

Molecular Aspects

Contents of Volume 205, No. 1, 1982

Review Article		
Specific targets for antiviral drugs	E. DE CLERCQ	1-13
Peptide and Protein Structure		
Structural comparison of the haemoglobin components of the armoured catfish <i>Pterygopichthys pardalis</i> . Evolutionary considerations	F. BOSSA, M. R. SAVI, D. BARRA & M. BRUNORI	39-42
Biochemical characterization of mouse vitamin D-dependent calcium-binding protein. Evidence for its presence in embryonic life	A.-C. DELORME, J.-L. DANAN, M.-A. RIPOCHE & H. MATHIEU	49-57
The purification and properties of the second component of guinea-pig complement	M. A. KERR & J. GAGNON	59-67
Evolution of α_2 -macroglobulin. The demonstration in a variety of vertebrate species of a protein resembling human α_2 -macroglobulin	P. M. STARKEY & A. J. BARRETT	91-95
Evolution of α_2 -macroglobulin. The purification and characterization of a protein homologous with human α_2 -macroglobulin from plaice (<i>Pleuronectes platessa</i> L.) plasma	P. M. STARKEY, T. C. FLETCHER & A. J. BARRETT	97-104
Evolution of α_2 -macroglobulin. The structure of a protein homologous with human α_2 -macroglobulin from plaice (<i>Pleuronectes platessa</i> L.) plasma	P. M. STARKEY & A. J. BARRETT	105-115
Structural role of the tyrosine residues of cytochrome <i>c</i>	C. G. S. ELEY, G. R. MOORE, R. J. P. WILLIAMS, W. NEUPERT, P. J. BOON, H. H. K. BRINKHOF, R. J. F. NIVARD & G. I. TESSER	153-165
Transitions in human atrial and ventricular myosin light-chain isoenzymes in response to cardiac-pressure-overload-induced hypertrophy	P. CUMMINS	195-204
ADP-ribosylation of nuclear proteins in mouse testis	M. R. FARAONE MENNELLA, P. QUESADA, B. FARINA, E. LEONE & R. JONES	245-248
Enzymes and Enzyme Kinetics		
Inhibition of renin by conformationally restricted analogues of angiotensinogen	C. R. NAKAIE, M. C. F. OLIVEIRA, L. JULIANO & A. C. M. PAIVA	43-47
Purification and properties of hyaluronidase from human liver. Difference from and similarities to the testicular enzyme	E. W. GOLD	69-74
The chymotrypsin-catalysed activation of bovine liver glutamate dehydrogenase	G. A. PLACE & R. J. BEYNON	75-80
Metabolism of xenobiotic compounds by enzymes in cell extracts of the fungus <i>Cunninghamella elegans</i>	L. P. WACKETT & D. T. GIBSON	117-122
Purification and properties of acetyl-CoA:L-glutamate <i>N</i> -acetyltransferase from human liver	C. BACHMANN, S. KRÄHENBÜHL & J.-P. COLOMBO	123-127
Preparation of the cellulase from the cellulolytic anaerobic rumen bacterium <i>Ruminococcus albus</i> and its release from the bacterial cell wall	T. M. WOOD, C. A. WILSON & C. S. STEWART	129-137
Purification and partial characterization of a thiol proteinase from the thermophilic fungus <i>Humicola lanuginosa</i>	S. SHENOLIKAR & K. J. STEVENSON	147-152

Evidence for catalytic dismutation of superoxide by cobalt(II) derivatives of bovine superoxide dismutase in aqueous solution as studied by pulse radiolysis	P. O'NEILL, E. M. FIELDEN, D. COCCO, G. ROTILIO & L. CALABRESE	181-187
Characterization of papaya peptidase A as a cysteine proteinase of <i>Carica papaya</i> L. with active-centre properties that differ from those of papain by using 2,2'-dipyridyl disulphide and 4-chloro-7-nitrobenzofurazan as reactivity probes. Use of two-protonic-state electrophiles in the identification of catalytic-site thiol groups	B. S. BAINES & K. BROCKLEHURST	205-211
Glutathione <i>S</i> -transferases of the bovine retina. Evidence that glutathione peroxidase activity is the result of glutathione <i>S</i> -transferase	R. P. SANETO, Y. C. AWASTHI & S. K. SRIVASTAVA	213-217
Activation of β -galactosidase by monoclonal antibodies	R. J. S. DUNCAN, J. HEWITT & P. D. WESTON	219-224
Kinetics of leaf nitrite reductase with Methyl Viologen and ferredoxin under controlled redox conditions	I. V. FRY, R. CAMMACK, D. P. HUCKLESBY & E. J. HEWITT	235-238
Metalloproteins		
Fluorescent properties of <i>Neurospora</i> tyrosinase	M. BELTRAMINI & K. LERCH	173-180
Gene Structure and Function		
Localization of testis-variant histones in rat testis chromatin	M. R. S. RAO, B. J. RAO & J. GANGULY	15-21
Membranes		
Properties of <i>N</i> -maleoylmethionine sulphone, a novel impermeant maleimide, and its use in the selective labelling of the erythrocyte glucose-transport system	S. J. ROBERTS, M. J. A. TANNER & R. M. DENTON	139-145
Fractionation of membrane proteins on phenylboronic acid-agarose	G. T. WILLIAMS, A. P. JOHNSTONE & P. D. G. DEAN	167-171
Isolation and protein composition of gap junctions from rabbit hearts	C. K. MANJUNATH, G. E. GOINGS & E. PAGE	189-194
Carbohydrates and Complex Carbohydrates		
Structure and biological activity of finback-whale (<i>Balaenoptera physalus</i> L.) heparin octasaccharide. Chemical, carbon-13 nuclear-magnetic-resonance, enzymic and biological studies	N. OTOTANI, M. KIKUCHI & Z. YOSIZAWA	23-30
Isolation and characterization of the major oligosaccharide of human platelet membrane glycoprotein GPIb	P. A. JUDSON, D. J. ANSTEE & J. R. CLAMP	81-90
Purification and immunofluorescent localization of rat submandibular mucin	N. FLEMING, M. BRENT, R. ARELLANO & J. F. FORSTNER	225-233
Physical Biochemistry		
Multiple supramolecular structures formed by interaction of actin with protamine	E. GRAZI, E. MAGRI & I. PASQUALI-RONCHETTI	31-37
General Methods		
A study of the mechanism of quercetin oxygenation by ¹⁸ O labelling. A comparison of the mechanism with that of haem degradation	S. B. BROWN, V. RAJANANDA, J. A. HOLROYD & E. G. V. EVANS	239-244
