

# CONTENTS

## Volume 220, No. 1, 1984

### REVIEW ARTICLE

- |  |             |      |
|--|-------------|------|
| Protein synthesis during development and differentiation in the cellular slime mould <i>Dictyostelium discoideum</i> | D. J. WATTS | 1-14 |
|--|-------------|------|

### FULL AND RAPID PAPERS

#### Proteins

- |   |   |         |
|---|---|---------|
| Labelling of the cytoplasmic domains of ovine rhodopsin with hydrophilic chemical probes  | P. L. BARCLAY & J. B. C. FINDLAY                                    | 75-84   |
| A mass-spectrometric investigation of the mechanism of the semisynthetic transformation of pig insulin into an ester of insulin of human sequence   | K. ROSE, J. GLADSTONE & R. E. OFFORD                                | 189-196 |
| Physicochemical properties and <i>N</i> -terminal sequence of eel lectin  | C. KELLY  | 221-226 |
| Sequence comparison of pepsin-resistant segments of basement-membrane collagen $\alpha 1(IV)$ chains from bovine lens capsule and mouse tumour  | D. SCHUPPAN, R. W. GLANVILLE,<br>R. TIMPL, S. N. DIXIT & A. H. KANG | 227-233 |
| Production and characterization of monoclonal antibodies to $\beta$ -galactoside-binding lectin of bovine heart muscle. Direct evidence that haemagglutinating activity is associated with a 13 kDa protein | S. R. CARDING, R. THORPE,<br>R. A. CHILDS, M. SPITZ & T. FEIZI      | 253-260 |
| Conformational changes induced by binding of bivalent cations to oncomodulin, a parvalbumin-like tumour protein   | J. P. MACMANUS, A. G. SZABO &<br>R. E. WILLIAMS                     | 261-268 |
| Investigation of cation-binding properties of cardiac troponin C peptides by circular-dichroism spectroscopy  | N. B. GUSEV & N. V. BARSKAYA  | 315-320 |

#### Enzymes

- |  |   |         |
|--|---|---------|
| Kinetic mechanism and specificity of bovine milk thiol oxidase   | M. X. SLIWKOWSKI, H. E. SWAISGOOD,<br>D. A. CLARE & H. R. HORTON            | 51-55   |
| A re-examination of the reactions of cyanide with cytochrome <i>c</i> oxidase  | M. G. JONES, D. BICKAR, M. T. WILSON,<br>M. BRUNORI, A. COLOSIMO & P. SARTI | 57-66   |
| Simultaneous formation of 2- and 4-quinolones from quinolinium cations catalysed by aldehyde oxidase   | S. M. TAYLOR, C. STUBLEY-BEEDHAM &<br>J. G. P. STELL                        | 67-74   |
| On the presence of two non-specific nucleotide-sugar-hydrolysing enzymes in rat liver  | H. G. MUILERMAN, A.-M. LASTHUIS,<br>G. J. M. HOOGHWINKEL & W. VAN DIJK      | 95-103  |
| Inhibition of human liver cathepsin L by $\alpha_2$ cysteine-proteinase inhibitor and the low- <i>M<sub>r</sub></i> cysteine proteinase inhibitor from human serum | M. PAGANO, F. ESNARD, R. ENGLER &<br>F. GAUTHIER                            | 147-155 |
| A general expression for coupled enzyme assays of hysteretic enzymes   | I. E. WOODROW & G. A. MANSON  | 173-178 |
| The extraction and mechanism of a novel isomaltulose-synthesizing enzyme from <i>Erwinia rhapsontici</i>   | P. S. J. CHEETHAM   | 213-220 |
| Formamide as a substrate of xanthine oxidase   | F. F. MORPETH, G. N. GEORGE &<br>R. C. BRAY                                 | 235-242 |
| Properties of extracellular superoxide dismutase from human lung   | S. L. MARKLUND  | 269-272 |
| A tryptophan <i>C</i> -methyltransferase involved in streptonigrin biosynthesis in <i>Streptomyces flocculus</i>   | D. L. HARTLEY & M. K. SPEEDIE   | 309-313 |

#### Carbohydrates

- |  |                                      |         |
|--|--------------------------------------|---------|
| Secondary structure of hyaluronate in solution. A $^1\text{H}$ -n.m.r. investigation at 300 and 500 MHz in $[\text{D}_6]\text{D}_2\text{O}$ dimethyl sulphoxide solution | J. E. SCOTT, F. HEATLEY & W. E. HULL | 197-205 |
|--|--------------------------------------|---------|

**Nucleic acids and molecular genetics**

- Localization and structure of endonuclease cleavage sites involved in the processing of the rat 32S precursor to ribosomal RNA K. V. HADJIOLOVA, O. I. GEORGIEV, V. V. NOSIKOV & A. A. HADJIOLOV 105-116
- Repair of depurinated DNA with enzymes from rat liver chromatin C. GOFFIN & W. G. VERLY 133-137
- Alterations in the relative amounts of specific mRNA species in the developing human brain in Down's syndrome S. A. WHATLEY, C. HALL, A. N. DAVISON & L. LIM 179-187

**Synthesis and degradation of macromolecules**

- Age-related decrease in the link-stability of proteoglycan aggregates formed by articular chondrocytes A. H. K. PLAAS & J. D. SANDY 337-340

**Intermediary metabolism and metabolic control**

- The contribution of both extracellular and intracellular calcium to the action of  $\alpha$ -adrenergic agonists in perfused rat liver P. H. REINHART, W. M. TAYLOR & F. L. BYGRAVE 35-42
- The action of  $\alpha$ -adrenergic agonists on plasma-membrane calcium fluxes in perfused rat liver P. H. REINHART, W. M. TAYLOR & F. L. BYGRAVE 43-50
- Metabolic activation of acetylenes. Covalent binding of [1,2- $^{14}$ C]octyne to protein, DNA and haem *in vitro* and the protective effects of certain thiol compounds I. N. H. WHITE, J. B. CAMPBELL, P. B. FARMER, E. BAILEY, N.-H. NAM & D.-C. THANG 85-94
- Glucocorticoids and catecholamines as mediators of acute-phase proteins, especially rat  $\alpha$ -macrofetoprotein J. VAN GOOL, W. BOERS, M. SALA & N. C. J. J. LADIGES 125-132
- The role of calcium in the stimulation of prostaglandin synthesis by vasopressin in rabbit renal-medullary interstitial cells in tissue culture D. A. AUSIELLO & R. M. ZUSMAN 139-145
- The activity state of the branched-chain 2-oxo acid dehydrogenase complex in rat tissues A. J. M. WAGENMAKERS, J. T. G. SCHEPENS, J. A. M. VELDUIZEN & J. H. VEERKAMP 273-281
- Studies on rat parotid-cell actomyosin T. KEALEY & P. J. RANDLE 291-299
- Effects of verapamil on lipolysis due to dibutyryl cyclic AMP H. GOKO, S. TAKASHIMA, S. SHIMIZU, S. KAGAWA & A. MATSUOKA 321-324
- The conformation of abscisic acid by n.m.r. and a revision of the proposed mechanism for cyclization during its biosynthesis B. V. MILBORROW 325-332
- Role of the liver in low-density-lipoprotein catabolism in the rat S. BHATTACHARYA, S. BALASUBRAMANIAM & L. A. SIMONS 333-336
- Tryptophan aminotransferase activity in rat liver J. C. STANLEY, A. R. NICHOLAS, A. J. DICKSON, I. M. THOMPSON & C. I. POGSON 341-344

**Bioenergetics and transport**

- Renal transport of neutral amino acids. Tubular localization of  $\text{Na}^+$ -dependent phenylalanine- and glucose-transport systems U. KRAGH-HANSEN, H. RØIGAARD-PETERSEN, C. JACOBSEN & M. I. SHEIKH 15-24
- Renal transport of neutral amino acids. Demonstration of  $\text{Na}^+$ -independent and  $\text{Na}^+$ -dependent electrogenic uptake of L-proline, hydroxy-L-proline and 5-oxo-L-proline by luminal-membrane vesicles H. RØIGAARD-PETERSEN & M. I. SHEIKH 25-33

**Membranes and receptors**

- Identification and characterization of insulin receptors on foetal-mouse brain-cortical cells C. F. H. VAN SCHRAVENDIJK, E. L. HOOGHE-PETERS, P. DE MEYTS & D. G. PIPELEERS 165-172
- Phosphorylated adenosine derivatives as low-affinity adenosine-receptor agonists. Methodological implications for the adenylylase assay W. SCHÜTZ, G. STEURER, E. TUISL & H. PLASS 207-212

Inhibition of microsomal lipid peroxidation by glutathione and glutathione transferases B and AA. Role of endogenous phospholipase A <sub>2</sub>	K. H. TAN, D. J. MEYER, J. BELIN & B. KETTERER	243-252
Influence of phosphatidylserine on (Na <sup>+</sup> + K <sup>+</sup> )-stimulated ATPase and acetylcholinesterase activities of dog brain synaptosomal plasma membranes	S. TSAKIRIS & G. DELICONSTANTINOS	301-307
<b>Cell structure and function</b>		
Quasi-elastic light scattering studies on dormant and germinating <i>Bacillus subtilis</i> spores	S. E. HARDING & P. JOHNSON	117-123
Involvement of protein kinase C in the phosphorylation of an insulin-granule membrane protein	K. W. BROCKLEHURST & J. C. HUTTON	283-290
<b>Methods</b>		
Radioimmunoassay of soluble and insoluble collagenases in fibrotic liver	S. TAKAHASHI & K. KODA	157-164
