## Volume 225, No. 2, 1985

### FULL AND RAPID PAPERS

#### Proteins

Monoclonal antibodies to a phosphoprotein from chromatin of rat liver	M. J. HALIKOWSKI & C.-C. LIEW	357-363
Localization of Tamm-Horsfall-glycoprotein-like immunoreactivity in cultured baby-hamster kidney cells, shown by immunofluorescence and by light- and electron-microscopic immunoperoxidase techniques	K. L. SIKRI, C. L. FOSTER & R. D. MARSHALL	481-486
Crystallization of cytoplasmic actin in complex with deoxyribonuclease I	H. G. MANNHERZ, W. KABSCH, D. SUCK, K. FRIEBEL & M. FRIMMER	517-522
The lanthanide-enhanced affinity chromatography of clostridial collagenase	C. H. EVANS	553-556

#### Enzymes

Effect of starvation, diabetes and insulin on the casein kinase 2 from rat liver cytosol	C. MARTOS, M. PLANA, M. D. GUASCH & E. ITARTE	321-326
The purification and steady-state kinetic behaviour of rabbit heart mitochondrial NAD(P) <sup>+</sup> malic enzyme	V. J. DAVISSON & A. R. SCHULZ	335-342
Isolation and characterization of the 1,4- $\beta$ -D-glucan glucanohydrolases of <i>Talaromyces emersonii</i>	A. P. MOLONEY, S. I. MCCRAE, T. M. WOOD & M. P. COUGHLAN	365-374
Glutathione <i>S</i> -transferase of human brain. Evidence for two immunologically distinct types of 26500- <i>M<sub>r</sub></i> subunits	C. THEODORE, S. V. SINGH, T. D. HONG & Y. C. AWASTHI	375-382
A 17 $\beta$ -hydroxysteroid dehydrogenase of female rabbit liver cytosol. Purification and characterization of multiple forms of the enzyme	G. R. ANTOUN, I. BRGLEZ & D. G. WILLIAMSON	383-390
Age-dependent changes in the multiple forms of the soluble 17 $\beta$ -hydroxysteroid dehydrogenase of female rabbit liver	G. R. ANTOUN & D. G. WILLIAMSON	391-398
ADP-ribosyltransferase in isolated nuclei from sea-urchin embryos	A. ISOAI & I. YASUMASU	429-434
Inhibition of class C $\beta$ -lactamases by (1' <i>R</i> ,6 <i>R</i> )-6-(1'-hydroxy)-benzylpenicillanic acid <i>SS</i> -dioxide	G. C. KNIGHT & S. G. WALEY	435-439
The methane mono-oxygenase reaction system studied <i>in vivo</i> by membrane-inlet mass spectrometry	L. JOERGENSEN	441-448
Purification and preliminary characterization of alcohol dehydrogenase from <i>Aspergillus nidulans</i>	E. H. CREASER, R. L. PORTER, K. A. BRITT, J. A. PATEMAN & C. H. DOY	449-454
Human bronchial leucocyte proteinase inhibitor. Rapid isolation and kinetic analysis with human leucocyte proteinases	C. E. SMITH & D. A. JOHNSON	463-472

#### Lipids

Chain-shortening of erucic acid and microperoxisomal $\beta$ -oxidation in rat small intestine	M. S. THOMASSEN, P. HELGERUD & K. R. NORUM	301-306
--	--	---------

#### Nucleic acids and molecular genetics

Enhancement of DNA-mediated gene transfer by high- <i>M<sub>r</sub></i> carrier DNA in synchronized CV-1 cells	A. J. STRAIN, W. A. H. WALLACE & A. H. WYLLIE	529-533
Deoxyribonuclease IV from rat liver chromatin and the excision of apurinic sites from depurinated DNA	G. GRONDAL-ZOCCHI & W. G. VERLY	535-542

## Contents

### Synthesis and degradation of macromolecules

- |   |  |         |
|---|--|---------|
| Regional variation and differential sensitivity of rat heart protein synthesis <i>in vivo</i> and <i>in vitro</i> | V. R. PREEDY, D. M. SMITH,<br>N. F. KEARNEY & P. H. SUGDEN | 487-492 |
| Chondrocyte-mediated depletion of articular cartilage proteoglycans <i>in vitro</i>                               | J. A. TYLER  | 493-507 |

### Intermediary metabolism and metabolic controls

- |  |  |         |
|--|--|---------|
| Leucine and tryptophan metabolism in rats  | M. SALTER, D. A. BENDER &<br>C. I. POGSON                                | 277-281 |
| Hepatic $\Delta^6$ -desaturase activity in lean and genetically obese <i>ob/ob</i> mice  | S. HUGHES & D. A. YORK   | 307-313 |
| $Ca^{2+}$ -dependent activation of oxoglutarate dehydrogenase by vasopressin in isolated hepatocytes   | J. M. STADDON & J. D. MCGIVAN  | 327-333 |
| Effect of insulin on glucose transport and metabolism in isolated fat-cells of gonadal adipose tissue from mature age-matched male and female rats   | M. GUERRE-MILLO, A. LETURQUE,<br>M. LAVAU & J. GIRARD                    | 343-348 |
| Participation of cellular thiol/disulphide groups in the uptake, degradation and bioactivity of insulin in primary cultures of rat hepatocytes   | M. S. MORGAN, R. M. DARROW,<br>M. A. NAFZ & P. T. VARANDANI              | 349-356 |
| Regulation of fructose 2,6-bisphosphate concentration in white adipose tissue  | M. H. RIDER & L. HUE   | 421-428 |
| Effect of cyclic AMP, glucocorticoids and insulin on the activities of phosphotidate phosphohydrolase, tyrosine aminotransferase and glycerol kinase in isolated rat hepatocytes in relation to the control of triacylglycerol synthesis and gluconeogenesis | R. A. PITTNER, R. FEARS &<br>D. N. BRINDLEY                              | 455-462 |
| Purification and properties of a protein activator of phosphorylated branched-chain 2-oxo acid dehydrogenase complex   | J. ESPINAL, P. A. PATSTON,<br>H. R. FATANIA, K. S. LAU &<br>P. J. RANDLE | 509-516 |
| Tumour-promoting phorbol esters increase basal and inhibit insulin-stimulated lipogenesis in rat adipocytes without decreasing insulin binding   | G. VAN DE WERVE, J. PROIETTO &<br>B. JEANRENAUD                          | 523-527 |

### Bioenergetics and transport

- |   |   |         |
|---|---|---------|
| Thermodynamic control of electron flux through mitochondrial cytochrome $bc_1$ complex  | G. C. BROWN & M. D. BRAND                                 | 399-405 |
| Thermodynamic and steady-state-kinetic investigation of the effect of <i>NN'</i> -dicyclohexylcarbodi-imide on $H^+$ translocation by the mitochondrial cytochrome $bc_1$ complex | M. D. BRAND, M. K. AL-SHAWI,<br>G. C. BROWN & B. D. PRICE | 407-411 |
| Electroneutral efflux of $Ca^{2+}$ from liver mitochondria  | M. D. BRAND   | 413-419 |

### Membranes and receptors

- |  |   |         |
|--|---|---------|
| Receptor-binding and down-regulatory properties of 22000- $M_r$ human growth hormone and its natural 20000- $M_r$ variant on IM-9 human lymphocytes                      | J. SMAL, J. CLOSSET, G. HENNEN &<br>P. DE MEYTS                 | 283-289 |
| Identification of three antigens in human brain associated with similar antigens on human leukaemic cells  | E. J. QUACKENBUSH, T. F. CRUZ,<br>M. A. MOSCARELLO & M. LETARTE | 291-299 |
| Histamine $H_2$ receptors on chondrocytes derived from human, canine and bovine articular cartilage  | D. J. TAYLOR, J. R. YOFFE,<br>D. M. BROWN & D. E. WOOLLEY       | 315-319 |
| The rat liver vasoactive intestinal peptide binding site. Molecular characterization by covalent cross-linking and evidence for differences from the intestinal receptor | A. COUVINEAU & M. LABURTHE                                      | 473-479 |
| Mannose 6-phosphate-specific receptor is a transmembrane protein with a C-terminal extension oriented towards the cytosol  | K. VON FIGURA, V. GIESELMANN &<br>A. HASILIK                    | 543-547 |
| Comparison of the structure of two cardiac troponin T isoforms   | V. V. RISNIK, A. D. VERIN &<br>N. B. GUSEV                      | 549-552 |
