

# CONTENTS

## Volume 232, No. 2, 1985

### REVIEW ARTICLE

- The biochemistry and molecular biology of atrial natriuretic factor T. G. FLYNN & P. L. DAVIES 313-321

### FULL AND RAPID PAPERS

#### Proteins

- The use of actin labelled with *N*-(1-pyrenyl)iodoacetamide to study the interaction of actin with myosin subfragments and troponin/tropomyosin A. H. CRIDDLE, M. A. GEEVES & T. JEFFRIES 343-349
- Pressure-relaxation studies of pyrene-labelled actin and myosin subfragment 1 from rabbit skeletal muscle. Evidence for two states of acto-subfragment 1 J. H. COATES, A. H. CRIDDLE & M. A. GEEVES 351-356
- Isolation and amino acid sequence of a short-chain neurotoxin from an Australian elapid snake, *Pseudechis australis* C. TAKASAKI & N. TAMIYA 367-372
- The primary structures of *Pseudomonas* AM1 amicyanin and pseudo-azurin. Two new sequence classes of blue copper proteins R. P. AMBLER & J. TOBARI 451-457
- Purification of fish muscle myosin heavy chain and quantification of the specific polyribosome-bound polypeptide E. LIED & A. VON DER DECKEN 467-470
- Production and characterization of antibodies against murine dentine phosphoprotein M. MACDOUGALL, M. ZEICHNER-DAVID & H. C. SLAVKIN 493-500
- Ca<sup>2+</sup>-binding proteins from bovine brain including a potent inhibitor of protein kinase C J. R. McDONALD & M. P. WALSH 559-567
- Physicochemical properties of a novel *M<sub>r</sub>*-21 000 Ca<sup>2+</sup>-binding protein of bovine brain J. R. McDONALD, M. P. WALSH, W. D. MCCUBBIN, K. OIKAWA & C. M. KAY 569-575
- Novel retinoid-binding proteins from filarial parasites B. P. SANI, A. VAID, J. C. W. COMLEY & J. A. MONTGOMERY 577-583
- A sensitive assay for active link protein from cartilage J. D. SANDY & A. H. K. PLAAS 613-616
- <sup>13</sup>C-n.m.r. study of C hordein A. S. TATHAM, P. R. SHEWRY & P. S. BELTON 617-620

#### Enzymes

- Escherichia coli* *S*-adenosylhomocysteine/*5'*-methylthioadenosine nucleosidase. Purification, substrate specificity and mechanism of action F. DELLA RAGIONE, M. PORCELLI, M. CARTENI-FARINA, V. ZAPPIA & A. E. PEGG 335-341
- The interaction of hydralazine with a semicarbazide-sensitive amine oxidase in brown adipose tissue of the rat. Its use as a radioactive ligand for the enzyme M. A. BARRAND & B. A. CALLINGHAM 415-423
- Identity of purified monoacylglycerol lipase, palmitoyl-CoA hydrolase and aspirin-metabolizing carboxylesterase from rat liver microsomal fractions. A comparative study with enzymes purified in different laboratories R. MENTLEIN, R. K. BERGE & E. HEYMANN 479-483
- Developmental changes in the activity of phosphatidylethanolamine *N*-methyltransferases in rat brain J. K. BLUSZTAJN, S. H. ZEISEL & R. J. WURTMAN 505-511

#### Carbohydrates

- Characteristics of lipopolysaccharide interaction with human peripheral-blood monocytes S. J. C. WARNER, N. SAVAGE & D. MITCHELL 379-383

#### Lipids

- The uptake and metabolism of chylomicron-remnant lipids by rat liver parenchymal and non-parenchymal cells *in vitro* P. M. LIPPIELLO, P. J. SISSON & M. WAITE 395-401
- Cytidine monophosphate-dependent synthesis of phosphatidylglycerol in permeabilized type II pneumocytes J. E. BLEASDALE, N. R. THAKUR, G. R. RADER & M. TESAN 539-546
- The effect of non-receptor-mediated uptake of cholesterol on intracellular cholesterol metabolism in human skin fibroblasts D. L. ROBERTSON & M. J. POZNANSKY 553-557

**CONTENTS (continued)**

**Synthesis and degradation of macromolecules**

- Distribution and degradation of biotin-containing carboxylases in human cell lines  
C. S. CHANDLER & F. J. BALLARD 385-393
- Gene expression of ornithine decarboxylase in L1210 leukaemia cells exposed to DL-2-difluoromethylornithine in the presence of cadaverine  
L. ALHONEN-HONGISTO, R. SINERVIRTA, O. A. JÄNNE & J. JÄNNE 605-607

**Intermediary metabolism and metabolic control**

- Stimulatory effect of arginine on acetylglutamate synthesis in isolated mitochondria of mouse and rat liver  
S. KAWAMOTO, T. SONODA, A. OHTAKE & M. TATIBANA 329-334
- Localization of a sulphate-activating system within *Euglena* mitochondria  
T. SAIDHA, A. I. STERN, D.-H. LEE & J. A. SCHIFF 357-365
- Relationship between cytoplasmic free calcium and myosin light chain phosphorylation in intact platelets  
T. J. HALLAM, J. L. DANIEL, J. KENDRICK-JONES & T. J. RINK 373-377
- Endogenous formation of dimethylamine  
S. H. ZEISEL, K.-A. DACOSTA & J. G. FOX 403-408
- Metabolism of *N*<sup>7</sup>-methylhistidine by mice  
A. J. MURRAY, M. K. NIELD, L. M. JONES, N. GALBRAITH & F. M. TOMAS 409-413

Characterization of *Neurospora crassa* cyclic AMP phosphodiesterase activated by calmodulin

- N*<sup>2</sup>-(1-Carboxyethyl)methionine. A 'pseudo-opine' in octopine-type crown-gall tumours  
M. T. TÉLLEZ-IÑÓN, R. M. ULLOA, G. C. GLIKIN & H. N. TORRES 425-430

- Hepatic mitochondrial inner membrane properties and carnitine palmitoyltransferase A and B. Effect of diabetes and starvation  
J. L. FIRMIN, I. M. STEWART & K. E. WILSON 431-434

- Haemoglobin-catalysed retinoic acid 5,6-epoxidation  
L. J. BRADY, L. J. SILVERSTEIN, C. L. HOPPEL & P. S. BRADY 445-450

- Regulation of the translocation of phosphatidate phosphohydrolase between the cytosol and the endoplasmic reticulum of rat liver. Effects of unsaturated fatty acids, spermine, nucleotides, albumin and chlorpromazine  
H. IWASHASHI, A. IKEDA & R. KIDO 459-466

- Effect of glutamine on fructose 2,6-bisphosphate and on glucose metabolism in HeLa cells and in chick-embryo fibroblasts  
R. HOPEWELL, P. MARTIN-SANZ, A. MARTIN, J. SAXTON & D. N. BRINDLEY 485-491

- Nitrate biosynthesis in the rat. Precursor-product relationships with respect to ammonia  
M. MOJENA, L. BOSCA & L. HUE 521-527

- Effects of starvation and exercise on concentrations of citrate, hexose phosphates and glycogen in skeletal muscle and heart. Evidence for selective operation of the glucose-fatty acid cycle  
D. A. WAGNER, L. L. MOLDAWER, J. J. POMPOSELLI, S. R. TANNENBAUM & V. R. YOUNG 547-551

- Activation of rat liver branched-chain 2-oxo acid dehydrogenase *in vivo* by glucagon and adrenaline  
A. ZORZANO, T. W. BALON, L. J. BRADY, P. RIVERA, L. P. GARETTO, J. C. YOUNG, M. N. GOODMAN & N. B. RUDERMAN 585-591

- Involvement of calcium-sensitive phospholipid-dependent protein kinase in control of acid secretion by isolated rat parietal cells  
K. P. BLOCK, B. W. HEYWOOD, M. G. BUSE & A. E. HARPER 593-597

- Bioenergetics and transport**  
The regulation of exogenous NAD(P)H oxidation in spinach (*Spinacia oleracea*) leaf mitochondria by pH and cations  
N. G. ANDERSON & P. J. HANSON 609-611

- Membranes and receptors**  
Size of the inositol 1,4,5-trisphosphate-sensitive calcium pool in guinea-pig hepatocytes  
K. EDMAN, I. ERICSON & I. M. MØLLER 471-477

- Rat fat-cells have three types of adenosine receptors (R<sub>a</sub>, R<sub>i</sub> and P). Differential effects of pertussis toxin  
C. W. TAYLOR & J. W. PUTNEY, JR. 435-438

- Adenosine-receptor-mediated stimulation of low-*K*<sub>m</sub> GTPase in guinea-pig cerebral cortex  
J. A. GARCÍA-SÁINZ & M. L. TORNER 439-443

- Antibody-independent interaction between the first component of human complement, C1, and the outer membrane of *Escherichia coli* D31 m4  
V. HAUSLEITHNER, M. FREISSMUTH & W. SCHÜLTZ 501-504

- Vitamin A effects on UMR 106 osteosarcoma cells are not mediated by specific cytosolic receptors  
B. AUBERT, S. CHESNE, G. J. ARLAUD & M. G. COLOMB 513-519

- Bioenergetics and transport**  
The regulation of exogenous NAD(P)H oxidation in spinach (*Spinacia oleracea*) leaf mitochondria by pH and cations  
R. O. C. OREFFO, M. J. A. FRANCIS & J. T. TRIFFITT 599-603

- Membranes and receptors**  
Size of the inositol 1,4,5-trisphosphate-sensitive calcium pool in guinea-pig hepatocytes  
C. W. TAYLOR & J. W. PUTNEY, JR. 435-438

- Rat fat-cells have three types of adenosine receptors (R<sub>a</sub>, R<sub>i</sub> and P). Differential effects of pertussis toxin  
J. A. GARCÍA-SÁINZ & M. L. TORNER 439-443

- Adenosine-receptor-mediated stimulation of low-*K*<sub>m</sub> GTPase in guinea-pig cerebral cortex  
V. HAUSLEITHNER, M. FREISSMUTH & W. SCHÜLTZ 501-504

- Antibody-independent interaction between the first component of human complement, C1, and the outer membrane of *Escherichia coli* D31 m4  
B. AUBERT, S. CHESNE, G. J. ARLAUD & M. G. COLOMB 513-519

- Vitamin A effects on UMR 106 osteosarcoma cells are not mediated by specific cytosolic receptors  
R. O. C. OREFFO, M. J. A. FRANCIS & J. T. TRIFFITT 599-603

## CONTENTS (continued)

### Cell structure and function

- The role of C-kinase in the physiological activation of the neutrophil oxidase. Evidence from using pharmacological manipulation of C-kinase activity in intact cells  
E. COOKE & M. B. HALLETT 323-327
- Isolation of pig thyroid lysosomes. Biochemical and morphological characterization  
C. ALQUIER, P. GUENIN, Y. MUNARI-SILEM, C. AUDEBET & B. ROUSSET 529-537
- ### BJ Letters
- Evidence for L-threonine cleavage and allotheonine formation by different enzymes from *Clostridium pasteurianum*: threonine aldolase and serine hydroxymethyltransferase  
W. STÖCKLEIN & H.-L. SCHMIDT 621-622
- Fructose 2,6-bisphosphate in isolated rat enterocytes  
J. LOUIS, B. PHILIPPE & L. HUE 622-623
