

## Cellular Aspects

### Contents of Volume 208, No. 2, 1982

#### Protein Biosynthesis/Molecular Genetics

- Precursors in the biosynthesis of vasopressin and oxytocin in the rat. Characteristics of all the components in high-performance liquid chromatography R. W. SWANN, C. B. GONZALEZ, S. D. BIRKETT & B. T. PICKERING 339-349
- Uptake and binding of cadmium and mercury to metallothionein in rat hepatocyte primary cultures R. J. GERSON & Z. A. SHAIKH 465-472
- Cytochrome *c* oxidase is preferentially synthesized in the rough endoplasmic reticulum-mitochondrion complex in rat liver S. PARIMOO, N. RAO & G. PADMANABAN 505-507

#### Protein Turnover

- Regulation of protein accumulation in cultured cells F. J. BALLARD 275-287

#### Metabolism, Regulation and Control Processes

- Transformation-specific cell killing by a cancer-associated galactosyltransferase acceptor and cellular binding D. K. PODOLSKY & K. J. ISSELBACHER 249-259
- Stimulating role of potassium ions and ouabain on glycogen synthesis in adipose tissue F. SOBRINO, G. RUIZ & R. GOBERNA 261-268
- Influence of the state of ribosome association on the phosphorylation of ribosomal proteins in isolated ribosome-protein kinase systems from rat cerebral cortex T. A. FRANCIS & S. ROBERTS 289-300
- A single mechanism for the stimulation of insulin release and <sup>86</sup>Rb<sup>+</sup> efflux from rat islets by cationic amino acids S. CHARLES, T. TAMAGAWA & J.-C. HENQUIN 301-308
- Characteristics of the desensitization and resensitization of the cyclic AMP-independent glycogenolytic response in rat liver cells S. KEPPENS & H. DE WULF 317-322
- Insulin mediates the stimulation of pyruvate kinase by a dual mechanism W. C. PARKS & R. L. DRAKE 333-337
- Apoprotein B of lipoprotein(a) of human plasma P. MONDOLA & D. REICHL 393-398
- Zinc release and the sequence of biochemical events during triggering of *Bacillus megaterium* KM spore germination K. JOHNSTONE, G. S. A. B. STEWART, I. R. SCOTT & D. J. ELLAR 407-411
- Fatty acid oxidation by liver and muscle preparations of exhaustively exercised rats H. A. BARAKAT, G. J. KASPEREK, G. L. DOHM, E. B. TAPSCOTT & R. D. SNIDER 419-424
- Directional Ca<sup>2+</sup> effect on stimulation of mucin secretion from chicken trachea *in vitro* N. MIAN, C. E. ANDERSON, A. J. POPE, A. R. SMITH, P. S. RICHARDSON, K. BALFRE & P. W. KENT 425-433
- Restriction of bacterial growth by inhibition of polyamine biosynthesis by using monofluoromethylornithine, difluoromethylarginine and dicyclohexylammonium sulphate A. J. BITONTI, P. P. MCCANN & A. SJOERDSMA 435-441
- Studies on acetyl-CoA carboxylase and fatty acid synthase from rat mammary gland and mammary tumours P. M. AHMAD, D. S. FELTMAN & F. AHMAD 443-452
- Inhibition of phosphatidylcholine synthesis by vasopressin and angiotensin in rat hepatocytes S. ALEMANY, I. VARELA & J. M. MATO 453-457
- The use of *N*-methylprotoporphyrin dimethyl ester to inhibit ferrocyclase in *Rhodospseudomonas sphaeroides* and its effect in promoting biosynthesis of magnesium tetrapyrroles J. D. HOUGHTON, C. L. HONEYBOURNE, K. M. SMITH, H. D. TABBA & O. T. G. JONES 479-486
- The effect of *N*-methylprotoporphyrin IX on the synthesis of photosynthetic pigments in *Cyanidium caldarium*. Further evidence for the role of haem in the biosynthesis of plant bilins S. B. BROWN, J. A. HOLROYD, D. I. VERNON, R. F. TROXLER & K. M. SMITH 487-491

Selective uptake of alloxan by pancreatic B-cells	F. K. GORUS, W. J. MALAISSE & D. G. PIPELEERS	513-515
The control of glucose 1,6-bisphosphatase by Ca <sup>2+</sup> and calmodulin	M. J. O. WAKELAM, M. EMMERICH & D. PETTE	517-519
The metabolism of the fluorescent probe cholesta-5,7,9-(11)-trien-3 $\beta$ -ol by rat liver	D. C. WILTON	521-523
<b>Cell Surfaces and Receptors</b>		
The hormone-binding unit of luteinizing hormone receptor	M. K. METSIKKÖ & H. J. RAJANIEMI	309-316
The surface glycoproteins of human skin fibroblasts detected after electrophoresis by the binding of peanut ( <i>Arachis hypogaea</i> ) agglutinin and <i>Ricinus communis</i> (castor-bean) agglutinin I	B. B. GORDON & S. D. J. PENA	351-358
Intracellular inactivation, reactivation and dynamic status of prostate androgen receptors	G. P. ROSSINI & S. LIAO	383-392
Activation of the chick oviduct progesterone receptor by heparin in the presence or absence of hormone	C.-R. YANG, J. MEŠTER, A. WOLFSON, J.-M. RENOIR & E.-E. BAULIEU	399-406
Thiol-sensitive sites in cell adhesion. Decreased entry of SH-binding reagents into attached BHK cells	D. D. MCABEE & F. GRINNELL	473-478
Processing of acetylated human low-density lipoprotein by parenchymal and non-parenchymal liver cells. Involvement of calmodulin?	T. J. C. VAN BERKEL, J. F. NAGELKERKE, L. HARKES & J. K. KRUIJT	493-503
<b>Developmental Biochemistry</b>		
Cellular content and biosynthesis of polyamines during rooster spermatogenesis	R. OLIVA, S. VIDAL & C. MEZQUITA	269-273
The use of acetyl-CoA carboxylase activity and changes in wall composition as measures of embryogenesis in tissue cultures of oil palm ( <i>Elaeis guineensis</i> )	E. TURNHAM & D. H. NORTHCOTE	323-332
<b>Membranes, Transport, Bioenergetics and Photosynthesis</b>		
The use of potential-sensitive cyanine dye for studying ion-dependent electrogenic renal transport of organic solutes. Spectrophotometric measurements	U. KRAGH-HANSEN, K. E. JØRGENSEN & M. I. SHEIKH	359-368
The use of a potential-sensitive cyanine dye for studying ion-dependent electrogenic renal transport of organic solutes. Uptake of L-malate and D-malate by luminal membrane vesicles	U. KRAGH-HANSEN, K. E. JØRGENSEN & M. I. SHEIKH	369-376
An efficient method for the isolation and separation of basolateral-membrane and luminal-membrane vesicles from rabbit kidney cortex	M. I. SHEIKH, U. KRAGH-HANSEN, K. E. JØRGENSEN & H. RØIGAARD-PETERSEN	377-382
Studies <i>in vitro</i> on shuttle systems of mouse spermatozoa	C. BURGOS, C. E. CORONEL, N. M. G. DE BURGOS, L. E. ROVAI & A. BLANCO	413-417
Variable H <sup>+</sup> /substrate stoichiometries in <i>Rhodotorula gracilis</i> are caused by a pH-dependent protonation of the carrier(s)	R. HAUER & M. HÖFER	459-464
The development of $\gamma$ -glutamyltransferase in a pig renal-epithelial-cell line <i>in vitro</i> . Relationship to amino acid transport	F. V. SEPÚLVEDA, K. A. BURTON & J. D. PEARSON	509-512
<b>B.J. Letters</b>		
Does fasting decrease the inhibitory effect of malonyl-CoA on hepatic $\beta$ -oxidation?	E. D. SAGGERSON	525-526
Malonyl-CoA inhibition of carnitine palmitoyltransferase I: response to Dr. Saggerson's Letter	J. D. MCGARRY & D. W. FOSTER	527-528
