REVIEW ARTICLE

Biochemistry of the cell cycle

D. LLOYD 313-321

FULL AND RAPID PAPERS

Proteins

Further characterization of the cold agglutinin from the snail *Achatina fulica*

D. MITRA, M. SARKAR & A. K. ALLEN 331-338

Crystallographic analysis of the three-dimensional structure of baboon α -lactalbumin at low resolution. Homology with lysozyme

S. G. SMITH, M. LEWIS, R. ASCHAFFENBURG, R. E. FENNA, I. A. WILSON, M. SUNDARALINGAM, D. I. STUART & D. C. PHILLIPS 353-360

Purification and photoaffinity labelling of a rat cytosolic binding protein specific for 3-methylcholanthrene

P. S. ARNOLD, R. C. GARNER & B. TIERNEY 375-381

Chemical taxonomy of the hinge-ligament proteins of bivalves according to their amino acid compositions

Y. KIKUCHI & N. TAMIYA 505-510

Analysis of the high-spin states of the $2[4\text{Fe-4Se}]^+$ ferredoxin from *Clostridium pasteurianum* by Mössbauer spectroscopy

P. AURIC, J. GAILLARD, J. MEYER & J.-M. MOULIS 525-530

Limited proteolysis and sequence analysis of the 2-oxo acid dehydrogenase complexes from *Escherichia coli*. Cleavage sites and domains in the dihydrolipoamide acyltransferase components

L. C. PACKMAN & R. N. PERHAM 531-538

Enzymes

A new procedure for the purification of monodisperse highly active cytochrome *c* oxidase from bovine heart

Y. LI, A. NAQUI, T. G. FREY & B. CHANCE 417-423

Regulation of ornithine decarboxylase activity by spermidine and the spermidine analogue N^1N^8 -bis(ethyl)spermidine

C. W. PORTER, F. G. BERGER, A. E. PEGG, B. GANIS & R. J. BERGERON 433-440

Nitroreductase activity of heart lipoamide dehydrogenase

C. S. TSAI 447-452

The effects of chemically modifying serum apolipoproteins on their ability to activate lipoprotein lipase

P. F. DODDS, A. LOPEZ-JOHNSTON, V. A. WELCH & M. I. GURR 471-478

Inactivation of horse liver mitochondrial aldehyde dehydrogenase by disulfiram. Evidence that disulfiram is not an active-site-directed reagent

C. G. SANNY & H. WEINER 499-503

Escherichia coli endonuclease III is not an endonuclease but a β -elimination catalyst

V. BAILLY & W. G. VERLY 565-572

Purification and properties of a germination-specific cortex-lytic enzyme from spores of *Bacillus megaterium* KM

S. J. FOSTER & K. JOHNSTONE 573-579

Pea (*Pisum sativum*) diamine oxidase contains pyrroloquinoline quinone as a cofactor

Z. GLATZ, J. KOVÁR, L. MACHOLÁN & P. PEČ 603-606

Investigation of the role of Ca^{2+} and calmodulin in the regulation of platelet guanylate cyclase activity

S. MAC NEIL 607-610

The mechanism of potentiation of horseradish peroxidase-catalysed oxidation of NADPH by porphyrins

J. VAN STEVENINCK, J. P. J. BOEGHEIM, T. M. A. R. DUBBELMAN & J. VAN DER ZEE 611-613

Carbohydrates

Identification of an extended *N*-acetylated sequence adjacent to the protein-linkage region of fibroblast heparan sulphate

M. LYON, W. P. STEWARD, I. N. HAMPSON & J. T. GALLAGHER 493-498

Lipids

Non-enzymic hydrolysis of bilirubin mono- and diglucuronide to unconjugated bilirubin in model and native bile systems. Potential role in the formation of gallstones

W. SPIVAK, D. DIVENUTO & W. YUEY 323-329

Nucleic acids and molecular genetics

Effect of α -difluoromethylornithine on DNA methylation in murine erythroleukaemic cells. Relationship to stimulation of induced differentiation

P. PAPAFAFIRI & H. B. OSBORNE 479-483

Cloning of a human liver microsomal UDP-glucuronosyltransferase cDNA

M. R. JACKSON, L. R. MCCARTHY, D. HARDING, S. WILSON, M. W. H. COUGHTRIE & B. BURCHELL 581-588

CONTENTS (continued)

Molecular cloning and nucleotide sequence of the cDNA for sperm-specific lactate dehydrogenase-C from mouse	I. SAKAI, F. S. SHARIEF & S. S.-L. LI	619-622
Synthesis and degradation of macromolecules		
Biosynthesis of proteins by human gastric mucosa <i>in vitro</i>	M. SPOHN & I. MCCOLL	339-346
Inhibition of protein synthesis in LLC-PK ₁ cells increases calcitonin-induced plasminogen-activator gene transcription and mRNA stability	M. S. ALTUS, D. PEARSON, A. HORIUCHI & Y. NAGAMINE	387-392
Regulation of lysosomal fusion during deprivation-induced autophagy in perfused rat liver	C. A. SURMACZ, A. R. PÖSÖ & G. A. MORTIMORE	453-458
Inhibition of intracellular protein degradation by ethanol in perfused rat liver	A. R. PÖSÖ, C. A. SURMACZ & G. E. MORTIMORE	459-464
Protein synthesis and degradation in isolated muscle. Effect of ω 3 and ω 6 fatty acids	R. M. PALMER & K. W. J. WAHLE	615-618
Intermediary metabolism and metabolic control		
Oxidized polyamines and the growth of human vascular endothelial cells. Prevention of cytotoxic effects by selective acetylation	D. M. L. MORGAN	347-352
Intermediates of tocopherol biosynthesis in the unicellular alga <i>Scenedesmus obliquus</i> . The presence of three isomeric methylphytylbenzoquinones	A. HENRY, R. POWLS & J. F. PENNOCK	367-373
Effect of vitamin E- and selenium-deficiency on rat liver chemiluminescence	C. G. FRAGA, R. F. ARIAS, S. F. LLESUY, O. R. KOCH & A. BOVERIS	383-386
Purine deoxynucleosides and adenosine dialdehyde decrease 5-amino-4-imidazolecarboxamide (Z-base)-dependent purine nucleotide synthesis in cultured T and B lymphoblasts	G. R. BOSS	425-431
Rate-limiting steps for protein synthesis in isolated rat liver cells. Role of aspartate availability	D. PÉREZ-SALA, B. BENGEOA, A. MARTÍN-REQUERO, R. PARRILLA & M. S. AYUSO	485-492
Characterization and physiological function of glutathione reductase in <i>Euglena gracilis</i>	S. SHIGEOKA, T. ONISHI, Y. NAKANO & S. KITAOKA	511-515
Adenine nucleotide metabolism in isolated chicken hepatocytes	J. SPYCHALA & G. VAN DEN BERGHE	551-558
Catecholamines and Ca ²⁺ mediate an increase in activity and reactive thiols of rat heart phosphofructokinase	M. G. CLARK, S. RATTIGAN, G. S. PATTEN & O. H. FILSELL	597-601
Bioenergetics and transport		
Properties of the canalicular bile acid transport system in rat liver	P. J. MEIER, A. ST. MEIER-ABT & J. L. BOYER	465-469
Galactoside-proton symport in a <i>lacY</i> ^{UN} mutant of <i>Escherichia coli</i> investigated by analysis of transport progress curves	M. G. P. PAGE	539-550
Membranes and receptors		
Separation of multiple isomers of inositol phosphates formed in GH ₃ cells	N. M. DEAN & J. D. MOYER	361-366
Dephosphorylation of <i>myo</i> -inositol 1,4,5-trisphosphate and <i>myo</i> -inositol 1,3,4-trisphosphate	S. B. SHEARS, D. J. STOREY, A. J. MORRIS, A. B. CUBITT, J. B. PARRY, R. H. MICHELL & C. J. KIRK	393-402
Internalization of insulin receptors and HLA antigens in human hepatoma cells	J.-L. COUSIN, M. SAMSON, P. F. PILCH & M. FEHLMANN	403-410
Thyrotropin-releasing hormone activates Na ⁺ /H ⁺ exchange in rat pituitary cells	T. J. HALLAM & A. H. TASHJIAN, JR.	411-416
Evidence that inositol 1-phosphate in brain of lithium-treated rats results mainly from phosphatidylinositol metabolism	K. E. ACKERMANN, B. G. GISH, M. P. HONCHAR & W. R. SHERMAN	517-524
Intracellular mechanisms in the activation of human platelets by low-density lipoproteins	H. E. ANDREWS, J. W. AITKEN, D. G. HASSALL, V. O. SKINNER & K. R. BRUCKDORFER	559-564
Adipocyte insulin receptor. Generation of a cryptic domain of the α -subunit during internalization of hormone-receptor complexes	P. BERHANU, D. J. SAUNDERS & D. BRANDENBURG	589-596
Cell structure and function		
Zymosan-induced release of inositol phosphates at resting cytosolic Ca ²⁺ concentrations in macrophages	J. MOSCAT, C. HERRERO, P. GARCIA-BARRENO & A. M. MUNICIO	441-445
BJ LETTERS		
Nomenclature of hyaluronic acid	S. K. SINGLA	623
