

## Review

The structure, biosynthesis and function of glycosylated phosphatidylinositols in the parasitic protozoa and higher eukaryotes

by M. J. McConville and M. A. J. Ferguson

305–324

Biochemical Journal

Volume 294, part 2

1 September 1993

## Research Communications

Stimulation of exocytotic membrane fusion by modified peptides of the rab3 effector domain: re-evaluation of the role of rab3 in regulated exocytosis

C.M. Maclean, G.J. Law and J.M. Edwardson 325–328

Photoaffinity labelling of cyclic GMP-binding proteins in human platelets

K.M. Tang, J.L. Sherwood and R.J. Haslam 329–333

Isoenzyme specificity of bisindolylmaleimides, selective inhibitors of protein kinase C

S.E. Wilkinson, P.J. Parker and J.S. Nixon 335–337

Interleukin-2 induces tyrosine phosphorylation of the *vav* proto-oncogene product in human T cells: lack of requirement for the tyrosine kinase *lck*

G.A. Evans, O.M.Z. Howard, R. Erwin and W.L. Farrar 339–342

Interleukin-1 activates transcription factor NF $\kappa$ B in glial cells

P.N. Moynagh, D.C. Williams and L.A.J. O'Neill 343–347

## Research Papers

### Proteins

Identification of a putative tyrosine-*O*-sulphate (TyrS) receptor possibly functioning in the biosynthetic transport of tyrosine-sulphated proteins in Madin–Darby canine kidney cells

J. Liu, J.R. Han, C.-C. Liu, M. Suiko and M.-C. Liu 407–417

The C-terminal region of  $\alpha$ -crystallin: involvement in protection against heat-induced denaturation

L. Takemoto, T. Emmons and J. Horwitz 435–438

Ribosome-binding protein p34 is a member of the leucine-rich-repeat-protein superfamily

T. Ohsumi, T. Ichimura, H. Sugano, S. Omata, T. Isobe and R. Kuwano 465–472

Purification and separation of *holo*- and *apo*-forms of *Saccharopolyspora erythraea* acyl-carrier protein released from recombinant *Escherichia coli* by freezing and thawing

S.A. Morris, W.P. Revill, J. Staunton and P.F. Leadlay 521–527

Selective use of H4 acetylation sites in the yeast *Saccharomyces cerevisiae*

D.J. Clarke, L.P. O'Neill and B.M. Turner 557–561

Effect of temperature on the association step in thrombin–fibrinogen interaction

M. Picozzi and R. De Cristofaro 563–567

### Enzymes

Investigations into the post-translational modification and mechanism of isopenicillin N:acyl-CoA acyltransferase using electrospray mass spectrometry

R.T. Aplin, J.E. Baldwin, P.L. Roach, C.V. Robinson and C.J. Schofield 357–363

Lack of stereospecificity of suid pseudorabies virus thymidine kinase

G. Maga, A. Verri, L. Bonizzi, W. Ponti, G. Poli, A. Garbesi, D. Niccolai, S. Spadari and F. Focher 381–385

Molecular cloning and sequence analysis of the cDNA for ancrod, a thrombin-like enzyme from the venom of *Calloselasma rhodostoma*

L.-C. Au, S.-B. Lin, J.-S. Chou, G.-W. Teh, K.-J. Chang and C.-M. Shih 387–390

Human thimet oligopeptidase

P.M. Dando, M.A. Brown and A.J. Barrett 451–457

Kinetic analysis of a Michaelis–Menten mechanism in which the enzyme is unstable

C. Garrido-Del Solo, F. García-Cánovas, B.H. Havsteen and R. Varón Castellanos 459–464

Arylamine *N*-acetyltransferase activity in human cultured cell lines

E. Coroneos and E. Sim 481–486

Exogenous substrate stimulates autodephosphorylation of cyclic-AMP-dependent protein kinase II

B.T. Gjertsen, B. Fauske and S.O. Døskeland 497–503

Characterization of a B-type esterase involved in insecticide resistance from the mosquito *Culex quinquefasciatus*

S.H.P.P. Karunaratne, K.G.I. Jayawardena, J. Hemingway and A.J. Ketterman 575–579

### Gene structure and expression

A modular esterase from *Pseudomonas fluorescens* subsp. *cellulosa* contains a non-catalytic cellulose-binding domain

L.M.A. Ferreira, T.M. Wood, G. Williamson, C. Faulds, G.P. Hazlewood, G.W. Black and H.J. Gilbert 349–355

Nuclear factor binding to an AP-1 site is associated with the activation of pro- $\alpha$ 1(I)-collagen gene in dedifferentiating chondrocytes	A. Määttä, V. Glumoff, P. Paakkonen, D. Liska, R.P.K. Penttinen and K.J.M. Elima	<b>365–371</b>
Molecular cloning and heterologous expression of an alternatively spliced human Mu class glutathione S-transferase transcript	V.L. Ross and P.G. Board	<b>373–380</b>
Suggestive evidence for two different mucin genes in rat intestine	I.A. Khatri, G.G. Forstner and J.F. Forstner	<b>391–399</b>
Isolation and characterization of the human diacylglycerol kinase gene	K. Fujikawa, S.-i. Imai, F. Sakane and H. Kanoh	<b>443–449</b>
Interaction of CCAAT/enhancer-binding protein $\alpha$ and $\beta$ with the rat caeruloplasmin gene promoter	C.D. Bingle, R.E. Fleming and J.D. Gitlin	<b>473–479</b>
Stress induction of the spermidine/spermine $N^1$ -acetyltransferase by a post-transcriptional mechanism in mammalian cells	E.W. Gerner, T.A. Kurtts, D.J.M. Fuller and R.A. Casero, Jr.	<b>491–495</b>
Cloning and analysis of the esterase genes conferring insecticide resistance in the peach-potato aphid, <i>Myzus persicae</i> (Sulzer)	L.M. Field, M.S. Williamson, G.D. Moores and A.L. Devonshire	<b>569–574</b>
cDNA cloning and characterization of the protein encoded by RD, a gene located in the class III region of the human major histocompatibility complex	J. Cheng, K.J. Macon and J.E. Volanakis	<b>589–593</b>
<b>Regulation of metabolism</b>		
Use of $^{18}\text{O}$ -labelled leucine and phenylalanine to measure protein turnover in muscle cell cultures and possible futile cycling during aminoacylation	J.C. Fuller, Jr., S.L. Nissen and T.W. Huiatt	<b>427–433</b>
Pancreastatin increases free cytosolic $\text{Ca}^{2+}$ in rat hepatocytes, involving both pertussis-toxin-sensitive and -insensitive mechanisms	V. Sánchez-Margalet, M. Lucas and R. Goberna	<b>439–442</b>
Species and tissue distribution of the regulatory protein of glucokinase	A. Vandercammen and E. Van Schaftingen	<b>551–556</b>
Enhanced synthesis and accumulation of proteoglycans in cholesterol-enriched arterial smooth muscle cells	P. Vijayagopal	<b>603–611</b>
Interleukin- $1\beta$ regulation of fibroblast proteoglycan synthesis involves a decrease in versican steady-state mRNA levels	E.E. Qwarnström, H.T. Järveläinen, M.G. Kinsella, C.O. Ostberg, L.J. Sandell, R.C. Page and T.N. Wight	<b>613–620</b>
<b>Membranes and bioenergetics</b>		
Ascorbic acid accumulation and transport in human fibroblasts	R.W. Welch, P. Bergsten, J.DeB. Butler and M. Levine	<b>505–510</b>
Preparation and characterization of basolateral membrane vesicles from pig and human colonocytes: the mechanism of glucose transport	S.A. Pinches, S.M. Gribble, R.B. Beechey, A. Ellis, J.M. Shaw and S.P. Shirazi-Beechey	<b>529–534</b>
<b>Receptors and signal transduction</b>		
Role of protein kinase C in the phosphorylation of cardiac myosin light chain 2	R.C. Venema, R.L. Raynor, T.A. Noland, Jr. and J.F. Kuo	<b>401–406</b>
Differential induction of phosphatidylcholine hydrolysis, diacylglycerol formation and protein kinase C activation by epidermal growth factor and transforming growth factor- $\alpha$ in normal human skin fibroblasts and keratinocytes	N.J. Reynolds, H.S. Talwar, J.J. Baldassare, P.A. Henderson, J.T. Elder, J.J. Voorhees and G.J. Fisher	<b>535–544</b>
Stimulation of tyrosine phosphorylation and mitogen-activated-protein (MAP) kinase activity in human SH-SY5Y neuroblastoma cells by carbachol	S. Offermanns, E. Bombien and G. Schultz	<b>545–550</b>
The role of the third intracellular loop of the neutrophil $N$ -formyl peptide receptor in G protein coupling	E.R. Prossnitz, O. Quehenberger, C.G. Cochrane and R.D. Ye	<b>581–587</b>
<b>Cell biology and development</b>		
Hydralazine induces Z-DNA conformation in a polynucleotide and elicits anti-(Z-DNA) antibodies in treated patients	T.J. Thomas, J.R. Seibold, L.E. Adams and E.V. Hess	<b>419–425</b>
Expression of the calsequestrin gene in chicken cerebellum Purkinje neurons	P. Volpe, L. Gorza, M. Brini, R. Sacchetto, S. Ausoni and D.O. Clegg	<b>487–490</b>
Localization of the FK506-binding protein, FKBP 13, to the lumen of the endoplasmic reticulum	S.K. Nigam, Y.-J. Jin, M.-J. Jin, K.T. Bush, B.E. Bierer and S.J. Burakoff	<b>511–515</b>

---

Ricin induces the production of tumour necrosis factor- $\alpha$ and interleukin-1 $\beta$ by human peripheral-blood mononuclear cells	F. Licastro, M.C. Morini, A. Bolognesi and F. Stirpe	<b>517–520</b>
Co-expression of collagens II and XI and alternative splicing of exon 2 of collagen II in several developing human tissues	M.M. Sandberg, H.E. Hirvonen, K.J.M. Elimä and E.I. Vuorio	<b>595–602</b>
<b>BJ Letters</b>		
Discrimination between two kinetic mechanisms for the monophenolase activity of tyrosinase	J.R. Ros-Martínez, J.N. Rodríguez-López, R. Varón Castellanos and F. García-Cánovas	<b>621–622</b>
Sequences of clostridial ferredoxins: determination of the <i>Clostridium sticklandii</i> sequence and correction of the <i>Clostridium acidurici</i> sequence	J. Meyer, J.-M. Moulis, N. Scherrer, J. Gagnon and J. Ulrich	<b>622–623</b>
