"SCIENTIA," INTERNATIONAL REVIEW OF SCIENTIFIC SYNTHESIS
Published every month (each number containing 100 to 150 pages)
Editor: EUGENIO RIGNANO

IS THE ONLY REVIEW the contributors to which are really international.
IS THE ONLY REVIEW that has a really world-wide circulation.
IS THE ONLY REVIEW of scientific synthesis and unification that deals with the fundamental questions of all sciences: the history of the sciences, mathematics, astronomy, geology, physics, chemistry, biology, psychology and sociology.
IS THE ONLY REVIEW therefore which, while immediately interesting students of biology and physiology by its numerous and important articles and reports relating to these sciences, presents them also the means of knowing, in a summary and synthetic form, the chief problems of all the other branches of knowledge.
IS THE ONLY REVIEW that among its contributors can boast of the most illustrious men of science in the whole world. A list of more than 350 of these is given in each number.
The articles are published in the language of their authors, and every number has a supplement containing the French translation of all the articles that are not French. The review is thus completely accessible to those who know only French. (Write for a free copy to the General Secretary of "Scienza," Milan, sending six pence in stamps of your country, merely to cover packing and postage.)

This Journal is issued by the PHYSIOLOGICAL SOCIETY, acting in co-operation with numerous physiological organisations in Great Britain, America, and other countries. The Editor, Prof. J. MELANBY, is assisted by a staff of competent abstractors both at home and abroad.

The Journal aims at issuing promptly abstracts of the papers published throughout the world, in physiological and allied sciences (including Plant Physiology).

A number is published at the beginning of each month. Vol. XIII began with the April (1928) issue.

Subscriptions are only taken for April to March of the next year, and are payable in advance.

Back numbers, excepting some which are out of print, may be obtained from the Publishers, or any Bookseller. An extra charge is made for some numbers the stock of which is nearly exhausted. Prices on application.

Binding Cases, price 2s. net, are supplied by the Publishers, who can also arrange for binding; prices on application.
