

Cellular Aspects

Contents of Volume 214, No. 2, 1983

Protein Biosynthesis/Molecular Genetics

Biosynthesis and secretion of procollagenase by rabbit synovial fibroblasts. Inhibition of procollagenase secretion by monensin and evidence for glycosylation of procollagenase H. NAGASE, C. E. BRINCKERHOFF, C. A. VATER & E. D. HARRIS, JR **281-288**

Differential rates of protein synthesis *in vitro* and RNA contents in rat heart ventricular and atrial muscle D. M. SMITH & P. H. SUGDEN **497-502**

The effect of tri-iodothyronine administration on protein synthesis in the diabetic rat J. G. BROWN, J. VAN BUEREN & D. J. MILLWARD **637-640**

Protein Turnover

Protein synthesis in skeletal muscle of the perfused rat hemicorpus compared with rates in the intact animal V. R. PREEDY & P. J. GARLICK **433-442**

Myofibrillar protein turnover. Synthesis rates of myofibrillar and sarcoplasmic protein fractions in different muscles and the changes observed during postnatal development and in response to feeding and starvation P. C. BATES & D. J. MILLWARD **587-592**

Myofibrillar protein turnover. Synthesis of protein-bound 3-methylhistidine, actin, myosin heavy chain and aldolase in rat skeletal muscle in the fed and starved states P. C. BATES, G. K. GRIMBLE, M. P. SPARROW & D. J. MILLWARD **593-605**

3-Methylhistidine turnover in the whole body, and the contribution of skeletal muscle and intestine to urinary 3-methylhistidine excretion in the adult rat D. J. MILLWARD & P. C. BATES **607-615**

Time course of the effect of catabolic doses of corticosterone on protein turnover in rat skeletal muscle and liver B. R. OEDRA, P. C. BATES & D. J. MILLWARD **617-627**

Metabolism, Regulation and Control Processes

Spontaneous *N*^ε-methylation and *N*^ε-formylation reactions between L-lysine and formaldehyde inhibited by L-ascorbic acid L. TRÉZL, I. RUSZNÁK, E. TYIHÁK, T. SZARVAS & B. SZENDE **289-292**

The effects of 24*R*,25-dihydroxycholecalciferol and of 1*α*,25-dihydroxycholecalciferol on ornithine decarboxylase activity and on DNA synthesis in the epiphysis and diaphysis of rat bone and in the duodenum D. SÖMJEN, I. BINDERMAN & Y. WEISMAN **293-298**

Multiple chromatographic forms of ATP citrate lyase from rat liver A. P. CORRIGAN & C. C. RIDER **299-307**

The control of adenosine concentration in polymorphonuclear leucocytes, cultured heart cells and isolated perfused heart from the rat A. C. NEWBY, C. A. HOLMQUIST, J. ILLINGWORTH & J. D. PEARSON **317-323**

The mechanism of adenosine production in rat polymorphonuclear leucocytes Y. WORKU & A. C. NEWBY **325-330**

Subcellular distribution of isocitrate dehydrogenase in early and term human placenta P. W. D. ŚCISŁOWSKI, S. ŻOŁNIEROWICZ & L. ŻELEWSKI **339-343**

Polyamine-stimulated alteration of the ornithine decarboxylase molecule in *Physarum polycephalum* J. L. A. MITCHELL & J. M. WILSON **345-351**

The conversion of exogenous retinol and related compounds into retinyl phosphate mannose by adult *Brugia pahangi* *in vitro* J. C. W. COMLEY & J. J. JAFFE **367-376**

The intramitochondrial volume measured using sucrose as an extramitochondrial marker overestimates the true matrix volume determined with mannitol A. P. HALESTRAP & P. T. QUINLAN **387-393**

Measurement of the intramitochondrial volume in hepatocytes without cell disruption and its elevation by hormones and valinomycin	P. T. QUINLAN, A. P. THOMAS, A. E. ARMSTON & A. P. HALESTRAP	395-404
The effect of ionophore A23187 on calcium ion fluxes and α -adrenergic agonist action in perfused rat liver	P. H. REINHART, W. M. TAYLOR & F. L. BYGRAVE	405-412
Modulation of lipid-synthesizing enzymes by insulin in differentiated ob17 adipose-like cells	P. GRIMALDI, C. FOREST, P. POLI, R. NEGREL & G. AILHAUD	443-449
Regulation of mitochondrial pyruvate carboxylation in isolated hepatocytes by acute insulin treatment	A. B. CHISHOLM, E. H. ALLAN & M. A. TITHERADGE	451-458
Effects of glucose-containing peritoneal-dialysis solutions on rates of lipogenesis <i>in vivo</i> in the liver, brown and white adipose tissue of chronic uraemic rats	R. A. KLIM & D. H. WILLIAMSON	459-464
A critical intracellular concentration of fully reduced non-methylated folate polyglutamates prevents macrocytosis and diminished growth rate of human cell line K562 in culture	D. WATKINS & B. A. COOPER	465-470
The effect of selenium-deficiency on rat fat-cell glucose oxidation	J. E. SOUNESS, J. E. STOFFER & V. CHAGOYA DE SANCHEZ	471-477
Effects of 4-hydroxynonenal on isolated hepatocytes. Studies on chemiluminescence response, alkane production and glutathione status	E. CADENAS, A. MÜLLER, R. BRIGELIUS, H. ESTERBAUER & H. SIES	479-487
Haematoporphyrin and <i>OO'</i> -diacetylhaematoporphyrin binding by serum and cellular proteins. Implications for the clearance of these photochemotherapeutic agents by cells	A. SMITH & T. NEUSCHATZ	503-509
Tryptophan and glucose metabolism in rat liver cells. The effects of DL-6-chlorotryptophan, 4-chloro-3-hydroxy-anthranilate and pyrazinamide	J. S. COOK & C. I. POGSON	511-516
Identification of increased amounts of UDP-glucuronyl-transferase protein in phenobarbital-treated chick-embryo liver cells	B. BURCHELL, G. J. PRATT, I. DUFFY & L. WEST	517-523
The temporary postnatal decline in glucuronidation of certain phenols by rat liver	I. SCRAGG, M. POLLARD, B. BURCHELL & G. J. DUTTON	533-537
The activity of glycogen synthase phosphatase limits hepatic glycogen deposition in the adrenalectomized starved rat	M. BOLLEN, G. GEVERS & W. STALMANS	539-545
Insulin exerts actions through a distinct species of guanine nucleotide regulatory protein:inhibition of adenylate cyclase	C. M. HEYWORTH & M. D. HOUSLAY	547-552
The control of fatty acid metabolism in liver cells from fed and starved sheep	M. A. LOMAX, I. A. DONALDSON & C. I. POGSON	553-560
Distribution of membrane cholesterol of adrenal cortical cells after corticotropin stimulation	O. M. CONNEELY, J. M. GREENE, D. R. HEADON, J. HSIAO & F. UNGAR	561-567
Activation of protein kinase in the bovine corpus luteum by phospholipid and Ca^{2+}	J. S. DAVIS & M. R. CLARK	569-574
Duration of the calcium signal in the mitogenic stimulation of thymocytes	T. R. HESKETH, S. BAVETTA, G. A. SMITH & J. C. METCALFE	575-579
Ruthenium Red inhibits the activation of pyruvate dehydrogenase caused by positive inotropic agents in the perfused rat heart	J. G. MCCORMACK & P. J. ENGLAND	581-585
Lactate as an oxidizable substrate for rat brain <i>in vitro</i> during the perinatal period	C. ARIZMENDI & J. M. MEDINA	633-635
Metabolism of ethylmalonate to mesaconate in the rat. Evidence from <i>trans</i> -dehydrogenation of methylsuccinate	J. A. MONTGOMERY, O. A. MAMER & C. R. SCRIVER	641-644
Glycogenolysis in liver of phosphorylase kinase-deficient rats during liver perfusion and ischaemia	G. LUTAYA, R. J. SHARMA & J. R. GRIFFITHS	645-648
Influence of phospholipids on the activity of phosphate-dependent glutaminase in extracts of rat liver mitochondria	J. D. MCGIVAN & N. M. BRADFORD	649-652

Cell Surfaces and Receptors

- Expression of insulin receptors and insulin action in cell hybrids and cybrids C. R. KAHN, V. LAURIS, M. FEHLMANN & M. CRETZAZ 309-316
- Monocytes and platelets share the glycoproteins IIb and IIIa that are absent from both cells in Glanzmann's thrombasthenia type I G. GOGSTAD, Ø. HETLAND, N. O. SOLUM & H. PRYDZ 331-337
- Biosynthesis and turnover of the phosphomannosyl receptor in human fibroblasts K. E. CREEK & W. S. SLY 353-360
- Calcium-dependence of insulin receptor phosphorylation W. E. PLEHWE, P. F. WILLIAMS, I. D. CATERSON, L. C. HARRISON & J. R. TURTLE 361-366
- Incorporation of mannose 6-phosphate receptors into liposomes. Receptor topography and binding of α -mannosidase C. H. CAMPBELL, A. L. MILLER & L. H. ROME 413-419
- Binding and endocytosis of glycoproteins and neoglycoproteins by isolated rabbit hepatocytes D. T. CONNOLLY, R. R. TOWNSEND, K. KAWAGUCHI, M. K. HOBISH, W. R. BELL & Y. C. LEE 421-431
- Isolation and renaturation of α_2 -macroglobulin receptor from diploid human fibroblasts J. FREY & E.-G. AFTING 629-631
- Developmental Biochemistry**
- Postnatal hypoglycaemia and gluconeogenesis in the newborn rat. Delayed onset of gluconeogenesis in prematurely delivered newborns E. FERNÁNDEZ, C. VALCARCE, J. M. CUEZVA & J. M. MEDINA 525-532
- Identification of penicillin-binding protein 5a of *Bacillus megaterium* KM as a DD-carboxypeptidase J. A. TODD & D. J. ELLAR 653-655
- Membranes, Transport, Bioenergetics and Photosynthesis**
- A monoclonal antibody to kidney endopeptidase-24.11. Its application in immunoadsorbent purification of the enzyme and immunofluorescent microscopy of kidney and intestine N. S. GEE, R. MATSAS & A. J. KENNY 377-386
- Comparison of the effects of certain thiol reagents on alanine transport in plasma membrane vesicles from rat liver and their use in identifying the alanine carrier M. R. HAYES & J. D. MCGIVAN 489-495
