Biosynthesis and Degradation			
The metabolism of acetamidothiazoles in the rat. 2-Acetamido-, 2-acetamido-4-methyl- and 2-acetamido-4-phenyl-thiazole. By D. H. Chatfield & W. H. Hunter	869	The specific radioactivity of the precursor pool for estimates of the rate of protein synthesis (<i>Short Communication</i>). By E. B. Fern & P. J. Garlick	1127
The metabolism of acetamidothiazoles in the rat. 2-Acetamido-4-chloromethylthiazole. By D. H. Chatfield & W. H. Hunter	879	Bioenergetics	
Effect of light on enzymes of phenylpropanoid metabolism and hispidin biosynthesis in <i>Polyporus hispidus</i> . By A. M. D. Nambudiri, C. P. Vance & G. H. N. Towers	891	Control of magnesium-protoporphyrin chelatase activity in <i>Rhodospseudomonas spheroides</i> . Role of light, oxygen, and electron and energy transfer. By A. Gorchein	833
Microbial metabolism of amino alcohols. Metabolism of ethanolamine and 1-amino-propan-2-ol in species of <i>Erwinia</i> and the roles of amino alcohol kinase and amino alcohol O-phosphate phospho-lyase in aldehyde formation. By A. Jones, A. Faulkner & J. M. Turner	959	Biogenesis of mitochondria. The effects of physiological and genetic manipulation of <i>Saccharomyces cerevisiae</i> on the mitochondrial transport systems for tricarboxylate-cycle anions. By M. Perkins, J. M. Haslam & A. W. Linnane	923
The presence of N-terminal methionine on nascent protein of rat liver and rabbit reticulocytes and its cleavage during polypeptide-chain elongation. By A. Koffer-Gutmann & H. R. V. Arnstein	969	Biogenesis of mitochondria. A requirement for mitochondrial protein synthesis for the formation of a normal adenine nucleotide transporter in yeast mitochondria. By J. M. Haslam, M. Perkins & A. W. Linnane	935
The degradation of intravenously injected chondroitin 4-sulphate in the rat. By K. M. Wood, F. S. Wusteman & C. G. Curtis	1009	Biogenesis of mitochondria. The effects of altered membrane lipid composition on cation transport by mitochondria of <i>Saccharomyces cerevisiae</i> . By J. M. Haslam, T. W. Spithill, A. W. Linnane & J. B. Chappell	949
Metabolism of biphenyl. 2-Hydroxy-6-oxo-6-phenylhexa-2,4-dienoate: the <i>meta</i> -cleavage product from 2,3-dihydroxybiphenyl by <i>Pseudomonas putida</i> . By D. Catelani, A. Colombi, C. Sorlini & V. Treccani	1063	Reconstitution of oxidative phosphorylation and the adenosine triphosphate-dependent transhydrogenase activity by a combination of membrane fractions from <i>uncA</i> ⁻ and <i>uncB</i> ⁻ mutant strains of <i>Escherichia coli</i> K12. By G. B. Cox, F. Gibson & L. McCann	1015
Biosynthesis of serum albumin in rat liver. Evidence for the existence of 'proalbumin'. By J. D. Judah, M. Gamble & J. H. Steadman	1083	The absorption of protons with specific amino acids and carbohydrates by yeast. By A. Seaston, C. Inkson & A. A. Eddy	1031
Carotenoid biosynthesis in a <i>Flavobacterium</i> sp.: stereochemistry of hydrogen elimination in the desaturation of phytoene to lycopene, rubixanthin and zeaxanthin (<i>Short Communication</i>). By J. C. B. McDermott, G. Britton & T. W. Goodwin	1115	Respiration-driven proton translocation by yeast mitochondria with differing efficiencies of oxidative phosphorylation. By J. A. Downie & P. B. Garland	1045
		An antimycin A- and cyanide-resistant variant of <i>Candida utilis</i> arising during copper-limited growth. By J. A. Downie & P. B. Garland	1051

	PAGE		PAGE
Subcellular Structures			
Quantitative characteristics of glutamate transport in rat liver mitochondria. By N. M. Bradford & J. D. McGivan	1023	Effects of dichloroacetate on the metabolism of glucose, pyruvate, acetate, 3-hydroxybutyrate and palmitate in rat diaphragm and heart muscle <i>in vitro</i> and on extraction of glucose, lactate, pyruvate and free fatty acids by dog heart <i>in vivo</i> . By A. McAllister, S. P. Allison & P. J. Randle	1067
Cellular Interactions and Control Processes			
A model for the regulation of δ -aminolaevulinic synthetase induction in rat liver. By G. Padmanaban, M. R. Satyanarayana Rao & K. Malathi	847	Biosynthesis of growth hormone in the rat anterior pituitary gland. Stimulation of biosynthesis <i>in vitro</i> by insulin. By A. Betteridge & M. Wallis	1103
Biochemical effects of the porphyrinogenic drug allylisopropylacetamide. A comparative study with phenobarbital. By M. R. Satyanarayana Rao & G. Padmanaban	859	Changes in enzyme activities in tissues of rats exposed to hypoxia (<i>Short Communication</i>). By A. Cryer & W. Bartley	1119
Effect of insulin on pyruvate metabolism in epididymal adipose tissue of the rat. Correlation of intracellular pyruvate contents and pyruvate dehydrogenase activity. By B. G. Berman & M. L. Halperin	885	Cell-surface mucosubstances from trypsin disaggregation of normal and virus-transformed lines of baby-hamster kidney cells (<i>Short Communication</i>). By S. M. Minnikin & A. Allen	1123
Glucose metabolism in the newborn rat. Hormonal effects <i>in vivo</i> . By K. Snell & D. G. Walker	899	Development	
Histone acetylation and hormone action. Early effects of aldosterone on histone acetylation in rat kidney. By P. R. Libby	907	Altered heat-lability of a fraction of glutathione reductase in aging human lens. By J. J. Harding	995
Binding of parathyroid hormone to bovine kidney-cortex plasma membranes. By H. S. Sutcliffe, T. J. Martin, J. A. Eisman & R. Pilczyk	913	Metabolism in Whole Organisms	
Hormonal regulation of glycogen metabolism in neonatal rat liver. By A. L. Schwartz & T. W. Rall	985	The acute action of ammonia on rat brain metabolism <i>in vivo</i> . By R. A. Hawkins, A. L. Miller, R. C. Nielsen & R. L. Veech	1001
		Biosynthesis of mercapturic acids from allyl alcohol, allyl esters and acrolein. By C. M. Kaye	1093
		Index	1131

Biosynthesis and Degradation		Studies with a reconstituted muscle glycolytic system. The rate and extent of creatine phosphorylation by anaerobic glycolysis.	
Biosynthesis of ergotamine by <i>Claviceps purpurea</i> (Fr.) Tul.		By R. K. Scopes	197
By R. A. Bassett, E. B. Chain & K. Corbett	1		
Effects of infection with <i>Diplococcus pneumoniae</i> on synthesis of ribonucleic acids in rat liver.		Subcellular Structures	
By W. L. Thompson & R. W. Wannemacher, Jr.	79	Studies on the enzymology of purified preparations of brush border from rabbit kidney.	
Studies on the biosynthesis of cytochrome c.		By S. G. George & A. J. Kenny	43
By E. M. Colleran & O. T. G. Jones	89	A comparison of D-inositol 1:2-cyclic phosphate 2-phosphohydrolase with other phosphodiesterases of kidney.	
A study of some enzymes of glycerolipid biosynthesis in rat liver after subtotal hepatectomy.		By R. M. C. Dawson & N. G. Clarke	59
By E. H. Mangiapane, K. A. Lloyd-Davies & D. N. Brindley	103	Heterogeneous distribution of glucose 6-phosphatase in rat liver microsomal fractions as shown by adaptation of a cytochemical technique.	
Microbial metabolism of amino alcohols. 1-Aminopropan-2-ol and ethanolamine metabolism via propionaldehyde and acetaldehyde in a species of <i>Pseudomonas</i> .		By J. A. Lewis & J. R. Tata	69
By A. Jones & J. M. Turner	167	Effect of L-leucine on the nitrogen metabolism of isolated rat liver mitochondria.	
The regulation of poly- β -hydroxybutyrate metabolism in <i>Azotobacter beijerinckii</i> .		By J. D. McGivan, N. M. Bradford, M. Crompton & J. B. Chappell	209
By P. J. Senior & E. A. Dawes	225	Fluorocitrate inhibition of aconitate hydratase and the tricarboxylate carrier of rat liver mitochondria.	
β -Ketothiolase from <i>Hydrogenomonas eutropha</i> H16 and its significance in the regulation of poly- β -hydroxybutyrate metabolism.		By M. D. Brand, S. M. Evans, J. Mendes-Mourão & J. B. Chappell	217
By V. Oeding & H. G. Schlegel	239	Cellular Interactions and Control Processes	
Ribonucleic acid synthesis in chloroplasts.		The uptake of γ -aminobutyrate by organotypic cultures of chick spinal cord.	
By M. R. Hartley & R. J. Ellis	249	By G. Tunnicliff, Y. D. Cho, N. Blackwell, R. O. Martin & J. D. Wood	27
An investigation into the role of malonyl-coenzyme A in isoprenoid biosynthesis.		Selective release of lysosomal hydrolases from phagocytic cells by cytochalasin B.	
By M. J. P. Higgins & R. G. O. Kekwick	295	By P. Davies, A. C. Allison & A. D. Haswell	33
Fatty acid synthesis in the brown fat and liver of foetal and newborn rabbits (<i>Short Communication</i>).		Activities of hexokinase, phosphofructokinase, 3-oxo acid coenzyme A-transferase and acetoacetyl-coenzyme A thiolase in nervous tissue from vertebrates and invertebrates.	
By J. Iliffe, B. L. Knight & N. B. Myant	341	By P. H. Sugden & E. A. Newsholme	97
The detection of the messenger ribonucleic acid for the α -lactalbumin of guinea-pig milk (<i>Short Communication</i>).		The use of deoxyribonucleic acid-cellulose chromatography and isoelectric focusing for the characterization and partial purification of steroid-receptor complexes.	
By P. N. Campbell, D. McIlreavy & D. Tarin	345	By W. I. P. Mainwaring & R. Irving	113
Bioenergetics			
Amino acid absorption by mouse ascites-tumour cells depleted of both endogenous amino acids and adenosine triphosphate.			
By M. Morville, M. Reid & A. A. Eddy	11		

	PAGE		PAGE
A reappraisal of the effects of adenosine 3':5'-cyclic monophosphate on the function and morphology of the rat prostate gland. By F. R. Mangan, A. E. Pegg & W. I. P. Mainwaring	129	Control of the production of exo- β -N-acetylglucosaminidase by <i>Bacillus subtilis</i> B. De-repression during gluconeogenesis and initial stages of sporulation. By S. J. Brewer & R. C. W. Berkeley	271
Induction and suppression of the key enzymes of glycolysis and gluconeogenesis in isolated perfused rat liver in response to glucose, fructose and lactate. By J. M. Wimhurst & K. L. Manchester	143	The nature of the acid-volatile selenium in the liver of the male rat. By A. T. Diplock, C. P. J. Caygill, E. H. Jeffery & C. Thomas	283
Regulation of renal gluconeogenesis by calcium ions, hormones and adenosine 3':5'-cyclic monophosphate. By A. Roobol & G. A. O. Alleyne	157	Adenosine 3':5'-cyclic monophosphate concentrations and phosphodiesterase activities during axenic growth and differentiation of cells of the cellular slime mould <i>Dictyostelium discoideum</i> . By A. M. Malkinson & J. M. Ashworth	311
Problems associated with the assay of arylsulphatases A and B of rat tissues. By M. Worwood, K. S. Dodgson, G. E. R. Hook & F. A. Rose	183	The mode of action of adenosine 3':5'-cyclic monophosphate in mammalian islets of Langerhans. Effects of insulin secretagogues on islet-cell protein kinase activity. By W. Montague & S. L. Howell	321
Relative distribution of arylsulphatases A and B in rat liver parenchymal and other cells. By G. E. R. Hook, K. S. Dodgson, F. A. Rose & M. Worwood	191	Comparative studies on the carbohydrate-containing membrane components of normal and adenosine 3':5'-cyclic monophosphate-treated Chinese-hamster ovary cells. By M. M. Baig & R. M. Roberts	329
Lethal effect of rifampicin in <i>Bacillus subtilis</i> as a complicating factor in the assessment of the lifetime of messenger ribonucleic acid. By J. G. Coote, D. A. Wood & J. Mandelstam	263	Development Increased liver L-serine-pyruvate aminotransferase activity under gluconeogenic conditions (<i>Short Communication</i>). By E. V. Rowsell, A. H. Al-Tai, J. A. Carnie & K. V. Rowsell	349

Bioenergetics		Metabolism of free and esterified cholesterol by Leydig-cell tumour mitochondria.	
Xylitol metabolism in the isolated perfused rat liver.		By W. R. Moyle, R. L. Jungas & R. O. Greep	415
By H. F. Woods & H. A. Krebs	437	Effect of leucine on enzymes of the tryptophan-niacin metabolic pathway in rat liver and kidney.	
Metabolic alterations produced in the liver by chronic ethanol administration. Increased oxidative capacity.		By Ghafoorunissa & B. S. Natasinga Rao	425
By L. Videla, J. Bernstein & Y. Israel	507	Synthesis and degradation of phosphoenolpyruvate carboxylase in rat liver and adipose tissue. Changes during a starvation-re-feeding cycle.	
Metabolic alterations produced in the liver by chronic ethanol administration. Changes related to energetic parameters of the cell.		By M. F. Hopgood, F. J. Ballard, L. Reshef & R. W. Hanson	445
By J. Bernstein, L. Videla & Y. Israel	515	Regulation of insulin release from isolated islets of Langerhans of the rat in pregnancy. The role of adenosine 3':5'-cyclic monophosphate.	
Metabolic alterations produced in the liver by chronic ethanol administration. Comparison between the effects produced by ethanol and by thyroid hormones.		By I. C. Green, S. L. Howell, W. Montague & K. W. Taylor	481
By Y. Israel, L. Videla, A. Macdonald & J. Bernstein	523	Relationship between plasma and muscle concentrations of ketone bodies and free fatty acids in fed, starved and alloxan-diabetic states.	
Site of inhibition by 2-amino-1,1,3-tricyanopropene of photosynthetic oxygen evolution by spinach leaf chloroplasts (<i>Short Communication</i>).		By O. E. Owen, H. Markus, S. Sarshik & M. Mozzoli	499
By E. M. Burden & A. A. Horton	663	Effect of phenylpyruvate on pyruvate dehydrogenase activity in rat brain mitochondria.	
Subcellular Structures		By J. M. Land & J. B. Clark	539
The distribution of ribosomes between different functional states in livers of fed and starved mice.		Effect of phenylpyruvate on enzymes involved in fatty acid synthesis in rat brain.	
By M. Norman, S. Gamulin & K. Clark	387	By J. M. Land & J. B. Clark	545
Isolation and properties of cholesterol ester-storage granules from ovarian tissues.		Effects of azaserine and nicotinamide on insulin release and nicotinamide-adenine dinucleotide metabolism in isolated rat islets of Langerhans.	
By D. T. Armstrong & A. P. F. Flint	399	By D. J. Deery & K. W. Taylor	557
Amino acid production in isolated rat liver mitochondria.		A model study of the fructose diphosphatase-phosphofructokinase substrate cycle.	
By W. Ferdinand, W. Bartley & V. Broomhead	431	By D. P. Bloxham, M. G. Clark, P. C. Holland & H. A. Lardy	581
The localization of enzymes of intermediary metabolism in <i>Astasia</i> and <i>Euglena</i> .		Appendix: The theoretical estimation of substrate cycling <i>in vivo</i>.	
By N. Bégin-Heick	607	By D. P. Bloxham, M. G. Clark, D. M. Goldberg, P. C. Holland & H. A. Lardy	586
Cellular Interactions and Control Processes		Estimation of the fructose diphosphatase-phosphofructokinase substrate cycle in the flight muscle of <i>Bombus affinis</i>.	
The effect of ethanol on drug oxidations <i>in vitro</i> and the significance of ethanol-cytochrome P-450 interaction.		By M. G. Clark, D. P. Bloxham, P. C. Holland & H. A. Lardy	589
By D. L. Cinti, R. Grundin & S. Orrenius	367	Concentration of adenosine 3':5'-cyclic monophosphate in mouse pancreatic islets measured by a protein-binding radioassay.	
Influence of luteinizing hormone and adenosine 3':5'-cyclic monophosphate on the metabolism of free and esterified cholesterol in mouse Leydig-cell tumours.		By R. H. Cooper, S. J. H. Ashcroft & P. J. Randle	599
By W. R. Moyle, R. L. Jungas & R. O. Greep	407
