REVIEW ARTICLE

Protein kinase activity of the insulin receptor

S. GAMMELTOFT & E. VAN OBBERGHEN 1-11

FULL AND RAPID PAPERS

Proteins

Purification of a liver DNA-synthesis promoter from plasma of partially hepatectomized rats

J. J. DÍAZ-GIL, P. ESCARTÍN, R. GARCÍA-CAÑERO, C. TRILLA, J. J. VELOSO, G. SÁNCHEZ, A. MORENO-CAPARRÓS, C. ENRIQUE DE SALAMANCA, R. LOZANO, J. G. GAVILANES & J. M. GARCÍA-SEGURA 49-55

Two different molecular species of pig calpastatin. Structural and functional relationship between 107 kDa and 68 kDa molecules

E. TAKANO, A. KITAHARA, T. SASAKI, R. KANNAGI & T. MURACHI 97-102

C-Terminal peptides of rhodopsin. Determination of the optimum sequence for recognition of retinal transducin

D. J. TAKEMOTO, D. MORRISON, L. C. DAVIS & L. J. TAKEMOTO 309-312

Enzymes

Studies of the ferroxidase activity of native and chemically modified xanthine oxidoreductase

R. W. TOPHAM, M. R. JACKSON, S. A. JOSLIN & M. C. WALKER 39-44

Purification of the constituent enzyme fractions of mycobactin synthetase

S. K. GHOSH, N. K. MUKHOPADHYAY, S. MAJUMDER & S. K. BOSE 81-85

Effect of methimazole on the activity of mushroom tyrosinase

A. ANDRAWIS & V. KAHN 91-96

Functional analysis of the effect of monoclonal antibodies on monkey liver phenylalanine hydroxylase

I. G. JENNINGS, R. G. MCR. RUSSELL, W. L. F. ARMAREGO & R. G. H. COTTON 133-138

Active-site-serine D-alanyl-D-alanine-cleaving-peptidase-catalysed acyl-transfer reactions. Procedures for studying the penicillin-binding proteins of bacterial plasma membranes

J.-M. GHUYSEN, J.-M. FRÈRE, M. LEYH-BOUILLE, M. NGUYEN-DISTÈCHE & J. COYETTE 159-165

Streptomyces K15 DD-peptidase-catalysed reactions with ester and amide carbonyl donors

M. NGUYEN-DISTÈCHE, M. LEYH-BOUILLE, S. PIRLOT, J.-M. FRÈRE & J.-M. GHUYSEN 167-176

Streptomyces K15 DD-peptidase-catalysed reactions with suicide β -lactam carbonyl donors

M. LEYH-BOUILLE, M. NGUYEN-DISTÈCHE, S. PIRLOT, A. VEITHEN, C. BOURGUIGNON & J.-M. GHUYSEN 177-182

Monoclonal antibodies to monoamine oxidase B and another mitochondrial protein from human liver

E. E. BILLETT & R. J. MAYER 257-263

The presence of a Zn²⁺-dependent acid *p*-nitrophenyl phosphatase in bovine liver. Isolation and some properties

F. PANARA 265-268

Fractionation and quantification of calcium-dependent proteinase activity from small tissue samples

A. F. CLARK, G. N. DEMARTINO & D. E. CROALL 279-282

Properties of neurofilament protein kinase

D. TORU-DELBAUFFE, M. PIERRE, J. OSTY, F. CHANTOUX & J. FRANCON 283-289

Purification and characterization of dihydrofolate reductase from *Mycobacterium phlei*

M. AL-RUBEAI & J. W. DALE 301-303

Carbohydrates

Rooster comb hyaluronate-protein, a non-covalently linked complex

C. P. TSIGANOS, D. H. VYNIOS & D. L. KALPAXIS 117-123

G_{M1} gangliosidosis (Type 1) in a cat

C. G. BARKER, W. F. BLAKEMORE, A. DELL, A. C. PALMER, P. R. TILLER & B. G. WINCHESTER 151-158

The disaccharides formed by deaminative cleavage of *N*-deacetylated glycosaminoglycans

P. N. SHAKLEE & H. E. CONRAD 225-236

Lipids

Fluxes through the prokaryotic and eukaryotic pathways of lipid synthesis in the '16:3' plant *Arabidopsis thaliana*

J. BROWSE, N. WARWICK, C. R. SOMERVILLE & C. R. SLACK 25-31

Effect of prior nutritional status on the activity of lipogenic enzymes in primary monolayer cultures of rat hepatocytes

D. S. KELLEY, G. J. NELSON & J. E. HUNT 87-90

CONTENTS (continued)

Nucleic acids and molecular genetics

- Regulation of concentrations of mRNA for amylase, trypsinogen I and chymotrypsinogen B in rat pancreas by secretagogues
W. RENAUD, D. GIORGI, J. IOVANNA & J.-C. DAGORN 305-308

Synthesis and degradation of macromolecules

- Neural regulation of parvalbumin expression in mammalian skeletal muscle
E. LEBERER & D. PETTE 67-73

Intermediary metabolism and metabolic control

- Myocardial adenosine cycling rates during normoxia and under conditions of stimulated purine release
P. W. ACHTERBERG, R. J. STROEVE & J. W. DE JONG 13-17
- The metabolic route by which oleate is converted into cholesterol in rat hepatocytes
G. F. GIBBONS, C. P. ATTWELL THOMAS & C. R. PULLINGER 19-24
- Compartmentation and regulation of acetylcholine synthesis at the synapse
J. WILLOUGHBY, S. A. K. HARVEY & J. B. CLARK 215-223
- Alterations by peroxisome proliferators of acyl composition of hepatic phosphatidylcholine in rats, mice and guinea-pigs. Role of stearoyl-CoA desaturase
Y. KAWASHIMA, A. HIROSE & H. KOZUKA 251-255
- A role for transglutaminase in glucose-stimulated insulin release from the pancreatic β -cell
P. J. BUNGAY, R. A. OWEN, I. C. COUTTS & M. GRIFFIN 269-278
- Studies of the influence of chloro-substituent sites and conformational energy in polychlorinated biphenyls on uroporphyrin formation in chick-embryo liver cell cultures
S. SASSA, O. SUGITA, N. OHNUMA, S. IMAJO, T. OKUMURA, T. NOGUCHI & A. KAPPAS 291-296

Bioenergetics and transport

- Carboxyl methylation of human erythrocyte band 3 in intact cells. Relation to anion transport activity
L. L. LOU & S. CLARKE 183-187
- Reconstitution of the partially purified renal phosphate (P_i) transporter
C. SCHÄLI, D. A. VAUGHN & D. D. FANESTIL 189-197
- Aggregation of submitochondrial particles by heparin and its application to the study of carnitine transport
R. R. RAMSAY & P. K. TUBBS 297-299

Membranes and receptors

- Effects of halothane on transport of 5-hydroxytryptamine by platelet membranes
C. A. WATKINS, L. M. MYLIN & D. E. RANNELS 33-38
- Protein phosphorylation in intact cultured sycamore (*Acer pseudo-platanus*) cells and its response to fusicoccin
L. TOGNOLI & R. COLOMBO 45-48
- Characteristics and biosynthesis of membrane proteins of lipid bodies in the scutella of maize (*Zea mays* L.)
R. QU, S.-M. WANG, Y.-H. LIN, V. B. VANCE & A. H. C. HUANG 57-65
- Membrane-associated pyruvate kinase in developing guinea-pig liver
S. M. FARROW & C. T. JONES 103-110
- Reconstitution of brush border membrane proteins in phosphatidylcholine vesicles. Biochemical and functional characterization
M. BOUDOUARD, J. GIUDICELLI, C. VANNIER & P. SUDAKA 111-116
- The action of islet activating protein (pertussis toxin) on insulin's ability to inhibit adenylate cyclase and activate cyclic AMP phosphodiesterases in hepatocytes
C. M. HEYWORTH, A.-M. GREY, S. R. WILSON, E. HANSKI & M. D. HOUSLAY 145-149
- Monoclonal antibodies reacting with multiple epitopes on the human insulin receptor
M. A. SOOS, K. SIDDLE, M. D. BARON, J. M. HEWARD, J. P. LUZIO, J. BELLATIN & E. S. LENNOX 199-208
- Specific vasopressin binding to rat adrenal glomerulosa cells. Relationship to inositol lipid breakdown
G. GUILLON & N. GALLO-PAYET 209-214
- Acidic phospholipid species inhibit adenylate cyclase activity in rat liver plasma membranes
M. D. HOUSLAY, L. NEEDHAM, N. J. F. DODD & A.-M. GREY 237-243

Cell structures and function

- Regulation of protein phosphorylation in pancreatic acini. Distinct effects of Ca^{2+} ionophore A23187 and 12-*O*-tetradecanoylphorbol 13-acetate
D. B. BURNHAM, P. MUNOWITZ, S. R. HOOTMAN & J. A. WILLIAMS 125-131
- Carerulein and carbamoylcholine stimulate pancreatic amylase release at resting cytosolic free Ca^{2+}
R. BRUZZONE, T. POZZAN & C. B. WOLLHEIM 139-143

Methods

- A method for preparing radiolabelled rat pulmonary surfactant
R. W. LEWIS, J. L. HARWOOD & R. J. RICHARDS 75-79
- The dynamics of phase partition. A study of parameters affecting rat liver organelle partitioning in aqueous two-polymer phase systems
D. HEYWOOD-WADDINGTON, T. J. PETERS & I. A. SUTHERLAND 245-249
