

Cellular Aspects

Contents of Volume 142, No. 1, 1974

	PAGE		PAGE
Biosynthesis and Degradation		Subcellular Structures	
Protein synthesis by synaptosomes from rat brain. Contribution by the intraterminal mitochondria. By A. G. Hernández	7	Progesterone-induced lysis of rat kidney lysosomes as studied by changes in light-absorbance. By P. Badenoch-Jones & H. Baum	1
Phospholipid synthesis in rat liver endoplasmic reticulum after the administration of phenobarbitone and 20-methylcholanthrene. By S. C. Davison & E. D. Wills	19	The transport of sulphate and sulphite in rat liver mitochondria. By M. Crompton, F. Palmieri, M. Capano & E. Quagliariello	127
The distribution of L-asparagine synthetase in the principal organs of several mammalian and avian species. By H. A. Milman & D. A. Cooney	27	The amounts and rates of export of polysaccharides found within the membrane system of maize root cells. By D. J. Bowles & D. H. Northcote	139
Metabolism of dihydrotachysterol and 5,6-trans-cholecalciferol in the chick and the rat. By D. E. M. Lawson & P. A. Bell	37	Cellular Interactions and Control Processes	
Studies on the biosynthesis of tetrahymanol in <i>Tetrahymena pyriformis</i> . The mechanism of inhibition by cholesterol. By A. S. Beedle, K. A. Munday & D. C. Wilton	57	Properties of pyruvate dehydrogenase of rat mammary tissue and its changes during pregnancy, lactation and weaning. By H. G. Coore & B. Field	87
A comparison of glucoside formation by liver preparations from the rabbit and the mouse. By R. S. Labow & D. S. Layne	75	The relationship between the concentration of adenosine 3':5'-cyclic monophosphate and the anti-lipolytic action of insulin in isolated rat fat-cells. By K. Siddle & C. N. Hales	97
Cyclitol glucosides and their role in the synthesis of a glucan from uridine diphosphate glucose in <i>Phaseolus aureus</i> . Characterization of some cyclitol glucoside and their synthesis. By J. Kemp & B. C. Loughman	153	Folic acid metabolism in vitamin B ₁₂ -deficient sheep. Effects of injected methionine on liver constituents associated with folate metabolism. By R. M. Smith, W. S. Osborne-White & J. M. Gawthorne	105
Bioenergetics		Folic acid metabolism in vitamin B ₁₂ -deficient sheep. Effects of injected methionine on methotrexate transport and the activity of enzymes associated with folate metabolism in liver. By J. M. Gawthorne & R. M. Smith	119
Inhibition and uncoupling of photophosphorylation in isolated chloroplasts by organotin, organomercury and diphenyleneiodonium compounds. By A. S. Watling-Payne & M. J. Selwyn	65	Role of adenosine 3':5'-cyclic monophosphate in the action of 1,1,1-trichloro-2,2-bis-(<i>p</i> -chlorophenyl)ethane (DDT) on hepatic and renal metabolism. By S. Kacew & R. L. Singhal	145
Studies with a reconstituted muscle glycolytic system. The rate and extent of glycolysis in simulated post-mortem conditions. By R. K. Scopes	79	Evaluation of glucose turnover, body mass and recycling with reversible and irreversible tracers. By J. Katz, H. Rostami & A. Dunn	161

	PAGE		PAGE
Determination of synthesis, recycling and body mass of glucose in rats and rabbits <i>in vivo</i> with ³ H- and ¹⁴ C-labelled glucose. <i>By J. Katz, A. Dunn, M. Chenoweth & S. Golden</i>	171	Metabolism in Whole Organisms	
		A new method for the preparation of uniformly ¹⁴ C-labelled compounds by using <i>Anacystis nidulans</i> . <i>By K. C. Tovey, G. H. Spiller, K. G. Oldham, N. Lucas & N. G. Carr</i>	47
Concentration of elongation factor 2 in rat skeletal muscle during protein depletion and re-feeding (<i>Short Communication</i>). <i>By S. D. Alexis, V. R. Young & D. M. Gill</i>	185	The effect of oral inorganic sulphate on the metabolism of 4-hydroxyphenethylamine (tyramine) in man: tyramine <i>O</i> -sulphate measurement in human urine (<i>Short Communication</i>). <i>By I. Smith & P. D. Mitchell</i>	189

The following papers appeared in the last issue of the Biochemical Journal

Molecular Aspects

Contents of Volume 141, No. 1, 1974

	PAGE		PAGE
Proteins		Isolation and characterization of mitochondrial deoxyribonucleic acid of <i>Acanthamoeba castellanii</i> .	
Amino acid sequence of the <i>N</i> -terminal 139 residues of light chain derived from a homogeneous rabbit antibody.		By N. S. Hettiarachchy & I. G. Jones	159
By J.-C. Jaton	1	Specificity of anti-nucleoside antibodies (<i>Short Communication</i>).	
Comparison of the amino acid sequences of the variable regions of light chains derived from two homogeneous rabbit anti-pneumococcal antibodies.		By M. Z. Humayun & T. M. Jacob	313
By J.-C. Jaton	15	Lipids	
Chemical and immunochemical characteristics of tropomyosins from striated and smooth muscle.		Determination of volatile fatty acids in plasma after ethanolic extraction.	
By P. Cummins & S. V. Perry	43	By C. Remesy & C. Demigne	85
The utility of photo-affinity labels as 'mapping' reagents. A study of sub-populations of a specific rabbit antibody by using structurally related photo-affinity reagents.		The cell-envelope glycolipids of baker's yeast.	
By R. A. G. Smith & J. R. Knowles	51	By K. Työrinoja, T. Nurminen & H. Suomalainen	133
Calcium and the assays of human plasma clotting factor XIII.		An electron-capture gas-liquid-chromatographic method for the determination of prostaglandin F _{2α} in biological fluids.	
By R. D. Cooke & J. J. Holbrook	71	By A. J. F. Wickramasinghe & R. S. Shaw	179
The calcium-induced dissociation of human plasma clotting factor XIII.		Carbohydrates	
By R. D. Cooke & J. J. Holbrook	79	The alkali-labile linkage between keratan sulphate and protein.	
Molecular heterogeneity of mouse duodenal alkaline phosphatase. Association of lipids and peptides.		By J. J. Hopwood & H. C. Robinson	57
By P. R. V. Nayudu & F. B. Hercus	93	The glycoasparagines in urine of a patient with aspartylglycosaminuria.	
Isolation and characterization of a hydroxyproline-containing protein from soluble extracts of the leaves of sandal (<i>Santalum album</i> L.).		By R. J. Pollitt & K. M. Pretty	141
By U. V. Mani & A. N. Radhakrishnan	147	The synthesis of peptidoglycan in an autolysin-deficient mutant of <i>Bacillus licheniformis</i> N.C.T.C. 6346 and the effect of β-lactam antibiotics, bacitracin and vancomycin.	
A collagen-like amino acid sequence in a polypeptide chain of human C1q (a subcomponent of the first component of complement).		By J. B. Ward	227
By K. B. M. Reid	189	Enzymology	
Amino acid sequence of the smaller basic protein from rat brain myelin.		A new nicotinamide-adenine dinucleotide-dependent hydroaromatic dehydrogenase of <i>Lactobacillus plantarum</i> and its role in formation of (-)- <i>t</i> -3, <i>t</i> -4-dihydroxycyclohexane- <i>c</i> -1-carboxylate.	
By P. R. Dunkley & P. R. Carnegie	243	By G. C. Whiting & R. A. Coggins	35
Nucleic Acids		Purification of human placental alkaline phosphatase. Salt effects in affinity chromatography.	
Ribonuclease-sensitivity of covalently closed rat liver mitochondrial deoxyribonucleic acid.		By G. J. Doellgast & W. H. Fishman	103
By D. M. Lonsdale & I. G. Jones	155	Aminopeptidases of pea.	
		By T. C. Elleman	113

(continued overleaf)

(continued from preceding page)

	PAGE		PAGE
Kinetics of the activation of rat liver pyruvate kinase by fructose 1,6-diphosphate and methods for characterizing hysteretic transitions. <i>By H. O. Spivey, W. Flory, B. D. Peczon, J. P. Chandler & R. E. Koepp</i>	119	The kinetics of oxidation of ferropoxidase by molecular oxygen. A model of a terminal oxidase. <i>By C. F. Phelps, E. Antonini, G. Giacometti & M. Brunori</i>	265
Kinetic properties of rat liver pyruvate kinase at cellular concentrations of enzyme, substrates and modifiers. <i>By W. Flory, B. D. Peczon, R. E. Koepp & H. O. Spivey</i>	127	Alkaline phosphatase from pig kidney. Method of purification and molecular properties. <i>By E. D. Wachsmuth & K. Hiwada</i>	273
Kinetic properties of cerebral pyruvate kinase. <i>By P. C. Nicholas & H. S. Bachelard</i>	165	Catalytic properties of alkaline phosphatase from pig kidney. <i>By K. Hiwada & E. D. Wachsmuth</i>	283
Studies on the thiol group of lactose synthetase A protein from human milk and on the binding of uridine diphosphate galactose to the enzyme. <i>By B. J. Kitchen & P. Andrews</i>	173	Alkaline phosphatase from pig kidney. Microheterogeneity and the role of neuraminic acid. <i>By K. Hiwada & E. D. Wachsmuth</i>	293
The kinetics of coupled enzyme reactions. Applications to the assay of glucokinase, with glucose 6-phosphate dehydrogenase as coupling enzyme. <i>By A. C. Storer & A. Cornish-Bowden</i>	205	Kinetics of carbon monoxide binding and electron transfer by cytochrome <i>c</i> polymers. <i>By S. Dupré, M. Brunori, M. T. Wilson & C. Greenwood</i>	299
Deoxycytidylate deaminase. Properties of the enzyme from cultured kidney cells of baby hamster. <i>By H. A. Rolton & H. M. Keir</i>	211	Specificity of glycerol kinase (<i>Short Communication</i>). <i>By R. Eisenthal, R. Harrison & W. J. Lloyd</i>	305
Thermal inactivation studies of normal and variant human erythrocyte carbonic anhydrases by using a sulphonamide-binding assay. <i>By W. R. A. Osborne & R. E. Tashian</i>	219	Distribution of reducing equivalents on xanthine oxidase molecules and the rates of the intramolecular electron-transfer reactions (<i>Short Communication</i>). <i>By R. C. Bray, D. J. Lowe & M. J. Barber</i>	309
Kinetics of alkaline phosphatase from pig kidney. Mechanism of activation by magnesium ions. <i>By J. Ahlers</i>	257	Action of dimeric hybrids of native and selectively alkylated ribonuclease A on double-stranded ribonucleic acid (<i>Short Communication</i>). <i>By G. D'Alessio, J. Doskočil & M. Libonati</i>	317
		Intermolecular Organization	
		Changes in the number of binding sites for ribonucleic acid polymerase in chromatin of WI-38 fibroblasts stimulated to proliferate. <i>By B. T. Hill & R. Baserga</i>	27
