

# Molecular Aspects

## Contents of Volume 153, No. 2, 1976

### FULL PAPERS

	PAGE		PAGE
<b>Proteins</b>		<b>Nucleic Acids</b>	
Yeast phosphoglycerate mutase. Cyanogen bromide cleavage and amino acid sequence of an active-site peptide. By L. A. Fothergill & G. I. Hodgson	145	The theory of the deoxyribonucleic acid-ribonucleic acid hybridization reaction. By H. Thomou & N. A. Katsanos	241
An investigation of protein conformation of cytochrome <i>c</i> by using cytochrome <i>c</i> insolubilized on to agarose gel. By C. Greenwood & T. A. Moore	159	The extraction and purification of a cysteine transfer ribonucleic acid from baker's yeast. By N. J. Holness & G. Atfield	429
Chemical nature and sequence of alamethicin. By D. R. Martin & R. J. P. Williams	181	The nucleotide sequence of cysteine transfer ribonucleic acid from baker's yeast. Products of complete digestion with pancreatic ribonuclease and ribonuclease T1. By N. J. Holness & G. Atfield	437
Mobility of sodium dodecyl sulphate-protein complexes. By A. K. Dunker & A. J. Kenyon	191	The nucleotide sequence of cysteine transfer ribonucleic acid from baker's yeast. Identification of the products from partial degradation of the molecule and derivation of the complete sequence. By N. J. Holness & G. Atfield	447
Chemistry of the collagen cross-links. Nature of the cross-links in the polymorphic forms of dermal collagen during development. By A. J. Bailey & T. J. Sims	211	<b>Lipids</b>	
Preparation and activity of guanidinated or acetylated erabutoxins. By H. Hori & N. Tamiya	217	Triterpenoid carotenoids and related lipids. Triterpenoid carotenoid aldehydes from <i>Streptococcus faecium</i> UNH 564P. By R. F. Taylor & B. H. Davies	233
A method for the direct demonstration of the lectin-binding components of the human erythrocyte membrane. By M. J. A. Tanner & D. J. Anstee	265	<b>Carbohydrates</b>	
The membrane change in En(a-) human erythrocytes. Absence of the major erythrocyte sialoglycoprotein. By M. J. A. Tanner & D. J. Anstee	271	$\beta$ -Amylase-resistant amylose. Effect of urea on the limited hydrolysis of amylose by $\beta$ -amylase. By N. B. Patil	339
The relationship between biological activity and primary structure of troponin I from white skeletal muscle of the rabbit. By H. Syska, J. M. Wilkinson, R. J. A. Grand & S. V. Perry	375	<b>Small Molecules</b>	
Purification and properties of a kininogenin from the venom of <i>Vipera ammodytes ammodytes</i> . By G. S. Bailey & R. A. Shipolini	409	Equilibrium and kinetic studies of the aggregation of porphyrins in aqueous solution. By S. B. Brown, M. Shillcock & P. Jones	279
The association of yeast phosphoglycerate kinase (EC 2.7.2.3). By S. P. Spragg, J. K. Wilcox, J. J. Roche & W. A. Barnett	423	Bile acids of snakes of the subfamily Viperinae and the biosynthesis of C-23-hydroxylated bile acids in liver homogenate fractions from the adder, <i>Vipera berus</i> (Linn.). By S. Ikawa & A. R. Tammar	343
		The structure of haem in pyridine/water mixtures and its implication in studies of haem catabolism. By S. B. Brown & R. F. G. J. King	479

	PAGE		PAGE
<b>Enzymology</b>		<b>Further evidence for an allosteric model for ribonuclease.</b>	
Kinetics of alkaline phosphatase from pig kidney. Influence of complexing agents on stability and activity.		By E. J. Walker, G. B. Ralston & I. G. Darvey	329
By B. P. Ackermann & J. Ahlers	151	<b>Studies on the use of Sepharose-<i>N</i>-(6-amino-hexanoyl)-2-amino-2-deoxy-D-glucopyranose for the large-scale purification of hepatic glucokinase.</b>	
Properties of the testicular lactate dehydrogenase isoenzyme.		By M. J. Holroyde, J. M. E. Chesher, I. P. Trayer & D. G. Walker	351
By A. Blanco, C. Burgos, N. M. Gerez de Burgos & E. E. Montamat	165	<b>The purification in high yield and characterization of rat hepatic glucokinase.</b>	
Factors affecting the activity of citrate synthase of <i>Acetobacter xylinum</i> and its possible regulatory role.		By M. J. Holroyde, M. B. Allen, A. C. Storer, A. S. Warsy, J. M. E. Chesher, I. P. Trayer, A. Cornish-Bowden & D. G. Walker	363
By M. Swissa & M. Benziman	173	<b>Isolation and some molecular parameters of elastase-like neutral proteinases from horse blood leucocytes.</b>	
Bovine spleen cathepsin B1 and collagenolytic cathepsin. A comparative study of the properties of the two enzymes in the degradation of native collagen.		By A. Dubin, A. Koj & J. Chudzik	389
By D. J. Etherington	199	<b>Substrate specificity and modification of the active centre of elastase-like neutral proteinases from horse blood leucocytes.</b>	
$\gamma$ -Glutamyltransferase of rat kidney. Simultaneous assay of the hydrolysis and transfer reactions with [ <i>glutamate</i> - <sup>14</sup> C]glutathione.		By A. Koj, J. Chudzik & A. Dubin	397
By J. S. Elce & B. Broxmeyer	223	<b>A study of the supposed hydroxylation of tyrosine catalysed by peroxidase.</b>	
A new subunit of horse liver alcohol dehydrogenase and subunit composition of the polymorphic form.		By P. I. Smith & G. A. Swan	403
By R. Pietruszko & C. N. Ryzewski	249	<b>Purification and properties of arylsulphatase B of human liver.</b>	
Studies by electron-paramagnetic-resonance spectroscopy on the mechanism of action of xanthine dehydrogenase from <i>Veillonella alcalescens</i> .		By S. I. O. Agogbua & C. H. Wynn	415
By H. Dalton, D. J. Lowe, R. T. Pawlik & R. C. Bray	287	<b>Estimation of the dissociation constants of enzyme-substrate complexes from steady-state measurements. Interpretation of pH-independence of <math>K_m</math>.</b>	
Studies by electron-paramagnetic-resonance spectroscopy and stopped-flow spectrophotometry on the mechanism of action of turkey liver xanthine dehydrogenase.		By A. Cornish-Bowden	455
By M. J. Barber, R. C. Bray, D. J. Lowe & M. P. Coughlan	297	<b>Purification and some properties of acetyl-coenzyme A carboxylase from rabbit mammary gland.</b>	
Some properties of an alcohol dehydrogenase partially purified from baker's yeast grown without added zinc.		By R. Manning, R. Dils & R. J. Mayer	463
By C. J. Dickenson & F. M. Dickinson	309	<b>The heterogeneity of arginases in rat tissues.</b>	
Kinetic studies on glucoamylase of rabbit small intestine.		By A. Herzfeld & S. M. Raper	469
By S. Sivakami & A. N. Radhakrishnan	321	<b>Intermolecular Organization</b>	
		<b>Interaction between proteoglycan subunit and type II collagen from bovine nasal cartilage, and the preferential binding of proteoglycan subunit to type I collagen.</b>	
		By V. Lee-Own & J. C. Anderson	259

## RAPID PAPERS

	PAGE		PAGE
<b>Proteins</b>			
$\alpha$ -1 Anti-trypsin, an inhibitor of renin. By S. Scharpé, M. Eid, W. Cooreman & A. Lauwers	505	Acrolein, an irreversible active-site-directed inhibitor of deoxyribose 5-phosphate aldolase? By D. C. Wilton	495
<b>Nucleic Acids</b>			
Artifacts in the centrifugation of ribosomal and heterogeneous ribonucleic acid in '99%-dimethyl sulphoxide' gradients. By I. H. Maxwell	509	Activities of citrate synthase and other enzymes of <i>Acetobacter xylinum</i> <i>in situ</i> and <i>in vitro</i> . By M. Swissa, H. Weinhouse & M. Benziman	499
<b>Enzymology</b>			
Chiral recognition of prochiral centres and general acid-base catalysis. Necessarily inter-related manifestations of active-site structure. By J. Südi	491	Some observations on the NADP <sup>+</sup> -linked oxidation of methylglyoxal catalysed by 2-oxo-aldehyde dehydrogenase. By J. Dunkerton & S. P. James	503
<b>General Methods</b>			
		Density-gradient sedimentation in silica sols. Anomalous shifts in the banding densities of polystyrene 'latex' beads. By J.-J. Morgenthaler & C. A. Price	487

The following papers appeared in the last issue of the **Biochemical Journal**

**Cellular Aspects**  
**Contents of Volume 154, No. 1, 1976**

**FULL PAPERS**

	PAGE		PAGE
<b>Biosynthesis and Degradation</b>			
The conversion of 3-hydroxy-2,4,5-trihydroxymethylpyridine into pyridoxine by <i>Kloeckera apiculata</i> .	35	The topographical location and unique nature of a glucokinase associated with the Golgi apparatus of rat liver.	193
By T. A. Scott & C. Picton		By G. Berthillier, R. Coleman & D. G. Walker	
Synthesis and turnover of plasma-membrane proteins and glycoproteins in a neuroblastoma cell line.	57	The action of phosphatidylinositol-specific phospholipases C on membranes.	203
By R. A. Mathews, T. C. Johnson & J. E. Hudson		By M. G. Low & J. B. Finean	
The metabolism of the phosphonium analogue of choline in cultured cells. A useful nuclear-magnetic-resonance probe for membrane phosphatidylcholine.	105	<b>Cellular Interactions and Control Processes</b>	
By E. Sim & C. A. Pasternak		The effect of polyamines on the synthesis of ribonucleic acid by <i>Drosophila melanogaster</i> larvae.	23
Arterio-venous difference of choline and choline lipids across the brain of rat and rabbit.	133	By C. V. Byus & E. J. Herbst	
By S. Spanner, R. C. Hall & G. B. Ansell		Decarboxylases for polyamine biosynthesis in <i>Drosophila melanogaster</i> larvae.	31
Galactose metabolism in regenerating rat liver.	141	By C. V. Byus & E. J. Herbst	
By C. H. Bauer, B. F. Hassels & W. G. Reutter		Subcellular distribution and activity in different rat tissues of a deoxyinosine-activated nucleotidase.	77
Studies on the catabolism of $N^G$ -methylarginine, $N^G, N^G$ -dimethylarginine and $N^G, N^G$ -dimethylarginine in the rabbit.	179	By H. Tjernshaugen & P. Fritzson	
By J. R. McDermott		The regulation of haemoglobin synthesis in cultured chick blastoderms by steroids related to $5\beta$ -androstane.	81
By R. A. Irving, W. I. P. Mainwaring & P. M. Spooner		By R. A. Irving, W. I. P. Mainwaring & P. M. Spooner	
<b>Bioenergetics</b>			
Amino acid transport in normal and glutathione-deficient sheep erythrocytes.	43	Synthesis of hepatic polyamines, ribonucleic acid and <i>S</i> -adenosylmethionine in normal and oestrogen-treated chicks.	95
By J. D. Young, J. C. Ellory & E. M. Tucker		By T. O. Eloranta, P. H. Mäenpää & A. M. Raina	
Localization of inhibition by adenosine diphosphate of phosphoglycerate-dependent oxygen evolution in a reconstituted chloroplast system.	185	Variants of hamster fibroblasts resistant to <i>Ricinus communis</i> toxin (ricin).	113
By A. R. Slabas & D. A. Walker		By A. Meager, A. Ungkitchanukit & R. C. Hughes	
<b>Subcellular Structures</b>			
A rapid immunological procedure for the isolation of hormonally sensitive rat fat-cell plasma membrane.	11	Studies on the mechanism of induction of haem oxygenase by cobalt and other metal ions.	125
By J. P. Luzio, A. C. Newby & C. N. Hales		By M. D. Maines & A. Kappas	
The incorporation of radioactive fatty acids and of radioactive derivatives of glucose into the phospholipids of subsynaptosomal fractions of cerebral cortex.	65	Protein phosphorylation in respiring slices of guinea-pig cerebral cortex. Evidence for a role for noradrenaline and adenosine 3':5'-cyclic monophosphate in the increased phosphorylation observed on application of electrical pulses.	163
By R. R. Baker, M. J. Dowdall & V. P. Whittaker		By M. Williams & R. Rodnight	

(Continued overleaf)

(Continued from preceeding page)

	PAGE		PAGE
Inhibition of protein synthesis in reticulocyte lysates by trichodermin. By C. J. Carter, M. Cannon & K. E. Smith	171	<b>Development</b>	
Exchangeable and total calcium pools in mitochondria of rat epididymal fat-pads and isolated fat-cells. Role in the regulation of pyruvate dehydrogenase activity. By D. L. Severson, R. M. Denton, B. J. Bridges & P. J. Randle	209	Studies on sex-organ development. Oestrogen-receptor translocation in the developing chick Müllerian duct. By C. S. Teng & C. T. Teng	1
Regulation of pyruvate dehydrogenase and pyruvate dehydrogenase phosphate phosphatase activity in rat epididymal fat-pads. Effects of starvation, alloxan-diabetes and high-fat diet. By D. Stansbie, R. M. Denton, B. J. Bridges, H. T. Pask & P. J. Randle	225	Changes in the activities of the enzymes of hepatic fatty acid oxidation during development of the rat. By P. C. Foster & E. Bailey	49
		Lipid biosynthesis in liver slices of the foetal guinea pig. By C. T. Jones & I. K. Ashton	149
		Lipid synthesis <i>in vivo</i> by tissues of the maternal and foetal guinea pig. By C. T. Jones & W. Firmin	159

#### RAPID PAPERS

	PAGE		PAGE
<b>Subcellular Structures</b>			
Membrane attachment of folded chromosomes of <i>Escherichia coli</i> . By P. Dworsky	239	by insulin and cortisol as a function of gestational age. By R. S. Wade & D. J. Gusseck	245
Evidence for specific transport of uridine diphosphate galactose across the Golgi membrane of rat mammary gland. By N. J. Kuhn & A. White	243	Role of oxygen on growth rate and gene activity in cultured chick-embryo heart cells. By C. Clo', G. C. Orlandini, C. Guarnieri & C. M. Caldarera	253
<b>Cellular Interactions and Control Processes</b>		<b>Development</b>	
Tyrosine aminotransferase activity in the rabbit placenta. Evidence for decreased inducibility		Effect of vitamin A nutritional status on the growth of oestrogen-primed chick oviduct. By P. S. Joshi, S. K. Murthy & J. Ganguly	249
