## Volume 227, No. 3, 1985

### FULL AND RAPID PAPERS

#### Proteins

- Metal-ion binding to parvalbumin. A  $^{113}\text{Cd}$ -n.m.r. study of the binding of different lanthanide ions  
711-717  
T. DRAKENBERG, M. SWÄRD, A. CAVÉ & J. PARELLO
- Cytochrome *b*<sub>-245</sub> from human neutrophils is a glycoprotein  
783-788  
A. M. HARPER, M. F. CHAPLIN & A. W. SEGAL
- The structure of *Artemia* sp. (brine shrimp) haemoglobins. Purification of a structural unit to homogeneity  
917-924  
L. MOENS, M.-L. VAN HAUWAERT & G. WOLF
- Isolation and partial characterization of an *N*-acetylgalactosamine-specific lectin from winter-aconite (*Eranthis hyemalis*) root tubers  
949-955  
B. P. CAMMUE, B. PEETERS & W. J. PEUMANS
- Terminal deoxynucleotidyltransferase. Alignment of  $\alpha$ - and  $\beta$ -subunits of the core enzyme along the primary translation product  
1003-1007  
C. M. BEACH, S. K. CHAN, T. C. VANAMAN & M. S. COLEMAN
- The amino acid sequence of the cytochrome *c*-554(547) from the chemolithotrophic bacterium *Thiobacillus neapolitanus*  
1009-1013  
R. P. AMBLER, T. E. MEYER, P. A. TRUDINGER & M. D. KAMEN

#### Enzymes

- Suicidal inactivation and labelling of ammonia mono-oxygenase by acetylene  
719-725  
M. R. HYMAN & P. M. WOOD
- Protein kinase activity associated with pancreatic zymogen granules  
743-751  
D. B. BURNHAM, P. MUNOWITZ, N. THORN & J. A. WILLIAMS
- Membrane-bound lactate dehydrogenases and mandelate dehydrogenases of *Acinetobacter calcoaceticus*. Location and regulation of expression  
753-757  
N. ALLISON, M. J. O'DONNELL, M. E. HOEY & C. A. FEWSON
- The glutathione *S*-transferases in selenium and vitamin E deficiency  
823-831  
A. MEHLERT & A. T. DIPLOCK
- Kinetics of suicide substrates. Practical procedures for determining parameters  
843-849  
S. G. WALEY
- Complexes with halide and other anions of the molybdenum centre of nitrate reductase from *Escherichia coli*  
925-931  
G. N. GEORGE, R. C. BRAY, F. F. MORPETH & D. H. BOXER
- Evidence that the medium-chain acyltransferase of lactating-goat mammary-gland fatty acid synthetase is identical with the acetyl/malonyltransferase  
981-985  
J. MIKKELSEN, P. HØJRUP, H. F. HANSEN, J. K. HANSEN & J. KNUDSEN
- Mechanism of action of 5-aminolaevulinate dehydratase from human erythrocytes  
1015-1020  
P. M. JORDAN & P. N. B. GIBBS

#### Carbohydrates

- The effect of castanospermine on the oligosaccharide structures of glycoproteins from lymphoma cell lines  
795-804  
G. PALAMARCZYK & A. D. ELBEIN
- Affinity-purified antibodies of defined specificity for use in a solid-phase microplate radioimmunoassay of human Tamm-Horsfall glycoprotein in urine  
957-963  
J. S. HUNT, A. R. MCGIVEN, A. GROUFSKY, K. L. LYNN & M. C. TAYLOR

#### Lipids

- Synthesis of retinyl phosphate mannose *in vitro*. Non-enzymic breakdown and reversibility  
695-703  
K. E. CREEK, D. RIMOLDI, C. S. SILVERMAN-JONES & L. M. DE LUCA
- Gas chromatographic-mass spectrometric study of metabolites of C<sub>21</sub> and C<sub>19</sub> steroids in neonatal porcine testicular microsomes  
909-916  
T. K. KWAN, N. F. TAYLOR, D. WATSON & D. B. GOWER
- $\Delta^5$ -Desaturase activity in liver and brain microsomes during development of the pig  
1021-1023  
M. T. CLANDININ, K. WONG & R. R. HACKER

## Contents

### Nucleic acids and molecular genetics

- Studies of translatable mRNA for rabbit C-reactive protein D. SAMOLS, S. S. MACINTYRE & I. KUSHNER 759-765

### Synthesis and degradation of macromolecules

- The rate of protein degradation in isolated skeletal muscle does not correlate with reduction-oxidation status J. M. FAGAN & A. L. GOLDBERG 689-694
- Specific changes in the protein composition of rat liver in response to the peroxisome proliferators ciprofibrate, Wy-14,643 and di-(2-ethylhexyl)phthalate T. WATANABE, N. D. LALWANI & J. K. REDDY 767-775
- Initiation of chondroitin sulphate synthesis by  $\beta$ -D-galactosides. Substrates for galactosyltransferase II J. A. ROBINSON & H. C. ROBINSON 805-814
- Articular cartilage cultured with catabolin pig interleukin 1 synthesizes a decreased number of normal proteoglycan molecules J. A. TYLER 869-878
- Cd<sup>2+</sup>-induced synthesis of metallothionein in HeLa cells S. KOIZUMI, T. SONE, N. OTAKI & M. KIMURA 879-886
- Studies on the metabolism of rat liver copper-metallothionein R. K. MEHRA & I. BREMNER 903-908

### Intermediary metabolism and metabolic control

- Distribution, metabolism and excretion of [1-<sup>14</sup>C]dolichol injected intravenously into rats J. W. RIP & K. K. CARROLL 705-710
- Substrates for cyclic AMP-dependent protein kinase in islets of Langerhans. Studies with forskolin and catalytic subunit M. R. CHRISTIE & S. J. H. ASHCROFT 727-736
- Comparison of the activities of some peroxisomal and extraperoxisomal lipid-metabolizing enzymes in liver and extrahepatic tissues of the rat P. V. VELDHOVEN & G. P. MANNAERTS 737-741
- <sup>31</sup>P-saturation-transfer nuclear-magnetic-resonance measurements of phosphocreatine turnover in guinea-pig brain slices P. G. MORRIS, J. FEENEY, D. W. G. COX & H. S. BACHELARD 777-782
- The action of adenosine in relation to that of insulin on the low-*K<sub>m</sub>* cyclic AMP phosphodiesterase in rat adipocytes E. H.-A. WONG, S.-O. OOI, E. G. LOTEN & J. G. T. SNEYD 815-821
- [<sup>14</sup>C]Bicarbonate fixation into glucose and other metabolites in the liver of the starved rat under halothane anaesthesia. Metabolic channelling of mitochondrial oxaloacetate D. F. HEATH & J. G. ROSE 851-867
- Appendix*: Labelling of liver glutamate by [1-<sup>14</sup>C]- and [2-<sup>14</sup>C]-pyruvate as a measure of oxaloacetate-fumarate disequilibrium in the mitochondria D. F. HEATH 866-867
- Conversion of 5-aminolaevulinate into haem by homogenates of human liver. Comparison with rat and chick-embryo liver homogenates H. L. BONKOVSKY, J. F. HEALEY, P. R. SINCLAIR & J. F. SINCLAIR 893-901
- Role of protein synthesis in the carbohydrate-induced changes in the activities of acetyl-CoA carboxylase and hydroxymethylglutaryl-CoA reductase in cultured rat hepatocytes J. T. SPENCE, A. P. KOUDELKA & J. C. L. TSENG-CRANK 939-947
- Basal phosphorylation of cyclic AMP-regulated phosphoproteins in intact S49 mouse lymphoma cells R. A. STEINBERG & Z. KISS 987-994

### Bioenergetics and transport

- Assimilation of  $\alpha$ -glutamyl-peptides by human erythrocytes. A possible means of glutamate supply for glutathione synthesis G. F. KING & P. W. KUCHEL 833-842

### Membranes and receptors

- Effect of antituberculous calixarenes on phospholipase A<sub>2</sub> susceptibility and on fusion of phospholipid bilayers M. K. JAIN & D. V. JAHAGIRDAR 789-794
- Identification of a cellular 110000-Da protein substrate for the insulin-receptor kinase J.-L. SADOUL, J.-F. PEYRON, R. BALLOTTI, A. DEBANT, M. FEHLMANN & E. VAN OBBERGHEN 887-892

## Contents

Pertussis toxin does not inhibit muscarinic-receptor-mediated phosphoinositide hydrolysis or calcium mobilization	S. B. MASTERS, M. W. MARTIN, T. K. HARDEN & J. H. BROWN	933-937
The digitonin-permeabilized pancreatic islet model. Effect of <i>myo</i> -inositol 1,4,5-trisphosphate on Ca <sup>2+</sup> mobilization	B. A. WOLF, P. G. COMENS, K. E. ACKERMANN, W. R. SHERMAN & M. L. MCDANIEL	965-969
Breakdown of phosphatidylinositol 4,5-bisphosphate in a T-cell leukaemia line stimulated by phytohaemagglutinin is not dependent on Ca <sup>2+</sup> mobilization	T. SASAKI & H. HASEGAWA-SASAKI	971-979
<b>Cell structure and function</b>		
Participation of endogenous fatty acids in the secretory activity of the pancreatic B-cell	W. J. MALAISSE, F. MALAISSE-LAGAE, A. SENER & C. HELLERSTRÖM	995-1002
<b>BJ Letters</b>		
Chemical modification of enzymes: reaction with an unstable inhibitor	C. M. TOPHAM	1025-1026
Reply to "Chemical modification of enzymes: reaction with an unstable inhibitor"	E. T. RAKITZIS	1026-1027
