-transferase. By P. J. Buttery & E. V. Rowsell	81 P	Glyceride lipases in brain and their stimulation by noradrenaline and 5-hydroxytryptamine. By O. S. Vyvoda & C. E. Rowe	86 P
Induction of uridine diphosphate glucuronyl-transferase: relation to protein and ribonucleic acid synthesis. By B. Burchell, A. M. Nemeth & G. J. Dutton	81 P	The synthesis of mercapturic acids from allyl compounds in the rat. By C. M. Kaye & L. Young	87 P
The scrapie agent: a small deoxyribonucleic acid-mediated virus? By D. H. Adams	82 P	A new micro method for the determination of acid glycosaminoglycans in urine. By P. D. Whiteman	87 P
Deoxyglucose and brain glycolysis. By H. S. Bachelard	83 P	Investigation of the polysaccharides produced by extracellular glycosyltransferases from <i>Streptococcus mutans</i> . By J. K. Baird & D. C. Ellwood	88 P
Increased activity of the sodium-plus-potassium ion-stimulated adenosine triphosphatase in rat brain during electrically induced convulsions. By R. Castillon & R. Rodnight	83 P	Particulate malate oxidation in strictly aerobic bacteria: the respiratory system of <i>Moraxella lwoffii</i> . By M. Jones & H. K. King	89 P
The effects of dietary vitamin B <sub>6</sub> deficiency on the development of the $\gamma$ -aminobutyrate shunt in rat brain. By R. A. Bayoumi & W. R. D. Smith	84 P	Defluorination of fluoroacetate by lettuce. By P. F. V. Ward & N. S. Huskisson	89 P
Effects of portocaval anastomosis on the metabolism of [1- <sup>14</sup> C]acetate and on metabolic compartmentation in rat brain. By A. J. Patel, R. Balázs, M. H. Kyu & J. B. Cavanagh	85 P	Effects of early visual experiences on the metabolism of adenosine 3':5'-cyclic monophosphate in chick brain. By J. Hambley, S. P. R. Rose & P. P. G. Bateson	90 P
Labelling of cholinergic receptors in sub-cellular fractions from rat cerebral cortex. By C. R. Hiley, J. M. Young & A. S. V. Burgen	86 P	Output of [ <sup>14</sup> C]adenine derivatives on electrical excitation of tissues from the brain: calcium ion-sensitivity and an accompanying re-uptake process. By I. Pull & H. McIlwain	91 P
