

# Cellular Aspects

## Contents of Volume 216, No. 1, 1983

### Review Article

Mutations that influence the secretory path in animal cells	A. M. TARTAKOFF	1-9
<b>Protein Biosynthesis/Molecular Genetics</b>		
Biosynthesis of intestinal microvillar proteins. Role of the Golgi complex and microtubules	E. M. DANIELSEN, G. M. COWELL & S. S. POULSEN	37-42
Preparation and properties of a complex from rat liver of polyribosomes with components of the cytoskeleton	A. ADAMS, E. G. FEY, S. F. PIKE, C. J. TAYLORSON, H. A. WHITE & B. R. RABIN	215-226
<b>Protein Turnover</b>		
Degradation of transplanted mitochondrial proteins by hepatocyte monolayers	P. J. EVANS & R. J. MAYER	151-161
Degradation of transplanted rat liver mitochondrial-outer-membrane proteins in hepatoma cells	S. M. RUSSELL & R. J. MAYER	163-175
<b>Metabolism, Regulation and Control Processes</b>		
Differential substrate oxidation by dissociated brain cells and homogenates during development	J. T. TILDON, S. MERRILL & L. M. ROEDER	21-25
The aggregation of isolated human platelets in the presence of lipoproteins and prostacyclin	D. G. HASSALL, J. S. OWEN & K. R. BRUCKDORFER	43-49
A kinetic investigation of the effects of adrenaline on <sup>45</sup> Ca <sup>2+</sup> exchange in isolated hepatocytes at different Ca <sup>2+</sup> concentrations, at 20°C and in the presence of inhibitors of mitochondrial Ca <sup>2+</sup> transport	J. C. PARKER, G. J. BARRITT & J. C. WADSWORTH	51-62
Adrenergic inhibition of branched-chain 2-oxo acid dehydrogenase in rat diaphragm muscle <i>in vitro</i>	T. N. PALMER, M. A. CALDECOURT & M. C. SUGDEN	63-70
Metabolism of malonic semialdehyde in man	R. D. SCHOLEM & G. K. BROWN	81-85
Synthesis of <i>N</i> -acetylneuraminic acid and of CMP- <i>N</i> -acetylneuraminic acid in the rat liver cell	W. FERWERDA, C. M. BLOK & J. VAN RINSUM	87-92
The effects of low-density lipoprotein and cholesterol on acyl-coenzyme A:cholesterol acyltransferase activity in membranes from cultured human fibroblasts	S. J. P. GAVIGAN & B. L. KNIGHT	93-100
Identification and metabolism of polyphosphoinositides in isolated islets of Langerhans	S. G. LAYCHOCK	101-106
Effect of taurochenodeoxycholate or tauroursodeoxycholate upon biliary output of phospholipids and plasma-membrane enzymes, and the extent of cell damage, in isolated perfused rat livers	S. G. BARNWELL, P. J. LOWE & R. COLEMAN	107-111
Adenosine and the control of lipolysis in rat adipocytes during pregnancy and lactation	R. G. VERNON, E. FINLEY & E. TAYLOR	121-128
Fatty acids reverse the cyclic AMP inhibition of triacylglycerol and phosphatidylcholine synthesis in rat hepatocytes	S. L. PELECH, P. H. PRITCHARD, D. N. BRINDLEY & D. E. VANCE	129-136
Transfer of exogenous cholesterol to microsomes of hepatocytes investigated with [ <sup>3</sup> H]desmosterol tracer	E. H. GOH	137-142
The effect of cholesterol on ubiquinone and tetrahymanol biosynthesis in <i>Tetrahymena pyriformis</i>	D. C. WILTON	203-206
Large effects of preparative techniques on lymphocyte cyclic AMP content	J. P. MOORE, G. A. SMITH, T. R. HESKETH & J. C. METCALFE	207-213
Inhibition of ureagenesis by valproate in rat hepatocytes. Role of <i>N</i> -acetylglutamate and acetyl-CoA	F. X. COUDE, G. GRIMBER, P. PARVY, D. RABIER & F. PETIT	233-236

Stimulatory effect of prostaglandin E <sub>2</sub> on 1 $\alpha$ ,25-dihydroxy-vitamin D <sub>3</sub> synthesis in rats	M. YAMADA, T. MATSUMOTO, N. TAKAHASHI, T. SUDA & E. OGATA	237-240
Hormone-stimulated lipolysis in cardiac myocytes	W. K. PALMER & T. A. KANE	241-243
Insulin activates the plasma-membrane and dense-vesicle cyclic AMP phosphodiesterase in hepatocytes by distinct routes	S. R. WILSON, A. V. WALLACE & M. D. HOUSLAY	245-248
<b>Cell Surfaces and Receptors</b>		
Effect of pH on binding of agonists and antagonists to rat heart muscarinic receptors	J. ASSELIN, M. WAELBROECK, P. ROBBERECHT, P. DE NEEF & J. CHRISTOPHE	11-19
Effect of apolipoproteins E and C-III on the interaction of chylomicrons with parenchymal and non-parenchymal cells from rat liver	T. J. C. VAN BERKEL, J. K. KRUIJT, L. M. SCHEEK & P. H. E. GROOT	71-80
Identification of cell surface dipeptidylpeptidase IV in human fibroblasts	M. SAISON, J. VERLINDEN, F. VAN LEUVEN, J.-J. CASSIMAN & H. VAN DEN BERGHE	177-183
<b>Developmental Biochemistry</b>		
Isolation, characterization and synthesis of $\alpha$ -foetoprotein from neonatal-rat skin	K. MUJOO, M. ALI & M. K. SAHIB	227-231
<b>Membranes, Transport, Bioenergetics and Photosynthesis</b>		
The isolation of endosome-derived vesicles from rat hepatocytes	J. P. LUZIO & K. K. STANLEY	27-36
The effect of membrane composition and alcohols on the insulin-sensitive reconstituted monosaccharide-transport system of rat adipocyte plasma membranes	J. E. MORE & M. N. JONES	113-120
Oxidative phosphorylation by mutant <i>Escherichia coli</i> membranes with impaired proton permeability	G. B. COX, D. A. JANS, F. GIBSON, L. LANGMAN, A. E. SENIOR & A. L. FIMMEL	143-150
Complement-mediated lysis of pigeon erythrocyte ghosts analysed by flow cytometry. Evidence for the involvement of a 'threshold' phenomenon	S. W. EDWARDS, B. P. MORGAN, T. G. HOY, J. P. LUZIO & A. K. CAMPBELL	195-202
<b>General Methods</b>		
A homogeneous immunoassay for cyclic nucleotides based on chemiluminescence energy transfer	A. K. CAMPBELL & A. PATEL	185-194
