

CONTENTS

Volume 259, No. 3, 1989

FULL AND RAPID PAPERS

Proteins

- A key functional role for the insulin-like growth factor 1 *N*-terminal pentapeptide
C. J. BAGLEY, B. L. MAY, L. SZABO, P. J. MCNAMARA, M. ROSS, G. L. FRANCIS, F. J. BALLARD & J. C. WALLACE 665-671
- Purification and spectral studies on the Ca²⁺-binding properties of 67 kDa calcimedin
R. S. MANI & C. M. KAY 799-804
- Inhibition of aspartic proteinases by α_2 -macroglobulin
D. J. THOMAS, A. D. RICHARDS & J. KAY 905-907
- Effect of synthetic carrier ampholytes on saturation of human serum transferrin
A. ORATORE, A. M. D'ALESSANDRO & G. D'ANDREA 909-912

Enzymes

- Lactoperoxidase from human colostrum
B. LANGBAKK & T. FLATMARK 627-631
- Xanthine oxidase-catalysed oxidation of paracetamol
J. VAN STEVENINCK, J. F. KOSTER & T. M. A. R. DUBBELMAN 633-637
- X-ray-absorption and electron-paramagnetic-resonance spectroscopic studies of the environment of molybdenum in high-pH and low-pH forms of *Escherichia coli* nitrate reductase
G. N. GEORGE, N. A. TURNER, R. C. BRAY, F. F. MORPETH, D. H. BOXER & S. P. CRAMER 693-700
- The kinetics of ox kidney biliverdin reductase in the pre-steady state. Evidence that the dissociation of bilirubin is the rate-determining step
E. RIGNEY, T. J. MANTLE & F. M. DICKINSON 709-713
- Bacteriophage-T4 and *Micrococcus luteus* UV endonucleases are not endonucleases but β -elimination and sometimes $\beta\delta$ -elimination catalysts
V. BAILLY, B. SENTE & W. G. VERLY 751-759
- The multiple activities of *Escherichia coli* endonuclease IV and the extreme lability of 5'-terminal base-free deoxyribose 5-phosphates
V. BAILLY & W. G. VERLY 761-768
- The metabolism of ethanol-derived acetaldehyde by alcohol dehydrogenase (EC 1.1.1.1) and aldehyde dehydrogenase (EC 1.2.1.3) in *Drosophila melanogaster* larvae
P. W. H. HEINSTRAS, B. W. GEER, D. SEYKENS & M. LANGEVIN 791-797
- Characterization of the bis(5'-nucleosidyl) tetraphosphate pyrophosphohydrolase from encysted embryos of the brine shrimp *Artemia*
M. PRESCOTT, A. D. MILNE & A. G. MCLENNAN 831-838
- Immunochemical characterization of NADPH-cytochrome *P*-450 reductase from Jerusalem artichoke and other higher plants
I. BENVENISTE, A. LESOT, M.-P. HASENFRATZ & F. DURST 847-853
- Structure-activity relationship of swainsonine. Inhibition of human α -mannosidases by swainsonine analogues
I. CENCI DI BELLO, G. FLEET, S. K. NAMGOONG, K.-I. TADANO & B. WINCHESTER 855-861
- Studies of protein-protein interaction using countercurrent distribution in aqueous two-phase systems. Partition behaviour of six Calvin-cycle enzymes from a crude spinach (*Spinacia oleracea*) chloroplast extract
L.-O. PERSSON & G. JOHANSSON 863-870
- Purification and partial characterization of human polyamine synthases
E. O. KAJANDER, L. I. KAUPPINEN, R.-L. PAJULA, K. KARKOLA & T. O. ELORANTA 879-886
- Kinetic evidence for a two-step mechanism for the binding of chymotrypsin to α_1 -proteinase inhibitor
M. BRUCH & J. G. BIETH 929-930
- Lipids
- Comparison of glycerolipid biosynthesis in non-green plastids from sycamore (*Acer pseudoplatanus*) cells and cauliflower (*Brassica oleracea*) buds
C. ALBAN, J. JOYARD & R. DOUCE 775-783
- Gene structure and expression
- N.m.r. assignments and temperature-dependent conformational transitions of a mutant *trp* operator-promoter in solution
A. N. LANE 715-724
- Differential expression of the α and β retinoic acid receptors in tissues of the rat
J. L. REES, A. K. DALY & C. P. F. REDFERN 917-919

CONTENTS (continued)

Synthesis and degradation of macromolecules

Degradation of human proteoglycan aggregate induced by hydrogen peroxide. Protein fragmentation, amino acid modification and hyaluronic acid cleavage

C. R. ROBERTS, P. J. ROUGHLEY & J. S. MORT 805-811

Intermediary metabolism and metabolic control

Changes in the lipogenic response to feeding of liver, white adipose tissue and brown adipose tissue during the development of obesity in the gold-thioglucoase-injected mouse

G. J. COONEY, M. A. VANNER, J. L. NICKS, P. F. WILLIAMS & I. D. CATERSON 651-657

Interleukin-1 and lipid metabolism in the rat

J. M. ARGILÉS, F. J. LOPEZ-SORIANO, R. D. EVANS & D. H. WILLIAMSON 673-678

Transfection of insulin-producing cells with a transforming c-Ha-ras oncogene stimulates phospholipase C activity

P.-O. BERGGREN, A. HALLBERG, N. WELSH, P. ARKHAMMAR, T. NILSSON & M. WELSH 701-707

Effect of choline deficiency on S-adenosylmethionine and methionine concentrations in rat liver

S. H. ZEISEL, T. ZOLA, K.-A. DACOSTA & E. A. POMFRET 725-729

Amplification of fluoroaluminate-stimulated inositol phosphate generation in a cell line overexpressing the p21^{N-ras} gene

M. J. O. WAKELAM 737-741

Effect of sulphate on glutamate synthesis by intact spinach (*Spinacia oleracea*) chloroplasts

R. DUMAS, J. JOYARD & R. DOUCE 769-774

Zonation of hepatic lipogenic enzymes identified by dual-digitonin-pulse perfusion

J. L. EVANS, B. QUISTORFF & L. A. WITTERS 821-829

Properties and fluctuations *in vivo* of rat liver antizyme inhibitor

Y. MURAKAMI, S. MATSUFUJI, M. NISHIYAMA & S. HAYASHI 839-845

Inhibition of type I and type II iodothyronine deiodinase activity in rat liver, kidney and brain produced by selenium deficiency

G. J. BECKETT, D. A. MACDOUGALL, F. NICOL & J. R. ARTHUR 887-892

Contraction-mediated inactivation of glycogen synthase is accompanied by inactivation of glycogen synthase phosphatase in human skeletal muscle

Y. KIDA, A. KATZ, A. D. LEE & D. M. MOTT 901-904

Mechanism of hypoglycaemic action of methylenecyclopropylglycine

K. MELDE, H. BUETTNER, W. BOSCHERT, H. P. O. WOLF & S. GHISLA 921-924

Aurin-tricarboxylic acid is a potent inhibitor of phosphofructokinase

S. A. MCCUNE, L. G. FOE, R. G. KEMP & R. R. JURIN 925-927

Membranes and receptors

Inositol 1,4,5-trisphosphorothioate, a stable analogue of inositol trisphosphate which mobilizes intracellular calcium

C. W. TAYLOR, M. J. BERRIDGE, A. M. COOKE & B. V. L. POTTER 645-650

The effect of cholera toxin on the inhibition of vasopressin-stimulated inositol phospholipid hydrolysis is a cyclic AMP-mediated event at the level of receptor binding

S. D. GARDNER, G. MILLIGAN, J. E. RICE & M. J. O. WAKELAM 679-684

Effect of ATP depletion and temperature on the transferrin-mediated uptake and release of iron by BeWo choriocarcinoma cells

A. VAN DER ENDE, A. DU MAINE, A. L. SCHWARTZ & G. J. STROUS 685-692

Conformation-dependent recognition of a protein by T cells requires presentation without processing

M. Z. ATASSI, G. S. BIXLER, JR. & T. YOKOI 731-735

The conditions under which rat islets are labelled with [³H]inositol alter the subsequent responses of these islets to a high glucose concentration

W. S. ZAWALICH, K. C. ZAWALICH & H. RASMUSSEN 743-749

Identification and characterization of parathyroid hormone receptors on dog kidney, human kidney, chick bone and human dermal fibroblast. A comparative study of functional and structural properties

K. K. PUN & P. W. M. HO 785-789

Activation of NADPH oxidase by purine and pyrimidine nucleotides involves G proteins and is potentiated by chemotactic peptides

R. SEIFERT, R. BURDE & G. SCHULTZ 813-819

Alkylation, reduction, solubilization and enrichment of binding activity do not impair the ability of insulin receptors to convert from a rapid- into a slow-dissociating state

K. E. LIPSON, A. A. KOLHATKAR & D. B. DONNER 871-878

Determination of the steady-state turnover rates of the metabolically active pools of phosphatidylinositol 4-phosphate and phosphatidylinositol 4,5-bisphosphate in human erythrocytes

C. E. KING, P. T. HAWKINS, L. R. STEPHENS & R. H. MICHELL 893-896

Erythrocyte membrane acetylcholinesterase in type 1 (insulin-dependent) diabetes mellitus

M. SUHAIL & S. I. RIZVI 897-899

CONTENTS (continued)

Phosphatidylinositol-specific phospholipase C of <i>Bacillus thuringiensis</i> as a probe for the distribution of phosphatidylinositol in hepatocyte membranes	J. A. HIGGINS, B. W. HITCHIN & M. G. LOW	913-916
Inositol 1,3,4,5-tetrakisphosphate causes release of Ca ²⁺ from permeabilized mouse lymphoma L1210 cells by its conversion into inositol 1,4,5-trisphosphate	P. J. CULLEN, R. F. IRVINE, B. K. DRØBAK & A. P. DAWSON	931-933
Cell structure and function		
Properties of membrane-bound bilirubin UDP-glucuronyltransferase in rough and smooth endoplasmic reticulum and in the nuclear envelope from rat liver	F. VANSTAPEL, L. HAMMAKER, K. PUA & N. BLANCKAERT	659-663
Methods		
High-pressure-liquid-chromatographic and fluorimetric methods for the determination of adenine released from ribosomes by ricin and gelonin	M. ZAMBONI, M. BRIGOTTI, F. RAMBELLI, L. MONTANARO & S. SPERTI	639-643
BJ LETTERS		
Calculation of lactate disappearance with isotopic tracers using tissue lactate specific radioactivity	W. C. STANLEY & S. L. LEHMAN	935
