Biosynthesis and Degradation			
Studies on the proteins from the seeds of <i>Croton tiglium</i> and of <i>Jatropha curcas</i> . Toxic properties and inhibition of protein synthesis <i>in vitro</i> . By F. Stirpe, A. Pession-Brizzi, E. Lorenzoni, P. Strocchi, L. Montanaro & S. Sperti	1	Calcium uptake by subcellular fractions of pancreatic islets. Effects of nucleotides and theophylline. By J. Sehlin	63
Inhibition of protein synthesis <i>in vitro</i> by crotins and ricin. Effect on the steps of peptide chain elongation. By S. Sperti, L. Montanaro, A. Mattioli, G. Testoni & F. Stirpe	7	The effects of denervation on protein turnover of rat skeletal muscle. By D. F. Goldspink	71
Effect of elongation factor 2 and of adenosine diphosphate-ribosylated elongation factor 2 on translocation. By L. Montanaro, S. Sperti, G. Testoni & A. Mattioli	15	The route of secretion of procollagen. The influence of $\alpha\alpha'$ -bipyridyl, colchicine and anti-mycin A on the secretory process in embryonic-chick tendon and cartilage cells. By R. Harwood, M. E. Grant & D. S. Jackson	81
Effect of oestradiol-17 β and progesterone on the metabolism of [1,2- ³ H]progesterone by the rabbit endometrium and myometrium. By U. Verma & K. R. Laumas	55	Stimulation of prolactin synthesis and of adenosine 3':5'-cyclic phosphate formation by prostaglandins and thyroliberin in cultured rat pituitary cells. By K. M. Gautvik & M. Kriz	111
Bioenergetics			
Phosphorylation state of cytosolic and mitochondrial adenine nucleotides and of pyruvate dehydrogenase in isolated rat liver cells. By E. A. Siess & O. H. Wieland	91	Regulation of carbohydrate metabolism in lymphoid tissue. Nature of the endogenous substrates and their contribution to the respiratory fuel of the sliced rat spleen <i>in vitro</i> . By D. Suter & M. J. Weidemann	119
Subcellular Structures			
Lipid composition of lymphocyte plasma membrane from pig mesenteric lymph node. By G. M. Levis, G. P. Evangelatos & M. J. Crumpton	103	Nuclear components responsible for the retention of steroid-receptor complexes, especially from the standpoint of the specificity of hormonal responses. By W. I. P. Mainwaring, E. K. Symes & S. J. Higgins	129
Hydrogen-ion titration studies on erythrocyte membranes. By C. Hallam & J. M. Wrigglesworth	159	Regulation of mammalian protein synthesis <i>in vivo</i> . Protein synthesis in rat liver and kidney after the administration of sublethal doses of cycloheximide. By L. I. Rothblum, T. M. Devlin & J. J. Ch'ih	151
Cellular Interactions and Control Processes			
Influence of the adrenal glucocorticoids on the stimulation of synthesis of hepatic ribonucleic acid and plasma acute-phase globulins by leucocytic endogenous mediator. By W. L. Thompson, F. B. Abeles, F. A. Beall, R. E. Dinterman & R. W. Wannemacher, Jr.	25	The biochemistry of fatty liver and kidney syndrome. Biotin-mediated restoration of hepatic gluconeogenesis <i>in vitro</i> and its relationship to pyruvate carboxylase activity. By D. W. Bannister	167
Development			
		Effects of Pronase and neuraminidase treatment on a myelin-associated glycoprotein in developing brain. By R. H. Quarles	143

	PAGE		PAGE
Metabolism in Whole Organisms		Mechanism of increased hepatic uptake of unesterified fatty acid from serum of ethanol-treated rats.	
Quantitative analysis of metabolism of hepatic triglyceride in ethanol-treated rats.		By M. A. Abrams & C. Cooper	47
By M. A. Abrams & C. Cooper	33		

RAPID PAPERS

	PAGE		PAGE
Biosynthesis and Degradation		The mechanism of the inhibition of the mitochondrial pyruvate transporter by α-cyano-cinnamate derivatives.	
Compartmentation of albumin and ferritin synthesis in rat liver <i>in vivo</i> .		By A. P. Halestrap	181
By E. B. Fern & P. J. Garlick	189		
Cellular Interactions and Control Processes		The relative importance of muscle protein synthesis and breakdown in the regulation of muscle mass.	
Rates of induction of mitochondrial aldehyde dehydrogenase in rat liver.		By D. J. Millward, P. J. Garlick, D. O. Nnanyelugo & J. C. Waterlow	185
By A. A. Horton & M. C. Barrett	177		

The following papers appeared in the last issue of the Biochemical Journal

Molecular Aspects
Contents of Volume 155, No. 1, 1976

FULL PAPERS

	PAGE		PAGE
Proteins		Conformational analysis of deoxyribonucleic acid from PM2 bacteriophage. The effect of size on supercoil shape. By A. M. Campbell	101
Isolation, by partial pepsin digestion, of the three collagen-like regions present in sub-component C1q of the first component of human complement. By K. B. M. Reid	5	Lipids	
Subunit composition and structure of sub-component C1q of the first component of human complement. By K. B. M. Reid & R. R. Porter	19	High-performance liquid chromatography of phosphatidylcholine and sphingomyelin with detection in the region of 200nm. By F. B. Jungalwala, J. E. Evans & R. H. McCluer	55
Physicochemical characterization of proteolytic cleavage fragments of bovine colostrum immunoglobulin G ₁ (IgG ₁). By W. D. Fang & T. K. S. Mukkur	25	Carbohydrates	
FB' ₂ , a new peptic fragment of human immunoglobulin G. By D. M. Parr, G. E. Connell, D. I. C. Kells & T. Hofmann	31	2-O-Methyl-D-glucuronic acid, a new hexuronic acid of biological origin. By J. H. Kieras, F. J. Kieras & D. V. Bowen	181
Interactions of the lanthanide- and hapten-binding sites in the Fv fragment from the myeloma protein MOPC 315. By R. A. Dwek, D. Givol, R. Jones, A. C. McLaughlin, S. Wain-Hobson, A. I. White & C. Wright	37	Enzymology	
The purification of the glycoprotein lectin from the broad bean (<i>Vicia faba</i>) and a comparison of its properties with lectins of similar specificity. By A. K. Allen, N. N. Desai & A. Neuberger	127	Dehydrogenation of the phosphonate analogue of glucose 6-phosphate by glucose 6-phosphate dehydrogenase. By P. R. Adams, R. Harrison, T. D. Inch & P. Rich	1
The binding of calcium to a salivary phosphoprotein, protein A, common to human parotid and submandibular secretions. By A. Bennick	163	pH-dependence of the steady-state rate of a two-step enzymic reaction. By K. Brocklehurst & H. B. F. Dixon	61
Effect of succinylation (3-carboxypropionylation) on the conformation and immunological activity of ovalbumin. By S. A. Kidwai, A. A. Ansari & A. Salahuddin	171	Some properties of a microsomal oleate desaturase from leaves. By C. R. Slack, P. G. Roughan & J. Terpstra	71
Nucleic Acids		A new non-functional form of milk xanthine oxidase containing stable quinquivalent molybdenum. By D. J. Lowe, M. J. Barber, R. T. Pawlik & R. C. Bray	81
The mechanism of sensitivity to phleomycin in growing <i>Escherichia coli</i> cells. By M. J. Sleigh & G. W. Grigg	87	Purification, characterization and identification of rat liver histidine-pyruvate aminotransferase isoenzymes. By T. Noguchi, E. Okuno, Y. Minatogawa & R. Kido	107

(continued overleaf)

(continued from preceding page)

	PAGE		PAGE
Interaction of human cathepsin D with the inhibitor pepstatin. By C. G. Knight & A. J. Barrett	117	Partial purification and characterization of collagen galactosyltransferase from chick embryos. By L. Risteli, R. Myllylä and K. I. Kivirikko	145
Nitrogenase of <i>Azotobacter chroococcum</i> . Kinetics of the reduction of oxidized iron-protein by sodium dithionite. By R. N. F. Thorneley, M. G. Yates & D. J. Lowe	137	State and accessibility of zinc in yeast alcohol dehydrogenase. By V. Leskovac, S. Trivić & M. Latkovska	155

RAPID PAPERS

	PAGE		PAGE
Proteins		Enzymology	
<i>N</i> -Terminal amino acid sequence of wheat proteins that lack phenylalanine and histidine residues. By D. G. Redman	193	Formation of angiotensin III by angiotensin-converting enzyme. By A. T. Chiu, J. W. Ryan, J. M. Stewart & F. E. Dorer	189
Nucleic Acids		Electron-paramagnetic-resonance studies on the molybdenum of nitrate reductase from <i>Escherichia coli</i> K12. By R. C. Bray, S. P. Vincent, D. J. Lowe, R. A. Clegg & P. B. Garland	201
Comparison between the ribosomal ribonucleic acids from free and membrane-bound ribosomal fractions of HeLa cells. By M. S. N. Khan & B. E. H. Maden	197	Studies on human <i>N</i> -acetyl- β -D-hexosaminidase C separated from neonatal brain. By G. T. N. Besley & D. M. Broadhead	205
