

## Contents of Volume 128, No. 1, 1972

	PAGE	PAGE
Cholesterol 7 $\alpha$ -hydroxylase in rat liver microsomal preparations. By K. A. Mitropoulos & S. Balasubramaniam	1	
Purification and characterization of lysosomal $\beta$ -glucuronidase from human placenta. By S. F. Contractor & B. Shane	11	
Transport of amino acids into the oestrogen-primed uterus. Enhancement of the uptake by a preliminary incubation. By T. R. Riggs & M. W. Pan	19	
Localization and interconversion of tetrahydropteroylglutamates in isolated pea mitochondria. By M. T. Clandinin & E. A. Cossins	29	
The enzymic degradation of L-serine O-sulphate. Mechanism of the reaction. By N. Tudball & P. Thomas	41	
Peptides from a mycobacillin-synthesizing cell-free system. By S. Sengupta & S. K. Bose	47	
3-Hydroxybutyrate dehydrogenase in tissues from normal and ketonaemic sheep. By H. R. Watson & D. B. Lindsay	53	
Studies of the ethylation of rat liver transfer ribonucleic acid after administration of L-ethionine. By A. E. Pegg	59	
Deficiency of $\alpha$ -mannosidase in Angus cattle. An inherited lysosomal storage disease. By J. D. Hocking, R. D. Jolly & R. D. Batt	69	
Lipoprotein lipase activity in the adipose tissue of rats adapted to controlled feeding schedules. By D. Reichl	79	
The activities of fructose diphosphatase in flight muscles from the bumble-bee and role of this enzyme in heat generation. By E. A. Newsholme, B. Crabtree, S. J. Higgins, S. D. Thornton & C. Start	89	
Microbial metabolism of C <sub>1</sub> and C <sub>2</sub> compounds. The involvement of glycollate in the metabolism of ethanol and of acetate by <i>Pseudomonas</i> AM1. By P. M. Dunstan, C. Anthony & W. T. Drabble	99	
		Microbial metabolism of C <sub>1</sub> and C <sub>2</sub> compounds. The role of glyoxylate, glycollate and acetate in the growth of <i>Pseudomonas</i> AM1 on ethanol and on C <sub>1</sub> compounds. By P. M. Dunstan, C. Anthony & W. T. Drabble
		107
		Methylation of ribonucleic acid by the carcinogens dimethyl sulphate, <i>N</i> -methyl- <i>N</i> -nitrosourea and <i>N</i> -methyl- <i>N'</i> -nitro- <i>N</i> -nitrosoguanidine. Comparisons of chemical analyses at the nucleoside and base levels. By P. D. Lawley & S. A. Shah
		117
		Biomethylation of deoxyribonucleic acid in cultured human tumour cells (HeLa). Methylated bases other than 5-methylcytosine not detected. By P. D. Lawley, A. R. Crathorn, S. A. Shah & B. A. Smith
		133
		The role of intracellular pH in the regulation of cation exchanges in yeast. By J. P. Ryan & H. Ryan
		139
		The effects of increased heart work on the tricarboxylate cycle and its interactions with glycolysis in the perfused rat heart. By J. R. Neely, R. M. Denton, P. J. England & P. J. Randle
		147
		<b>Short Communications</b>
		Stimulation by calcium ions of pyruvate dehydrogenase phosphate phosphatase By R. M. Denton, P. J. Randle & B. R. Martin
		161
		The conversion of [1- <sup>14</sup> C]pyruvate into [ <sup>14</sup> C]-alanine in rat skeletal muscle: its relevance to the effect of insulin on protein synthesis. By R. C. Hider & L. Meade
		165
		Experimental oleic acid-induced cholelithiasis in the rabbit associated with increased biliary 5 $\alpha$ -deoxycholic acid. By P. A. Kyd & I. A. D. Bouchier
		169
		A direct comparison of two unusual R-factor-mediated $\beta$ -lactamases. By J. W. Dale & J. T. Smith
		173
		Glutathione <i>S</i> -aryltransferase: the effect of treating male and female rats with phenobarbitone on the apparent kinetic parameters for the conjugation of 1,2-dichloro-4-nitrobenzene and 1-chloro-2,4-dinitrobenzene with glutathione. By F. J. Darby & R. K. Grundy
		175

	PAGE		PAGE
Studies on phytosterol biosynthesis: metabolism of 24,25-dihydrolanosterol and cholesterol on <i>Ochromonas malhamensis</i> . By G. H. Beastall, H. H. Rees & T. W. Goodwin	179	The isolation of an acetylcholine- and decamethonium-binding protein from housefly heads. By K. J. Cattell & J. F. Donnellan	187
The presence of acetyl-coenzyme A carboxylase apoenzyme in the liver of newly hatched chicks. By E. Ryder	183	Adenosine triphosphate synthesis and the natural electron acceptor for synthesis of serine from glycine in leaves. By I. F. Bird, M. J. Cornelius, A. J. Keys & C. P. Whittingham	191
 <b>Proceedings of the Biochemical Society</b>			
	PAGE		PAGE
Enzyme systems for fatty acid synthesis. By F. Lynen	1 P	Structure and enzymic properties of phospholipase A from porcine pancreas. By G. H. de Haas	9 P
Regulatory mechanisms for liver acetyl-coenzyme A carboxylase. By S. Numa, T. Hashimoto & S. Nakanishi	2 P	The role of clearing-factor lipase in the removal of triglyceride fatty acids from the plasma. By D. S. Robinson	9 P
The polyenoic fatty acids of phospholipids and the problem of essential fatty acids. By E. Klenk	3 P	Synthesis of naturally occurring phospholipids. By E. Baer	9 P
The biosynthesis of unsaturated fatty acids. By A. T. James	3 P	Wax esters: major marine metabolic energy sources. By A. A. Benson & R. F. Lee	10 P
Biosynthesis of unsaturated fatty acids by higher-plant systems. By P. K. Stumpf	3 P	The chemistry and biochemistry of polyprenyl alcohols such as solanesol and dolichol. By R. A. Morton	11 P
The biosynthesis of prostaglandins in thrombocytes. By J. Clausen & K. C. Srivastava	4 P	Metabolism of $\beta$ -apocarotenals. By H. Singh, A. Krishna Mallia & H. R. Cama	11 P
The synthesis and biological role of prostaglandins. By B. Samuelsson	4 P	Recent developments in the study of the biosynthesis of carotenoids. By T. W. Goodwin	11 P
Fatty acid metabolism in multiple sclerosis. By R. H. S. Thompson	4 P	Biogenetic interrelationship between ubiquinone and cholesterol. By T. Ramasarma	12 P
Disorders of lipid metabolism. By R. O. Brady	4 P	Cell-free biosynthesis of precursors of polyprenyl derivatives of <i>p</i> -hydroxybenzoate in mammalian and bacterial systems. By H. Rudney	13 P
Two cerebral sphingolipidoses (metachromatic leucodystrophy and infantile amaurotic idiocy) as human inborn errors of metabolism. By H. Jatzkewitz	6 P	1,25-Dihydroxycholecalciferol: a hormonal form of vitamin D active on intestine By H. F. DeLuca	14 P
The metabolism of phosphatidylcholine in brain tissue. By G. B. Ansell	6 P	Retinol transport in rat plasma and its nutritional regulation. By DeW. S. Goodman, Y. Muto, J. E. Smith & P. Milch	15 P
Cerebroside sulphate biosynthesis in brain. By B. K. Bachhawat, S. Kokrady & S. Saxena	8 P		
Absorption of lipids. By J. Ganguly, P. V. Subbaiah & S. Parthasarathy	8 P		

	PAGE		PAGE
Cholesterol regulation of hepatic 3-hydroxy-3-methylglutaryl-coenzyme A reductase. By V. W. Rodwell	16P	Studies on the metabolism of <i>sym</i> -homo-spermidine in sandal ( <i>Santalum album</i> L.) By R. Kuttan & A. N. Radhakrishnan	22 P
The effects of starvation and re-feeding on the rates of synthesis and degradation of enzymes effecting intermediate reactions in the synthesis of cholesterol and fatty acids in rat liver. By L. L. Slakey, M. C. Craig, E. Baytia, A. Briedis, D. H. Feldbruegge, R. E. Dugan, R. A. Muesing, A. Qureshi, C. Subbarayan & J. W. Porter	16P	The regulation of nitrate reductase in <i>Neurospora crassa</i> . By K. N. Subramanian & G. J. Sorger	23 P
Correlation of chemical structure and biological activity of mycobacterial cell walls and derived lipids. By E. Lederer	17P	Role of light in the induction of nitrate reductase in rice seedlings. By S. K. Sawhney & M. S. Naik	23 P
Co-ordinated synthesis of membrane phospholipids with the formation of ribosomes and accelerated protein synthesis during growth and development. By J. R. Tata	18P	Metabolism of inorganic nitrogen compounds in plants and micro-organisms. By D. J. D. Nicholas	24 P
Studies on the cell membrane of bacilli. By W. J. Lennarz	18P	Induction of asparagine synthetase in $\gamma$ -irradiated potatoes. By P. M. Nair	24 P
Turnover and exchange of phospholipids in the membranes of the nervous system. By R. M. C. Dawson, E. Miller & F. B. Jungalwala	18P	Tryptophan metabolism in micro-organisms. By M. Nozaki & Y. Ishimura	24 P
Lipid composition, permeability and structure of biological membranes. By L. L. M. van Deenen	19P	Biosynthesis of flavonoid compounds: enzyme activities in relation to cell growth and differentiation. By K. Hahlbrock	25 P
Inositol lipid metabolism and the cell membrane. By J. N. Hawthorne	19P	Role of indol-3-ylacetic acid in the induction of enzymes during seed germination. By C. R. Krishna Murti	25 P
The molecular organization of lipids in the membrane of <i>Escherichia coli</i> . By S. J. Wakil, M. Esfahani, A. R. Limbrick, S. Knutton & T. Oka	20P	Regulation of phosphoglucomutase. By B. D. Sanwal, H. W. Duckworth & M. L. Hollier	26 P
Envelope of Semliki Forest virus as a membrane model. By O. Renkonen, C. G. Gahmberg, L. Kaariainen & K. Simons	20P	Studies on tissue culture of maize, wheat, rice and sorghum. By R. R. Hendre, A. F. Mascarenhas, M. Pathak, B. Seetarama Rao & V. Jagannathan	27 P
The role of lipids in membrane structure. By F. L. Crane	21P	Role of $\delta$ -aminolaevulinate dehydratase in the regulation of haem synthesis. By G. Padmanaban & K. Malathi	27 P
A soluble mitochondrial adenosine triphosphate synthetase complex and its stimulation by the membrane fraction. By D. R. Sanadi, R. J. Fisher, S. S. Kaplay, J. C. Chen & B. P. Sani	21 P	Regulation of coenzyme nucleotide metabolism in plants. By S. D. Ravindranath & N. Appaji Rao	27 P
The ecological significance of 'unusual' amino acids in plants. By E. A. Bell	22P	Structure and possible regulatory properties of plant aldolases. By B. L. Horecker	28 P
		Generation of reducing potential in photosynthesis. By A. San Pietro	28 P
		Biosynthesis of fatty acids by isolated chloroplasts. By P. K. Stumpf & C. G. Kannagara	29 P
		The sulphoglycolytic pathway in plants. By A. A. Benson & R. F. Lee	29 P

	PAGE		PAGE
Biochemistry of the sex attractants of marine plants. By L. Jaenicke	30 P	Decrease of the bacterial content in different types of oxidation ponds. By N. M. Parhad & N. U. Rao	37 P
Oxidation of catechol in plants. By C. Kandaswami & C. S. Vaidyanathan	30 P	Rise of pH in oxidation ponds. By S. S. Rodgi, V. V. Kanabur, G. B. Dodakundi & H. S. Patil	37 P
Flavoprotein semiquinone. By K. Yagi	31 P	Treatment and utilization of wood-hydrolysate wastes. By G. J. Mohanrao, P. V. R. Subrahmanyam & M. V. Srinivasan	37 P
5-Aminolaevulinatase of <i>Micrococcus denitrificans</i> . By G. H. Tait	32 P	Stabilization of waste water containing phenols with yeast-enriched activated sludge. By B. Venkata Rao & J. V. Bhat	38 P
Enzymic patterns in plant tissue culture. By M. Bopp & Y. P. S. Bajaj	32 P	Treatment of dairy wastes by the activated-sludge process. By C. A. Sastry, G. R. Kini & G. J. Mohanrao	38 P
Hormonal control of cell division and differentiation <i>in vitro</i> . By I. K. Vasil	33 P	Control on environmental pollution arising out of industrial wastes. By T. R. Bhaskaran	38 P
Distribution of photosystems 1 and 2 in the chloroplast lamellar structure. By P. V. Sane	33 P	Influence of D-alanine, glycine and egg albumin on biological oxygen demand. By B. L. C. Rajan	39 P
Carboxyl group methylation of loganic acid by a cell-free enzyme preparation from <i>Vinca rosea</i> . By K. M. Madyastha, R. Guarnaccia & C. J. Coscia	34 P	Effect of ultraviolet irradiation on chlorine residuals in polluted waters. By T. M. A. Ahmed	39 P
Catalase and protease activities in sewage, sludges and effluents. By M. K. C. Sridhar & S. C. Pillai	35 P	Biochemical evaluation of pesticides. By L. Iyengar, M. P. Pandey, C. Venkobachar & A. V. S. Prabhakara Rao	39 P
Long-term adaptation of activated-sludge organisms to accumulated sludge mass. By D. R. Washington, L. J. Hetling & S. S. Rao	35 P	Studies on microbial degradation of herbicides in soil. By K. S. Raju & G. Rangaswami	40 P
Application of continuous-culture theory to biological waste-treatment systems. By R. H. Siddiqui & B. K. Handa	35 P	Seasonal biochemical acclimatization in <i>Channa punctatus</i> . By A. B. Das	40 P
Characterization of sludge from the extended aeration system to the activated-sludge system. By A. G. Thimmappa Setty, G. N. Radhakrishna & R. H. Siddiqui	36 P	Breeding of an Indian carp ( <i>Cirrhana mrigala</i> ) under different environmental temperatures. By A. K. Das	40 P
Microbiology of the viscous scum formed by certain Indian sewages and sewage effluents. By S. V. Ganapati & P. M. Amin	36 P	Studies on the development of catalysts for the removal of carbon monoxide from motor-car exhausts. By C. R. Ramanathan & M. Ravindram	40 P
Sedimentation in trapezoidal grit chambers with new outlet weirs. By N. S. Lakshmana Rao & D. Chandrasekaran	36 P	Aortic lipolytic enzymes in atherosclerosis. By A. N. Howard, J. Patelski, D. E. Bowyer & G. A. Gresham	41 P
The design and operation of sewage and industrial-waste treatment processes. By C. H. Khadilkar	37 P	Hypocholesterolaemic and hypolipidaemic role of 3-hydroxy-3-methylglutarate in rabbits fed on an atherogenic diet. By A. N. Khan, S. Umar, S. Y. Khan & M. Siddiqi	41 P

	PAGE		PAGE
Effects of cycloheximide and actinomycin D on hepatic 3-hydroxy-3-methylglutaryl-coenzyme A hydrolase activity. By M. Saleemuddin, M. Saddiqi, S. Begum & Moinuddin	42 P	Studies on the dissociation of tissue factor (tissue thromboplastin) on treatment with butan-1-ol. By A. V. Muthe, C. S. Desai, & N. R. Kale	47 P
Unusual features of sterol excretion and distribution in the white carneau pigeon. By M. T. R. Subbiah, B. A. Kottke & W. J. Martin	42 P	Protein synthesis in <i>Mycobacterium tuberculosis</i> H <sub>37</sub> R <sub>v</sub> and the effect of streptomycin. By M. S. Shaila, K. P. Gopinathan & T. Ramakrishnan	47 P
Studies on the incorporation of [U- <sup>14</sup> C]glucose into intestinal lipids in vitamin A-deficient rats. By P. V. Bhat & P. B. Rama Rao	42 P	Protein biosynthesis in magnesium-deficient rats. By S. Amarlal & C. R. Krishna Murti	47 P
Studies on the intestinal lipids in normal and vitamin A-deficient rats. By B. C. Ponnappa, P. V. Bhat & P. B. Rama Rao	43 P	Synthesis of the late proteins of bacteriophage T <sub>4</sub> amber mutant. By S. G. Devare & J. D. Padayatty	48 P
Mechanism of malonyl-coenzyme A-acyl-carrier protein transacylase. By V. C. Joshi	43 P	Biosynthesis of polymyxin, a peptide antibiotic. By K. Jayaraman	48 P
Incorporation of fatty acids into monogalactosyl diglycerides by spinach leaf cell-free preparations. By S. S. Bajwa & P. S. Sastry	44 P	Amino acid incorporation by mammary gland as effected by milk and liver tissue extract. By A. Singh & N. C. Ganguli	48 P
The fatty acid composition of different classes of lipids in developing human brain. By P. Srinivasa Rao & K. Subba Rao	44 P	Studies on the identification of the cadmium-binding protein in rat testis. By K. Singh & R. Nath	48 P
The gross fatty acid composition of the body from the termite ( <i>Odontotermes assmuthi</i> ) queen. By S. Basalingappa, R. C. Badami & S. M. Kudari	44 P	The denatured state of ovalbumin. By F. Ahmad & A. Salahuddin	49 P
Effects of cabbage phospholipase D on the lipids and enzyme activities of rat liver microsomal fraction. By C. L. Kapoor, R. Prasad & N. K. Garg	45 P	Studies on ovomucoid: hydrogen ion equilibrium in the acid pH range. By A. Waheed & A. Salahuddin	49 P
Do phospholipases cause the breakdown of mitochondrial membrane? By K. Dharmalingam & J. J. Jayaraman	45 P	Structural requirements of inducer for the formation of penicillin acylase in <i>Fusarium</i> sp. 7.5-5. By S. B. Thadhani, P. S. Borkar & S. Ramachandran	49 P
Cobra-venom protein preferentially cytotoxic to certain cell types including Yoshida sarcoma cells and its effects on lipid constituents of cell surface membrane. By B. M. Braganca & T. N. Patel	46 P	Effect of hydrogen peroxide on buffalo milk proteins. By A. Srinivasan	50 P
Metabolism of ergosterol in the larva of the rice moth ( <i>Corcyra cephalonica</i> St.) By M. Jayaram & T. S. Raman	46 P	Comparative study of the thyroid-gland and submaxillary-gland peroxidases. By I. Haldar, U. Mahajani & A. G. Datta	50 P
Studies on lipids in insects (Lepidoptera: Saturniidae) By R. Pant & G. C. Nautiyal	46 P	Effect of $\alpha$ - <i>p</i> -chlorophenoxyisobutyrate on oxidative phosphorylation. By S. R. Panini	50 P
		Acyl phosphatase of <i>Vigna catjang</i> . By V. K. Ranjekar & V. Jagannathan	51 P
		Studies on phosphatases of the mosquito <i>Culex pipiens fatigans</i> . By M. B. Lakshmi & D. Subrahmanyam	51 P

	PAGE		PAGE
Purification and properties of arylsulphatase A from chicken brain. By A. A. Farooqui & B. K. Bachhawat	51 P	Mechanisms of regulation of the immune response. By R. Krishnaraj & G. P. Talwar	57 P
Ribonuclease in Yoshida ascites sarcoma. By Q. Bhandarkar, G. Ramananda Rao & M. Sirsi	52 P	Studies on some aspects of ascorbate metabolism in adrenalectomized rats. By M. G. Nathani, I. Bhai, N. Nath, H. F. Daginawala & M. C. Nath	57 P
Bull semen phosphodiesterase. By A. Kher & S. R. Anand	52 P	Hepatic enzymes and vitamin deficiency. By M. S. Bamji & D. Sharda	58 P
Homoserine dehydrogenase of <i>Serratia marcescens</i> . By M. S. Shailaja & M. R. Raghavendra Rao	53 P	Studies on the biochemical parameters of the ontogenesis of electrical activity in developing chick-embryo brain. By Z. Iqbal, N. F. Jaffery & G. P. Talwar	58 P
Studies on mammalian hetero- $\beta$ -galactosidases. By B. Seetharam & A. N. Radhakrishnan	53 P	Photolysis of citrulline in the presence of hydrogen peroxide. By A. S. Ansari & R. Ali	58 P
Distribution of sodium-plus-potassium ion-stimulated adenosine triphosphatase along the length of rat small intestine and its subcellular localization. By M. S. Gnanaprakasam & L. M. Srivastava	53 P	The pattern of response of rat hepatic lobes to Atromid-S (ethyl $\alpha$ - <i>p</i> -chlorophenoxyisobutyrate) administration. By T. P. Krishna Kantha	59 P
Purification and properties of phenylalanine ammonia-lyase from plant tissue cultures. By M. Dhandapani, A. Antony & P. V. Subba Rao	54 P	Observations on the mode of action of the polyene antibiotic A-435. By A. L. Chandra & B. Jarvis	59 P
Localization of isocitrate lyase in germinating seeds of cotton ( <i>Gossypium herbaceum</i> L.) By G. Prathapasenan & G. Ramananda Rao	54 P	Effect of hormones on renal gluconeogenesis. By P. K. Joseph & K. Subrahmanyam	60 P
Metabolic changes during germination of cotton and sorghum and the role of gibberellic acid. By D. Kamalavalli, G. Prathapasenan, G. Ramananda Rao & C. H. Pathak	55 P	Effect of L-glutamate on glucose metabolism in rat cerebral cortex. By P. Visweswaran & K. Subrahmanyam	60 P
3-Amino-1,2,4-triazole, a herbicide affecting chloroplast development. By M. Vivekanandhan & A. Gnanam	55 P	Ligand-induced conformational changes in amylose, studied by spectrophotometric and enzymic methods. By S. V. Bhide & N. R. Kale	60 P
Studies on the ureide metabolism of germinating oilseeds and legumes. By B. Paul, V. Kumar & R. Singh	55 P	Isolation and characterization of high-molecular-weight amylose by dispersion of starch granules with urea. By N. B. Patil & N. R. Kale	61 P
Tannins in black-plum ( <i>Syzygium cumini</i> L.) seeds. By I. S. Bhatia & K. L. Bajaj	56 P	Factors affecting aflatoxin production on a synthetic medium. By T. V. Reddy, L. Viswanathan & T. A. Venkitasubramanian	61 P
A comparative study of soluble sugars and nitrogenous constituents of the seeds of members of the Cucurbitaceae family By Moinuddin, M. Siddiqi & M. Alam	56 P	Effect of ionic media on the intestinal transport of amino acids in rats <i>in vitro</i> . By A. Mahmood & D. P. Sharma	61 P
Effect of pesticides applied to the soil on the biological activity of the soil. By T. K. S. Gowda & R. B. Patil	56 P	Preparation of <i>Entamoeba histolytica</i> antigen for column-chromatographic studies. By M. Alam & S. Ahmed	62 P
Influence of growth hormone on thymus metabolism <i>in vivo</i> and <i>in vitro</i> . By M. R. Pandian & G. P. Talwar	57 P		

	PAGE		PAGE
Metabolis of (-)-citramalate. By F. S. Maskati, M. R. Raghavendra Rao, S. S. Subramanian & V. Jagannathan	62 P	Studies on transfer ribonucleic acid in develop- ing chick embryo. By R. Maya Sundari, J. D. Cherayil & T. M. Jacob	65 P
Malate metabolism in mycobacteria. By R. Seshadri, P. Suryanarayana Murthy & T. A. Venkitasubramanian	62 P	Fractionation of chick-embryo transfer ribo- nucleic acid. By M. P. J. S. Anandaraj & J. D. Cherayil	66 P
Isolation of a particulate (membrane) fraction from <i>Mycobacterium smegmatis</i> showing phos- phorylation coupled to malate oxidation. By T. L. Prasada. Reddy, P. Suryanarayana Murthy & T. A. Venkitasubramanian	63 P	An inhibitor of ribonucleic acid polymerase from <i>Neurospora crassa</i> . By P. R. Mahadevan & A. S. Bhagwat	66 P
Enzymic interaction between isoniazid and nicotinamide-adenine dinucleotide. By B. G. Devi, T. Ramakrishnan & K. P. Gopinathan	63 P	Thymine starvation and deoxyribonucleic acid synthesis in <i>Escherichia coli</i> . By A. K. Pilgaokar, D. S. Pradhan & A. Sreenivasan	66 P
Enzymic conversion of <i>p</i> -coumarate into caffeate by <i>Streptomyces nigrifaciens</i> . By A. M. D. Nambudiri, J. V. Bhat & P. V. Subba Rao	63 P	Induction of phosvitin synthesis in chicken liver by oestrogens: evidence for gene duplication. By B. Jaikhani & G. P. Talwar	66 P
Microbial transformation of $\alpha$ -picoline, 2- ethylpyridine and $\alpha$ -picolinate. By O. P. Shukla	64 P	Changes in the ribosomal acid content during development of the chick embryo. By U. V. Rao & J. D. Cherayil	67 P
The metabolic factors limiting the growth of <i>Saccharomyces cerevisiae</i> subjected to $\gamma$ - irradiation. By S. S. Godbole & G. B. Nadkarni	64 P	Thionucleotides in the transfer ribonucleic acids of <i>Pseudomonas aeruginosa</i> and <i>Escher- ichiacoli</i> . By Y. S. Prasada Rao, B. Thimmappayya & J. D. Cherayil	67 P
Bacterial metabolism of aromatic compounds. By M. Alam, S. Begum & M. Siddiqi	64 P	Pyrimidine clusters in the deoxyribonucleic acid of <i>Azotobacter vinelandii</i> . By S. A. Khan, S. S. Krandikar & T. M. Jacob	67 P
The effect of thiourea on ureide metabolism in <i>Neurospora crassa</i> . By J. Nirmla & K. Sivarama Sastry	65 P	Ribonucleoprotein nature of an organ-specific protein from monkey and goat brain. By N. C. Sharma & G. P. Talwar	68 P
Regulation of serine ribonucleic acid during oestrogen-induced synthesis of phosvitin in rooster liver. By A. Grover, G. Sundharadas & G. P. Talwar	65 P	Metabolism of myelin lipids in the developing brain. By A. N. Davison	68 P
