

## Cellular Aspects

### Contents of Volume 196, No. 3, 1981

<b>Review</b>		
The separation of cells and organelles by partitioning in two-polymer aqueous phases	D. FISHER	1-10
<b>Protein Biosynthesis/Molecular Genetics</b>		
Characterization of hormonally regulated secretory proteins from the caput epididymidis of the rabbit	R. JONES, K. I. VON GLOS & C. R. BROWN	105-114
<b>Protein Turnover</b>		
Stimulation by glucocorticoids of protein degradation in hepatocyte monolayers	M. F. HOPGOOD, M. G. CLARK & BALLARD	33-40
Effects of microbial proteinase inhibitors on the degradation of endogenous and internalized proteins by rat yolk sacs	S. E. KNOWLES, F. J. BALLARD, G. LIVESEY & K. E. WILLIAMS	41-48
<b>Metabolism, Regulation and Control Processes</b>		
Iron and the liver. Acute and long-term effects of iron-loading on hepatic haem metabolism	H. L. BONKOWSKY, J. F. HEALEY, P. R. SINCLAIR, J. F. SINCLAIR & J. S. POMEROY	57-64
Role of S-adenosylhomocysteine hydrolase in adenosine metabolism in mammalian heart	J. SCHRADER, W. SCHÜTZ & H. BARDENHEUER	65-70
Inhibition of lipid-linked oligosaccharide synthesis by aryl phosphates	S. KATO, M. TSUJI, Y. NAKANISHI & S. SUZUKI	71-79
Copper metabolism in mottled mouse ( <i>Mus musculus</i> ) mutants. Studies of blotchy ( <i>Mo<sup>blo</sup></i> ) mice and a comparison with brindled ( <i>Mo<sup>br</sup></i> ) mice	J. R. MANN, J. CAMAKARIS, N. FRANCIS & D. M. DANKS	81-88
Antibody-mediated targeting of $\alpha$ -1,4-glucosidase-albumin polymers to rat hepatocytes. A model for enzyme therapy	M. J. POZNANSKY & D. BHARDWAJ	89-93
A direct simultaneous plate assay of proteoglycan and collagen degradation by cells in culture and its application to synovial cells	C. PEETERS-JORIS, X. EDMONDS-ALT & G. VAES	95-104
The effect of insulin on plasma-membrane and mitochondrial-membrane potentials in isolated fat-cells	R. J. DAVIS, M. D. BRAND & B. R. MARTIN	133-147
Effects of high-fat diets on hepatic fatty acid oxidation in the rat. Isolation of rat liver peroxisomes by vertical-rotor centrifugation by using a self-generated, iso-osmotic, Percoll gradient	C. E. NEAT, M. S. THOMASSEN & H. OSMUNDSEN	149-159
The role of liver tryptophan pyrrolase in the opposite effects of chronic administration and subsequent withdrawal of drugs of dependence on rat brain tryptophan metabolism	A. A.-B. BADAWY, N. F. PUNJANI & M. EVANS	161-170
Activity of phosphorylase on total global ischaemia in the rat heart. A phosphorus-31 nuclear-magnetic-resonance study	I. A. BAILEY, S. R. WILLIAMS, G. K. RADD & D. G. GADIAN	171-178
Regulation of vitamin D metabolism by calcium and phosphate ions in isolated renal tubules	E. SPANOS, H. FREAKE, S. J. MACAULEY & I. MACINTYRE	187-193
The androgenic regulation of superhelical-DNA nicking-closing enzyme in rat ventral prostate	J. D. FILIPENKO, P. S. RENNIE & N. BRUCHOVSKY	195-202
Effect of prevention of procollagen triple-helix formation on proline 3-hydroxylation in freshly isolated chick-embryo tendon cells	K. MAJAMAA	203-206

Possible involvement of the enhanced tryptophan pyrrolase activity in the corticosterone- and starvation-induced increases in concentrations of nicotinamide-adenine dinucleotides (phosphates) in rat liver	A. A.-B. BADAWY	217-224
Metabolism of thymine nucleotides synthesized via the 'de novo' mechanism in normal, megalablastic and methotrexate-treated human cells and in a lymphoblastoid cell line	M. R. TAHERI, R. G. WICKREMASINGHE & A. V. HOFFBRAND	225-235
Increase in fatty acid oxidation in calvaria cells cultured with diphosphonates	R. FELIX & H. FLEISCH	237-245
Effect of hyperthyroidism and hypothyroidism on lipid and carbohydrate metabolism of the perfused rat liver	M. E. LAKER & P. A. MAYES	247-255
Choline metabolism and phosphatidylcholine biosynthesis in cultured rat hepatocytes	P. H. PRITCHARD & D. E. VANCE	261-267
Effect of allylisopropylacetamide on glutathione metabolism in the rat liver. The possible role of glutathione in the induction of 5-aminolaevulinic synthase	M. D. MAINES	285-292
The effects of 1-hydroxyethane-1,1-diphosphonate and dichloromethanediphosphonate on collagen synthesis by rabbit articular chondrocytes and rat bone cells	H. L. GUENTHER, H. E. GUENTHER & H. FLEISCH	293-301
The influence of 1-hydroxyethane-1,1-diphosphonate and dichloromethanediphosphonate on lysine hydroxylation and cross-link formation in rat bone, cartilage and skin collagen	H. L. GUENTHER, H. E. GUENTHER & H. FLEISCH	303-310
The purine nucleotide cycle in the regulation of ammonia-geneis during induction and cessation of chronic acidosis in the rat kidney	R. T. BOGUSKY, K. A. STEELE & L. M. LOWENSTEIN	323-326
Triacylglycerol metabolism in the phenobarbital-treated rat	D. M. GOLDBERG, M. W. ROOMI, A. YU & D. A. K. RONCARI	337-346
Light control of fatty acid synthesis and diurnal fluctuations of fatty acid composition in leaves	J. BROWSE, P. G. ROUGHAN & C. R. SLACK	347-354
Mechanism of hydroxylation of biphenyl by <i>Cunninghamella echinulata</i>	R. V. SMITH, P. J. DAVIS, A. M. CLARK & S. K. PRASATIK	369-371
<b>Cell Surfaces and Receptors</b>		
Human placental coated vesicles contain receptor-bound transferrin	A. G. BOOTH & M. J. WILSON	355-362
<b>Developmental Biochemistry</b>		
Changes in galactosyltransferase activity in chick pectoral muscle during embryonic development	S. J. ULLRICH, C. KENT & D. M. CARLSON	17-23
Chromatin organization in the rat hypothalamus during early development	S. A. WHATLEY, C. HALL & L. LIM	115-119
Foetal and maternal rates of glucose production and utilization in chronically catheterized ditocous ewes	J. C. HODGSON, D. J. MELLOR & A. C. FIELD	179-186
Maturation in liver mitochondria of Ruthenium Red-sensitive calcium-ion-transport activity and the influence of glucagon administration <i>in vivo</i> and <i>in utero</i>	V. PRPIĆ & F. L. BYGRAVE	207-216
The prenatal and postnatal development of UDP-glucuronyl-transferase activity towards bilirubin and the effect of premature birth on this activity in the human liver	N. KAWADE & S. ONISHI	257-260
Developmental changes in the composition of polyadenylated RNA isolated from free and membrane-bound polyribosomes of the rat forebrain, analysed by translation <i>in vitro</i>	C. HALL & L. LIM	327-336

Influence of steroid-hormone-receptor-protein complexes on initiation of ribonucleic acid synthesis in liver nuclei isolated from rats of various ages	J. K. MILLER & R. BOLLA	373-375
<b>Members, Transport, Bioenergetics and Photosynthesis</b>		
Enzymes and proteins in bile. Variations in output in rat cannula bile during and after depletion of the bile-salt pool	P. P. GODFREY, M. J. WARNER & R. COLEMAN	11-16
Studies on valinomycin inhibition of synaptosome-fraction protein synthesis	M. A. VERITY, M. K. CHEUNG & W. J. BROWN	25-32
Effect of molecular size of <sup>125</sup> I-labelled poly(vinylpyrrolidone) on its pinocytosis by rat visceral yolk sacs and rat peritoneal macrophages	R. DUNCAN, M. K. PRATTEN, H. C. CABLE, H. RINGSDORF & J. B. LLOYD	49-55
Microvilli of the human term placenta. Isolation and subfractionation by centrifugation in sucrose density gradients	P. TRUMAN, J. ST. J. WAKEFIELD & H. C. FORD	121-132
Identification of the AraE transport protein of <i>Escherichia coli</i>	A. J. S. MACPHERSON, M. C. JONES-MORTIMER & P. J. F. HENDERSON	269-283
Estimation with an ion-selective electrode of the membrane potential in cells of <i>Paracoccus denitrificans</i> from the uptake of the butyltriphenylphosphonium cation during aerobic and anaerobic respiration	J. E. G. MCCARTHY, S. J. FERGUSON & D. B. KELL	311-321
Cytochrome <i>b</i> <sub>-245</sub> of neutrophils is also present in human monocytes, macrophages and eosinophils	A. W. SEGAL, R. GARCIA, A. H. GOLDSTONE, A. R. CROSS & O. T. G. JONES	363-367
