

Cellular Aspects

Contents of Volume 178, No. 1, 1979

FULL PAPERS

Biosynthesis and Degradation

Anabolism versus catabolism of [5-³H]uridine and its relationship to ribonucleic acid labelling in mouse liver after partial hepatectomy.

By T. Yngner, C. Engelbrecht, L. Lewan & J.-E. Annerfeldt

1

Computed resolution and relative specific radioactivities of radiolabelled proteins synthesized by isolated gastric mucosal cells.

By C. N. A. Trotman & J. R. Greenwell

159

Bioenergetics

The respiratory chain of *Hydrogenomonas* H16.

By M. C. Beatrice & J. B. Chappell

15

Effect of chronic ethanol administration on energy metabolism and phospholipase A₂ activity in rat liver.

By P. I. Spach, J. W. Parce & C. C. Cunningham

23

Artificially induced active transport of amino acid driven by the efflux of a sugar via a heterologous transport system in de-energized *Escherichia coli*.

By M. Bentaboulet, A. Robin & A. Kepes

103

Energy coupling to the transport of inorganic phosphate in *Escherichia coli* K12.

By H. Rosenberg, R. G. Gerdes & F. M. Harold

133

Transmembrane electrical potential and transmembrane pH gradient in the acidophile *Thiobacillus ferro-oxidans*.

By J. C. Cox, D. G. Nicholls & W. J. Ingledeu

195

Subcellular Structures

Isolation of lysosomes from brain tissue. A separation method by means of alteration of mitochondrial and synaptosomal sedimentation properties.

By J. J. W. Lisman, J. de Haan & B. Overdijk

79

Membranes and bile formation. Composition of several mammalian biles and their membrane-damaging properties.

By R. Coleman, S. Iqbal, P. P. Godfrey & D. Billington

201

Cellular Interactions and Control Processes

The effects of barbiturates on the metabolism of phosphatidic acid and phosphatidylinositol in rat brain synaptosomes.

By J. C. Miller & I. Leung

9

Relationship between hormonal activation of phosphatidylinositol hydrolysis, fluid secretion and calcium flux in the blowfly salivary gland.

By J. N. Fain & M. J. Berridge

45

Inhibition of phosphatidylinositol synthesis and the inactivation of calcium entry after prolonged exposure of the blowfly salivary gland to 5-hydroxytryptamine.

By M. J. Berridge & J. N. Fain

59

Nuclear and cytosolic distribution of conjugated cholic acid and radiolabelled glycocholic acid in rat liver.

By R. C. Strange, G. J. Beckett & I. W. Percy-Robb

71

Glucose transport of *Escherichia coli* growing in glucose-limited continuous culture.

By I. S. Hunter & H. L. Kornberg

97

Suppression of the formation of polyamines and macromolecules by DL- α -difluoromethylornithine and methylglyoxal bis(guanylhydrazone) in phytohaemagglutinin-activated human lymphocytes.

By E. Hölttä, J. Jänne & T. Hovi

109

Mechanism of activation of glycogen phosphorylase by fructose in the liver. Stimulation of phosphorylase kinase related to the consumption of adenosine triphosphate.

By G. Van de Werve & H.-G. Hers

119

Effect of glucocorticoid administration on the rate of muscle protein breakdown *in vivo* in rats, as measured by urinary excretion of N¹-methylhistidine.

By F. M. Tomas, H. N. Munro & V. R. Young

139

Interaction of mitochondrial malate dehydrogenase monomer with phospholipid vesicles.

By K. A. Webster, H. V. Patel, K. B. Freeman & D. Papahadjopoulos

147

Methane synthesis without the addition of adenosine triphosphate by cell membranes isolated from *Methanobacterium ruminantium*.

By F. D. Sauer, J. D. Erfle & S. Mahadevan

165

Nucleosomes from normal and regenerating rat liver. By M. G. Ord & L. A. Stocken	173	Development The distribution of enzyme and isoenzyme activities between parenchymal and haematopoietic cells in the liver of the foetal guinea pig. By A. Faulkner & C. T. Jones	89
Polarization of chlorotetracycline fluorescence in pancreatic islet cells and its response to calcium ions and D-glucose. By I.-B. Täljedal	187	Prolyl 3-hydroxylase and 4-hydroxylase activities in certain rat and chick-embryo tissues and age-related changes in their activities in the rat. By K. Tryggvason, K. Majamaa & K. I. Kivirikko	127
Changes in the contents of adenine nucleotides and intermediates of glycolysis and citric acid cycle in flight muscle of the locust upon flight and their relationship to the control of the cycle. By A. N. Rowan & E. A. Newsholme	209	Metabolism in Whole Organisms Effects of food deprivation on ketonaemia, ketogenesis and hepatic intermediary metabolism in the non-lactating dairy cow. By G. D. Baird, R. J. Heitzman, I. M. Reid, H. W. Symonds & M. A. Lomax	35
Lysophosphatidylcholines can modulate the activity of the glucagon-stimulated adenylate cyclase from rat liver plasma membranes. By M. D. Houslay & R. W. Palmer	217	Fungal metabolism of biphenyl. By R. H. Dodge, C. E. Cerniglia & D. T. Gibson	223

RAPID PAPERS

Bioenergetics Participation of quinone and cytochrome <i>b</i> in tetrathionate reductase respiratory chain of <i>Citrobacter freundii</i> . By Č. Novotný & F. Kaprálek	237	Adenosine, thyroid status and regulation of lipolysis. By J. J. Ohisalo & J. E. Stouffer	249
Cellular Interactions and Control Processes Ricin and modeccin do not inhibit the elongation factor 1-dependent binding of aminoacyl-tRNA to ribosomes. By S. Sperti & L. Montanaro	233	Development Ca ²⁺ -stimulated ribonuclease. A new marker enzyme of differentiated rat mammary tissues. By D. K. Liu, D. Kulick & G. H. Williams	241
Involvement of cytoskeletal structures in nerve-growth-factor-mediated induction of ornithine decarboxylase. By J. Lakshmanan	245	L-Proline transport by newborn rat kidney brush-border membrane vesicles. By D. R. Goldmann, K. S. Roth, T. W. Langfitt, Jr. & S. Segal	253
