	PAGE		PAGE
Biosynthesis and Degradation		A novel assay for the biosynthesis of sulphated polysaccharide and its application to studies on the effects of somatomedin on cultured cells.	
Chloroplast ribosomal ribonucleic acid synthesis in cultured spinach leaf tissue. By P. Detchon & J. V. Possingham	829	By Å. Wasteson, K. Uthne & B. Westermarck	1069
Biosynthesis of respiratory-tract mucins. Incorporation of radioactive precursors into glycoproteins by canine tracheal explants <i>in vitro</i> By D. B. Ellis & G. H. Stahl	837	Biosynthesis of carnitine and 4- <i>N</i> -trimethyl-aminobutyrate from lysine. By R. A. Cox & C. L. Hoppel	1075
Biosynthesis of respiratory-tract mucins. A comparison of canine epithelial goblet-cell and submucosal-gland secretions. By G. H. Stahl & D. B. Ellis	845	Biosynthesis of carnitine and 4- <i>N</i> -trimethyl-aminobutyrate from 6- <i>N</i> -trimethyl-lysine. By R. A. Cox & C. L. Hoppel	1083
Association of nascent polypeptide with 30S ribosomal subunits. By M. Cannon, M. A. A. Mirza & M. L. M. Anderson	859	Role of mixed-function amine oxidase in <i>N</i> -hydroxylation of 2-acetamidofluorene by hamster liver microsomal preparations (<i>Short Communication</i>). By P. D. Lotlikar, K. Wertman & L. Luha	1137
Association of nascent polypeptide and transfer ribonucleic acid with 30S ribosomal subunits. By M. A. A. Mirza, M. Cannon & M. L. M. Anderson	865	Bioenergetics	
The control of synthesis of bacterial cell walls. Interaction in the synthesis of nucleotide precursors. By R. G. Anderson, L. J. Douglas, H. Hussey & J. Baddiley	871	Studies on selenium incorporation into, and electron-transfer function of, liver microsomal fractions from normal and vitamin E-deficient rats given phenobarbitone. By C. P. J. Caygill, A. T. Diplock & E. H. Jeffery	851
The diurnal response of muscle and liver protein synthesis <i>in vivo</i> in meal-fed rats. By P. J. Garlick, D. J. Millward & W. P. T. James	935	The reconstitution of oxidase activity in membranes derived from a 5-aminolaevulinic acid-requiring mutant of <i>Escherichia coli</i> . By B. A. Haddock	877
Alterations in glycosaminoglycan metabolism in β -aminopropionitrile-treated chick embryos. By M. J. Elders, J. D. Smith, W. G. Smith & E. R. Hughes	985	Chloride-dependent uncoupling mediated by oligomycin in rat liver mitochondria. By N. Ariel & Y. Avi-Dor	911
Comparison of the turnover patterns of total and individual muscle proteins in normal mice and those with hereditary muscular dystrophy. By S. E. Kitchin & D. C. Watts	1017	The effects of iron-limited growth on the reduced nicotinamide-adenine dinucleotide dehydrogenase activity and the membrane proteins of <i>Candida utilis</i> mitochondria. By R. A. Clegg & J. E. Skyrme	1029
The metabolism of nitrilotriacetate by a pseudomonad. By R. E. Cripps & A. S. Noble	1059	The occurrence of a stepwise-decreasing respiration rate during oxidative assimilation of different substrates by resting <i>Klebsiella aerogenes</i> in a system open to oxygen (<i>Short Communication</i>). By H. Degn, M. Lilleør & J. J. L. Iversen	1097
		Subcellular Structures	
		Electrokinetic properties of isolated cerebral-cortex synaptic vesicles. By J. McLaughlin, K. R. Case & H. B. Bosmann	919

	PAGE		PAGE
Criteria for identifying a myelin-like fraction from developing brain (<i>Short Communication</i>). By H. C. Agrawal, J. L. Trotter, R. F. Mitchell & R. M. Burton	1117	Stimulation of ornithine decarboxylase activity and inhibition of <i>S</i> -adenosyl-L-methionine decarboxylase activity in leukaemic mice by methylglyoxal bis(guanyldrazone) (<i>Short Communication</i>). By O. Heby, S. Sauter & D. H. Russell	1121
Calcium transport and phospholipid composition of microsomal fractions from denervated rat gastrocnemius (<i>Short Communication</i>). By B. P. Hughes & R. Yasin	1129	Sexual differences in galactose metabolism: galactosyl ceramide galactosidase and other galactosidases in mouse kidney (<i>Short Communication</i>). By Y.-N. Lin & N. S. Radin	1125
Cellular Interactions and Control Processes		The effect of ethylene on [1- ¹⁴ C]glycerol incorporation into phospholipids of etiolated pea stems (<i>Short Communication</i>). By R. F. Irvine & D. J. Osborne	1133
The effects of chemical porphyrins and drugs on the activity of rat liver tryptophan pyrrolase. By A. A.-B. Badawy & M. Evans	885	Development	
Output of [¹⁴ C]adenine nucleotides and their derivatives from cerebral tissues. Tetrodotoxine-resistant and calcium ion-requiring components. By I. Pull & H. McIlwain	893	Studies on cystathionase activity in rat liver and brain during development. Effects of hormones and amino acids <i>in vivo</i> . By K. Heinonen	1011
Isoenzyme patterns in parenchymal and non-parenchymal cells isolated from regenerating and regenerated rat liver. By R. J. Bonney, P. R. Walker & V. R. Potter	947	Metabolism in Whole Organisms	
The role of protein kinase activation in the control of steroidogenesis by adrenocorticotrophic hormone in the adrenal cortex. By M. C. Richardson & D. Schulster	993	Identification of flavanone metabolites in rat urine by combined gas-liquid chromatography and mass spectrometry. By N. P. Das, K. N. Scott & J. H. Duncan	903
Effects of membrane depolarization on nicotinamide nucleotide fluorescence in brain slices. By P. Lipton	999	The metabolism of benzene by bacteria. Purification and some properties of the enzyme <i>cis</i> -1,2-dihydroxycyclohexa-3,5-diene (nicotinamide-adenine dinucleotide) oxidoreductase (<i>cis</i> -benzene glycol dehydrogenase). By B. C. Axcell & P. J. Geary	927
Intra-axonal transport and turnover of neurophysins in the rat. A proposal for a possible origin of the minor neurophysin component. By G. D. Burford & B. T. Pickering	1047	Thymidine kinase and deoxyribonucleic acid metabolism in growing and regenerating livers from rats on controlled feeding schedules. By H. A. Hopkins, H. A. Campbell, B. Barbiroli & V. R. Potter	955
A model for the passage of the neurohypophysial hormones and their related proteins through the rat neurohypophysis. By G. D. Burford, P. Clifford, C. W. Jones & B. T. Pickering	1053	Molecular weight as a factor in the excretion of monoquaternary ammonium cations in the bile of the rat, rabbit and guinea pig. By R. D. Hughes, P. Millburn & R. T. Williams	967
Induction of δ -aminolaevulinic synthetase under environmental-stress conditions. By E. Amruthavalli & T. Ramasarma	1091	Biliary excretion of some diquaternary ammonium cations in the rat, guinea pig and rabbit. By R. D. Hughes, P. Millburn & R. T. Williams	979
Progesterone and the metabolic control of the lactose biosynthetic pathway during lactogenesis in the rat. By G. Murphy, A. D. Ariyanayagam & N. J. Kuhn	1105	The metabolism of four sulphonamides in cows. By P. Nielsen	1039
		Index	1141

Contents of Volume 136, No. 1

Biosynthesis and Degradation			
Biosynthetic pathway of desmosines in elastin. By G. Francis, R. John & J. Thomas	45	Purification of ¹⁴ C-labelled deoxyribonuclease II from HeLa S3 lysosomes and its use as a marker for the study of nuclear deoxyribonuclease II. By H. Slor	83
The metabolism of amino acids in the bovine lens. Their oxidation as a source of energy. By P. Trayhurn & R. van Heyningen	67	Cellular Interactions and Control Processes	
Cholesterol feeding alters the metabolism of thoracic-duct lymph lipoprotein cholesterol in rabbits but not in rats. By T. G. Redgrave	109	Effect of the exotoxin of <i>Bacillus thuringiensis</i> on normal and ecdysone-stimulated ribonucleic acid polymerase activity in intact nuclei from the fat-body of <i>Sarcophaga bullata</i> larvae. By T. J. C. Beebee & R. P. M. Bond	1
Studies on bone matrix glycoproteins. Incorporation of [1- ¹⁴ C]glucosamine and plasma [¹⁴ C]glycoprotein into rabbit cortical bone. By J. T. Triffitt & M. Owen	125	Effect of an exotoxin from <i>Bacillus thuringiensis</i> on deoxyribonucleic acid-dependent ribonucleic acid polymerase in nuclei from adult <i>Sarcophaga bullata</i> . Unusual behaviour of eukaryotic polymerases to inhibitors. By T. J. C. Beebee & P. M. Bond	9
The stereochemistry of hydrogen elimination from C-7 during biosynthesis of ecdysones in insects and plants. By I. F. Cook, J. G. Lloyd-Jones, H. H. Rees & T. W. Goodwin	135	Transport of methionine and proline by rat liver slices and the effect of certain hormones. By J. C. Crawhall & P. Purkiss	15
Ribonucleic acid synthesis in porphyric rat liver induced by 3,5-dicarbethoxy-1,4-dihydrocollidine. By H. Nawata & K. Kato	209	Nuclear binding of oestradiol-17 β and induction of protein synthesis in the rat uterus during postnatal development. By D. Sömjen, G. Sömjen, R. J. B. King, A. M. Kaye & H. R. Lindner	25
Bioenergetics		Uptake and release of bilirubin by skin. By C. L. Kapoor, C. R. Krishna Murti & P. C. Bajpai	35
Biochemical effects of the hypoglycaemic compound pent-4-enoic acid and related non-hypoglycaemic fatty acids. Effects of the free acids and their carnitine esters on coenzyme A-dependent oxidations in rat liver mitochondria. By P. C. Holland & H. S. A. Sherratt	157	The uptake and efflux of L-phenylalanine and L-tyrosine from rat brain cerebral-cortex slices. By P. Joanny, J.-P. Natali, H. Hillman & J. Corriol	77
Biochemical effects of the hypoglycaemic compound pent-4-enoic acid and related non-hypoglycaemic fatty acids. Effects of their coenzyme A esters on enzymes of fatty acid oxidation. By P. C. Holland, A. E. Senior & H. S. A. Sherratt	173	Steroid-binding properties and stabilization of cytoplasmic glucocorticoid receptors from rat thymus cells. By P. A. Bell & A. Munck	97
Calcium ion-dependent <i>p</i> -nitrophenyl phosphate phosphatase activity and calcium ion-dependent adenosine triphosphatase activity from human erythrocyte membranes. By A. F. Rega, D. E. Richards & P. J. Garrahan	185	The fusion of erythrocytes by fatty acids, esters, retinol and α -tocopherol. By Q. F. Ahkong, D. Fisher, W. Tampion & J. A. Lucy	147
Respiration-driven proton translocation in <i>Escherichia coli</i> (<i>Short Communication</i>). By H. G. Lawford & B. A. Haddock	217	Effect of vitamin A deprivation on the cholesterol side-chain cleavage enzyme activity of testes and ovaries of rats (<i>Short Communication</i>). By M. Jayaram, S. K. Murthy & J. Ganguly	221
Subcellular Structures		Development	
The effect of Triton WR-1339 on the subcellular distribution of Trypan Blue and ¹²⁵ I-labelled albumin in rat liver. By M. Davies	57	Oscillations of enzyme activities during the cell-cycle of a glucose-repressed fission-yeast <i>Schizosaccharomyces pombe</i> 972h. By R. K. Poole & D. Lloyd	195

	PAGE		PAGE
Metabolism in Whole Organisms			
Cleavage of malyl-coenzyme A into acetyl-coenzyme A and glyoxylate by <i>Pseudomonas</i> AM 1 and other C ₁ -unit-utilizing bacteria. By A. R. Salem, A. J. Hacking & J. R. Quayle	89	Glycolytic isoenzymes and glycogen metabolism in regenerating liver from rats on controlled feeding schedules. By R. J. Bonney, H. A. Hopkins, P. R. Walker & V. R. Potter	115

Contents of Volume 136, No. 2

Biosynthesis and Degradation			
The effect of trimethoprim on macromolecular synthesis in <i>Escherichia coli</i> . General effects on ribonucleic acid and protein synthesis. By R. J. Smith & J. E. M. Midgley	225	Cellular reactions of O ⁶ -methylguanine, a product of some alkylating carcinogens. By C. T. Miller, P. D. Lawley & S. A. Shah	387
The effect of trimethoprim on macromolecular synthesis in <i>Escherichia coli</i> . Ribosome maturation in RC ^{tr} and RC ^{rel} strains. By J. E. M. Midgley & R. J. Smith	235	Biosynthetic studies on aromatic carotenoids. Biosynthesis of chlorobactene. By S. E. Moshier & D. J. Chapman	395
The effect of trimethoprim on macromolecular synthesis in <i>Escherichia coli</i> . Regulation of ribonucleic acid synthesis by 'magic spot' nucleotides. By R. J. Smith & J. E. M. Midgley	249	S-Adenosyl-L-methionine-cycloartenol methyltransferase activity in cell-free systems from <i>Trebouxia</i> sp. and <i>Scenedesmus obliquus</i> . By Z. A. Wojciechowski, L. J. Goad & T. W. Goodwin	405
Identification and measurement of the folates in sheep liver. By W. S. Osborne-White & R. M. Smith	265	Carotenoid biosynthesis in <i>Rhodospseudomonas spheroides</i> . S-Adenosylmethionine as the methylating agent in the biosynthesis of spheroidene and spheroidenone. By R. K. Singh, G. Britton & T. W. Goodwin	413
Folic acid metabolism in vitamin B ₁₂ -deficient sheep. Depletion of liver folates. By R. M. Smith & W. S. Osborne-White	279	The tritium isotope effect of <i>sn</i> -glycerol 3-phosphate oxidase and the effects of clofenapate and <i>N</i> -(2-benzoyloxyethyl)norfenfluramine on the esterification of glycerol phosphate and dihydroxyacetone phosphate by rat liver mitochondria. By M. Bowley, R. Manning & D. N. Brindley	421
The synthesis of pteroylpolyglutamates by sheep liver enzymes <i>in vitro</i> . By J. M. Gawthorne & R. M. Smith	295	Lack of inhibition by L-1-chloro-4-phenyl-3-toluene- <i>p</i> -sulphonamidobutan-2-one (L-1-tosyl-amido-2-phenylethyl chloromethyl ketone) of the formation of bacterial polypeptide chain initiation complex (<i>Short Communication</i>). By J. Jonák & B. F. C. Clark	433
Inhibition of protein synthesis by <i>N</i> -methyl- <i>N</i> -nitrosourea <i>in vivo</i> . By P. Kleihues & P. N. Magee	303	Stability of clearing-factor lipase in rat adipose tissue (<i>Short Communication</i>). By P. Davies & D. S. Robinson	437
Biosynthesis and degradation of saccharopine, an intermediate of lysine metabolism. By F. C. I. Fellows	321		
Lysine metabolism in mammals. By F. C. I. Fellows & M. H. R. Lewis	329	Subcellular Structures	
Mechanism of action of a microsomal inhibitor of protein synthesis potentiated by oxidized glutathione. By H. T. R. Rupniak & R. V. Quincey	335	The effect of magnesium ions on the dimethylaniline oxidation rate and electron transfer in liver microsomal fraction. By A. I. Archakov, I. I. Karuzina, I. S. Kokareva & G. I. Bachmanova	371
The formation of choline <i>O</i> -sulphate by <i>Pseudomonas</i> C ₁₂ B and other <i>Pseudomonas</i> species. By J. W. Fitzgerald	361		

	PAGE		PAGE
Cellular Interactions and Control Processes			
Phosphopyruvate carboxylase induction by L-tryptophan. Effects on synthesis and degradation of the enzyme. By F. J. Ballard & M. F. Hopgood	259	Clearing-factor lipase in muscle and adipose tissue of pigs. By M. Enser	381
Activation of volatile fatty acids in bovine liver and rumen epithelium. Evidence for control by autoregulation. By R. Ash & G. D. Baird	311	The role of multivalent cations in the uptake and oxidation of glucose by <i>Pseudomonas fluorescens</i> (Short Communication). By C. A. Walker & N. N. Durham	429
A possible role of adenylate cyclase in the long-term dietary regulation of insulin secretion from rat islets of Langerhans. By S. L. Howell, I. C. Green & W. Montague	343	The potentiation of growth hormone by asparagine and tryptophan (Short Communication). By J. H. Ottaway	441
		Development	
		Hydrolysis of GM ₁ -ganglioside by human liver β -galactosidase isoenzymes. By M. W. Ho, P. Cheetham & D. Robinson	351

Contents of Volume 136, No. 3

Biosynthesis and Degradation			
Influence of mitochondria on phospholipid synthesis in preparations from rat liver. By J. B. Roberts & F. L. Bygrave	467	Synthesis and degradation of mitochondrial components in hypertrophied rat heart. By R. Albin, R. T. Dowell, R. Zak & M. Rabinowitz	629
Ribosome precursors accumulated by <i>Escherichia coli</i> during incubation with cobalt chloride. By M. R. Blundell & D. G. Wild	565	The degradation of L-histidine in the rat. The formation of imidazolylpyruvate, imidazolyl-lactate and imidazolylpropionate. By A. V. Emes & H. Hassall	649
Thymidine metabolism in regenerating rat liver one to two hours after partial hepatectomy. By M. G. Ord & L. A. Stocken	571	The turnover rate of rabbit urinary Tamm-Horsfall glycoprotein. By A. M. S. Grant & A. Neuberger	659
Biosynthesis of immunoglobulin A (IgA). Secretion and addition of carbohydrate to monomer and polymer forms of a mouse myeloma protein. By E. Della Corte & R. M. E. Parkhouse	589	Inhibition by ricin of protein synthesis <i>in vitro</i> . Ribosomes as the target of the toxin. By L. Montanaro, S. Sperti & F. Stirpe	677
Biosynthesis of immunoglobulin A (IgA) and immunoglobulin M (IgM). Requirement for J chain and a disulphide-exchanging enzyme for polymerization. By E. Della Corte & R. M. E. Parkhouse	597	The activity of deoxyribonucleic acid polymerase and deoxyribonucleic acid synthesis in nuclei from brain fractionated by zonal centrifugation. By M. A. Stambolova, D. Cox & A. P. Mathias	685
Biosynthesis of immunoglobulin A (IgA) and immunoglobulin M (IgM). Control of polymerization by J chain. By R. M. E. Parkhouse & E. Della Corte	607	Metabolic adaptations during lactogenesis. Fatty acid and lactose synthesis in cow mammary tissue. By R. W. Mellenberger, D. E. Bauman & D. R. Nelson	741
Effects of clofibrate on the metabolism of progesterone and oestradiol in rat liver microsomal fraction. By K. Einarsson, J.-Å. Gustafsson & K. Hellström	623	Dietary protein intake and skeletal-muscle protein metabolism in rats. Studies with the ammonium chloride-wash fraction from crude polyribosomes of well-nourished and protein-depleted rats. By S. D. Alexis & V. R. Young	773

	PAGE		PAGE
Synthesis of mitochondrial protein in the flight muscles of the Colorado beetle. Differentiation <i>in vivo</i> between extra- and intra-mitochondrial contributions to the amino acid incorporation into mitochondrial protein. By A. K. M. Bartelink & C. A. D. de Kort	795	Stimulation of ribonucleic acid polymerase activity <i>in vitro</i> by prostatic steroid-protein receptor complexes. By P. Davies & K. Griffiths	611
Inhibition by ricin of protein synthesis <i>in vitro</i> : 60S ribosomal subunit as the target of the toxin (<i>Short Communication</i>). By S. Sperti, L. Montanaro, A. Mattioli & F. Stirpe	813	Ethanol administration and the relationship of malonyl-coenzyme A concentrations to the rate of fatty acid synthesis in rat liver. By R. W. Guynn, D. Veloso, R. L. Harris, J. W. R. Lawson & R. L. Veech	639
Preferential synthesis of a membrane-associated protein by free polyribosomes (<i>Short Communication</i>). By D. Lowe & T. Hallinan	825	Effect of methylglyoxal bis(guanylhydrazone) on polyamine metabolism in normal and regenerating rat liver and rat thymus. By E. Hölttä, P. Hannonen, J. Pispä & J. Jänne	669
Bioenergetics		Stimulation by vasopressin of glycogen breakdown and gluconeogenesis in the perfused rat liver. By D. A. Hems & P. D. Whitton	705
Proton translocation coupled to quinol oxidation in ox heart mitochondria. By H. G. Lawford & P. B. Garland	711	Identity of 'acid' β -glucosidase and glucocerebrosidase in human spleen. By M. W. Ho	721
The photochemical activities and electron carriers of developing barley leaves. By M. Plesničar & D. S. Bendall	803	Glucocerebrosidase: reconstitution from macromolecular components depends on acidic phospholipids (<i>Short Communication</i>). By M. W. Ho & N. D. Light	821
Subcellular Structures		Development	
Phosphatidylinositol kinase. A component of the chromaffin-granule membrane. By J. H. Phillips	579	Quantitative studies on ferredoxin in greening bean leaves. By B. G. Haslett, R. Cammack & F. R. Whatley	697
Rapid transport of phosphatidylcholine occurring simultaneously with protein transport in the frog sciatic nerve. By T. Abe, T. Haga & M. Kurokawa	731	Vitamin A economy of the developing chick embryo and of the freshly hatched chick. By P. S. Joshi, S. N. Mathur, S. K. Murthy & J. Ganguly	757
Cellular Interactions and Control Processes		Age-dependent arylsulphatase and sulphotransferase activities in the southern army-worm: a possible insect endocrine regulatory mechanism? (<i>Short Communication</i>). By R. S. H. Yang, J. G. Pelliccia & C. F. Wilkinson	817
The interrelationship of the concentration of hydrogen ions, bicarbonate ions, carbon dioxide and calcium ions in the regulation of renal gluconeogenesis in the rat. By G. A. O. Alleyne, H. Flores & A. Roobol	445	Metabolism in Whole Organisms	
Relationships between concentration of hepatic intermediary metabolites and induction of the key glycolytic enzymes <i>in vivo</i> . By J. M. Gunn & C. B. Taylor	455	Microbiological transformation of steroids. 1-Dehydrogenation of 17,21-dihydroxypregn-4-ene-3,20-dione with <i>Glomerella cingulata</i> . By L. Costa Pla	501
Control of 5-aminolaevulinate synthetase activity in <i>Rhodopseudomonas spheroides</i> . The involvement of sulphur metabolism. By A. Neuberger, J. D. Sandy & G. H. Tait	477	The design of experiments using isotopes for the determination of the rates of disposal of blood-borne substrates <i>in vivo</i> with special reference to glucose, ketone bodies, free fatty acids and proteins. By D. F. Heath & R. N. Barton	503
Control of 5-aminolaevulinate synthetase activity in <i>Rhodopseudomonas spheroides</i> . The purification and properties of an endogenous activator of the enzyme. By A. Neuberger, J. D. Sandy & G. H. Tait	491		

PAGE	PAGE
The effects of starvation, environmental temperature and injury on the rate of disposal of glucose by the rat. By D. F. Heath & P. L. Corney	519
The interconversion and disposal of ketone bodies in untreated and injured post-absorptive rats. By R. N. Barton	531
The irreversible disposal rate of free fatty acids in the plasma of fed and starved rats. By V. J. Cunningham	545
Plasma lipoproteins and the synthesis and turnover of plasma triglyceride in normal and genetically obese mice. By D. M. W. Salmon & D. A. Hems	551
The effect of thiourea on ureide metabolism in <i>Neurospora crassa</i> . By J. Nirmala & K. Sivarama Sastry	749
Species differences in the metabolism of norephedrine in man, rabbit and rat. By J. E. Sinsheimer, L. G. Dring & R. T. Williams	763
Qualitative and quantitative aspects of the biosynthesis of ribonucleic acid and of protein in the liver and the lung of the Syrian golden hamster. By H. Witschi	781
The effects of diethylnitrosamine on ribonucleic acid and protein synthesis in the liver and lung of the Syrian golden hamster. By H. Witschi	789

Contents of Volume 136, No. 4

Bioenergetics			
Studies on selenium incorporation into, and electron-transfer function of, liver microsomal fractions from normal and vitamin E-deficient rats given phenobarbitone. By C. P. J. Caygill, A. T. Diplock & E. H. Jeffery	851	Isoenzyme patterns in parenchymal and non-parenchymal cells isolated from regenerating and regenerated rat liver. By R. J. Bonney, P. R. Walker & V. R. Potter	947
The reconstitution of oxidase activity in membranes derived from a 5-aminolaevulinic acid-requiring mutant of <i>Escherichia coli</i> . By B. A. Haddock	877	The role of protein kinase activation in the control of steroidogenesis by adrenocorticotrophic hormone in the adrenal cortex. By M. C. Richardson & D. Schulster	993
Chloride-dependent uncoupling mediated by oligomycin in rat liver mitochondria. By N. Ariel & Y. Avi-Dor	911	Effects of membrane depolarization on nicotinamide nucleotide fluorescence in brain slices. By P. Lipton	999
The effects of iron-limited growth on the reduced nicotinamide-adenine dinucleotide dehydrogenase activity and the membrane proteins of <i>Candida utilis</i> mitochondria. By R. A. Clegg & J. E. Skyrme	1029	Intra-axonal transport and turnover of neurophysins in the rat. A proposal for a possible origin of the minor neurophysin component. By G. D. Burford & B. T. Pickering	1047
The occurrence of a stepwise-decreasing respiration rate during oxidative assimilation of different substrates by resting <i>Klebsiella aerogenes</i> in a system open to oxygen (<i>Short Communication</i>). By H. Degn, M. Lilleør & J. J. L. Iversen	1097	A model for the passage of the neurohypophysial hormones and their related proteins through the rat neurohypophysis. By G. D. Burford, P. Clifford, C. W. Jones & B. T. Pickering	1053
Subcellular Structures			
Electrokinetic properties of isolated cerebral-cortex synaptic vesicles. By J. McLaughlin, K. R. Case & H. B. Bosmann	919	Induction of δ -aminolaevulinate synthetase under environmental-stress conditions. By E. Amruthavalli & T. Ramasarma	1091
Criteria for identifying a myelin-like fraction from developing brain (<i>Short Communication</i>). By H. C. Agrawal, J. L. Trotter, R. F. Mitchell & R. M. Burton	1117	Progesterone and the metabolic control of the lactose biosynthetic pathway during lactogenesis in the rat. By G. Murphy, A. D. Ariyanayagam & N. J. Kuhn	1105
Calcium transport and phospholipid composition of microsomal fractions from denervated rat gastrocnemius (<i>Short Communication</i>). By B. P. Hughes & R. Yasin	1129	Stimulation of ornithine decarboxylase activity and inhibition of <i>S</i> -adenosyl-L-methionine decarboxylase activity in leukaemic mice by methylglyoxal bis(guanylhydrazone) (<i>Short Communication</i>). By O. Heby, S. Sauter & D. H. Russell	1121
Cellular Interactions and Control Processes			
The effects of chemical porphyrogens and drugs on the activity of rat liver tryptophan pyrrolase. By A. A.-B. Badawy & M. Evans	885	Sexual differences in galactose metabolism: galactosyl ceramide galactosidase and other galactosidases in mouse kidney (<i>Short Communication</i>). By Y.-N. Lin & N. S. Radin	1125
Output of [¹⁴ C]adenine nucleotides and their derivatives from cerebral tissues. Tetrodotoxin-resistant and calcium ion-requiring components. By I. Pull & H. McIlwain	893	The effect of ethylene on [1- ¹⁴ C]glycerol incorporation into phospholipids of etiolated pea stems (<i>Short Communication</i>). By R. F. Irvine & D. J. Osborne	1133
Development			
		Studies on cystathionase activity in rat liver and brain during development. Effects of hormones and amino acids <i>in vivo</i> . By K. Heinonen	1011

	PAGE		PAGE
Metabolism in Whole Organisms			
Identification of flavanone metabolites in rat urine by combined gas-liquid chromatography and mass spectrometry. <i>By N. P. Das, K. N. Scott & J. H. Duncan</i>	903	Molecular weight as a factor in the excretion of monoquaternary ammonium cations in the bile of the rat, rabbit and guinea pig. <i>By R. D. Hughes, P. Millburn & R. T. Williams</i>	967
The metabolism of benzene by bacteria. Purification and some properties of the enzyme <i>cis</i> -1,2-dihydroxycyclohexa-3,5-diene (nicotinamide-adenine dinucleotide) oxidoreductase (<i>cis</i> -benzene glycol dehydrogenase). <i>By B. C. Axcell & P. J. Geary</i>	927	Biliary excretion of some diquaternary ammonium cations in the rat, guinea pig and rabbit. <i>By R. D. Hughes, P. Millburn & R. T. Williams</i>	979
Thymidine kinase and deoxyribonucleic acid metabolism in growing and regenerating livers from rats on controlled feeding schedules. <i>By H. A. Hopkins, H. A. Campbell, B. Barbiroli & V. R. Potter</i>	955	The metabolism of four sulphonamides in cows. <i>By P. Nielsen</i>	1039
