

CONTENTS

Volume 259, No. 2, 1989

REVIEW ARTICLE

- The eicosanoids and their biochemical mechanisms of action W. L. SMITH 315-324

FULL AND RAPID PAPERS

Proteins

- Postsecretory modifications of streptavidin E. A. BAYER, H. BEN-HUR, Y. HILLER & M. WILCZEK 369-376
- Inhibition of the covalent binding reaction of complement component C4 by penicillamine, an anti-rheumatic agent E. SIM, A. W. DODDS & A. GOLDIN 415-419
- Comparison of desialylation of rat transferrin by cellular and non-cellular methods S. IRIE, J. J. MINGUELL & M. TAVASSOLI 427-431
- Primary sequence and domain structure of chicken vinculin G. J. PRICE, P. JONES, M. D. DAVISON, B. PATEL, R. BENDORI, B. GEIGER & D. R. CRITCHLEY 453-461
- Conformational studies of a synthetic peptide corresponding to the repeat motif of C hordein A. S. TATHAM, A. F. DRAKE & P. R. SHEWRY 471-476
- Studies on the biotin-binding sites of avidin and streptavidin. A chemically induced dynamic nuclear polarization investigation of the status of tyrosine residues G. GITLIN, I. KHAIT, E. A. BAYER, M. WILCZEK & K. A. MUSZKAT 493-498
- Plasminogen activator inhibitor-type I is a major biosynthetic product of retinal microvascular endothelial cells and pericytes in culture A. E. CANFIELD, A. M. SCHOR, D. J. LOSKUTOFF, S. L. SCHOR & M. E. GRANT 529-535
- Purification of two glycoproteins expressing β 1-6 branched Asn-linked oligosaccharides from metastatic tumour cells S. LAFERTE & J. W. DENNIS 569-576

Enzymes

- Cellular characterization of a new irreversible inhibitor of S-adenosyl-methionine decarboxylase and its use in determining the relative abilities of individual polyamines to sustain growth and viability of L1210 cells D. L. KRAMER, R. M. KHOMUTOV, Y. V. BUKIN, A. R. KHOMUTOV & C. W. PORTER 325-331
- A theoretical study on the expression of enzymic activity in reverse micelles R. BRU, A. SÁNCHEZ-FERRER & F. GARCIA-CARMONA 355-361
- The interplay of electrostatic fields and binding interactions determining catalytic-site reactivity in actinidin. A possible origin of differences in the behaviour of actinidin and papain D. KOWLESSUR, M. O'DRISCOLL, C. M. TOPHAM, W. TEMPLETON, E. W. THOMAS & K. BROCKLEHURST 443-452
- Inositol 1,4-bisphosphate is an allosteric activator of muscle-type 6-phosphofructo-1-kinase G. W. MAYR 463-470
- Iodothyronine 5'-deiodinase activity as an early event of prenatal brown-fat differentiation in bovine development M. GIRALT, L. CASTELLA, O. VIÑAS, T. MAMPEL, R. IGLESIAS, J. ROBELIN & F. VILLARROYA 555-559
- Solubilization and reconstitution of kidney 25-hydroxyvitamin D₃ 1 α - and 24-hydroxylases from vitamin D-replete pigs R. W. GRAY & J. G. GHAZARIAN 561-568
- Control of *Drosophila* deoxyuridine triphosphatase. Existence of a developmentally expressed protein inhibitor M. D. NATION, S. N. GUZDER, L. E. GIROIR & W. A. DEUTSCH 593-596
- X-ray-absorption-spectroscopic evidence for a novel iron cluster in hydrogenase II from *Clostridium pasteurianum* G. N. GEORGE, R. C. PRINCE, K. E. STOCKLEY & M. W. W. ADAMS 597-600
- Inhibitory effects on protein kinase C activity by lipophosphoglycan fragments and glycosylphosphatidylinositol antigens of the protozoan parasite *Leishmania* T. B. MCNEELY, G. ROSEN, M. V. LONDNER & S. J. TURCO 601-604

Gene structure and expression

- The primary structure of bovine monoamine oxidase type A. Comparison with peptide sequences of bovine monoamine oxidase type B and other flavoenzymes J. F. POWELL, Y.-P. P. HSU, W. WEYLER, S. CHEN, J. SALACH, K. ANDRIKOPOULOS, J. MALLET & X. O. BREAKFIELD 407-413
- Interaction of the antitumour antibiotic luzopeptin with the hexanucleotide duplex d(5'-GCATGC)₂. One-dimensional and two-dimensional n.m.r. studies M. S. SEARLE, J. G. HALL, W. A. DENNY & L. P. G. WAKELIN 433-441
- Entrapment of high-molecular-mass DNA molecules in liposomes for the genetic transformation of animal cells J. SZELEI & E. DUDA 549-553

CONTENTS (continued)

Inflammatory cytokines induce synthesis and secretion of <i>gro</i> protein and a neutrophil chemotactic factor but not β 2-microglobulin in human synovial cells and fibroblasts	E. E. GOLDS, P. MASON & P. NYIRKOS	585-588
Synthesis and degradation of macromolecules		
The effects of acute-phase inducers and dimethyl sulphoxide on δ -aminolaevulinic synthase activity in human HepG2 hepatoma cells	F. IWASA, S. SASSA & A. KAPPAS	605-607
Intermediary metabolism and metabolic control		
Postnatal recruitment of brown adipose tissue is induced by the cold stress experienced by the pups. An analysis of mRNA levels for thermogenin and lipoprotein lipase	M.-J. OBREGÓN, A. JACOBSSON, T. KIRCHGESSNER, M. C. SCHOTZ, B. CANNON & J. NEDERGAARD	341-346
Differential stimulation of <i>S</i> -adenosylmethionine decarboxylase by difluoromethylornithine in the rat colon and small intestine	A. G. HALLINE, P. K. DUDEJA & T. A. BRASITUS	513-518
Glutathione-dependent dechlorination of 1,6-dichloro-1,6-dideoxy-fructose	H. M. HUGHES, G. M. POWELL, D. J. SNODIN, J. W. DANIEL, A. CRAWFORD, J. K. M. SANDERS & C. G. CURTIS	537-543
Bioenergetics and transport		
The role of succinate in the respiratory chain of <i>Trypanosoma brucei</i> procyclic trypomastigotes	J. F. TURRENS	363-368
Characteristics of tetraethylammonium transport in rabbit renal plasma-membrane vesicles	J. S. JUNG, Y. K. KIM & S. H. LEE	377-383
Random mutagenesis of the gene for the β -subunit of F_1 -ATPase from <i>Escherichia coli</i>	F. A. S. KIRONDE, D. PARSONAGE & A. E. SENIOR	421-426
Free concentrations of sodium, potassium and calcium in chromaffin granules	J. R. HAIGH, R. PARRIS & J. H. PHILLIPS	485-491
Effects of lactate on pancreatic islets. Lactate efflux as a possible determinant of islet-cell depolarization by glucose	L. BEST, A. P. YATES, J. E. MEATS & S. TOMLINSON	507-511
A gated ^{31}P -n.m.r. study of bioenergetic recovery in rat skeletal muscle after tetanic contraction	R. A. J. CHALLISS, M. J. BLACKLEDGE, E. A. SHOUBRIDGE & G. K. RADDA	589-592
Membranes and receptors		
Arachidonate cannot be released directly from diacyl- <i>sn</i> -glycero-3-phosphocholine in thrombin-stimulated platelets	O. COLARD, M. BRETON, D. PEPIN, F. CHEVY, G. BEREZIAT & J. POLONOVSKI	333-339
Aglycosylation of human IgG1 and IgG3 monoclonal antibodies can eliminate recognition by human cells expressing Fc γ RI and/or Fc γ RII receptors	M. R. WALKER, J. LUND, K. M. THOMPSON & R. JEFFERIS	347-353
Effects of angiotensin II and of phorbol ester on protein kinase C activity and on prostacyclin production in cultured rat aortic smooth-muscle cells	U. LANG & M. B. VALLOTTON	477-484
Purification and characterization of predominant G-protein from bovine lung membranes. Biochemical and immunochemical comparison with G_{i1} and G_o purified from brain	Y. KANAHO, S. T. CROOKE & J. M. STADEL	499-506
Proteolytic generation of constitutive tyrosine kinase activity of the human insulin receptor	J. J. HSUAN, J. DOWNWARD, S. CLARK & M. D. WATERFIELD	519-527
Epidermal-growth-factor-stimulated phosphorylation of calpactin II in membrane vesicles shed from cultured A-431 cells	J. BLAY, K. A. VALENTINE-BRAUN, J. K. NORTHUP & M. D. HOLLENBERG	577-583
Lack of V_1 vasopressin receptors in rabbit hepatocytes	A. VANDEKERCKHOVE, F. MIOT, S. KEPPENS & H. DE WULF	609-611
Phosphorylation of γ -aminobutyrate (GABA)/benzodiazepine receptors by cyclic AMP-dependent protein kinase	E. F. KIRKNESS, C. F. BOVENKERK, T. UEDA & A. J. TURNER	613-616
An investigation of the transverse topology of bilirubin UDP-glucuronosyltransferase in rat hepatic endoplasmic reticulum	S. R. P. SHEPHERD, S. J. BAIRD, T. HALLINAN & B. BURCHELL	617-620
Cell structure and function		
The cilia of <i>Paramecium tetraurelia</i> contain both Ca^{2+} -dependent and Ca^{2+} -inhibitable calmodulin-binding proteins	T. C. EVANS & D. L. NELSON	385-396

CONTENTS (continued)

Polyphosphoinositide breakdown and subsequent exocytosis in the Ca^{2+} /ionophore-induced acrosome reaction of mammalian spermatozoa	E. R. S. ROLDAN & R. A. P. HARRISON	397-406
Methods		
Determination of intracellular nitrate	J. M. ROMERO, C. LARA & M. G. GUERRERO	545-548
BJ LETTERS		
Still degrading after all these years	L. PROBERT & M. R. HANLEY	621-622
Sorry, not one of the family	S. L. STEPHENSON & A. J. KENNY	622-623
Fructose 2,6-bisphosphate in rat small intestine	M. LOWRY & G. L. KELLETT	624-626
