REVIEW ARTICLE

High molecular mass intracellular proteases

A. J. RIVETT 625-633

FULL AND RAPID PAPERS

Proteins

Kinetic study of the irreversible thermal denaturation of *Bacillus licheniformis* α -amylase

M. VIOLET & J.-C. MEUNIER 665-670

Conformational differences between two wheat (*Triticum aestivum*) 'high-molecular-weight' glutenin subunits are due to a short region containing six amino acid differences

A. P. GOLDSBROUGH, N. J. BULLEID, R. B. FREEDMAN & R. B. FLAVELL 837-842

Kinetic analysis of protein modification reactions at equilibrium

E. T. RAKITZIS 855-859

A 32 kDa lipocortin from human mononuclear cells appears to be identical with the placental inhibitor of blood coagulation

B. ROTHHUT, C. COMÉRA, S. CORTIAL, P.-Y. HAUMONT, K. H. DIEP LE, J.-C. CAVADORE, J. CONARD, F. RUSSO-MARIE & F. LEDERER 929-935

Calcium-binding protein from mouse Ehrlich ascites-tumour cells is homologous to human calyculin

J. KUŹNICKI, A. FILIPEK, P. E. HUNZIKER, S. HUBER & C. W. HEIZMANN 951-956

Variations in the rate of secretion of different glycosylated forms of rat α_1 -acid glycoprotein

A. DRECHOU, J.-D. ROUZEAU, J. FEGER & G. DURAND 961-964

The amino acid sequence of a flavodoxin from the eukaryotic red alga *Chondrus crispus*

S. WAKABAYASHI, T. KIMURA, K. FUKUYAMA, H. MATSUBARA & L. J. ROGERS 981-984

Enzymes

Purification and properties of neutral maltase from human granulocytes

P. DELQUÉ BAYER, C. VITTORI, P. SUDAKA & J. GIUDICELLI 647-652

Purification and characterization of an anticonvulsant-induced human cytochrome P-450 catalysing cyclosporin metabolism

P. M. SHAW, T. S. BARNES, D. CAMERON, J. ENGESET, W. T. MELVIN, G. OMAR, J. C. PETRIE, W. R. RUSH, C. P. SNYDER, P. H. WHITING, C. R. WOLF & M. D. BURKE 653-663

Effects of inducers of drug metabolism on basic hepatic forms of mouse glutathione transferase

P. DI SIMPLICIO, H. JENSSON & B. MANNERVIK 679-685

Molybdenum nitrogenase of *Azotobacter chroococcum*. Tight binding of MgADP to the MoFe protein

R. W. MILLER & R. R. EADY 725-729

Influence of superoxide on myeloperoxidase kinetics measured with a hydrogen peroxide electrode

A. J. KETTLE & C. C. WINTERBOURN 823-828

The role of the C-terminal tail of flavocytochrome b_2

S. A. WHITE, M. T. BLACK, G. A. REID & S. K. CHAPMAN 849-853

Potent and selective inactivation of cysteine proteinases with N-peptidyl-O-acyl hydroxylamines

D. BRÖMME, A. SCHIERHORN, H. KIRSCHKE, B. WIEDERANDERS, A. BARTH, S. FITTKAU & H.-U. DEMUTH 861-866

Trapping the acyl-enzyme intermediate in β -lactamase I catalysis

S. J. CARTWRIGHT, A. K. TAN & A. L. FINK 905-912

Purification and characterization of benzaldehyde dehydrogenase I from *Acinetobacter calcoaceticus*

R. M. CHALMERS & C. A. FEWSON 913-919

The use of benzyloxycarbonyl¹²⁵I]iodotyrosylalanyldiazomethane as a probe for active cysteine proteinases in human tissues

R. W. MASON, L. T. BARTHOLOMEW & B. S. HARDWICK 945-949

Structural basis for the kinetic differences between flavocytochromes b_2 from the yeasts *Hansenula anomala* and *Saccharomyces cerevisiae*

M. T. BLACK, F. J. GUNN, S. K. CHAPMAN & G. A. REID 973-976

Two types of rate-determining step in chemical and biochemical processes

S. YAGISAWA 985-988

Lipids

Pathway of α -linolenic acid through the mitochondrial outer membrane in the rat liver and influence on the rate of oxidation. Comparison with linoleic and oleic acids

P. CLOUET, I. NIOT & J. BÉZARD 867-873

CONTENTS (continued)

Sex-related differences in the enhancing effects of perfluoro-octanoic acid on stearoyl-CoA desaturase and its influence on the acyl composition of phospholipid in rat liver. Comparison with clofibrac acid and tiadenol	Y. KAWASHIMA, N. UY-YU & H. KOZUKA	897-904
Gene structure and expression		
Expression of a human gene for polyamine transport in Chinese-hamster ovary cells	T. L. BYERS, R. WECHTER, M. E. NUTTALL & A. E. PEGG	745-752
Adaptative decrease in expression of the mRNA for uncoupling protein and subunit II of cytochrome <i>c</i> oxidase in rat brown adipose tissue during pregnancy and lactation	I. MARTIN, M. GIRALT, O. VIÑAS, R. IGLESIAS, T. MAMPEL & F. VILLARROYA	965-968
Studies on human red-cell membrane glycoporphin A and glycoporphin B genes in glycoporphin-deficient individuals	C. G. TATE, M. J. A. TANNER, P. A. JUDSON & D. J. ANSTEE	993-996
Synthesis and degradation of macromolecules		
Turnover of carnitine palmitoyltransferase mRNA and protein in H4IIE cells. Effect of cyclic AMP and insulin	L. WANG, P. S. BRADY & L. J. BRADY	703-708
Changes in collagen and elastin in rabbit right-ventricular pressure overload	R. B. LOW, W. S. STIREWALT, P. HULTGREN, E. S. LOW & B. STARCHER	709-713
Synthesis of hyaluronate in cultured bovine articular cartilage	C. K. NG, C. J. HANDLEY, R. M. MASON & H. C. ROBINSON	761-767
Formation of <i>N</i> ^ε -(γ -glutamyl)-lysine isodipeptide in Chinese-hamster ovary cells	L. FESUS & E. TARCSA	843-848
Cytosolic ferritin and lipid-associated ferritin are metabolically different in guinea-pig livers	B. E. CHAM, H. P. ROESER & A. NIKLES	989-992
Intermediary metabolism and metabolic control		
Biosynthesis and metabolism of 9-[5'-deoxy-5'-(methylthio)- β -D-xylofuranosyl]adenine, a novel natural analogue of methylthioadenosine	M. PORCELLI, G. CACCIAPUOTI, G. CIMINO, M. GAVAGNIN, G. SODANO & V. ZAPPIA	635-640
Effects of oxyradicals on oxymyoglobin. Deoxygenation, haem removal and iron release	M. R. PRASAD, R. M. ENGELMAN, R. M. JONES & D. K. DAS	731-736
Gluconeogenesis and the protection of hepatic intracellular pH during diabetic ketoacidosis in rats	J. S. BEECH, S. R. WILLIAMS, R. D. COHEN & R. A. ILES	737-744
Co-ordinated changes in the cyclic AMP signalling system and the phosphorylation of two nuclear proteins of M_r 130000 and 110000 during proliferative stimulation of the rat parotid gland by isoprenaline. Possible identity of the two proteins with pp135 and nucleolin	J. HOFFMANN & G. SCHWOCH	785-793
Stimulation of generation of inositol phosphates by carbamoylcholine and its inhibition by phorbol esters and iodide in dog thyroid cells	E. LAURENT, J. MOCKEL, K. TAKAZAWA, C. ERNEUX & J. E. DUMONT	795-801
Pathways of glycogen synthesis from glucose during the glycogenic response to insulin in cultured foetal hepatocytes	H. BISMUT & C. PLAS	889-895
Long-term maintenance of high rates of very-low-density-lipoprotein secretion in hepatocyte cultures. A model for studying the direct effects of insulin and insulin deficiency <i>in vitro</i>	J. M. DUERDEN, S. M. BARTLETT & G. F. GIBBONS	937-943
Bioenergetics and transport		
Phospholipid-protein interactions of the plasma-membrane Ca^{2+} -transporting ATPase. Evidence for a tissue-dependent functional difference	L. MISSIAEN, L. RAEYMAEKERS, F. WUYTACK, M. VROUX, H. DE SMEDT & R. CASTEELS	687-694
Electroneutral, HCO_3^- -independent, pH gradient-dependent uphill transport of Cl^- by ileal brush-border membrane vesicles. Possible role in the pathogenesis of chloridorrhea	M. VASSEUR, M. CAÜZAC & F. ALVARADO	775-784
Interaction of a permeant maleimide derivative of cysteine with the erythrocyte glucose carrier. Differential labelling of an exofacial carrier thiol group and its role in the transport mechanism	J. M. MAY	875-881
Enantiomeric selectivity of adenosine transport systems in mouse erythrocytes and L1210 cells	W. P. GATI, L. DAGNINO & A. R. P. PATERSON	957-960

CONTENTS (continued)

Membranes and receptors

- Differential sensitivity of anti-IgM-induced and NaF-induced inositol phospholipid metabolism to serine protease inhibitors in BAL17 B lymphoma cells
J. MIZUGUCHI, N. UTSUNOMIYA, M. NAKANISHI, Y. ARATA & H. FUKAZAWA 641-646
- Purification and properties of active atrial-natriuretic-peptide receptor (type C) from bovine lung
K. UCHIDA, T. MIZUNO, M. SHIMONAKA, N. SUGIURA, K. NARA, N. LING, H. HAGIWARA & S. HIROSE 671-678
- The receptors for ATP and fMetLeuPhe are independently coupled to phospholipases C and A₂ via G-protein(s). Relationship between phospholipase C and A₂ activation and exocytosis in HL60 cells and human neutrophils
S. COCKCROFT & J. STUTCHFIELD 715-723
- Antipeptide antibody against the human low-density-lipoprotein receptor. Characterization and cross-reactivity with bovine lymphocytes
G. AGNANI, C. DELPIERRE, S. BENHAMAMOUCH, G. TORPIER, C. CACHERA, M. KOFFIGAN, A. TARTAR, J. C. FRUCHART & V. CLAVEY 753-760
- Classification of prostaglandin receptors based on coupling to signal transduction systems
S. MUALLEM, B. S. MERRITT, J. GREEN, C. R. KLEEMAN & D. T. YAMAGUCHI 769-774
- Tyrosine-specific phosphorylation of calmodulin by the insulin receptor kinase purified from human placenta
D. B. SACKS, Y. FUJITA-YAMAGUCHI, R. D. GALE & J. M. McDONALD 803-812
- Effect of basic polycations and proteins on purified insulin receptor
Y. FUJITA-YAMAGUCHI, D. B. SACKS, J. M. McDONALD, D. SAHAL & S. KATHURIA 813-822
- Inhibition of adenylate cyclase in rat brain synaptosomal membranes by GTP and phenylisopropyladenosine is enhanced in hypothyroidism
D. MAZURKIEWICZ & E. D. SAGGERSON 829-835
- Muscarinic cholinergic receptor of rat cerebral cortex. Location and characterization of ligand binding site-carrying peptides in synaptosomal membranes and isolated neuronal perikarya
C. B. BOUZAT, F. J. BARRANTES & D. M. ALPERIN 921-928
- Receptor- and phorbol-ester-mediated redistribution of protein kinase C in human platelets. Evidence that aggregation promotes degradation of protein kinase C
C. P. D. WHEELER-JONES, Y. PATEL, V. V. KAKKAR & S. KRISHNAMURTHI 969-972
- Endothelin stimulates DNA synthesis in Swiss 3T3 cells. Synergy with polypeptide growth factors
K. D. BROWN & C. J. LITTLEWOOD 977-980
- ### Cell structure and function
- The interaction of cations with lipopolysaccharide from *Escherichia coli* C as shown by measurement of binding constants and aggregation reactions
A. M. FIELD, E. ROWATT & R. J. P. WILLIAMS 695-702
- Dynamic light-scattering studies on the effect of heat and disinfectants on spores of *Bacillus cereus*
A. D. MOLINA-GARCIA, S. E. HARDING, L. DE PIERI, N. JAN & W. M. WAITES 883-888
- ### BJ LETTERS
- An n.m.r. study of the tricarboxylic acid cycle
J. KATZ 997
- The fate of [3-¹³C]citrate in renal cells monitored by ¹³C n.m.r.
A. W. H. JANS 997-998
- Correction: isoprenaline-induced transcription of 4β-galactosyl-transferase is inhibited by both cycloheximide and actinomycin D in rat parotid acinar cells
M. G. HUMPHREYS-BEHER 998-999
