

## Review

Expression and functional properties of fumarate reductase  
by J.J. Van Hellemond and A.G.M. Tielens

321–331

## Biochemical Journal

Volume 304, part 2

1 December 1994

### Research Communications

Transforming growth factor- $\beta$ 1 inhibits casein secretion from differentiating mammary gland explants but not from lactating mammary cells

A.W. Sudlow, C.J. Wilde and R.D. Burgoyne

333–336

Dexamethasone differentially affects interleukin 1 $\beta$ - and cyclic AMP-induced nitric oxide synthase mRNA expression in renal mesangial cells

D. Kunz, G. Walker and J. Pfeilschifter

337–340

Human blood cells support the reduction of low-density-lipoprotein-associated cholesteryl ester hydroperoxides by albumin-bound ebsele

J. Christison, H. Sies and R. Stocker

341–345

Neutrophil collagenase (MMP-8) cleaves at the aggrecanase site E<sup>373</sup>–A<sup>374</sup> in the interglobular domain of cartilage aggrecan

A.J. Fosang, K. Last, P.J. Neame, G. Murphy, V. Knäuper, H. Tschesche, C.E. Hughes, B. Caterson and T.E. Hardingham

347–351

### Research Papers

#### Proteins

Secondary structure of neutrophil-activating peptide-2 determined by <sup>1</sup>H-nuclear magnetic resonance spectroscopy

K.H. Mayo, Y. Yang, T.J. Daly, J.K. Barry and G.J. La Rosa

371–376

Binding of human collectins (SP-A and MBP) to influenza virus

R. Malhotra, J.S. Haurum, S. Thiel and R.B. Sim

455–461

Structural heterogeneity of *Pseudomonas aeruginosa* bacterioferritin

G.R. Moore, F.H.A. Kadir, F.K. Al-Massad, N.E. Le Brun, A.J. Thomson, C. Greenwood, J.N. Keen and J.B.C. Findlay

493–497

Isolation and characterization of CD47 glycoprotein: a multispinning membrane protein which is the same as integrin-associated protein (IAP) and the ovarian tumour marker OA3

W.J. Mawby, C.H. Holmes, D.J. Anstee, F.A. Spring and M.J.A. Tanner

525–530

#### Enzymes

Purification of NADPH-dependent dehydroascorbate reductase from rat liver and its identification with 3 $\alpha$ -hydroxysteroid dehydrogenase

B. Del Bello, E. Maellaro, L. Sugherini, A. Santucci, M. Comporti and A.F. Casini

385–390

Electronic properties of the dissimilatory sulphite reductase from *Desulfovibrio vulgaris* (Hildenborough): comparative studies of optical spectra and relative reduction potentials for the [Fe<sub>4</sub>S<sub>4</sub>]-sirohaem prosthetic centres

S.M. Lui, A. Soriano and J.A. Cowan

441–447

Mechanisms of endotoxin-induced haem oxygenase mRNA accumulation in mouse liver: synergism by glutathione depletion and protection by *N*-acetylcysteine

M. Rizzardini, M. Carelli, M.R. Cabello Porras and L. Cantoni

477–483

Characterization of cDNA for murine tripeptidyl-peptidase II reveals alternative splicing

B. Tomkinson

517–523

Quantification of human serum paraoxonase by enzyme-linked immunoassay: population differences in protein concentrations

M.-C. Blatter Garin, C. Abbott, S. Messmer, M. Mackness, P. Durrington, D. Pometta and R.W. James

549–554

Partial purification of a type  $\eta$  protein kinase C from murine brain: separation from other protein kinase C isoenzymes and characterization

R. Zang, H.J. Müller, K. Kielbassa, F. Marks and M. Gschwendt

641–647

#### Carbohydrates and lipids

Effect of unesterified cholesterol on the activity of cholesteryl ester transfer protein

O.V. Rajaram, R.Y.S. Chan and W.H. Sawyer

423–430

Alternative pathways for phosphatidylcholine synthesis in olive (*Olea europaea* L.) callus cultures

M. Williams and J.L. Harwood

463–468

Glycoinositol-phospholipid profiles of four serotypically distinct Old World *Leishmania* strains

P. Schneider, L.F. Schnur, C.L. Jaffe, M.A.J. Ferguson and M.J. McConville

603–609

Production of oxidized lipids during modification of low-density lipoprotein by macrophages or copper

K.L.H. Carpenter, G.M. Wilkins, B. Fussell, J.A. Ballantine, S.E. Taylor, M.J. Mitchinson and D.S. Leake

625–633

### Gene structure and expression

- Analysis of the rat lactate dehydrogenase A subunit gene promoter/regulatory region **391–398**  
 M.L. Short, D. Huang, D.M. Milkowski, S. Short, K. Kunstman, C.-J. Soong, K.C. Chung and R.A. Jungmann
- Cytosolic phospholipase A<sub>2</sub> gene expression in rat mesangial cells is regulated post-transcriptionally **417–422**  
 A. Tay, P. Maxwell, Z.-G. Li, H. Goldberg and K. Skorecki
- Molecular cloning of the rat analogue of human CD59: structural comparison with human CD59 and identification of a putative active site **595–601**  
 N.K. Rushmere, R.A. Harrison, C.W. van den Berg and B.P. Morgan

### Regulation of metabolism

- Amylin impairment of insulin effects of glycogen synthesis and phosphoenolpyruvate carboxykinase gene expression in rat primary cultured hepatocytes **449–453**  
 B. Baqué, J.J. Guinovart and A.M. Gómez-Foix
- L-Carnosine ( $\beta$ -alanyl-L-histidine) and carcinine ( $\beta$ -alanylhistamine) act as natural antioxidants with hydroxyl-radical-scavenging and lipid-peroxidase activities **509–516**  
 M.A. Babizhayev, M.-C. Seguin, J. Gueyne, R.P. Evstigneeva, E.A. Ageyeva and G.A. Zheltukhina
- Modulation of phosphoenolpyruvate carboxykinase mRNA levels by the hepatocellular hydration state **555–560**  
 W.P. Newsome, U. Warskulat, B. Noe, M. Wettstein, B. Stoll, W. Gerok and D. Häussinger
- Involvement of microsomal vesicles in part of the sensitivity of carnitine palmitoyltransferase I to malonyl-CoA inhibition in mitochondrial fractions of rat liver **577–584**  
 I. Niot, F. Pacot, P. Bouchard, J. Gresti, A. Bernard, J. Bezar and P. Clouet
- Subpopulations of rat hepatocytes separated by Percoll density-gradient centrifugation show characteristics consistent with different acinar locations **617–624**  
 J.C. Osypiw, R.L. Allen and D. Billington
- Defective regulation of energy metabolism in *mdx*-mouse skeletal muscles **649–654**  
 P.C. Even, A. Decrouy and A. Chinet

### Membranes and bioenergetics

- Characterization of the single Ca<sup>2+</sup>-binding site on the Ca<sup>2+</sup>-ATPase reconstituted with short- or long-chain phosphatidylcholines **569–575**  
 A.P. Starling, Y.M. Khan, J.M. East and A.G. Lee

### Receptors and signal transduction

- Modulation of Ca<sup>2+</sup>-stimulated glutamate release from synaptosomes by Na<sup>+</sup> entry through tetrodotoxin-sensitive channels **353–357**  
 M.A. Romano-Silva, M.V. Gomez and M.J. Brammer
- The turkey erythrocyte  $\beta$ -adrenergic receptor couples to both adenylate cyclase and phospholipase C via distinct G-protein  $\alpha$  subunits **359–364**  
 S.R. James, C. Vaziri, T.R. Walker, G. Milligan and C.P. Downes
- Mastoparan may activate GTP hydrolysis by G<sub>i</sub>-proteins in HL-60 membranes indirectly through interaction with nucleoside diphosphate kinase **377–383**  
 J.F. Klinker, A. Hagelüken, L. Grünbaum, I. Heilmann, B. Nürnberg, R. Harammer, S. Offermanns, I. Schwaner, J. Ervens, K. Wenzel-Seifert, T. Müller and R. Seifert
- Identification of two splice variant forms of type-IV<sub>B</sub> cyclic AMP phosphodiesterase, DPD (rPDE-IV<sub>B1</sub>) and PDE-4 (rPDE-IV<sub>B2</sub>) in brain: selective localization in membrane and cytosolic compartments and differential expression in various brain regions **399–406**  
 M. Lobban, Y. Shakur, J. Beattie and M.D. Houslay
- Purification, characterization and analysis of rolipram inhibition of a human type-IV<sub>A</sub> cyclic AMP-specific phosphodiesterase expressed in yeast **407–415**  
 M. Wilson, M. Sullivan, N. Brown and M.D. Houslay
- Antigen and thapsigargin promote influx of Ca<sup>2+</sup> in rat basophilic RBL-2H3 cells by ostensibly similar mechanisms that allow filling of inositol 1,4,5-trisphosphate-sensitive and mitochondrial Ca<sup>2+</sup> stores **431–440**  
 H. Ali, K. Maeyama, R. Sagi-Eisenberg and M.A. Beaven
- Histamine-induced Ca<sup>2+</sup> entry precedes Ca<sup>2+</sup> mobilization in bovine adrenal chromaffin cells **469–476**  
 T.R. Cheek, M.M. Murawsky and K.A. Stauderman
- Guanosine 5'-[ $\gamma$ -thio]triphosphate induces membrane localization of cytosol-independent phospholipase D activity in a cell-free system from U937 promonocytic leucocytes **485–491**  
 D.J. Kusner and G.R. Dubyak
- Release of Ca<sup>2+</sup> from intracellular organelles by peptide analogues: evidence against involvement of metalloendoproteases in Ca<sup>2+</sup> sequestration by the endoplasmic reticulum **499–507**  
 M.A. Brostrom, W.L. Wong Ling, D. Gmitter and C.O. Brostrom

Inhibition by somatostatin of amylase secretion induced by calcium and cyclic AMP in rat pancreatic acini	H. Ohnishi, T. Mine and I. Kojima	<b>531–536</b>
The vitronectin receptor ( $\alpha_v\beta_3$ ) is implicated, in cooperation with P-selectin and platelet-activating factor, in the adhesion of monocytes to activated endothelial cells	J.F. Murphy, J.-C. Bordet, B. Wyler, M.-C. Rissoan, P. Chomarat, T. Defrance, P. Miossec and J.L. McGregor	<b>537–542</b>
Vascular smooth-muscle cells contain AT <sub>1</sub> angiotensin receptors coupled to phospholipase D activation	E.J. Freeman and E.A. Tallant	<b>543–548</b>
Anti-diabetic biguanides inhibit hormone-induced intracellular Ca <sup>2+</sup> concentration oscillations in rat hepatocytes	J.J. Ubl, S. Chen and J.W. Stucki	<b>561–567</b>
Ca <sup>2+</sup> -mobilizing hormones induce sequentially ordered Ca <sup>2+</sup> signals in multicellular systems of rat hepatocytes	L. Combettes, D. Tran, T. Tordjmann, M. Laurent, B. Berthon and M. Claret	<b>585–594</b>
Protein kinase C-dependent cyclic AMP formation in airway smooth muscle: the role of type II adenylate cyclase and the blockade of extracellular-signal-regulated kinase-2 (ERK-2) activation	N.J. Pyne, N. Moughal, P.A. Stevens, D. Tolan and S. Pyne	<b>611–616</b>
Protein kinase C and cyclic AMP-dependent protein kinase phosphorylate phospholemman, an insulin and adrenaline-regulated membrane phosphoprotein, at species sites in the carboxy terminal domain	S.I. Walaas, A.J. Czernik, O.K. Olstad, K. Sletten and O. Walaas	<b>635–640</b>
[ <sup>3</sup> H]PtdIns hydrolysis in postmortem human brain membranes is mediated by the G-proteins G <sub>q/11</sub> and phospholipase C- $\beta$	R.S. Jope, L. Song and R. Powers	<b>655–659</b>
<b>Cell biology and development</b>		
Calpastatin in erythrocytes of young and old individuals	N. Schwarz-Benmeir, T. Glaser, S. Barnoy and N.S. Kosower	<b>365–370</b>
<b>BJ Letters</b>		
Consensus sequences for ATP-binding sites in protein kinases do not apply to diacylglycerol kinases	D. Schaap, J. van der Wal and W.J. van Blitterswijk	<b>661–662</b>
Identification of a new protein family which includes bovine protein kinase C inhibitor-1	K. Robinson and A. Aitken	<b>662–664</b>
