The diagram shows a typical "Quickfit" set-up for Distillation with stirring, possessing all the advantages of "Quickfit" simplicity, compactness and convenience. Notice the "Quickfit" Stirrer, specially designed for efficiency even in narrow-necked vessels. The unique thin-walled inner tube of the "Quickfit" Liebig Condenser allows for very rapid heat transference and therefore greater efficiency, and permits distillation of liquids with low boiling points.

A representative display of "Quickfit" apparatus is always on view at BRITISH INDUSTRIES HOUSE, Oxford Street, W.1

NUTRITION ABSTRACTS & REVIEWS
ISSUED UNDER THE DIRECTION OF
THE IMPERIAL AGRICULTURAL BUREAUX COUNCIL, THE MEDICAL
RESEARCH COUNCIL AND THE REID LIBRARY

Editors:
JOHN BOYD ORR
Imperial Bureau of Animal Nutrition, Aberdeen

HARRIETTE CHICK
Lister Institute, London

The Editors, in co-operation with Corresponding Editors abroad, scrutinize upwards of 550 periodicals and, with the assistance of a competent panel of abstractors, issue abstracts of papers published throughout the world dealing with the subject of Nutrition in all its aspects.

The abstracts are conveniently arranged in three main sections: (1) Chemistry and Physiology of Nutrition, (2) Human Diet in Relation to Health and Disease, and (3) Feeding of Domestic Animals. These sections are designed to meet the requirements respectively of the research worker, the medical practitioner and dietician, and the practical farmer.

Four numbers appearing in July, October, January and April of each year constitute a Volume, the subscription price for which is £2. 2s. od.

Subscriptions may be paid through any bookseller or direct to

VITAMINS
in Theory and Practice

by
Dr Leslie HARRIS

Based on a Series of Lectures given at The Royal Institution
66 illustrations. 8s. 6d. net

Dr Harris describes in detail the history and processes of every stage in the discovery of vitamins, the extent of our present knowledge, and the modern application in medical practice of this knowledge to personal and public health.

Contains some astonishing data on the improvement in nutritional condition of school children...should hearten all who desire to see progress in this direction go still further.

Up-to-date, delightfully written, authoritative, a most valuable addition to current vitamin literature; of value to every biochemist.

WILL APPEAL TO ALL GROUPS, can be read with pleasure and profit by all chemists, replete with whimsical humour and philosophy, an up-to-date scientific narrative “that reads like a novel.”

Journal of the American Chemical Society

Informative, meticulously accurate...an undisputed success.

Nature

Gives all the essential facts, and many interesting sidelights, numerous striking and unusual illustrations.

Science News Letter

An excellent survey, the best at present available, should have a wide appeal: a standard text book which is destined to become a classic.

Medical Times

A most interesting and absorbing presentment.

Medical Officer

Is entirely a pleasure to read because as well as being entertainingly written its contents are “weighty” and “good”—an excellent review.

Nordisk Medicinsk Tidsskrift

Excellent: easy to follow—but no loss in accuracy.

B.D.H.
STANDARD STAINS
A new edition has been prepared of
the B.D.H. booklet on standard stains
for bacteriological, histological and
pathological purposes. It contains
fully revised and substantially extended
notes on the uses of stains, and the
preparation of material which form a
helpful guide to simple and effective
methods of staining.

The booklet includes prices of the
B.D.H. stains in solid form and in
solution, also materials for micro-
scopical work, and copies may be
obtained, without charge, on request.

GRAHAM STREET LONDON N.1

The Institute of Chemistry
of
Great Britain and Ireland

The Institute of Chemistry was
established in 1877 to provide the Gov-
ernment and the public with the means of
recognising those who have been properly
trained and proved to be competent to
practise chemistry as a profession. In 1885
the Institute was granted a Royal Charter
with authority to grant certificates of com-
petency, and to register persons qualified
to practise. The aims of the Institute
include the elevation of the profession of
chemistry and the maintenance of
the efficiency, integrity and usefulness of
persons practising the same by compelling
the observance of strict rules of mem-
bership, and by setting up a high standard of
scientific and practical efficiency.

Particulars of the Regulations and Exami-
nations of the Institute can be obtained
(free) on application to the Registrar.

All communications to be addressed

HEFFER'S BOOKSHOP

Our Scientific Book Department holds large stocks of new and secondhand books on every branch of science. We issue important Catalogues of secondhand books, and in addition to these our periodical Supplements list the latest new books and additions to our secondhand stock.

The following Catalogues are available:

No. 447. Medicine, Surgery and allied subjects.
,, 490. Chemistry and Chemical Technology.
,, 507. Zoology, Biology, and allied subjects.
“Scientific Supplement” No. 5, containing details of new and forthcoming books and secondhand books added to our stock.

We have great experience in supplying English and Foreign Scientific and other Periodicals to all parts of the world, and shall be pleased to give quotations
