

REVIEW ARTICLE

- Expression and interactions of human adenovirus oncoproteins
P. A. BOULANGER & G. E. BLAIR 281-299

RESEARCH PAPERS

Proteins

- Enzymic methylation of myelin basic protein in myelin
S. K. GHOSH, N. RAWAL, S. K. SYED, W. K. PAIK & S. KIM 381-387
- Interaction domains of neurofilament light chain and brain spectrin
T. FRAPPIER, F. STETZKOWSKI-MARDEN & L.-A. PRADEL 521-527
- Amino acid distributions around *O*-linked glycosylation sites
I. B. H. WILSON, Y. GAVEL & G. VON HEIJNE 529-534

Enzymes

- Artemia* purine phosphoribosyltransferases. Purification and characterization
C. MONTERO & P. LLORENTE 327-334
- The reactivities and ionization properties of the active-site dithiol groups of mammalian protein disulphide-isomerase
H. C. HAWKINS & R. B. FREEDMAN 335-339
- Redox properties and cross-linking of the dithiol/disulphide active sites of mammalian protein disulphide-isomerase
H. C. HAWKINS, M. DE NARDI & R. B. FREEDMAN 341-348
- Comparison of the activities of protein disulphide-isomerase and thioredoxin in catalysing disulphide isomerization in a protein substrate
H. C. HAWKINS, E. C. BLACKBURN & R. B. FREEDMAN 349-353
- Homologues of insulinase, a new superfamily of metalloendopeptidases
N. D. RAWLINGS & A. J. BARRETT 389-391
- Studies on the mechanism of hydroxymethylbilane synthase concerning the role of arginine residues in substrate binding
M. LANDER, A. R. PITT, P. R. ALEFOUNDER, D. BARDY, C. ABELL & A. R. BATTERSBY 447-452
- Independent segregation of glutathione *S*-transferase and fatty acid ethyl ester synthase from pancreas and other human tissues
R. SHARMA, S. GUPTA, S. S. SINGHAL, H. AHMAD, A. HAQUE & Y. C. AWASTHI 507-513
- Purification and characterization of truncated ribonuclease inhibitor
J. HOFSTEENGE, A. VINCENTINI & S. R. STONE 541-543

Carbohydrates and lipids

- 2-Acyl-*sn*-glycero-3-phosphoethanolamine lysophospholipase A_2 activity in guinea-pig heart microsomes
K. BADIANI & G. ARTHUR 393-398

Gene structure and expression

- Protein-synthesis-dependent induction of annexin I by glucocorticoid
W. T. WONG, S. C. FROST & H. S. NICK 313-319
- The herpes simplex virus virion protein Vmw65 transcriptionally activates the gene encoding the U4 snRNA but not that encoding the U2 snRNA during lytic infection
D. S. LATCHMAN 369-372
- Molecular structure of the human muscle-specific enolase gene (*ENO3*)
M. PESHAVARIA & I. N. M. DAY 427-433
- Transgenic mice carrying the guinea-pig α -lactalbumin gene transcribe milk protein genes in their sebaceous glands during lactation
A. MASCHIO, P. M. BRICKELL, D. KIOUSSIS, A. L. MELLOR, D. KATZ & R. K. CRAIG 459-467

Regulation of metabolism

- Multiple mechanisms for the regulation of haem synthesis during erythroid cell differentiation. Possible role for coproporphyrinogen oxidase
L. H. CONDER, S. I. WOODARD & H. A. DAILEY 321-326
- Identification and characterization of a hepatic microsomal glucose transport protein. T_3 of the glucose-6-phosphatase system?
I. D. WADDELL, H. SCOTT, A. GRANT & A. BURCHELL 363-367
- Inhibition of prolyl hydroxylation and procollagen processing in chick-embryo calvaria by a derivative of pyridine-2,4-dicarboxylate. Characterization of the diethyl ester as a proinhibitor
G. TSCHANK, D. G. BROCKS, K. ENGELBART, J. MOHR, E. BAADER, V. GÜNZLER & H. M. HANAUSKE-ABEL 469-476
- Acute effects of phorbol esters on the protein-synthetic rate and carbohydrate metabolism of normal and *mdx* mouse muscles
P. A. MACLENNAN, A. MCARDLE & R. H. T. EDWARDS 477-483
- myo*-Inositol pentakisphosphates. Structure, biological occurrence and phosphorylation to *myo*-inositol hexakisphosphate
L. R. STEPHENS, P. T. HAWKINS, A. F. STANLEY, T. MOORE, D. R. POYNER, P. J. MORRIS, M. R. HANLEY, R. R. KAY & R. F. IRVINE 485-499

CONTENTS (continued)

Cyclosporin A blocks bile acid synthesis in cultured hepatocytes by specific inhibition of chenodeoxycholic acid synthesis	H. M. G. PRINCEN, P. MEIJER, B. G. WOLTERS, R. J. VONK & F. KUIPERS	501-505
Proteoglycan metabolism in the connective tissue of pregnant and non-pregnant human cervix. An <i>in vitro</i> study	M. NORMAN, G. EKMAN, U. ULMSTEN, K. BARCHAN & A. MALMSTRÖM	515-520
Esterification of reduced glutathione	P. K. THORNALLEY	535-539
Membranes and bioenergetics		
Reversible and irreversible inhibition, by stilbenedisulphonates, of lactate transport into rat erythrocytes. Identification of some new high-affinity inhibitors	R. C. POOLE & A. P. HALESTRAP	307-312
Inhibition of high-affinity γ -aminobutyric acid uptake in primary astrocyte cultures by phorbol esters and phospholipase C	J. GOMEZA, M. CASADO, C. GIMENEZ & C. ARAGON	435-439
Receptors and signal transduction		
Staurosporine both activates and inhibits serine/threonine kinases in human platelets	M. KOCHER & K. J. CLEMETSON	301-306
Thrombin induces a biphasic 1,2-diacylglycerol production in human platelets	S. NAKASHIMA, A. SUGANUMA, A. MATSUI & Y. NOZAWA	355-361
Determination of mass changes in phosphatidylinositol 4,5-bis-phosphate and evidence for agonist-stimulated metabolism of inositol 1,4,5-trisphosphate in airway smooth muscle	E. R. CHILVERS, I. H. BATTY, R. A. J. CHALLISS, P. J. BARNES & S. R. NAHORSKI	373-379
Inhibition of luteinizing-hormone exocytosis by guanosine 5'-[γ -thio]-triphosphate reveals involvement of a GTP-binding protein distal to second-messenger generation	P. A. VAN DER MERWE, R. P. MILLAR, I. K. WAKEFIELD & J. S. DAVIDSON	399-405
The inositol phosphate/diacylglycerol signalling pathway in <i>Trypanosoma cruzi</i>	R. DOCAMPO & O. P. PIGNATARO	407-411
Site-specific dephosphorylation and deactivation of the human insulin receptor tyrosine kinase by particulate and soluble phosphotyrosyl protein phosphatases	M. J. KING, R. P. SHARMA & G. J. SALE	413-418
Immunological studies on the rat peripheral-type benzodiazepine acceptor	P. N. MOYNAGH, C. J. BAILEY, S. J. BOYCE & D. C. WILLIAMS	419-425
Synthesis of the acid-labile subunit of the growth-hormone-dependent insulin-like-growth-factor-binding protein complex by rat hepatocytes in culture	C. D. SCOTT & R. C. BAXTER	441-446
Purification of a high-affinity inositol 1,3,4,5-tetrakisphosphate receptor from brain	F. DONIÉ & G. REISER	453-457
