

# CONTENTS

## Volume 239, No. 2, 1986

### REVIEW ARTICLE

- Multienzyme complex of aminoacyl-tRNA synthetases: an essence of being eukaryotic  
C. V. DANG & C. V. DANG 249-255

### FULL AND RAPID PAPERS

#### Proteins

- Identification of a new tissue-kallikrein-binding protein  
J. CHAO, D. M. TILLMAN, M. WANG, H. S. MARGOLIUS & L. CHAO 325-331
- A new non-covalent complex of semisynthetically modified tryptic fragments of cytochrome *c*  
A. E. I. PROUDFOOT, C. J. A. WALLACE, D. E. HARRIS & R. E. OFFORD 333-337
- Characterization of the binding of the anti-sickling compound, BW12C, to haemoglobin  
M. MERRETT, D. K. STAMMERS, R. D. WHITE, R. WOOTTON & G. KNEEN 387-392
- Drug-binding properties of rat  $\alpha$ -foetoprotein. Specificities of the phenylbutazone-binding and warfarin-binding sites  
F. HERVÉ, K. M. RAJKOWSKI, M.-T. MARTIN, P. DESSEN & N. CITTANOVA 451-458
- Molecular-size standards for use in radiation-inactivation studies on proteins  
J. H. A. NUGENT 459-462

#### Enzymes

- Inhibition of prolyl 4-hydroxylase by hydroxyanthraquinones  
C. J. CUNLIFFE & T. J. FRANKLIN 311-315
- Purification and characterization of sheep platelet cyclo-oxygenase. Acetylation by aspirin prevents haemin binding to the enzyme  
R. BOOPATHY & A. S. BALASUBRAMANIAN 371-377
- Mannitol-1-phosphate dehydrogenase of *Escherichia coli*. Chemical properties and binding of substrates  
T. CHASE, JR. 435-443
- Oxygenase properties of the (4-hydroxybenzoyl)methanol-cleavage enzyme from an *Alcaligenes* sp.  
D. J. HOPPER 469-472
- An active-site titrant for human tissue-type plasminogen activator  
R. A. G. SMITH 477-479

#### Carbohydrates

- Cationic activation of galactosyltransferase from rat mammary Golgi membranes by polyamines and by basic peptides and proteins  
N. NAVARATNAM, S. S. VIRK, S. WARD & N. J. KUHN 423-433

#### Lipids

- Possible involvement of the lipid-peroxidation product 4-hydroxy-nonenal in the formation of fluorescent chromolipids  
H. ESTERBAUER, E. KOLLER, R. G. SLEE & J. F. KOSTER 405-409

#### Nucleic acids and molecular genetics

- Primary structure of human complement component C2. Homology to two unrelated protein families  
D. R. BENTLEY 339-345

#### Synthesis and degradation of macromolecules

- Role of spermidine in the expression of late markers of adipose conversion. Effects of growth hormone  
E.-Z. AMRI, R. BARBARAS, A. DOGLIO, C. DANI, P. GRIMALDI & G. AILHAUD 363-370
- Post-translational modification of the protein-synthesis initiation factor eIF-4D by spermidine in rat hepatoma cells  
E. W. GERNER, P. S. MAMONT, A. BERNHARDT & M. SIAT 379-386
- Increased hyaluronate synthesis is required for fibroblast detachment and mitosis  
M. BRECHT, U. MAYER, E. SCHLOSSER & P. PREHM 445-450

#### Intermediary metabolism and metabolic control

- Secretin induces rapid increases in inositol trisphosphate, cytosolic  $Ca^{2+}$  and diacylglycerol as well as cyclic AMP in rat pancreatic acini  
E. R. TRIMBLE, R. BRUZZONE, T. J. BIDEN & R. V. FARESE 257-261
- Urea synthesis in freshly isolated and in cultured periportal and perivenous hepatocytes  
A. R. PÖSÖ, K. E. PENTTILÄ, E.-M. SUOLINNA & K. O. LINDROS 263-267
- Arteriovenous glucose differences across the mammary gland of the fed, starved, and re-fed lactating rat  
T. PAGE & N. J. KUHN 269-274
- Adipose-tissue  $Mg^{2+}$ -dependent phosphatidate phosphohydrolase. Control of activity and subcellular distribution *in vitro* and *in vivo*  
S. J. TAYLOR & E. D. SAGGERSON 275-284

CONTENTS (continued)

Diurnal variation in the fraction of 3-hydroxy-3-methylglutaryl-coenzyme A reductase in the active form in the mammary gland of the lactating rat	R. A. W. SMITH, B. MIDDLETON & D. W. WEST	285-293
Kinase activator protein mediates longer-term effects of starvation on activity of pyruvate dehydrogenase kinase in rat liver mitochondria	G. S. DENYER, A. L. KERBEY & P. J. RANDLE	347-354
Pyruvate metabolism in castor-bean mitochondria	M. A. BRAILSFORD, A. G. THOMPSON, N. KADERBHAI & R. B. BEECHEY	355-361
The effect of bilirubin photoisomers on unbound-bilirubin concentrations estimated by the peroxidase method	S. ITOH, T. YAMAKAWA, S. ONISHI, K. ISOBE, M. MANABE & K. SASAKI	417-421
Steroidogenic effect of atrial natriuretic factor in isolated mouse Leydig cells is mediated by cyclic GMP	A. K. MUKHOPADHYAY, M. SCHUMACHER & F. A. LEIDENBERGER	463-467
Metabolism of 17-hydroxyprogesterone by a <i>Bacillus</i> species	S. B. MAHATO & S. BANERJEE	473-476
Restoration of the properties of carnitine palmitoyltransferase I in liver mitochondria during re-feeding of starved rats	B. D. GRANTHAM & V. A. ZAMMIT	485-488
Time course of changes in plasma glucose and insulin concentrations and mammary-gland lipogenesis during re-feeding of starved conscious lactating rats	S. W. MERCER & D. H. WILLIAMSON	489-492
Activation of hepatic glycogen phosphorylase <i>b in vivo</i> by sodium sulphate in normal (Wistar) and phosphorylase <i>b</i> kinase-deficient ( <i>gsd/gsd</i> ) rats	G. LUTAYA, L. M. RODRIGUES & J. R. GRIFFITHS	493-496
<b>Bioenergetics and transport</b>		
Selective action of mycobacillin on the uptake of releasable cell materials by <i>Aspergillus niger</i>	S. K. DAS, S. BASU, S. MAJUMDAR & S. K. BOSE	317-323
Na <sup>+</sup> -H <sup>+</sup> exchange in luminal-membrane vesicles from rabbit proximal convoluted and straight tubules in response to metabolic acidosis	C. JACOBSEN, U. KRAGH-HANSEN & M. I. SHEIKH	411-416
<b>Membranes and receptors</b>		
Charged anaesthetics alter LM-fibroblast plasma-membrane enzymes by selective fluidization of inner or outer membrane leaflets	W. D. SWEET & F. SCHROEDER	301-310
<b>Cell structure and function</b>		
Neural control of gene expression in skeletal muscle. Calcium-sequestering proteins in developing and chronically stimulated rabbit skeletal muscles	E. LEBERER, U. SEEDORF & D. PETTE	295-300
Distribution of the integral membrane protein NADH-cytochrome <i>b<sub>5</sub></i> reductase in rat liver cells, studied with a quantitative radio-immunoblotting assay	N. BORGESSE & G. PIETRINI	393-403
<b>Methods</b>		
A high-performance-liquid-chromatographic method for the assay of coproporphyrinogen oxidase activity in rat liver	F. LI, C. K. LIM & T. J. PETERS	481-484
