

## Cellular Aspects

### Contents of Volume 212, No. 3, 1983

#### Protein Biosynthesis/Molecular Genetics

- The folding of ovalbumin. Renaturation *in vitro* versus biosynthesis *in vitro* R. D. KLAUSNER, C. KEMPF, J. N. WEINSTEIN, R. BLUMENTHAL & J. VAN RENSWOUDE **801-810**

#### Protein Turnover

- Comparison of protein synthesis and degradation in incubated and perfused muscle A. S. CLARK & W. E. MITCH **649-653**
- Metabolism of cartilage proteins in cultured tissue sections M. PAULSSON, Y. SOMMARIN & D. HEINEGÅRD **659-667**
- A radioiodinated, intracellularly trapped ligand for determining the sites of plasma protein degradation *in vivo* R. C. PITTMAN, T. E. CAREW, C. K. GLASS, S. R. GREEN, C. A. TAYLOR, JR. & A. D. ATTIE **791-800**

#### Metabolism, Regulation and Control Processes

- Comparative studies on the cumene hydroperoxide- and NADPH-supported *N*-oxidation of 4-chloroaniline by cytochrome *P*-450 P. HLAVICA, I. GOLLY & J. MIETASCHK **539-547**
- Stimulation of microsomal lipid peroxidation by iron and cysteine. Characterization and the role of free radicals A. J. F. SEARLE & R. L. WILLSON **549-554**
- Stimulation by  $\alpha$ -adrenergic agonists of  $Ca^{2+}$  fluxes, mitochondrial oxidation and gluconeogenesis in perfused rat liver W. M. TAYLOR, P. H. REINHART & F. L. BYGRAVE **555-565**
- Quantitative analysis of flux along the gluconeogenic, glycolytic and pentose phosphate pathways under reducing conditions in hepatocytes isolated from fed rats J. M. CRAWFORD & J. J. BLUM **585-598**
- Formation of *N*-alkylated protoporphyrin IX in the livers of mice after diethylnitrosamine treatment I. N. H. WHITE, A. G. SMITH & P. B. FARMER **599-608**
- Accumulation of triacylglycerol in cultured rat hepatocytes is increased by ethanol and by insulin and dexamethasone J. DICH, B. BRO, N. GRUNNET, F. JENSEN & J. KONDRUP **617-623**
- Carbon tetrachloride, bromotrichloromethane and ethanol acute intoxication. New chemical evidence for lipid peroxidation in rat tissue microsomes F. P. CORONGIU, M. LAI & A. MILIA **625-631**
- Metabolic control of hepatic gluconeogenesis during exercise G. L. DOHM & E. A. NEWSHOLME **633-639**
- Mycoplasma-induced BALB/c 3T3 collagenase is a mammalian enzyme B. KLUVE, W. C. MERRICK & H. GERSHMAN **641-647**
- Bovine serum albumin decreases 4-methyl-2-oxovalerate utilization by isolated rat hepatocytes G. LIVESEY **655-658**
- The effects of starvation and re-feeding on glycogen metabolism in mouse tail skin C. S. HARMON & P. J. R. PHIZACKERLEY **679-683**
- Limits to the early increase in free cytoplasmic calcium concentration during the mitogenic stimulation of lymphocytes T. R. HESKETH, T. POZZAN, G. A. SMITH & J. C. METCALFE **685-690**
- The bivalent-cation dependence of phosphatidylinositol synthesis in a cell-free system from lymphocytes J. P. MOORE, G. A. SMITH, T. R. HESKETH & J. C. METCALFE **691-697**
- The purine nucleotide cycle and ammonia formation from glutamine by rat kidney slices T. STRZELECKI, J. ROGULSKI & S. ANGIELSKI **705-711**
- Effect of antimicrotubule agents on terminal glycosyltransferases and other enzymes associated with rat liver subcellular fractions S. AZHAR, S. F. HWANG & E. P. REAVEN **721-731**

Rapid breakdown of phosphatidylinositol 4-phosphate and phosphatidylinositol 4,5-bisphosphate in rat hepatocytes stimulated by vasopressin and other Ca <sup>2+</sup> -mobilizing hormones	J. A. CREBA, C. P. DOWNES, P. T. HAWKINS, G. BREWSTER, R. H. MICHELL & C. J. KIRK	733-747
Glycolysis and respiration in yeasts. The Pasteur effect studied by mass spectrometry	D. LLOYD, B. KRISTENSEN & H. DEGN	749-754
Lipid peroxidation and haemoglobin degradation in red blood cells exposed to t-butyl hydroperoxide. The relative roles of haem- and glutathione-dependent decomposition of t-butyl hydroperoxide and membrane lipid hydroperoxides in lipid peroxidation and haemolysis	R. J. TROTTA, S. G. SULLIVAN & A. STERN	759-772
Correlation of Ca <sup>2+</sup> - and calmodulin-dependent protein kinase activity with secretion of insulin from islets of Langerhans	J. R. COLCA, C. L. BROOKS, M. LANDT & M. L. MCDANIEL	819-827
Glutamine metabolism in lymphocytes of the rat	M. S. M. ARDAWI & E. A. NEWSHOLME	835-842
Regulation of cholesterol synthesis in the liver and mammary gland of the lactating rat	G. F. GIBBONS, C. R. PULLINGER, M. R. MUNDAY & D. H. WILLIAMSON	843-848
Effects of dibutyryl cyclic AMP on the synthesis of dolichol-linked saccarides and glycoproteins in cultured hepatoma cells. Correlation with the effect on the adhesiveness of the cells	Y. OKAMOTO, H. SAKAI, J. SATO & N. AKAMATSU	859-867
Biochemical differences in the mechanism of macrophage lysosomal exocytosis initiated by zymosan particles and weak bases	D. W. H. RICHES, J. L. WATKINS & D. R. STANWORTH	869-874
Substrate utilization by rat stomach <i>in vitro</i> . Arteriovenous differences for glucose, lactate, ketone bodies, fatty acids and glycerol under control and acid-secreting conditions	N. G. ANDERSON & P. J. HANSON	875-879
Peroxisomal palmitoyl-CoA oxidation in the Zucker rat	P. S. BRADY & C. L. HOPPEL	891-894
Role of diamine oxidase during the treatment of tumour-bearing mice with combinations of polyamine anti-metabolites	A. KALLIO & J. JÄNNE	895-898
Mechanism for the 'anti-lipolytic' action of vasopressin in the starved rat	A. M. ROFE & D. H. WILLIAMSON	899-902
<b>Cell Surfaces and Receptors</b>		
Differences in degradation processes for insulin and its receptor in cultured foetal hepatocytes	E. PRINGAULT & C. PLAS	529-537
The calcitonin receptor on T 47D breast cancer cells. Evidence for glycosylation	J. M. MOSELEY, D. M. FINDLAY, J. J. GORMAN, V. P. MICHELANGELI & T. J. MARTIN	609-616
Human platelets are defective in processing of cholera toxin	R. J. HUGHES & P. A. INSEL	669-678
Rapid accumulation of inositol trisphosphate reveals that agonists hydrolyse polyphosphoinositides instead of phosphatidylinositol	M. J. BERRIDGE	849-858
Endoglycosidase H-sensitive glycopeptides in eleven different animal cells	C. CECCARINI & P. H. ATKINSON	881-885
<b>Developmental Biochemistry</b>		
Phosphorylation of spore coat proteins during development of <i>Dictyostelium discoideum</i>	S. J. DELANEY, D. G. WILKINSON & B. D. HAMES	699-703
The influence of <i>myo</i> -inositol on phosphatidylglycerol synthesis by rat type II pneumonocytes	J. E. BLEASDALE, N. E. TYLER, F. N. BUSCH & J. G. QUIRK	811-818
<b>Membranes, Transport, Bioenergetics and Photosynthesis</b>		
Effects of amiprofosmethyl on massive and limited calcium loading of maize mitochondria	C. HERTEL, H. AFFOLTER, D. MARME & C. DIERKS-VENTLING	567-572

Diet fat influences liver plasma-membrane lipid composition and glucagon-stimulated adenylate cyclase activity	P. J. NEELANDS & M. T. CLANDININ	573-583
Effect of acidosis on glutamine transport by isolated rat renal brush-border and basolateral-membrane vesicles	J. W. FOREMAN, R. A. REYNOLDS, K. GINKINGER, & S. SEGAL	713-720
The effects of acetaldehyde on nitrogenase, hydrogenase and photosynthesis in the cyanobacterium <i>Anabaena cylindrica</i>	B. SLATYER, A. DADAY & G. D. SMITH	755-758
Effect of micromolar concentrations of manganese ions on calcium-ion cycling in rat liver mitochondria	B. P. HUGHES & J. H. EXTON	773-782
Changes in the cytochrome composition of <i>Rhodospseudomonas sphaeroides</i> grown aerobically, photosynthetically and on dimethyl sulphoxide	J. A. WARD, C. N. HUNTER & O. T. G. JONES	783-790
Evidence for the sequential assembly of cytochrome oxidase subunits in rat liver mitochondria	A. WIELBURSKI & B. D. NELSON	829-834
Regulation of the gastric microsomal (H <sup>+</sup> + K <sup>+</sup> )-transporting ATPase system by the endogenous activator. Effect of phospholipase A <sub>2</sub> treatment	T. K. RAY & J. NANDI	887-890
