## **European Research and Development Database: the complete database on one CD-ROM.**

The ultimate research tool for quick access and accurate searching, European Research and Development Database on Microsoft Windows interface enables targeted searches on companies, subjects, personnel and more - instantly.

European R&D Database is comprised of two linked files, personnel and organisations, which can be searched individually or simultaneously under 27 search criteria, or by six browsable indexes.

Annual Subscription £995

## **Directory of European Research and Development**

This print directory contains over 20,000 organizations, from large companies to smaller and fast-emerging operations, providing all the details you need in one place.

Split into four main sections - Business Enterprise, Government, Higher Education and Consultancies - entries list full contact details, activities, current research, research expenditure and source of funding, listings of full-time research staff including project managers, and more. Indexed by country and subject.

Annual £249

I 85739 092 X

## **Who's Who in European Research and Development**

This is an invaluable and unique biographical resource covering over 10,000 senior researchers, research directors and managers currently involved in all areas of scientific research and development. Alphabetically arranged, each entry provides comprehensive details and full contact information. Indexed by country and subject.

Annual £249
