

Cellular Aspects

Contents of Volume 176, No. 3, 1978

FULL PAPERS

	PAGE	PAGE
Biosynthesis and Degradation		
Growth and metabolism of fucosylated plasma-membrane glycoproteins in mouse neuroblastoma N2a cells. <i>By A. G. Milenkovic, M. Rachmeler & T. C. Johnson</i>	695	649
The use of rat liver nucleoplasm for the characterization of heterogeneous nuclear ribonucleic acid synthesis <i>in vitro</i> . <i>By T. J. C. Beebee</i>	715	767
Sources of ammonia for mammalian urea synthesis. <i>By H. A. Krebs, R. Hems, P. Lund, D. Halliday & W. W. C. Read</i>	733	827
Utilization of methylmalonate for the synthesis of branched-chain fatty acids by preparations of chicken liver and sheep adipose tissue. <i>By J. R. Scaife, K. W. J. Wahle & G. A. Garton</i>	799	967
Studies of a factor from dystrophic mouse muscle inhibitory towards protein synthesis. <i>By R. A. Petryshyn & D. M. Nicholls</i>	907	983
Choice of precursors for the measurement of protein turnover by the double-isotope method. Application to the study of mitochondrial proteins. <i>By R. J. Burgess, J. H. Walker & R. J. Mayer</i>	919	927
Relative rates of turnover of subunits of mitochondrial proteins. <i>By J. H. Walker, R. J. Burgess & R. J. Mayer</i>	927	971
Acetoacetate metabolism in rat brain. Development of acetoacetyl-coenzyme A deacylase and 3-hydroxy-3-methylglutaryl-coenzyme A synthase. <i>By T. B. Patel & J. B. Clark</i>	951	977
Lipid-linked oligosaccharides containing glucose in lactating rabbit mammary gland. <i>By B. K. Speake & D. A. White</i>	993	705
Bioenergetics		
Inhibition of bacterial transport by uncouplers of oxidative phosphorylation. Effects of pentachlorophenol and analogues in <i>Bacillus subtilis</i> . <i>By R. A. Nicholas & G. W. Ordal</i>	639	727
The reduction of diamide by rat liver mitochondria and the role of glutathione. <i>By P. C. Jocelyn</i>		649
Photosensitivity of respiration in <i>Neurospora</i> mitochondria. A protective role for carotenoid. <i>By Z. Ramadan-Talib & J. Prebble</i>		767
Characteristics of the transport of alanine, serine and glutamine across the plasma membrane of isolated rat liver cells. <i>By S. K. Joseph, N. M. Bradford & J. D. McGivan</i>		827
A thermodynamic analysis of the interaction between the mitochondrial coupling adenosine triphosphatase and its naturally occurring inhibitor protein. <i>By J. C. Gomez-Fernandez & D. A. Harris</i>		967
Anion/calcium ion ratios and proton production in some mitochondrial calcium ion uptakes. <i>By E. J. Harris</i>		983
Cellular Interactions and Control Processes		
Enhancement by double-stranded polyribonucleotides of production by cultured mouse peritoneal macrophages of differentiation-stimulating factor(s) for mouse myeloid leukaemic cells. <i>By M. Tomida, K. Takenaga, Y. Yamamoto & M. Hozumi</i>		665
Endocytosis of sulphated proteoglycans by cultured skin fibroblasts. <i>By R. Prinz, J. Schwermann, E. Buddecke & K. von Figura</i>		671
Variation in tissue carnitine concentrations with age and sex in the rat. <i>By P. R. Borum</i>		677
Stable enhancement of calcium retention in mitochondria isolated from rat liver after the administration of glucagon to the intact animal. <i>By V. Prpić, T. L. Spencer & F. L. Bygrave</i>		705
Calcium-dependent protein modulator of cyclic nucleotide phosphodiesterases from mouse epidermis. <i>By A. W. Murray & A. Rogers</i>		727

	PAGE		PAGE
Effects of polyamines on prostatic chromatin- and non-histone-protein-associated protein kinase reactions. <i>By K. Ahmed, M. J. Wilson, S. A. Goueli & H. G. Williams-Ashman</i>	739	Stimulation by vasopressin, angiotensin and oxytocin of gluconeogenesis in hepatocyte suspensions. <i>By P. D. Whitton, L. M. Rodrigues & D. A. Hems</i>	893
The development of ketogenesis at birth in the rat. <i>By P. Ferré, J.-P. Pégurier, D. H. Williamson & J. R. Girard</i>	759	Calcium ions and the regulation of NAD ⁺ -linked isocitrate dehydrogenase from the mitochondria of rat heart and other tissues. <i>By R. M. Denton, D. A. Richards & J. G. Chin</i>	899
The effects of cortisol, corticotropin and thyroxine on the synthesis of glycerolipids and on the phosphatidate phosphohydrolase activity in rat liver. <i>By H. P. Glenny & D. N. Brindley</i>	777	Onset of ribosome degradation during cessation of growth in BHK-21/C13 cells. <i>By W. T. Melvin & H. M. Keir</i>	933
Control of gluconeogenesis and of enzymes of glycogen metabolism in isolated rat hepatocytes. A parallel study of the effect of phenylephrine and of glucagon. <i>By L. Hue, J. E. Felú & H.-G. Hers</i>	791	An alternative hypothesis of cellular transport of lysosomal enzymes in fibroblasts. Effect of inhibitors of lysosomal enzyme endocytosis on intra- and extra-cellular lysosomal enzyme activities. <i>By K. von Figura & E. Weber</i>	943
Responsiveness to glucagon by isolated rat hepatocytes controlled by the redox state of the cytosolic nicotinamide-adenine dinucleotide couple acting on adenosine 3':5'-cyclic monophosphate phosphodiesterase. <i>By M. G. Clark & I. G. Jarrett</i>	805	Metabolism of inorganic sulphate in the isolated perfused rat liver. Effect of sulphate concentration on the rate of sulphation by phenol sulphotransferase. <i>By G. J. Mulder & K. Keulemans</i>	959
Differential effects of tryptophan on glucose synthesis in rats and guinea pigs. <i>By S. A. Smith, K. R. F. Elliott & C. I. Pogson</i>	817	Conversion between renin and high-molecular-weight renin in the dog. <i>By S. Funakawa, Y. Funae & K. Yamamoto</i>	977
The effects of ammonium chloride and bicarbonate on the activity of glutaminase in isolated liver mitochondria. <i>By S. K. Joseph & J. D. McGivan</i>	837	Development Age-related changes in the composition and structure of human articular-cartilage proteoglycans. <i>By M. T. Bayliss & S. Y. Ali</i>	683
A chemical-modification approach to the olfactory code. Studies with a thiol-specific reagent. <i>By A. Menevse, G. Dodd & T. M. Poynder</i>	845	Turnover of liver glycogen in the rat foetus. <i>By M. Gilbert & J. Bourbon</i>	785
Control of amylase biosynthesis and release in the parotid gland of the rat. <i>By M. A. McPherson & C. N. Hales</i>	855	The binding of ³ H-labelled oestradiol- and progesterone-receptor complexes to hypothalamic chromatin of male and female sheep. <i>By B. N. Perry & A. Lopez</i>	873
Post-translational regulation of lipoprotein lipase activity in adipose tissue. <i>By P. Ashby, D. P. Bennett, I. M. Spencer & D. S. Robinson</i>	865	Metabolism in Whole Organisms Microbial metabolism of amino alcohols. Formation of coenzyme B ₁₂ -dependent ethanolamine ammonia-lyase and its concerted induction in <i>Escherichia coli</i> . <i>By C. M. Blackwell & J. M. Turner</i>	751
Mechanisms for the effects of ethanol on hepatic phosphatidate phosphohydrolase. <i>By M. J. Savolainen & I. E. Hassinen</i>	885		

RAPID PAPERS

	PAGE		PAGE
Subcellular Structures Isolation of a high-molecular-weight high-mobility-group-type non-histone protein from hen oviduct. <i>By C. S. Teng, K. Gallagher & C. T. Teng</i>	1003	Cellular Interactions and Control Processes Thyroid-hormone modulation of the number of β -adrenergic receptors in rat fat-cell membranes. <i>By Y. Giudicelli</i>	1007

CONTENTS

xi

	PAGE	PAGE
The influence of respiratory state on mono- amine oxidase activity in rat liver mitochondria.		
	<i>By G. S. Smith & R. A. Reid</i>	1011

FULL PAPERS

	PAGE	PAGE
Biosynthesis and Degradation		
The biosynthetic pathway of new polyamines in <i>Caldariella acidophila</i> . By M. De Rosa, S. De Rosa, A. Gambacorta, M. Carteni-Farina & V. Zappia	1	175
Accelerated breakdown of reticulocyte protein formed under conditions of amino acid depletion. By C. S. Chandler & F. J. Ballard	151	
Extensive conjugation of dopamine (3,4-dihydroxyphenethylamine) metabolites in cultured human skin fibroblasts and rat hepatoma cells. By P. A. Crooks, X. O. Breakefield, C. H. Sulens, C. M. Castiglione & J. K. Coward	187	
Studies on the assembly of the rat lens capsule. Biosynthesis and partial characterization of the collagenous components. By J. G. Heathcote, C. H. J. Sear & M. E. Grant	283	
Bioenergetics		
Cyanide-insensitive oxidation of ascorbate/ <i>NNN'</i> N'-tetramethyl- <i>p</i> -phenylenediamine mixture by mung-bean (<i>Phaseolus aureus</i>) mitochondria. An energy-linked function. By S. B. Wilson	129	
Subcellular Structures		
A sub-population of rat liver membrane-bound ribosomes that are detached <i>in vitro</i> by carcinogens and centrifugation. By D. N. Palmer, B. R. Rabin & D. J. Williams	9	
Properties of the membrane proteins of rat liver lysosomes. The majority of lysosomal membrane proteins are exposed to the cytoplasm. By D. L. Schneider, J. Burnside, F. R. Gorga & C. J. Nettleton	75	
The mitochondrial localization of coproporphyrinogen III oxidase. By B. Grandchamp, N. Phung & Y. Nordmann	97	
Subcellular localization of NAD(P)H oxidase(s) in human neutrophilic polymorphonuclear leucocytes. By D. B. Iverson, P. Wang-Iverson, J. K. Spitznagel & L. R. DeChatelet		175
Cellular Interactions and Control Processes		
Phospholipid composition and metabolism in mouse muscular dystrophy. By C. T. Kwok & L. Austin		15
Calcium-dependent inhibition of protein synthesis in rat parotid gland. By P. Kanagasuntheram & S. C. Lim		23
Stimulation of proinsulin biosynthesis and insulin release by pyruvate and lactate. By K. Jain, S. Asina & J. Logothetopoulos		31
Adenosine 3':5'-cyclic monophosphate production and steroidogenesis by isolated rat adrenal glomerulosa cells. Effects of angiotensin II and [Sar ¹ ,Ala ⁸]angiotensin II. By R. F. Bing & D. Schulster		39
Effect of glutamine on the degradation of glutamine synthetase in hepatoma tissue-culture cells. By R. B. Crook & G. M. Tomkins		47
Inhibition by calcium ions of adenosine cyclic monophosphate formation in sealed pigeon erythrocyte 'ghosts'. A study using the photo-protein obelin. By A. K. Campbell & R. L. Dormer		53
Functional involvement of carbonic anhydrase in calcium transport of the chick chorio-allantoic membrane. By R. S. Tuan & J. Zrike		67
Inhibition of adenylate cyclase by adenosine analogues in preparations of broken and intact human platelets. Evidence for the unidirectional control of platelet function by cyclic AMP. By R. J. Haslam, M. M. L. Davidson & J. V. Desjardins		83

	PAGE		PAGE
Plasma clearance of glycoproteins with terminal mannose and <i>N</i> -acetylglucosamine by liver non-parenchymal cells. Studies with β -glucuronidase, <i>N</i> -acetyl- β -D-glucosaminidase, ribonuclease B and agalacto-orosomucoid. By P. H. Schlesinger, T. W. Doebber, B. F. Mandell, R. White, C. DeSchryver, J. S. Rodman, M. J. Miller & P. Stahl	103	The stimulus-secretion coupling of glucose-induced insulin release. Effect of exogenous pyruvate on islet function. By A. Sener, S. Kawazu, J. C. Hutton, A. C. Boschero, G. Devis, G. Somers, A. Herchuelz & W. J. Malaisse	217
Regulation of synthesis of guanosine 3':5'-cyclic monophosphate in neuroblastoma cells. By T. Bartfai, X. O. Breakefield & P. Greengard	119	Effect of corticotropin treatment <i>in vivo</i> on the synthesis of a specific adrenal cytosolic protein. Characterization by dual-labelling technique and polyacrylamide-gel electrophoresis. By A. Dazord, D. Gallet & J. M. Saez	233
The effect of surgical trauma on muscle protein turnover in rats. By J. L. Hoover-Plow & A. J. Clifford	137	The fate of ^{14}C in glucose 6-phosphate synthesized from [$1\text{-}^{14}\text{C}$]ribose 5-phosphate by enzymes of rat liver. By J. F. Williams, M. G. Clark & P. F. Blackmore	241
Studies on sex-organ development. Oestrogenic effect on ornithine decarboxylase activity in the differentiating Müllerian ducts and other organs of the chick embryo. By C. S. Teng & C. T. Teng	143	New reaction sequences for the non-oxidative pentose phosphate pathway. By J. F. Williams, P. F. Blackmore & M. G. Clark	257
Membrane proteins in human erythrocytes during cell fusion induced by oleoylglycerol. By S. J. Quirk, Q. F. Ahkong, G. M. Botham, J. Vos & J. A. Lucy	159	Effects of glucagon and $N^6, O^{2'}$ -dibutyryladenosine 3':5'-cyclic monophosphate on calcium transport in isolated rat liver mitochondria. By B. P. Hughes & G. J. Barritt	295
Stimulation of triacylglycerol synthesis in rat adipocytes by plasma very-low-density lipoproteins. By P. Thomopoulos, M. Berthelie, D. Lagrange, M. J. Chapman & M.-H. Laudat	169	Inhibition of isoleucyl-transfer ribonucleic acid synthetase in <i>Echerichia coli</i> by pseudomonic acid. By J. Hughes & G. Mellows	305
Control of isocitrate lyase synthesis in <i>Chlorella fusca</i> var. <i>vacuolata</i> . Rate of enzyme synthesis in the presence and absence of acetate measured by [^{35}S]methionine labelling and immunoprecipitation. By S. M. Dunham & C. F. Thurston	179	Stimulation of anterior pituitary prostaglandin E content and somatotropin (growth hormone) synthesis by phospholipase A. By A. Betteridge & M. Wallis	319
α -Aminoisobutyrate transport into cells from R3230AC mammary adenocarcinoma. Evidence for sodium ion-dependent and -independent carrier-mediated entry and effects of diabetes. By P. J. Hissin & R. Hilf	205	Development Calcium accumulation during sporulation of <i>Bacillus megaterium</i> KM. By C. Hogarth & D. J. Ellar	197
		Metabolism in Whole Organisms Synthesis of 1α -hydroxy[$7\text{-}^3\text{H}$]cholecalciferol and its metabolism in the chick. By S. Edelstein, D. Noff, D. Freeman, M. Sheves & Y. Mazur	111

RAPID PAPERS

	PAGE		PAGE
Biosynthesis and Degradation		Cellular Interactions and Control Processes	
The mechanism of haem degradation <i>in vitro</i> . Kinetic evidence for the formation of a haem-oxygen complex. By S. B. Brown & S. E. Thomas	327	Evidence for a reciprocal relationship between lipogenesis and ketogenesis in hepatocytes from fed virgin and lactating rats. By M. Benito & D. H. Williamson	331

	PAGE		PAGE
A possible role for 5-hydroxytryptamine as a mediator for calcitonin actions on the gastrointestinal tract and pancreas in rats. By A. M. Nakhla & A. Latif	339	Control of rat skeletal-muscle phosphorylase phosphatase activity by adrenaline. By S.-H. Tao, F. L. Huang, A. Lynch & W. H. Glinsmann	347
Evidence for a role of insulin in the regulation of lipogenesis in lactating rat mammary gland. Measurements of lipogenesis <i>in vivo</i> and plasma hormone concentrations in response to starvation and refeeding. By A. M. Robinson, J. R. Girard & D. H. Williamson	343	Development Evidence for the participation of aspartate aminotransferase in hepatic glucose synthesis in the suckling newborn rat. By P. Ferré & D. H. Williamson	335

Contents of Volume 176, No. 2

Biosynthesis and Degradation			
Oxidation of glycine by <i>Phaseolus</i> leghaemoglobin with associated catabolic reactions at the haem. By P. Lehtovaara	351	Ovalbumin digestion by human pepsins 1, 3 and 5. By V. Walker & W. H. Taylor	429
Bile-pigment formation from different leg-haemoglobins. Methine-bridge specificity of coupled oxidation. By P. Lehtovaara & U. Perttilä	359	Participation of cysteine and cystine in inactivation of tyrosine aminotransferase in rat liver homogenates. By W. T. Buckley & L. P. Milligan	449
Effect of modeccin on the steps of peptide-chain elongation. By L. Montanaro, S. Sperti, M. Zamboni, M. Denaro, G. Testoni, A. Gasperi-Campani & F. Stirpe	371	Studies on the fate of pulmonary surfactant in the lung. By R. Desai, T. D. Tetley, C. G. Curtis, G. M. Powell & R. J. Richards	455
Turnover of muscle protein in the fowl (<i>Gallus domesticus</i>). Rates of protein synthesis in fast and slow skeletal, cardiac and smooth muscle of the adult fowl. By G. J. Laurent, M. P. Sparrow, P. C. Bates & D. J. Millward	393	The hydrolysis of phosphatidylinositol by lysosomal enzymes of rat liver and brain. By R. F. Irvine, N. Hemington & R. M. C. Dawson	475
<i>Appendix</i> : An analysis of errors in estimation of the rate of protein synthesis by constant infusion of a labelled amino acid. By P. J. Garlick	402	Growth and muscle protein turnover in the chick. By K. Maruyama, M. L. Sunde & R. W. Swick	573
Turnover of muscle protein in the fowl. Changes in rates of protein synthesis and breakdown during hypertrophy of the anterior and posterior latissimus dorsi muscles. By G. J. Laurent, M. P. Sparrow & D. J. Millward	407	Bioenergetics The regulation of extramitochondrial free calcium ion concentration by rat liver mitochondria. By D. G. Nicholls	463
Turnover of muscle protein in the fowl. Collagen content and turnover in cardiac and skeletal muscles of the adult fowl and the changes during stretch-induced growth. By G. J. Laurent, M. P. Sparrow, P. C. Bates & D. J. Millward	419	Characterization of an <i>Escherichia coli</i> K12 mutant that is sensitive to chlorate when grown aerobically. By G. Giordano, L. Grillet, R. Rosset, J. H. Dou, E. Azoulay & B. A. Haddock	553
		Subcellular Structures A rapid method for the preparation of relatively pure metabolically competent synaptosomes from rat brain. By R. F. G. Booth & J. B. Clark	365

	PAGE		PAGE
Effect of various methods of preparation on the apparent protein composition of eukaryotic ribosomes. An essential preliminary to stoichiometric measurements. By P. Huvos, S. Fey & P. M. D. Hardwicke	381	The oestrogen receptor in the rat uterus in relation to intra-uterine devices and the oestrous cycle. By L. Myatt, G. Chaudhuri, M. G. Elder & L. Lim	523
The acidic ribosomal phosphoprotein of eukaryotes and its relationship to ribosomal proteins L7 and L12 of <i>Escherichia coli</i> . By D. P. Leader & A. A. Coia	569	Interaction of progestins with steroid receptors in human uterus. By A. Kasid, K. Buckshee, V. Hingorani & K. R. Laumas	531
Cellular Interactions and Control Processes			
Regulation of prostaglandin synthesis and of the selective release of lysosomal hydrolases by mouse peritoneal macrophages. By R. J. Bonney, P. D. Wightman, P. Davies, S. J. Sadowski, F. A. Kuehl, Jr. & J. L. Humes	433	Calcium-activated hydrolysis of phosphatidyl- <i>myo</i> -inositol 4-phosphate and phosphatidyl- <i>myo</i> -inositol 4,5-bisphosphate in guinea-pig synaptosomes. By H. D. Griffin & J. N. Hawthorne	541
Systematic variations in the content of the purine nucleotides in the steady-state perfused rat heart. Evidence for the existence of controlled storage and release of adenine nucleotides. By D. J. Bates, D. Perrett & J. Mowbray	485	Effect of alloxan-diabetes on gluconeogenesis and ureogenesis in isolated rabbit liver cells. By J. Zaleski & J. Bryła	563
Hyperglycaemic activity and metabolic effects of 3-aminopicolinic acid. By M. J. MacDonald, M.-T. Huang & H. A. Lardy	495	A method for measuring relative changes in guanosine 3':5'-cyclic monophosphate in mouse neuroblastoma cells on muscarinic cholinergic stimulation. By P. G. Strange	583
Effects of cholera toxin and guanosine 5'-[β -imido]triphosphate on β -adrenergic-receptor affinity. By J. Fischer & G. W. G. Sharp	505	Development	
		The metabolism of high-molecular-weight ribonucleic acid in hypothalamic and cortical regions of the developing female rat brain. By C. Hall & L. Lim	511
		Metabolism in Whole Organisms	
		Biliary excretion of cyclohexylphenyl 4-[35 S]-sulphate in the guinea pig. By G. M. Powell, A. H. Olavesen & C. G. Curtis	443

RAPID PAPERS

	PAGE		PAGE
Biosynthesis and Degradation			
The effects of food deprivation on protein turnover and nucleic acid concentrations of active and immobilized extensor digitorum longus muscles of the rat. By D. F. Goldspink	603	Cellular Interactions and Control Processes	
Initiation of transcription in normal and phosphorylated rat liver nucleosomes. By M. G. Ord & L. A. Stocken	615	Malonaldehyde formation in intact platelets is catalysed by thromboxane synthase. By R. M. McMillan, D. E. MacIntyre, A. Booth & J. L. Gordon	595
Subcellular Structures			
Proteinase-sensitive release of enzymes from pancreatic microsomal fraction. By P. D. Pearce, B. K. May & W. H. Elliott	611	Recognition of the beta-subunit of human chorionic gonadotropin and sub-determinants by target tissue receptors. By S. Ramakrishnan, C. Das & G. P. Talwar	599
		Rat adipose-tissue glycerol phosphate acyl-transferase can be inactivated by cyclic AMP-dependent protein kinase. By H. G. Nimmo & B. Houston	607

Opposite effects of starvation on oxidation of [¹⁴ C]adenosine and adenosine-induced insulin release by isolated mouse pancreatic islets. By A. Andersson	619	Evidence from essential-fatty acid-deficient rats. By J. P. Infante & J. E. Kinsella	631
The role of phosphoenolpyruvate carboxy-kinase in amino acid metabolism in muscle. By E. A. Newsholme & T. Williams	623	Utilization of D-3-hydroxy[3- ¹⁴ C]butyrate for lipogenesis <i>in vivo</i> in lactating rat mammary gland. By A. M. Robinson & D. H. Williamson	635
Activation of pyruvate dehydrogenase in the perfused rat liver by vasopressin. By D. A. Hems, J. G. McCormack & R. M. Denton	627	Metabolism in Whole Organisms	
Control of phosphatidylcholine synthesis and the regulatory role of choline kinase in rat liver.		An improved 11 α -hydroxylation of progesterone by <i>Aspergillus ochraceus</i> TS. By T. B. Samanta, N. Roy & S. Chattopadhyay	593

Contents of Volume 176, No. 3

Biosynthesis and Degradation		Acetoacetate metabolism in rat brain. Development of acetoacetyl-coenzyme A deacylase and 3-hydroxy-3-methylglutaryl-coenzyme A synthase. By T. B. Patel & J. B. Clark	951
Growth and metabolism of fucosylated plasma-membrane glycoproteins in mouse neuroblastoma N2a cells. By A. G. Milenkovic, M. Rachmeler & T. C. Johnson	695	Lipid-linked oligosaccharides containing glucose in lactating rabbit mammary gland. By B. K. Speake & D. A. White	993
The use of rat liver nucleoplasm for the characterization of heterogeneous nuclear ribonucleic acid synthesis <i>in vitro</i> . By T. J. C. Beebee	715	Bioenergetics	
Sources of ammonia for mammalian urea synthesis. By H. A. Krebs, R. Hems, P. Lund, D. Halliday & W. W. C. Read	733	Inhibition of bacterial transport by uncouplers of oxidative phosphorylation. Effects of pentachlorophenol and analogues in <i>Bacillus subtilis</i> . By R. A. Nicholas & G. W. Ordal	639
Utilization of methylmalonate for the synthesis of branched-chain fatty acids by preparations of chicken liver and sheep adipose tissue. By J. R. Scaife, K. W. J. Wahle & G. A. Garton	799	The reduction of diamide by rat liver mitochondria and the role of glutathione. By P. C. Jocelyn	649
Studies of a factor from dystrophic mouse muscle inhibitory towards protein synthesis. By R. A. Petryshyn & D. M. Nicholls	907	Photosensitivity of respiration in <i>Neurospora</i> mitochondria. A protective role for carotenoid. By Z. Ramadan-Talib & J. Prebble	767
Choice of precursors for the measurement of protein turnover by the double-isotope method. Application to the study of mitochondrial proteins. By R. J. Burgess, J. H. Walker & R. J. Mayer	919	Characteristics of the transport of alanine, serine and glutamine across the plasma membrane of isolated rat liver cells. By S. K. Joseph, N. M. Bradford & J. D. McGivan	827
Relative rates of turnover of subunits of mitochondrial proteins. By J. H. Walker, R. J. Burgess & R. J. Mayer	927	A thermodynamic analysis of the interaction between the mitochondrial coupling adenosine triphosphatase and its naturally occurring inhibitor protein. By J. C. Gomez-Fernandez & D. A. Harris	967

	PAGE		PAGE
Anion/calcium ion ratios and proton production in some mitochondrial calcium ion uptakes. <i>By E. J. Harris</i>	983	Responsiveness to glucagon by isolated rat hepatocytes controlled by the redox state of the cytosolic nicotinamide-adenine dinucleotide couple acting on adenosine 3':5'-cyclic monophosphate phosphodiesterase. <i>By M. G. Clark & I. G. Jarrett</i>	805
Cellular Interactions and Control Processes			
Enhancement by double-stranded polyribonucleotides of production by cultured mouse peritoneal macrophages of differentiation-stimulating factor(s) for mouse myeloid leukaemic cells. <i>By M. Tomida, K. Takenaga, Y. Yamamoto & M. Hozumi</i>	665	Differential effects of tryptophan on glucose synthesis in rats and guinea pigs. <i>By S. A. Smith, K. R. F. Elliott & C. I. Pogson</i>	817
Endocytosis of sulphated proteoglycans by cultured skin fibroblasts. <i>By R. Prinz, J. Schwermann, E. Buddecke & K. von Figura</i>	671	The effects of ammonium chloride and bicarbonate on the activity of glutaminase in isolated liver mitochondria. <i>By S. K. Joseph & J. D. McGivan</i>	837
Variation in tissue carnitine concentrations with age and sex in the rat. <i>By P. R. Borum</i>	677	A chemical-modification approach to the olfactory code. Studies with a thiol-specific reagent. <i>By A. Menevse, G. Dodd & T. M. Poynder</i>	845
Stable enhancement of calcium retention in mitochondria isolated from rat liver after the administration of glucagon to the intact animal. <i>By V. Prpić, T. L. Spencer & F. L. Bygrave</i>	705	Control of amylase biosynthesis and release in the parotid gland of the rat. <i>By M. A. McPherson & C. N. Hales</i>	855
Calcium-dependent protein modulator of cyclic nucleotide phosphodiesterases from mouse epidermis. <i>By A. W. Murray & A. Rogers</i>	727	Post-translational regulation of lipoprotein lipase activity in adipose tissue. <i>By P. Ashby, D. P. Bennett, I. M. Spencer & D. S. Robinson</i>	865
Effects of polyamines on prostatic chromatin- and non-histone-protein-associated protein kinase reactions. <i>By K. Ahmed, M. J. Wilson, S. A. Goueli & H. G. Williams-Ashman</i>	739	Mechanisms for the effects of ethanol on hepatic phosphatidate phosphohydrolase. <i>By M. J. Savolainen & I. E. Hassinen</i>	885
The development of ketogenesis at birth in the rat. <i>By P. Ferré, J.-P. Pégrier, D. H. Williamson & J. R. Girard</i>	759	Stimulation by vasopressin, angiotensin and oxytocin of gluconeogenesis in hepatocyte suspensions. <i>By P. D. Whitton, L. M. Rodrigues & D. A. Hems</i>	893
The effects of cortisol, corticotropin and thyroxine on the synthesis of glycerolipids and on the phosphatidate phosphohydrolase activity in rat liver. <i>By H. P. Glenny & D. N. Brindley</i>	777	Calcium ions and the regulation of NAD ⁺ -linked isocitrate dehydrogenase from the mitochondria of rat heart and other tissues. <i>By R. M. Denton, D. A. Richards & J. G. Chin</i>	899
Control of gluconeogenesis and of enzymes of glycogen metabolism in isolated rat hepatocytes. A parallel study of the effect of phenylephrine and of glucagon. <i>By L. Hue, J. E. Felio & H.-G. Hers</i>	791	Onset of ribosome degradation during cessation of growth in BHK-21/C13 cells. <i>By W. T. Melvin & H. M. Keir</i>	933
		An alternative hypothesis of cellular transport of lysosomal enzymes in fibroblasts. Effect of inhibitors of lysosomal enzyme endocytosis on intra- and extra-cellular lysosomal enzyme activities. <i>By K. von Figura & E. Weber</i>	943
		Metabolism of inorganic sulphate in the isolated perfused rat liver. Effect of sulphate concentration on the rate of sulphation by phenol sulphotransferase. <i>By G. J. Mulder & K. Keulemans</i>	959

	PAGE		PAGE
Conversion between renin and high-molecular-weight renin in the dog. By S. Funakawa, Y. Funae & K. Yamamoto	977	The binding of ³ H-labelled oestradiol- and progesterone-receptor complexes to hypothalamic chromatin of male and female sheep. By B. N. Perry & A. Lopez	873
Development			
Age-related changes in the composition and structure of human articular-cartilage proteoglycans. By M. T. Bayliss & S. Y. Ali	683	Metabolism in Whole Organisms	
Turnover of liver glycogen in the rat foetus. By M. Gilbert & J. Bourbon	785	Microbial metabolism of amino alcohols. Formation of coenzyme B ₁₂ -dependent ethanolamine ammonia-lyase and its concerted induction in <i>Escherichia coli</i> . By C. M. Blackwell & J. M. Turner	751

RAPID PAPERS

	PAGE		PAGE
Subcellular Structures			
Isolation of a high-molecular-weight high-mobility-group-type non-histone protein from hen oviduct. By C. S. Teng, K. Gallagher & C. T. Teng	1003	Cellular Interactions and Control Processes	
		Thyroid-hormone modulation of the number of β -adrenergic receptors in rat fat-cell membranes. By Y. Giudicelli	1007
		The influence of respiratory state on monoamine oxidase activity in rat liver mitochondria. By G. S. Smith & R. A. Reid	1011
