

Cellular Aspects

Contents of Volume 206, No. 3, 1982

Protein Turnover

The effects of glucose, acetate, lactate and insulin on protein degradation in the perfused rat heart	P. H. SUGDEN & D. M. SMITH	467-472
Rates of collagen synthesis in lung, skin and muscle obtained <i>in vivo</i> by a simplified method using [³ H]proline	G. J. LAURENT	535-544
Glucocorticoid action on protein synthesis and protein breakdown in isolated skeletal muscles	J. A. MCGRATH & D. F. GOLDSPIK	641-645

Metabolism, Regulation and Control Processes

The effects <i>in vitro</i> of hypoglycaemia and recovery from anoxia on synaptosomal metabolism	S. A. K. HARVEY, R. F. G. BOOTH & J. B. CLARK	433-439
Tryptophan pyrrolase in haem regulation. The mechanisms of enhancement of rat liver 5-aminolaevulinate synthase activity by starvation and of the glucose effect on induction of the enzyme by 2-allyl-2-isopropylacetamide	A. A.-B. BADAWY, A. N. WELCH & C. J. MORGAN	441-449
Tryptophan and tryptophan pyrrolase in haem regulation. The role of lipolysis and direct displacement of serum-protein-bound tryptophan in the opposite effects of administration of endotoxin, morphine, palmitate, salicylate and theophylline on rat liver 5-aminolaevulinate synthase activity and the haem saturation of tryptophan pyrrolase	A. A.-B. BADAWY & C. J. MORGAN	451-460
An improved radioimmunoassay for urinary Tamm-Horsfall glycoprotein. Investigation and resolution of factors affecting its quantification	A. B. ST. J. DAWNAY, C. THORNLEY & W. R. CATTELL	461-465
The effects of insulin on glucose uptake and lactate release in perfused working rat heart preparations	P. H. SUGDEN & D. M. SMITH	473-479
Regulation of proline 3-hydroxylation and prolyl 3-hydroxylase and 4-hydroxylase activities in transformed cells	K. MAJAMAA, R. MYLLYLÄ, K. ALITALO & A. VAHERI	499-503
The bile acid composition of gastric contents from neonates with high intestinal obstruction	P. T. CLAYTON, D. P. R. MULLER & A. M. LAWSON	489-498
Influence of cell density on collagen biosynthesis in fibroblast cultures	M. AUMAILLEY, T. KRIEG, G. RAZAKA, P. K. MÜLLER & H. BRICAUD	505-510
Activation of erythrocyte Ca ²⁺ -plus-Mg ²⁺ -stimulated adenosine triphosphatase by protein kinase (cyclic AMP-dependent) inhibitor. Comparison with calmodulin	A.-E.-V. MINOCHERHOMJEE & B. D. ROUFOGALIS	517-525
Isolation of cell-surface glycopeptides from bovine cerebral cortex that inhibit cell growth and protein synthesis in normal but not in transformed cells	R. J. KINDERS & T. C. JOHNSON	527-534
Receptor-mediated net breakdown of phosphatidylinositol 4,5-bisphosphate in parotid acinar cells	S. J. WEISS, J. S. MCKINNEY & J. W. PUTNEY, JR.	555-560
The regulation of hepatic stearoyl-coenzyme A desaturase in obese-hyperglycaemic (<i>ob/ob</i>) mice by food intake and the fatty acid composition of the diet	M. ENSER & J. L. ROBERTS	561-570
Regulation of glycolysis and fatty acid synthesis from glucose in sheep adipose tissue	J. P. ROBERTSON, A. FAULKNER & R. G. VERNON	577-586
Superoxide-dependent formation of hydroxyl radicals and lipid peroxidation in the presence of iron salts. Detection of 'catalytic' iron and anti-oxidant activity in extracellular fluids	J. M. C. GUTTERIDGE, D. A. ROWLEY & B. HALLIWELL	605-609

Acute effects of glucagon on citrulline biosynthesis	D. RABIER, P. BRIAND, F. PETIT, P. PARVY, P. KAMOUN & L. CATHELINÉAU	627-631
Hydrolysis of plasma triacylglycerol-rich lipoproteins from immature and laying hens (<i>Gallus domesticus</i>) by lipoprotein lipase <i>in vitro</i>	H. GRIFFIN, G. GRANT & M. PERRY	647-654
The fate of insulin in cardiac muscle. Studies on isolated muscle cells from adult rat heart	J. ECKEL & H. REINAUER	655-662
Effects of high-carbohydrate diets on lipogenesis in rat interscapular brown adipose tissue	P. J. WEAIRE & T. F. KANAGASABAI	667-669
Proteolytic activation can produce a phosphatidylinositol phosphodiesterase highly sensitive to Ca ²⁺	K. HIRASAWA, R. F. IRVINE & R. M. C. DAWSON	675-678
Cell Surfaces and Receptors		
Lithium amplifies agonist-dependent phosphatidylinositol responses in brain and salivary glands	M. J. BERRIDGE, C. P. DOWNES & M. R. HANLEY	587-595
Characterization of [Leu ^{B-24}]- and [Leu ^{B-25}]-insulin analogues. Receptor binding and biological activity	M. KOBAYASHI, S. OHGAKU, M. IWASAKI, H. MAEGAWA, Y. SHIGETA & K. INOUE	597-603
Characterization of the molybdate-stabilized glucocorticoid receptor from rat thymus	P. J. WEATHERILL & P. A. BELL	633-640
Sendai virus causes a rise in intracellular free Ca ²⁺ before cell fusion	M. B. HALLETT, P. FUCHS & A. K. CAMPBELL	671-674
Developmental Biochemistry		
Changes in the blood level and affinity to concanavalin A of rat plasma glycoproteins during acute inflammation and hepatoma growth	A. KOJ, A. DUBIN, H. KASPERCZYK, J. BERETA & A. H. GORDON	545-553
A comparative study of the localization of wheat-germ agglutinin and its potential receptors in wheat grains	R. C. MILLER & D. J. BOWLES	571-576
The storage and synthetic pools of heparin-releasable lipoprotein lipase and hepatic triacylglycerol lipase in the growing puppy	J. B. DAS, I. D. JOSHI & A. I. PHILIPPART	663-666
Membranes, Transport, Bioenergetics and Photosynthesis		
Methyl group transfer from exogenous <i>S</i> -adenosyl-methionine on to plasma-membrane phospholipids without cellular uptake in isolated hepatocytes	L. VAN PHI & H.-D. SÖLING	481-487
Tetracyano-2,2-bipyridineiron(III), an improved electron acceptor for the spectrophotometric assay of β -oxidation and of succinate dehydrogenase in intact mitochondria	D. M. TURNBULL, H. S. A. SHERRATT, D. M. DAVIES & A. G. SYKES	511-516
The effect of β -adrenergic agonists on the membrane potential of fat-cell mitochondria <i>in situ</i>	R. J. DAVIS & B. R. MARTIN	611-618
The effect of α -adrenergic agonists on the membrane potential of fat-cell mitochondria <i>in situ</i>	R. J. DAVIS & B. R. MARTIN	619-626
