REVIEW ARTICLE

Receptor-mediated endocytosis

T. WILEMAN, C. HARDING & P. STAHL 1-14

FULL AND RAPID PAPERS

Proteins

Purification and characterization of the *N*-terminal propeptide of human type III procollagen

O. NIEMELÄ, L. RISTELI, J. PARKKINEN & J. RISTELI 145-150

The borohydride-reducible compounds of human aortic elastin. Demonstration of a new cyclic amino acid in alkali hydrolysate, and changes with age and in patients with annulo-aortic ectasia including one with Marfan syndrome

T. HALME, M. JUTILA, T. VIHERSAARI, P. OKSMAN, N. D. LIGHT & R. PENTTINEN 169-175

The amino acid sequence of a carbohydrate-containing immunoglobulin-light-chain-type amyloid-fibril protein

T. TVETERAAS, K. SLETTEN & P. WESTERMARK 183-190

Effects of temperature on actin polymerized by Ca²⁺. Direct evidence of fragmentation

E. GRAZI & G. TROMBETTA 297-300

Enzymes

3-Phosphonopropionic acids inhibit carboxypeptidase A as multi-substrate analogues or transition-state analogues

D. GROBELNY, U. B. GOLI & R. E. GALARDY 15-19

ADP-ribosyltransferase in isolated nuclei during the cell cycle of *Physarum polycephalum*

P. GRÖBNER & P. LOIDL 21-24

Purification and characterization of major extracellular proteinases from *Trichophyton rubrum*

M. ASAHI, R. LINDQUIST, K. FUKUYAMA, G. APODACA, W. L. EPSTEIN & J. H. MCKERROW 139-144

Purification and properties of uroporphyrinogen III synthase (co-synthetase) from *Euglena gracilis*

G. J. HART & A. R. BATTERSBY 151-160

An extended-X-ray-absorption-fine-structure (e.x.a.f.s.) study of coenzyme F430 from *Methanobacterium thermoautotrophicum*

G. P. DIAKUN, B. PIGGOTT, H. J. TINTON, D. ANKEL-FUCHS & R. K. THAUER 281-284

The inhibition of protein-lysine 6-oxidase by various lathyrogens. Evidence for two different mechanisms

C. I. LEVENE & M. J. CARRINGTON 293-296

Carbohydrates

The properties of proteoglycan prepared from human articular cartilage by using associative caesium chloride gradients of high and low starting densities

M. T. BAYLISS & P. J. ROUGHLEY 111-117

Structure and interactions of proteoglycans in the extracellular matrix produced by cultured human fibroblasts

S. JOHANSSON, K. HEDMAN, L. KJELLÉN, J. CHRISTNER, A. VAHERI & M. HÖÖK 161-168

Lipids

The interconversion of diacylglycerol and phosphatidylcholine during triacylglycerol production in microsomal preparations of developing cotyledons of safflower (*Carthamus tinctorius* L.)

A. K. STOBART & S. STYMNE 217-221

Nucleic acids and molecular genetics

Isolation of a cDNA clone for pea (*Pisum sativum*) seed lipoxxygenase

R. CASEY, C. DOMONEY & N. C. NIELSEN 79-85

Upstream activation of ribosomal RNA biosynthesis in *Saccharomyces cerevisiae*

R. V. QUINCEY & R. E. GODFREY 205-209

Cloning and nucleotide sequence analysis of transfer RNA genes from *Mycoplasma mycoides*

T. SAMUELSSON, P. ELIAS, F. LUSTIG & Y. S. GUINDY 223-228

Characterization of a depurinated-DNA purine-base-insertion activity from *Drosophila*

W. A. DEUTSCH & A. L. SPIERING 285-288

Synthesis and degradation of macromolecules

Biosynthesis of complement components by cultured rat hepatocytes

R. ANTHONY, L. MORRISON, R. N. M. MACSWEEN & K. WHALEY 93-98

Regulation of storage-protein synthesis in pea (*Pisum sativum* L.) cotyledons under conditions of sulphur deficiency

I. M. EVANS, J. A. GATEHOUSE & D. BOULTER 261-265

CONTENTS (continued)

Dermatan sulphate is located on serine-4 of bovine skin proteo-dermatan sulphate. Demonstration that most molecules possess only one glycosaminoglycan chain and comparison of amino acid sequences around glycosylation sites in different proteoglycans	R. K. CHOPRA, C. H. PEARSON, G. A. PRINGLE, D. S. FACKRE & P. G. SCOTT	277-279
Intermediary metabolism and metabolic control		
Succinylation and inactivation of 3-hydroxy-3-methylglutaryl-CoA synthase by succinyl-CoA and its possible relevance to the control of ketogenesis	D. M. LOWE & P. K. TUBBS	37-42
Effects of calmodulin and lipoxygenase inhibitors on LH (lutropin)- and LHRH (luliberin)-agonist-stimulated steroidogenesis in rat Leydig cells	M. H. F. SULLIVAN & B. A. COOKE	55-59
Biochemical adaptation in the skeletal muscle of rats depleted of creatine with the substrate analogue β -guanidinopropionic acid	E. A. SHOUBRIDGE, R. A. J. CHALLISS, D. J. HAYES & G. K. RADDA	125-131
Effect of fructose 1-phosphate on the activation of liver glycogen synthase	P. GERGELY, B. TÓTH, I. FARKAS & G. BOT	133-137
Regulation of carnitine palmitoyltransferase activity by malonyl-CoA in mitochondria from sheep liver, a tissue with a low capacity for fatty acid synthesis	N. P. J. BRINDLE, V. A. ZAMMIT & C. I. POGSON	177-182
Oxidation of arylcyclopropanes by rabbit liver cytochrome <i>P</i> -450. Mechanistic implications of a multiple oxidation	C. J. SUCKLING, D. C. NONHEBEL, L. BROWN, K. E. SUCKLING, S. SEILMAN & C. R. WOLF	199-203
Characterization of triacylglycerol hydrolase activities in isolated myocardial cells from rat heart	I. RAMIREZ, A. J. KRYSKI, O. BEN-ZEEV, M. C. SCHOTZ & D. L. SEVERSON	229-236
Effects of administration of tri-iodothyronine on the response of cardiac and renal pyruvate dehydrogenase complex to starvation for 48 h	M. J. HOLNESS, T. N. PALMER & M. C. SUGDEN	255-259
Selectivity of the insulin-like actions of vanadate on glucose and protein metabolism in skeletal muscle	A. S. CLARK, J. M. FAGAN & W. E. MITCH	273-276
Adenosine effects on glucose oxidation of adipocytes isolated from streptozotocin-diabetic rats	E. H. A. WONG, J. A. SMITH & L. JARETT	301-304
Site-specific and bulk-phase generation of hydroxyl radicals in the presence of cupric ions and thiol compounds	J. VAN STEVENINCK, J. VAN DER ZEE & T. M. A. R. DUBBELMAN	309-311
Membranes and receptors		
Subfractionation of hepatic endosomes in Nycodenz gradients and by free-flow electrophoresis. Separation of ligand-transporting and receptor-enriched membranes	W. H. EVANS & N. FLINT	25-32
Phospholipid, cholesterol, polypeptide and glycoprotein composition of hepatic endosome subfractions	W. H. EVANS & W. G. M. HARDISON	33-36
The effects of phorbol ester, diacylglycerol, phospholipase C and Ca^{2+} ionophore on protein phosphorylation in human and sheep erythrocytes	P. J. RAVAL & D. ALLAN	43-47
Time-dependence of biological activity induced by covalent insulin-receptor complexes in rat adipocytes	A. SCHÜTTLER, C. DIACONESCU, D. J. SAUNDERS & D. BRANDENBURG	49-53
Decanoyl lysophosphatidic acid induces platelet aggregation through an extracellular action. Evidence against a second messenger role for lysophosphatidic acid	S. P. WATSON, R. T. MCCONNELL & E. G. LAPETINA	61-66
Biosynthesis of the insulin receptor in rat adipose cells. Intracellular processing of the M_r -190000 pro-receptor	J. A. HEDO & I. A. SIMPSON	71-78
Mechanism of inhibitory action of TMB-8 [8-(<i>NN</i> -diethylamino)-octyl-3,4,5-trimethoxybenzoate] on aldosterone secretion in adrenal glomerulosa cells	I. KOJIMA, K. KOJIMA & H. RASMUSSEN	87-92
Early changes in inositol lipids and their metabolites induced by platelet-derived growth factor in quiescent Swiss mouse 3T3 cells	H. HASEGAWA-SASAKI	99-109
Pertussis toxin substrate is a guanosine 5'-[β -thio]diphosphate-, <i>N</i> -ethylmaleimide-, Mg^{2+} - and temperature-sensitive GTP-binding protein	S. K. F. WONG, B. R. MARTIN & A. M. TOLKOVSKY	191-197
Rapid formation of inositol 1,3,4,5-tetrakisphosphate following muscarinic receptor stimulation of rat cerebral cortical slices	I. R. BATTY, S. R. NAHORSKI & R. F. IRVINE	211-215
Inositol 1,4,5-trisphosphate and inositol 1,3,4-trisphosphate formation in Ca^{2+} -mobilizing-hormone-activated cells	G. M. BURGESS, J. S. MCKINNEY, R. F. IRVINE & J. W. PUTNEY, JR.	237-243

CONTENTS (continued)

Insulin stimulation of glucose transport in isolated rat adipocytes. Functional evidence for insulin activation of intrinsic transporter activity within the plasma membrane	P. A. HYSLOP, C. E. KUHN & R. D. SAUERHEBER	245-253
Inhibition of platelet-activating-factor-induced human platelet activation by prostaglandin D ₂ . Differential sensitivity of platelet transduction processes and function responses to inhibition by cyclic AMP	M. BUSHFIELD, A. MCNICOL & D. E. MACINTYRE	267-271
Abnormal minor human erythrocyte membrane sialoglycoprotein (β) in association with the rare blood-group antigen Webb (Wb)	M. E. REID, M. SHAW, G. ROWE, D. J. ANSTEE & M. J. A. TANNER	289-291
Cell structure and function		
Identification of an epidermal cell-adhesion glycoprotein	G. P. ROBERTS & J. BRUNT	67-70
Cell adhesion to low- M_r proteins extractable from mineralized and soft connective tissues	H. T. WONG, J. E. AUBIN, S. WASI & J. SODEK	119-123
Mechanisms of thrombin-induced modifications of human platelet cytoskeleton	F. SINIGAGLIA, C. L. BALDUINI, A. BISIO & C. BALDUINI	305-308
