

# CONTENTS

Volume 217, No. 1, 1984

NC-IUB and JCBN Newsletter 1984		I-IV
Policy of the Journal and Instructions to Authors		1-26
<b>REVIEW ARTICLE</b>		
Effect of exogenous amines on mammalian cells, with particular reference to membrane flow	R. T. DEAN, W. JESSUP & C. R. ROBERTS	27-40
<b>FULL AND RAPID PAPERS</b>		
<b>Proteins</b>		
Quantitative adsorption of platelet glycoprotein G (thrombin-sensitive protein, thrombospondin) to barium citrate	R. J. ALEXANDER & T. C. DETWILER	67-71
Hydrodynamic properties of human cervical-mucus glycoproteins in 6 M-guanidinium chloride	J. K. SHEEHAN & I. CARLSTEDT	93-101
Abnormal type I collagen metabolism by cultured fibroblasts in lethal perinatal osteogenesis imperfecta	J. F. BATEMAN, T. MASCARA, D. CHAN & W. G. COLE	103-115
Chemical reactivity of the functional groups of insulin. Concentration-dependence studies	H. KAPLAN, M. A. HEFFORD, A. M.-L. CHAN & G. ODA	135-143
Dog pancreatic microsomal-membrane polypeptides analysed by two-dimensional gel electrophoresis	M. A. KADERBHAI & B. M. AUSTEN	145-157
Ca <sup>2+</sup> -binding protein from human kidney. Purification and properties	M. STAUN, O. NORÈN & H. SJÖSTRÖM	229-237
An improved procedure, involving mass spectrometry, for N-terminal amino acid sequence determination of proteins which are N <sup>α</sup> -blocked	K. ROSE, H. P. KOCHER, B. M. BLUMBERG & D. KOLAKOFSKY	253-257
Stoichiometry of reactions of α <sub>2</sub> -macroglobulin with trypsin and chymotrypsin	I. BJÖRK, L.-J. LARSSON, T. LINDBLOM & E. RAUB	303-308
Mapping of the properdin-binding site in the third component of complement	J. D. LAMBRIS, J. ALSENZ, T. F. SCHULZ & M. P. DIERICH	323-326
<b>Enzymes</b>		
Purification and properties of glutathione S-transferases from larvae of <i>Wiseana cervinata</i>	A. G. CLARK & B. DRAKE	41-50
Kinetic studies on a glutathione S-transferase from the larvae of <i>Costelytra zealandica</i>	A. G. CLARK, G. L. DICK & J. N. SMITH	51-58
Guanosine triphosphate cyclohydrolase activity in rat tissues	Z. BELLAHSENE, J.-L. DHONDT & J.-P. FARRIAUX	59-65
An affinity label for the regulatory dithiol of ribulose-5-phosphate kinase from maize ( <i>Zea mays</i> )	A. R. ASHTON	79-84
Studies of mammalian ornithine decarboxylase using monoclonal antibody	A. E. PEGG, J. E. SEELY, L. PERSSON, M. HERLYN, K. PONSELL & T. G. O'BRIEN	123-128
Cyclic GMP phosphodiesterase from bovine retina. Evidence for interspecies conservation	L. J. TAKEMOTO, J. HANSEN, D. B. FARBER, D. SOUZA & D. J. TAKEMOTO	129-133
Modification of the interactions of myosin with actin and 5'-adenylyl imidodiphosphate by substitution of ethylene glycol for water	S. B. MARSTON & R. T. TREGEAR	169-177
Studies of the relationship between the catalytic activity and binding of non-substrate ligands by the glutathione S-transferases	T. D. BOYER, D. A. VESSEY, C. HOLCOMB & N. SALEY	179-185
The purification and properties of cathepsin L from rabbit liver	R. W. MASON, M. A. J. TAYLOR & D. J. ETHERINGTON	209-217

Domain structure and <sup>1</sup> H-n.m.r. spectroscopy of the pyruvate dehydrogenase complex of <i>Bacillus stearothermophilus</i>	L. C. PACKMAN, R. N. PERHAM & G. C. K. ROBERTS	219-227
Nitrogenase from <i>nifV</i> mutants of <i>Klebsiella pneumoniae</i> contains an altered form of the iron-molybdenum cofactor	T. R. HAWKES, P. A. MCLEAN & B. E. SMITH	317-321
Catalytic activity of bovine glutamate dehydrogenase requires a hexamer structure	E. T. BELL & J. E. BELL	327-330
<b>Carbohydrates</b>		
Antigenic and structural features of goblet-cell mucin of human small intestine	M. MANTLE, G. G. FORSTNER & J. F. FORSTNER	159-167
Hydrazinolysis of heparin and other glycosaminoglycans	P. N. SHAKLEE & H. E. CONRAD	187-197
Comparative study on glycosaminoglycans synthesized in peripheral and peritoneal polymorphonuclear leucocytes from guinea pigs	Y. OHHASHI, F. HASUMI & Y. MORI	199-207
<b>Nucleic acids and molecular genetics</b>		
The preparation and characterization of vitellogenin messenger RNA from rainbow trout ( <i>Salmo gairdneri</i> )	Y. VALOTAIRE, M. TENNISWOOD, C. LE GUELLEC & J. R. TATA	73-77
Thymidylate synthetase-deficient mouse FM3A mammary carcinoma cell line as a tool for studying the thymidine salvage pathway and the incorporation of thymidine analogues into host cell DNA	J. BALZARINI, E. DE CLERCQ, D. AYUSAWA & T. SENO	245-252
Accessibility of DNA-epoxycellulose to sequence-specific DNA-binding proteins	P. A. LAZO	331-334
<b>Synthesis and degradation of macromolecules</b>		
A comparison of isometallothionein synthesis in rat liver after partial hepatectomy and parenteral zinc injection	K. CAIN & B. L. GRIFFITHS	85-92
Cell-free translation of messenger RNA for chondroitin sulphate proteoglycan core protein in rat cartilage	B. M. VERTEL, W. B. UPHOLT & A. DORFMAN	259-263
<b>Intermediary metabolism and metabolic control</b>		
Proportion of active dephosphorylated pyruvate dehydrogenase complex in heart and isolated heart mitochondria is decreased in obese hyperinsulinaemic mice	A. L. KERBEY, I. D. CATERSON, P. F. WILLIAMS & J. R. TURTLE	117-121
Isolation and identification of 3-acetylcyclohexanone 2-phosphate, a metabolite of ecdysone, from developing eggs of <i>Schistocerca gregaria</i>	R. E. ISAAC, H. P. DESMOND & H. H. REES	239-243
Biosynthesis of the chromophore of phycobiliproteins. A study of mesohaem and mesobiliverdin as possible intermediates and further evidence for an algal haem oxygenase	S. B. BROWN & J. A. HOLROYD	265-272
Effects of carbachol and pancreozymin (cholecystokinin-octapeptide) on polyphosphoinositide metabolism in the rat pancreas <i>in vitro</i>	J. L. ORCHARD, J. S. DAVIS, R. E. LARSON & R. V. FARESE	281-287
Intracellular localization and properties of phosphate-dependent glutaminase in rat mesenteric lymph nodes	M. S. M. ARDAWI & E. A. NEWSHOLME	289-296
<b>Membranes and receptors</b>		
Pore properties of the Golgi membrane from lactating-rat mammary gland. Effects of pH and temperature and reconstitution into phospholipid vesicles	M. D. WHITE, S. WARD & N. J. KUHN	297-301
Interaction of oestrogen and progesterone receptors with specific subfractions of laying-hen oviduct chromatin	N. MASSOL, M.-C. LEBEAU & E.-E. BAULIEU	309-316
<b>Methods</b>		
A liquid-phase two-site immunoradiometric assay for human prolactin	S. C. HODGKINSON, J. LANDON & P. J. LOWRY	273-279

**BJ LETTERS**

Ionic strength dependence of glucose binding by yeast hexokinase isoenzymes	I. FELDMAN	335-336
Reply	J. G. HOGGETT & G. L. KELLETT	336-337
The prediction of repetitive protein sequences from amino acid compositions	J. J. HARDING	339-340
The prediction of repetitive protein sequences from amino acid compositions: a comment	A. CORNISH-BOWDEN	340
