

CONTENTS

Volume 261, No. 2, 1989

REVIEW ARTICLE

- Binding of plasminogen activators to fibrin: characterization and pharmacological consequences R. FEARS 313-324

FULL AND RAPID PAPERS

Proteins

- Activation of human protein C by blood coagulation factor Xa in the presence of anionic phospholipids. Enhancement by sulphonated polysaccharides J.-M. FREYSSINET, M.-L. WIESEL, L. GRUNEBaum, J.-M. PERILLO, J. GAUCHY, S. SCHUHLER, G. FREUND & J.-P. CAZENAVE 341-348
- The cytochromes of anaerobically grown *Escherichia coli*. An electron-paramagnetic-resonance study of the cytochrome *bd* complex *in situ* R. A. ROTHERY & W. J. INGLEDEW 437-443
- Two distinct azurins function in the electron-transport chain of the obligate methylotroph *Methylomonas J* R. P. AMBLER & J. TOBARI 495-499
- pH-dependent forms of the ferryl haem in myoglobin peroxide analysed by variable-temperature magnetic circular dichroism N. FOOTE, P. M. A. GADSBY, C. GREENWOOD & A. J. THOMSON 515-522
- Interchain and intrachain disulphide bonds in human platelet glycoprotein IIb. Localization of the epitopes for several monoclonal antibodies J. J. CALVETE, M. V. ALVAREZ, G. RIVAS, C.-L. HEW, A. HENSCHEN & J. GONZÁLEZ-RODRÍGUEZ 551-560
- Complete localization of the intrachain disulphide bonds and the *N*-glycosylation points in the α -subunit of human platelet glycoprotein IIb J. J. CALVETE, A. HENSCHEN & J. GONZÁLEZ-RODRÍGUEZ 561-568
- The putative 'link' glycopeptide associated with mucus glycoproteins. Composition and properties of preparations from the gastrointestinal tracts of several mammals A. M. ROBERTON, M. MANTLE, R. E. F. FAHIM, R. D. SPECIAN, A. BENNICK, S. KAWAGISHI, P. SHERMAN & J. F. FORSTNER 637-647
- Reconstitution of intermediate filaments from a higher plant A. J. HARGREAVES, K. C. GOODBODY & C. W. LLOYD 679-682
- ### Enzymes
- Purification, oligomerization state and malate sensitivity of maize leaf phosphoenolpyruvate carboxylase G. A. L. MCNAUGHTON, C. A. FEWSON, M. B. WILKINS & H. G. NIMMO 349-355
- Lipocortin-independent effect of dexamethasone on phospholipase activity in a thymic epithelial cell line A. PILTCH, L. SUN, R. A. FAVA & J. HAYASHI 395-400
- Reversible thermal inactivation of the quinoprotein glucose dehydrogenase from *Acinetobacter calcoaceticus*. Ca^{2+} ions are necessary for re-activation O. GEIGER & H. GÖRISCH 415-421
- Modulation of testicular galactolipid sulphotransferase activity by phosphorylation. Stimulation of enzyme activity *in vitro* by an endogenous kinase D. SAKAC & C. A. LINGWOOD 423-429
- Identification of a cysteine residue at the active site of *Escherichia coli* isocitrate lyase H. G. NIMMO, F. DOUGLAS, C. KLEANTHOUS, D. G. CAMPBELL & C. MACKINTOSH 431-435
- Affinity purification of the novel cysteine proteinase papaya proteinase IV, and papain from papaya latex D. J. BUTTLE, A. A. KEMHAVI, S. L. SHARP, R. E. SHUTE, D. H. RICH & A. J. BARRETT 469-476
- Kinetics of cell-free activation of neutrophil NADPH oxidase. Effects of neomycin and guanine nucleotides I. AVIRAM & M. SHARABANI 477-482
- Purification of bovine brain inositol 1,4,5-trisphosphate 3-kinase. Identification of the enzyme by sodium dodecyl sulphate/polyacrylamide-gel electrophoresis K. TAKAZAWA, H. PASSAREIRO, J. E. DUMONT & C. ERNEUX 483-488
- Cytosolic glutathione transferases from rat liver. Primary structure of class Alpha glutathione transferase 8-8 and characterization of low-abundance class Mu glutathione transferases P. ÅLIN, H. JENSSON, E. CEDERLUND, H. JÖRNVALL & B. MANNERVIK 531-539
- Purification and characterization of a tartrate-resistant acid phosphate from human osteoclastomas A. R. HAYMAN, M. J. WARBURTON, J. A. S. PRINGLE, B. COLES & T. J. CHAMBERS 601-609

CONTENTS (continued)

Carbohydrates

- Postnatal changes in dolichol-pathway enzyme activities in rat liver
Deglycosylation of mucin from LS174T colon cancer cells by hydrogen fluoride treatment
S. ODA-TAMAI, S. KATO & N. AKAMATSU 371-375
J. C. BYRD, D. T. A. LAMPORT, B. SIDDIQUI, S.-F. KUAN, R. ERICKSON, S. H. ITZKOWITZ & Y. S. KIM 617-625
- Abnormal synthesis of cartilage-characteristic proteoglycan in azaserine-induced micromelial limbs
A. HONDA, I. TSUBOI, K. KIMATA, Y. HIRABAYASHI, K. YAMADA & Y. MORI 627-635

Lipids

- Acylation of 2-acyl-glycerophosphocholine in guinea-pig heart microsomal fractions
G. ARTHUR 575-580
- Lysophospholipase A₂ activity in guinea-pig heart microsomal fractions displaying high activities with 2-acylglycerophosphocholines with linoleic and arachidonic acids
G. ARTHUR 581-586
- Sex-related difference in the inductions by perfluoro-octanoic acid of peroxisomal β -oxidation, microsomal 1-acylglycerophosphocholine acyltransferase and cytosolic long-chain acyl-CoA hydrolase in rat liver
Y. KAWASHIMA, N. UY-YU & H. KOZUKA 595-600
- Uptake, production and metabolism of cysteinyl leukotrienes in the isolated perfused rat liver. Inhibition of leukotriene uptake by cyclosporine
W. HAGMANN, S. PARTHÉ & I. KAISER 611-616
- The effects of Triton X-100 and chlorpromazine on the Mg²⁺-dependent and Mg²⁺-independent phosphatidate phosphohydrolase activities of rat lung
P. A. WALTON & F. POSSMAYER 673-678

Gene structure and expression

- Binding of the *Escherichia coli* cyclic AMP receptor protein to DNA fragments containing consensus nucleotide sequences
K. GASTON, A. KOLB & S. BUSBY 649-653

Synthesis and degradation of macromolecules

- Secretion, cleavage and binding of complement component C3 by the human monocytic cell line U937
C. M. MAISON, C. L. VILLIERS & M. G. COLOMB 407-413
- The synthesis of dermatan sulphate proteoglycans by fetal and adult human articular cartilage
L. I. MELCHING & P. J. ROUGHLEY 501-508

Intermediary metabolism and metabolic control

- Comparative effects of tumour necrosis factor- α (cachectin), interleukin-1- β and tumour growth on amino acid metabolism in the rat *in vivo*. Absorption and tissue uptake of α -amino[1-¹⁴C]isobutyrate
J. M. ARGILÉS, F. J. LÓPEZ-SORIANO, D. WIGGINS & D. H. WILLIAMSON 357-362
- Effects of aging on the responsiveness and sensitivity of glucose metabolism to insulin in the incubated soleus muscle isolated from Sprague-Dawley and Wistar rats
B. LEIGHTON, G. D. DIMITRIADIS, M. PARRY-BILLINGS, F. J. LOZEMAN & E. A. NEWSHOLME 383-387
- Polymyxin B diminishes blood flow to brown adipose tissue and lactating mammary gland in the rat. Possible mechanism of its action to decrease the stimulation of lipogenesis on refeeding
A. E. TEDSTONE, B. TEDOLDI, V. ILIC & D. H. WILLIAMSON 445-450
- Decreased-activity mutants of phosphoglucose isomerase in the cytosol and chloroplast of *Clarkia xantiana*. Impact on mass-action ratios and fluxes to sucrose and starch, and estimation of Flux Control Coefficients and Elasticity Coefficients
A. L. KRUCKEBERG, H. E. NEUHAUS, R. FEIL, L. D. GOTTLIEB & M. STITT 457-467
- Anomeric specificity of D-glucose phosphorylation by rat liver glucose-6-phosphatase
R. RAMIREZ, D. ZÄHNER, G. MARYNISSEN, A. SENER & W. J. MALAISE 509-513
- Glutamine-dependent carbamoyl-phosphate synthetase and other enzyme activities related to the pyrimidine pathway in spleen of *Squalus acanthias* (spiny dogfish)
P. M. ANDERSON 523-529
- 5'-Nucleotidase activity and adenosine formation in stimulated, hypoxic and underperfused rat heart
J. P. HEADRICK & R. J. WILLIS 541-550
- Characterization of antilipolytic action of polyamines in isolated rat adipocytes
B. RICHELSEN, S. B. PEDERSEN & D. M. HOUGAARD 661-665
- Changes in the activities of adenosine-metabolizing enzymes in six regions of the rat brain on chemical induction of hypothyroidism
D. MAZURKIEWICZ & D. SAGGERSON 667-672
- Herpes simplex virus-1-specific proteins are involved in alteration of polyphosphoinositide metabolism in baby-hamster kidney cells
N. LANGELAND, L. J. MOORE, H. HOLMSEN & L. HAARR 683-686

CONTENTS (continued)

Bioenergetics and transport

Chymotrypsin activates cardiac mitochondrial carnitine-acylcarnitine translocase

P. E. WOLKOWICZ, D. F. PAULY, W. B. VAN WINKLE & J. B. McMILLIN 363-370

AlF_4^- -induced inhibition of the ATPase activity, the Ca^{2+} -transport activity and the phosphoprotein-intermediate formation of plasma-membrane and endo(sarco)plasmic-reticulum Ca^{2+} -transport ATPases in different tissues. Evidence for a tissue-dependent functional difference

L. MISSIAEN, F. WUYTACK, H. DE SMEDT, F. AMANT & R. CASTEELS 655-660

Membranes and receptors

Interaction of cerebral-cortical membranes with exogenously added phosphatidylinositol 4,5-bisphosphate. Effects on measured phospholipase C activity

I. LITOSCH 325-331

Insulin stimulates proteolysis of the α -subunit, but not the β -subunit, of its receptor at the cell surface in rat liver

K. E. LIPSON, A. A. KOLHATKAR & D. B. DONNER 333-340

Surface characteristics of phosphatidylglycerol phosphate from the extreme halophile *Halobacterium cutirubrum* compared with those of its deoxy analogue, at the air/water interface

P. J. QUINN, M. KATES, J.-F. TOCANNE & M. TOMOAI-A-COTIŞEL 377-381

The β -adrenergic radioligand [^3H]CGP-12177, generally classified as an antagonist, is a thermogenic agonist in brown adipose tissue

N. MOHELL & A. DICKER 401-405

Passive diffusion of non-electrolytes across the lysosome membrane

G. P. IVESON, S. J. BIRD & J. B. LLOYD 451-456

Studies on the defect which causes absence of decay accelerating factor (DAF) from the peripheral blood cells of an individual with the Inab phenotype

C. G. TATE, M. UCHIKAWA, M. J. A. TANNER, P. A. JUDSON, S. F. PARSONS, G. MALLINSON & D. J. ANSTEE 489-493

A study of the mechanism by which some amphiphilic drugs affect human erythrocyte acetylcholinesterase activity

A. SPINEDI, L. PACINI & P. LULY 569-573

Low-density-lipoprotein receptors in different rabbit liver cells

M. S. NENSETER, O. MYKLEBOST, R. BLOMHOFF, C. A. DREVON, A. NILSSON, K. R. NORUM & T. BERG 587-593

Cell structure and function

Studies on the effect of lysosomotropic agents on the release of Gal β 1-4GlcNAc α -2,6-sialyltransferase from rat liver slices during the acute-phase response

G. LAMMERS & J. C. JAMIESON 389-393

BJ LETTERS

Arachidonate release in neutrophils: does a lack of effect of protein kinase C inhibitors imply no involvement of protein kinase C?

S. KRISHNAMURTHI & S. JOSEPH 687-688

Some effects of phorbol esters are not mediated by protein kinase C

R. I. SHA'AFI 688
