## FULL AND RAPID PAPERS

### Proteins

- A study of GDP binding to purified thermogenin protein from brown adipose tissue  
Interaction of cytochrome  $b_5$  with surfactant vesicles  
Semi-synthetic aequorin. An improved tool for the measurement of calcium ion concentration  
Regulation of protein turnover versus growth state. Studies on the mechanism(s) of initiation of acidic vacuolar proteolysis in cells of stationary ascites hepatoma  
Monoclonal antibodies that recognize different membrane proteins that are deficient in Rh<sub>null</sub> human erythrocytes. One group of antibodies reacts with a variety of cells and tissues whereas the other group is erythroid-specific  
Purification and characterization of a differentiation-specific sialoglycoprotein of lactating-guinea-pig mammary tissue  
Conformational characteristics of receptor-selective opioid peptides.  $^1\text{H}$  n.m.r. and c.d. spectroscopic studies of  $\delta$ -kephalin and [Val<sup>4</sup>]-morphiceptin

### Enzymes

- The overexpression, purification and complete amino acid sequence of chorismate synthase from *Escherichia coli* K12 and its comparison with the enzyme from *Neurospora crassa*  
Kinetics of the inhibition of plasminogen activators by the plasminogen-activator inhibitor. Evidence for 'second-site' interactions  
Purification and characterization of two wheat-embryo protein phosphatases  
Syncatalytic inactivation of prolyl 4-hydroxylase by anthracyclines  
  
Azide-binding studies reveal Type 3 copper heterogeneity in ascorbate oxidase from the green zucchini squash (*Cucurbita pepo*)  
 $\beta$ -Lactamase inhibitors. The inhibition of serine  $\beta$ -lactamases by specific boronic acids  
Purification and characterization of diacetyl-reducing enzymes from *Staphylococcus aureus*  
The soluble cytochromes *c* of methanol-grown *Hyphomicrobium X*. Evidence against the involvement of autoxidation in electron-acceptor functioning of cytochrome *c*<sub>L</sub>  
Transient-kinetic studies of the adenosine triphosphatase activity of scallop heavy meromyosin  
Kinetic trapping of intermediates of the scallop heavy meromyosin adenosine triphosphatase reaction revealed by formycin nucleotides  
Purification and characterization of a tyrosine-specific protein kinase of  $M_r$  60000 and comparison with a kinase of  $M_r$  56000 from rat spleen  
ADP-ribosylation of dinitrogenase reductase from *Clostridium pasteurianum* prevents its inhibition of nitrogenase from *Azotobacter vinelandii*

### Carbohydrates

- Proteoglycans of the human intervertebral disc. Electrophoretic heterogeneity of the aggregating proteoglycans of the nucleus pulposus  
A protein-sialyl polymer complex involved in colominic acid biosynthesis. Effect of tunicamycin  
Oligosaccharide mapping of heparan sulphate by polyacrylamide-gradient-gel electrophoresis and electrotransfer to nylon membrane

## CONTENTS (continued)

### Synthesis and degradation of macromolecules

Distinction between major chloroquine-inhibitable and adrenergic-responsive pathways of protein degradation and their relation to tissue ATP content in the Langendorff isolated perfused rat heart	T. D. LOCKWOOD	341-346
Biosynthesis, assembly and secretion of fibrinogen in cultured rat hepatocytes	S. HIROSE, K. ODA & Y. IKEHARA	373-377
Renal glomerular proteoglycans. An investigation of their synthesis <i>in vivo</i> using a technique for fixation <i>in situ</i>	L. A. BEAVAN, M. DAVIES & R. M. MASON	411-418
The purification and characterization of a glomerular-basement-membrane-degrading neutral proteinase from rat mesangial cells	M. DAVIES, G. J. THOMAS, J. MARTIN & D. H. LOVETT	419-425
The influence of restraint and infusion on rates of muscle protein synthesis in the rat. Effect of altered respiratory function	V. R. PREEDY & P. J. GARLICK	577-580

### Intermediary metabolism and metabolic control

Metabolites of procainamide and practolol inhibit complement components C3 and C4	E. SIM, L. STANLEY, E. W. GILL & A. JONES	323-326
Effect of age, gonadectomy and hypophysectomy on mitochondrial hydroxylation of vitamin D <sub>3</sub> (cholecalciferol) and of 5β-cholestane-3α,7α,12α-triol in female and male rat liver	K. SAAREM & J. I. PEDERSEN	475-481
Palmitate inhibits liver glycolysis. Involvement of fructose 2,6-bisphosphate in the glucose/fatty acid cycle	L. HUE, L. MAISIN & M. H. RIDER	541-545
Chronic ethanol administration depresses fatty acid synthesis in rat adipose tissue	J. S. WILSON, M. A. KORSTEN, L. P. DONNELLY, P. W. COLLEY, J. B. SOMER & R. C. PIROLA	547-551
A tissue-specific increase in lipogenesis in rat brown adipose tissue in hypothyroidism	H. S. BAHT & E. D. SAGGERSON	553-557
Putrescine, a source of γ-aminobutyric acid in the adrenal gland of the rat	P. C. CARON, L. J. COTE & L. T. KREMZNER	559-562
Hormonal regulation of rat foetal lipogenesis in brown-adipocyte primary cultures	M. LORENZO, C. RONCERO, I. FABREGAT & M. BENITO	617-620
Effect of streptozotocin-diabetes on rat liver mitochondrial adenosine triphosphatase turnover	A. JORDÁ, E. PÉREZ-PASTOR & M. PORTOLÉS	621-624

### Bioenergetics and transport

Internal pH changes associated with the activity of NADPH oxidase of human neutrophils. Further evidence for the presence of an H <sup>+</sup> conducting channel	L. M. HENDERSON, J. B. CHAPPELL & O. T. G. JONES	563-567
---	--	---------

### Membranes and receptors

Fluorescent localization of the β-adrenergic receptor on DDT-1 cells. Down-regulation by adrenergic agonists	B. A. ZEMCIK & C. D. STRADER	333-339
Interaction of botulinum and tetanus toxins with the lipid bilayer surface	C. MONTECUCCO, G. SCHIAVO, Z. GAO, E. BAUERLEIN, P. BOQUET & B. R. DASGUPTA	379-383
Functional shift from muscarinic to nicotinic cholinergic receptors involved in inositol trisphosphate and cyclic GMP accumulation during the primary culture of adrenal chromaffin cells	T. NAKAKI, N. SASAKAWA, S. YAMAMOTO & R. KATO	397-403
Regulation of inositol 1,4,5-trisphosphate metabolism in insulin-secreting RINm5F cells	T. J. BIDEN, L. VALLAR & C. B. WOLLHEIM	435-440
Insulin and glucagon attenuate the ability of cholera toxin to activate adenylate cyclase in intact hepatocytes	F. J. IRVINE & M. D. HOUSLAY	447-452
Cycloheximide decreases glucose transporters in rat adipocyte plasma membranes without affecting insulin-stimulated glucose transport	S. MATTHAEI, J. M. OLEFSKY & E. KARNIELI	491-497
Effect of glycerol on the molecular properties of cerebrosides, sulphatides and gangliosides in monolayers	I. D. BIANCO, G. D. FIDELIO & B. MAGGIO	613-616

### Methods

Electric shock-mediated transfection of cells. Characterization and optimization of electrical parameters	D. J. WINTERBOURNE, S. THOMAS, J. HERMON-TAYLOR, I. HUSSAIN & A. P. JOHNSTONE	427-434
---	---	---------
