QUICKFIT
LABORATORY GLASSWARE
WITH STANDARD INTERCHANGEABLE
GROUND GLASS JOINTS
STEAM DISTILLATION ASSEMBLY
This assembly illustrates very well the unrivalled
simplicity and convenience of "Quickfit" apparatus.
Notice particularly the compact combined splash-
head and steam-lead. "Quickfit" ground glass joints
as standard equipment ensure work of the highest
accuracy, through absence of quantitative losses,
and greater purity of product.

A representative display of "Quickfit" apparatus is always
on view at our offices, 1 Albemarle
Street, W. 1

NUTRITION ABSTRACTS & REVIEWS
ISSUED UNDER THE DIRECTION OF
THE IMPERIAL AGRICULTURAL BUREAUX COUNCIL, THE MEDICAL
RESEARCH COUNCIL AND THE REID LIBRARY

Editors:
SIR JOHN BOYD ORR
SIR CHARLES JAMES MARTIN
DR HARRIETTE CHICK

The Editors, in co-operation with Corresponding Editors abroad, scrutinize upwards of
550 periodicals and, with the assistance of a competent panel of abstractors, issue abstracts
of papers published throughout the world dealing with the subject of Nutrition in all its
aspects.

The abstracts are conveniently arranged in three main sections: (1) Chemistry and
Physiology of Nutrition, (2) Human Diet in Relation to Health and Disease, and
(3) Feeding of Domestic Animals. These sections are designed to meet the requirements
respectively of the research worker, the medical practitioner and dietician, and the practical
farmer.

Four numbers appearing in July, October, January and April of each year constitute a
Volume, the subscription price for which is £2. 2s. od.

Subscriptions may be paid through any bookseller or direct to

Perspectives in Biochemistry

Thirty-one Essays presented to
SIR FREDERICK GOWLAND HOPKINS
by past and present members of his Laboratory

Edited by JOSEPH NEEDHAM and DAVID E. GREEN
15s. net

These thirty-one essays touch on many aspects of the science of life, with all its great bearing on human welfare; physiology and zoology, embryology and genetics, medicine, bacteriology and nutrition. The aim of the writers has been to indicate the most promising lines of advance in the various fields which they survey, and while maintaining a due standard of criticism, to speculate a little on the likely paths of future thought and discovery. The volume commemorates the 75th birthday of Sir Frederick Gowland Hopkins.

CAMBRIDGE UNIVERSITY PRESS

Second Edition

VITAMINS
in Theory and Practice
By Dr Leslie HARRIS

Based on a Series of Lectures given at The Royal Institution
66 illustrations. 8s. 6d. net

Contains some astonishing data on the improvement in nutritional condition of school children...should hearten all who desire to see progress in this direction go still further.

Up-to-date, delightfully written, authoritative, a most valuable addition to current vitamin literature; of value to every biochemist.

Informative, meticulously accurate...an undoubted success.

Gives all the essential facts, and many interesting sidelights, numerous striking and unusual illustrations.

An excellent survey, the best at present available, should have a wide appeal: a standard text book which is destined to become a classic.

CAMBRIDGE UNIVERSITY PRESS
The Institute of Chemistry of Great Britain and Ireland

The Institute of Chemistry was established in 1877 to provide the Government and the public with the means of recognising those who have been properly trained and proved to be competent to practise chemistry as a profession. In 1885 the Institute was granted a Royal Charter with authority to grant certificates of competency, and to register persons qualified to practise. The aims of the Institute include the elevation of the profession of chemistry and the maintenance of the efficiency, integrity and usefulness of persons practising the same by compelling the observance of strict rules of membership, and by setting up a high standard of scientific and practical efficiency.

Particulars of the Regulations and Examinations of the Institute can be obtained (free) on application to the Registrar.

All communications to be addressed to the Registrar

NICOTINIC ACID B.D.H.

Recent investigation has shown that nicotinic acid has a curative action in human pellagra and canine black-tongue, thus having the physiological properties of the ‘P.P.’ factor.

Nicotinic acid can be supplied in the pure crystalline form, or in tablets containing 30 mg. of pure acid.

Other biological products available:
Calciferol, Carotene, Cholesterol,
Nicotinamide, Digitonin,
Distilled Vitamin A,
Vitamin-free Diet (for feeding rats).

Prices on application

STEROIDS

Recent investigations have brought steroids into great prominence, both in the research laboratory and in the chemical works. Their relationship not only with the bile acids, but also with hormones, vitamins and glucosides, makes them increasingly important to biochemical workers.
