

RESEARCH PAPERS

Proteins

- Articular-cartilage matrix γ -carboxyglutamic acid-containing protein. Characterization and immunolocalization
R. LOESER, C. S. CARLSON, H. TULLI, W. GRAY JEROME, L. MILLER & R. WALLIN 1-6
- Evidence that a secondary binding and protecting site for Factor VIII on von Willebrand Factor is highly unlikely
S. LAYET, J.-P. GIRMA, B. OBERT, E. PEYNAUD-DEBAYLE, N. BIHOREAU & D. MEYER 129-137
- Myosin heavy-chain composition in striated muscle after tenotomy
A. JAKUBIEC-PUKA, C. CATANI & U. CARRARO 237-242
- Type II intermediate-filament proteins from wool. The amino acid sequence of component 5 and comparison with component 7c
L. G. SPARROW, C. P. ROBINSON, J. CAINE, D. T. W. MCMAHON & P. M. STRIKE 291-297

Enzymes

- Mechanism of maturational decline of rat intestinal lactase-phlorizin hydrolase
K. K. TSUBOI, L. K. KWONG, P. SUNSHINE & R. O. CASTILLO 107-113
- The catalytic consequences of experimental evolution. Studies on the subunit structure of the second (*ebg*) β -galactosidase of *Escherichia coli*, and on catalysis by *ebg^{ab}*, an experimental evolvant containing two amino acid substitutions
A. C. ELLIOTT, S. K. M. L. SINNOTT, P. J. SMITH, J. BOMMUSWAMY, Z. GUO, B. G. HALL & Y. ZHANG 155-164
- Carbonic anhydrase in skeletal and cardiac muscle from rabbit and rat
C. GEERS, D. KRÜGER, W. SIFFERT, A. SCHMID, W. BRUNS & G. GROS 165-171
- Modulation of 5'-nucleotidase activity in plasma membranes and intact cells by the extracellular matrix proteins laminin and fibronectin
N. OLMO, J. TURNAY, G. RISSE, R. DEUTZMANN, K. VON DER MARK & M^{rs} A. LIZARBE 181-188
- Streptomyces albus* G serine β -lactamase. Probing of the catalytic mechanism via molecular modelling of mutant enzymes
J. LAMOTTE-BRASSEUR, F. JACOB-DUBUISSON, G. DIVE, J.-M. FRÈRE & J.-M. GHUYSEN 189-195
- Inhibition of folate-dependent enzymes by non-steroidal anti-inflammatory drugs
J. E. BAGGOTT, S. L. MORGAN, T. HA, W. H. VAUGHN & R. J. HINE 197-202
- Expression of glutathione S-transferase during rat liver development
L. B. G. TEE, K. S. GILMORE, D. J. MEYER, B. KETTERER, Y. VANDENBERGHE & G. C. T. YOEH 209-218
- Purification and characterization of protein kinase C from the nematode *Caenorhabditis elegans*
T. SASSA & J. MIWA 219-223
- Purification and characterization of a proteolytic active fragment of DNA topoisomerase I from the brine shrimp *Artemia franciscana* (Crustacea Anostraca)
G. BADARACCO, N. LANDSBERGER & R. BENFANTE 249-254
- In defence of the general validity of the Cha method of deriving rate equations. The importance of explicit recognition of the thermodynamic box in enzyme kinetics
C. M. TOPHAM & K. BROCKLEHURST 261-265
- Degradation of extracellular-matrix proteins by human cathepsin B from normal and tumour tissues
M. R. BUCK, D. G. KARUSTIS, N. A. DAY, K. V. HONN & B. F. SLOANE 273-278
- Tissue distribution of enzymic methylation of glutathione S-transferase and its effects on catalytic activity. Methylation of glutathione S-transferase 11-11 inhibits conjugating activity towards 1-chloro-2,4-dinitrobenzene
J. A. JOHNSON, K. A. FINN & F. L. SIEGEL 279-289

Carbohydrates and lipids

- Skeletal keratan sulphate chains isolated from bovine intervertebral disc may terminate in $\alpha(2\rightarrow6)$ -linked *N*-acetylneuraminic acid
J. M. DICKENSON, T. N. HUCKERBY & I. A. NIEDUSZYNSKI 267-271

Gene structure and expression

- Protein turnover, growth and proliferation in CHO cells. Variation within and between mutant classes for salvage pathway enzymes
J. M. GUNN & M. R. BRANCHEAU 49-57
- Damage-recognition proteins as a potential indicator of DNA-damage-mediated sensitivity or resistance of human cells to ultraviolet radiation
C. C.-K. CHAO 203-207

CONTENTS (continued)

Regulation of metabolism

- Stimulation of cardiac protein synthesis by insulin-like growth factors
S. J. FULLER, J. R. MYNETT & P. H. SUGDEN 85-90
- Insulin-like growth factor-I (IGF-I) and especially IGF-I variants are anabolic in dexamethasone-treated rats
F. M. TOMAS, S. E. KNOWLES, P. C. OWENS, C. S. CHANDLER, G. L. FRANCIS, L. C. READ & F. J. BALLARD 91-97
- Cellular mechanism of the insulin-like effect of growth hormone in adipocytes. Rapid translocation of the HepG2-type and adipocyte/muscle glucose transporters
J. W. TANNER, K. A. LEINGANG, M. M. MUECKLER & K. C. GLENN 99-106
- Kinetic properties of carbamoyl-phosphate synthase (ammonia) and ornithine carbamoyltransferase in permeabilized mitochondria
N. S. COHEN, C.-W. CHEUNG, E. SIJUWADE & L. RAIJMAN 173-180
- Neuronal-glial metabolism under depolarizing conditions. A ¹³C-n.m.r. study
R. S. BADAR-GOFFER, O. BEN-YOSEPH, H. S. BACHELARD & P. G. MORRIS 225-230
- Glucose transporter expression and glucose utilization in skeletal muscle and brown adipose tissue during starvation and re-feeding
D. M. SMITH, S. R. BLOOM, M. C. SUGDEN & M. J. HOLNESS 231-235
- Stimulation of glycolysis as an activation signal in rat peritoneal macrophages. Effect of glucocorticoids on this process
R. BUSTOS & F. SOBRINO 299-303

Membranes and bioenergetics

- Use of annexin-V to demonstrate the role of phosphatidylserine exposure in the maintenance of haemostatic balance by endothelial cells
C. RAVANAT, G. ARCHIPOFF, A. BERETZ, G. FREUND, J.-P. CAZENAVE & J.-M. FREYSSINET 7-13
- Fluorescence quenching of spectrin and other red cell membrane cytoskeletal proteins. Relation to hydrophobic binding sites
E. KAHANA, J. C. PINDER, K. S. SMITH & W. B. GRATZER 75-80
- Phosphorylation of the C-terminal domain of the Na⁺/H⁺ exchanger by Ca²⁺/calmodulin-dependent protein kinase II
L. FLIEGEL, M. P. WALSH, D. SINGH, C. WONG & A. BARR 139-145
- Effects of transformation by *v-fps* on nucleoside transport in Rat-2 fibroblasts
K. A. MECKLING-GILL & C. E. CASS 147-154
- The orientation of the three haems of the 'in situ' ubiquinol oxidase, cytochrome *bd*, of *Escherichia coli*
W. J. INGLEDEW, R. A. ROTHERY, R. B. GENNIS & J. C. SALERNO 255-259

Receptors and signal transduction

- Levels of G-proteins in liver and brain of lean and obese (*ob/ob*) mice
N. MCFARLANE-ANDERSON, J. BAILLY & N. BÉGIN-HEICK 15-23
- Inhibition of human platelet adenylate cyclase by collagen fibres. Effect of collagen is additive with that of adrenaline, but interactive with that of thrombin
R. W. FARNDAL, A. B. WINKLER, B. R. MARTIN & M. J. BARNES 25-32
- Synergistic activation of type III protein kinase C by *cis*-fatty acid and diacylglycerol
S. G. CHEN & K. MURAKAMI 33-39
- Investigation of guanine-nucleotide-binding protein involvement and regulation of cyclic AMP metabolism in interleukin 1 signal transduction
K. RAY, N. THOMPSON, N. KENNARD, P. ROLLINS, S. GRENFELL, S. WITHAM, N. SMITHERS & R. SOLARI 59-67
- Vasoconstrictor agonists activate G-protein-dependent receptor-operated calcium channels in pig aortic microsomes
L. M. BLAYNEY, P. W. GAPPER & A. C. NEWBY 81-84
- Retention of epidermal growth factor receptors in the endoplasmic reticulum of adenovirus-infected cells
G. F. VERHEIJDEN, W. H. MOOLENAAR & H. L. PLOEGH 115-121
- Direct zinc binding to purified rhodopsin and disc membranes
T. A. SHUSTER, A. K. NAGY, D. C. CONLY & D. B. FARBER 123-128
- Sphingosine enhances platelet aggregation through an increase in phospholipase C activity by a protein kinase C-independent mechanism
T. HASHIZUME, T. SATO & T. FUJII 243-247

Cell biology and development

- Characterization of the low-density-lipoprotein-receptor-independent interaction of β -very-low-density lipoprotein with rat and human parenchymal liver cells *in vitro*
R. DE WATER, J. A. A. M. KAMPS, M. C. M. VAN DIJK, E. A. M. J. HESSELS, J. KUIPER, J. K. KRUIJT & T. J. C. VAN BERKEL 41-48
- Modulation by betaine of cellular responses to osmotic stress
P. G. PETRONINI, E. M. DE ANGELIS, P. BORGHETTI, A. F. BORGHETTI & K. P. WHEELER 69-73

CONTENTS (continued)

BJ LETTERS

Nomenclature for human glutathione transferases	B. MANNERVIK, Y. C. AWASTHI, P. G. BOARD, J. D. HAYES, C. DI ILIO, B. KETTERER, I. LISTOWSKY, R. MORGENSTERN, M. MURAMATSU, W. R. PEARSON, C. B. PICKETT, K. SATO, M. WIDERSTEN & C. R. WOLF	305-306
Pyrophosphatase-induced Ca^{2+} release is unrelated to the spontaneous release from inositol 1,4,5-trisphosphate-sensitive Ca^{2+} stores	L. MISSIAEN, C. W. TAYLOR & M. J. BERRIDGE	306-308
