

CONTENTS

Volume 224, No. 1, 1984

REVIEW ARTICLE

- Control of gene expression by glucocorticoid hormones G. G. ROUSSEAU 1-12

FULL AND RAPID PAPERS

Proteins

- Myofibrillar-protein isoforms and sarcoplasmic-reticulum Ca^{2+} -transport activity of single human muscle fibres G. SALVIATI, R. BETTO, 215-225
D. DANIELI BETTO & M. ZEVIANI
- Azotobacter chroococcum* 7Fe ferredoxin. Two pH-dependent forms of the reduced 3Fe clusters and its conversion to a 4Fe cluster S. J. GEORGE, A. J. M. RICHARDS, 247-251
A. J. THOMSON & M. G. YATES
- The binding of Ca^{2+} to actin monomer is monitored by the fluorescence of actin-bound auramine O R. L. TELLAM & J. A. TURNER 269-276
- Isolation and characterization of three Ca^{2+} -dependent β -galactoside-specific lectins from snake venoms T. K. GARTNER & M. L. OGILVIE 301-307
- Design and synthesis of a consensus signal sequence that inhibits protein translocation into rough microsomal vesicles B. M. AUSTEN, J. HERMON-TAYLOR, 317-325
M. A. KADERBHAI & D. H. RIDD
- Domain structure of cartilage proteoglycans revealed by rotary shadowing of intact and fragmented molecules H. WIEDEMANN, M. PAULSSON, 331-333
R. TIMPL, J. ENGEL & D. HEINEGÅRD

Enzymes

- Ca^{2+} -dependent hydrophobic-interaction chromatography. Isolation of a novel Ca^{2+} -binding protein and protein kinase C from bovine brain M. P. WALSH, K. A. VALENTINE, 117-127
P. K. NGAI, C. A. CARRUTHERS &
M. D. HOLLENBERG
- The removal of cytosolic-type aldehyde dehydrogenase from preparations of sheep liver mitochondrial aldehyde dehydrogenase and the unusual properties of the purified mitochondrial enzyme in assays S. ALLANSON & F. M. DICKINSON 163-169
- Two immunologically distinct Yc-type subunits are present in lung glutathione S-transferases S. SINGH & Y. C. AWASTHI 335-338

Carbohydrates

- Extraction and purification of proteoglycans from mature bovine bone A. FRANZÉN & D. HEINEGÅRD 47-58
- Characterization of proteoglycans from the calcified matrix of bovine bone A. FRANZÉN & D. HEINEGÅRD 59-66

Lipids

- Native and modified low-density-lipoprotein interaction with human platelets in normal and homozygous familial-hypercholesterolaemic subjects A. SHMULEWITZ, J. G. BROOK & 13-20
M. AVIRAM
- The choline-depleted type II pneumonocyte. A model for investigating the synthesis of surfactant lipids M. M. ANCESCHI, G. C. DI RENZO, 253-262
M. D. VENINCASA & J. E. BLEASDALE

Synthesis and degradation of macromolecules

- Turnover of succinyl-CoA:3-oxoacid CoA-transferase in glioma and neuroblastoma cells. Specific influence of acetoacetate in neuroblastoma cells P. M. HANEY, L. BOLINGER, 67-74
C. RAEFSKY & M. S. PATEL
- Nicotine-stimulated proteins in mouse cells are distinct from heat-shock proteins L. A. HUNT & K. S. KELLEY 87-92
- Biosynthesis of a disulphide-bonded short-chain collagen by calf growth-plate cartilage M. C. REMINGTON, R. I. BASHEY, 227-233
C. T. BRIGHTON & S. A. JIMENEZ

Intermediary metabolism and metabolic control

The role of polyamine depletion and accumulation of decarboxylated <i>S</i> -adenosylmethionine in the inhibition of growth of SV-3T3 cells treated with α -difluoromethylornithine	A. E. PEGG	29-38
A comparison of the growth-promoting, lipolytic, diabetogenic and immunological properties of pituitary and recombinant-DNA-derived bovine growth hormone (somatotropin)	I. C. HART, P. M. E. CHADWICK, T. C. BOONE, K. E. LANGLEY, C. RUDMAN & L. M. SOUZA	93-100
Studies of rat adipose-tissue microsomal glycerol phosphate acyltransferase	G. A. NIMMO & H. G. NIMMO	101-108
Metabolism of valine and 3-methyl-2-oxobutanoate by the isolated perfused rat kidney	R. H. MILLER & A. E. HARPER	109-116
Catabolism and lability of <i>S</i> -adenosyl-L-methionine in rat liver extracts	T. O. ELORANTA & E. O. KAJANDER	137-144
Hormonal control of pyruvate dehydrogenase activity in rat liver	O. A. OVIASU & P. D. WHITTON	181-186
The mechanism of the attachment of esterifying alcohol in bacteriochlorophyll <i>a</i> biosynthesis	M. AKHTAR, A. A. AJAZ & D. L. CORINA	187-194
Calcium-ion and calmodulin-dependent κ -casein kinase in rat mammary acini	C. L. BROOKS & M. LANDT	195-200
Cycloheximide blocks changes in rat liver carnitine palmitoyl-transferase I activity in starvation	E. D. SAGGERSON, M. I. BIRD, C. A. CARPENTER, K. A. WINTER & J. J. WRIGHT	201-206
The regulation of phosphate-activated glutaminase activity and glutamine metabolism in the streptozotocin-diabetic rat	M. WATFORD, E. M. SMITH & E. J. ERBELDING	207-214
A modified perfused incubation system for isolated fat-cells. Investigation of intermediary metabolism by perfusion	R. D. HARPER	235-239
Formation of n.m.r.-invisible ADP during renal ischaemia in rats	M. STUBBS, D. FREEMAN & B. D. ROSS	241-246
Potiation by ammonia of the metabolic effects of pent-4-enoate in isolated rat hepatocytes	F. X. COUDÉ, G. GRIMBER, P. PARVY, D. RABIER & J. BARDET	263-267
Intraluminal pool and transport of CMP- <i>N</i> -acetylneuraminic acid, GDP-fucose and UDP-galactose. Study with plasma-membrane-permeabilized mouse thymocytes	R. CACAN, R. CECHELLI, B. HOFLACK & A. VERBERT	277-284
Reversal of dietary-induced insulin resistance in muscle of the rat by adenosine deaminase and an adenosine-receptor antagonist	L. BUDOHOSKI, R. A. J. CHALLISS, G. J. COONEY, B. MCMANUS & E. A. NEWSHOLME	327-330

Bioenergetics and transport

Loss of protection by nucleotides against proteolysis and thiol modification in the isolated α -subunit from F_1 ATPase of <i>Escherichia coli</i> mutant <i>uncA401</i>	H. STAN-LOTTER & P. D. BRAGG	145-151
Some hormonal effects on myocardial phosphate efflux	G. MEDINA & J. A. ILLINGWORTH	153-162
Partial purification and properties of the external NADH dehydrogenase from cuckoo-pint (<i>Arum maculatum</i>) mitochondria	I. R. COTTINGHAM & A. L. MOORE	171-179
Evidence that cycloleucine affects the high-affinity systems of amino acid uptake in cultured human fibroblasts	M. FENEANT, N. MOATTI, J. MACCARIO, M. GAUTIER, S. GUERROU & A. LEMONNIER	309-315

Membranes and receptors

Quantitative role of parenchymal and non-parenchymal liver cells in the uptake of [14 C]sucrose-labelled low-density lipoprotein <i>in vivo</i>	L. HARKES & T. J. C. VAN BERKEL	21-27
A Ca^{2+} -stimulated adenosine triphosphatase in Golgi-enriched membranes of lactating murine mammary tissue	C. D. WATTERS	39-45

Contents

Analysis of C3-receptor activity on human B-lymphocytes and isolation of the complement receptor type 2 (CR2)	K. J. MICKLEM, R. B. SIM & E. SIM	75-86
The interaction of lithium with thyrotropin-releasing hormone-stimulated lipid metabolism in GH ₃ pituitary tumour cells. Enhancement of stimulated 1,2-diacylglycerol formation	A. H. DRUMMOND & C. A. RAEBURN	129-136
Lipid organization in erythrocyte membrane microvesicles	S. SCOTT, S. A. PENDLEBURY & C. GREEN	285-290
Carbachol causes rapid phosphodiesteratic cleavage of phosphatidylinositol 4,5-bisphosphate and accumulation of inositol phosphates in rabbit iris smooth muscle; prazosin inhibits noradrenaline- and ionophore A23187-stimulated accumulation of inositol phosphates	R. A. AKHTAR & A. A. ABDEL-LATIF	291-300
The relationship between pertussis-toxin-induced ADP-ribosylation of a plasma-membrane protein and reversal of muscarinic inhibition of prolactin secretion in GH ₃ cells	R. J. H. WOJCIKIEWICZ, P. R. M. DOBSON, L. I. IRONS, A. ROBINSON & B. L. BROWN	339-342
B.J. LETTERS		
On the location of the electrogenic step(s) during the process of dioxygen reduction catalysed by cytochrome <i>c</i> oxidase	P. S. O'SHEA & A. AZZI	343-344
