	PAGE
OBITUARY NOTICES	859
CVI. The glycolytic activity of brain. I. Macerated brain tissue. By A. GEIGER and J. MAGNES. II. Effect of cytolysis, the presence of a glycolytic inhibitor. By A. GEIGER. (With one figure)	866
CVII. Metabolism of sulphur. VII. A quantitative study of the replaceability of <i>l</i> -cystine by various sulphur-containing amino-acids in the diet of the albino rat. By M. A. BENNETT. (With four figures)	885
CVIII. Studies on the proteinases of some anaerobic and aerobic micro-organisms. By L. WEIL, W. KOCHOLATY and L. D. SMITH. (With one figure)	893
CIX. The composition of the crop milk of pigeons. By W. L. DAVIES	898
CX. The carbamido diacetyl reaction: a test for citrulline. By W. R. FEARON	902
CXI. Immunological and chemical properties of carbobenzoyloxy-proteins. I. Serum globulin and egg albumin derivatives. II. Insulin derivatives. By W. E. GAUNT and A. WORMALL	908
CXII. A method for the estimation of "true" sugar in 0.05 ml. of blood. By G. A. D. HASLEWOOD and T. A. STROOKMAN	920
CXIII. The precipitation of proteins with complex salts. By S. E. MICHAEL	924
CXIV. The isolation of 17-ketosteroids from the urine of normal women. By N. H. CALLOW and R. K. CALLOW	931
CXV. Growth and reproduction on a low fat diet. By C. G. MACKENZIE, J. B. MACKENZIE and E. V. MCCOLLUM. (With one figure)	935
CXVI. The biochemistry of silicic acid. VIII. The determination of silica. By E. J. KING. (With one figure)	944
CXVII. Investigations on the polypeptide-content of the serum. By E. G. GODFRIED	955
CXVIII. Porphyrinuric action of drugs related to sulphanilamide. Comparison with reported toxicity, therapeutic efficiency and causation of methaemoglobinæmia. Definition of the structure responsible for porphyrinuric action. By C. RIMINGTON and A. W. HEMMINGS	960
CXIX. Intermediary carbohydrate metabolism in amphibia. I. Carbohydrate breakdown before metamorphosis. By W. W. NOWIŃSKI. (With two figures)	978
CXX. Microdetermination of hypoxanthine and xanthine. By H. A. KREBS and Å. ÖRSTRÖM	984
CXXI. The formation of hypoxanthine in pigeon liver. By Å. ÖRSTRÖM, M. ÖRSTRÖM and H. A. KREBS	990
CXXII. The synthesis of glutamine in pigeon liver. By Å. ÖRSTRÖM, M. ÖRSTRÖM, H. A. KREBS and L. V. EGGLESTON	995
CXXIII. A method for the separation of sugars by the chromatographic adsorption of their coloured esters. I. Separation of glucose and fructose. By W. S. REICH. (With two figures)	1000

CONTENTS

	PAGE
CXXIV. Parathyroid hormone. I. Assay. By R. TRUSZKOWSKI, J. BLAUTH- OPIEŃSKA and J. IWANOWSKA. (With seven figures)	1005
CXXV. Formic dehydrogenase of <i>Bacterium coli</i> : its inactivation by oxygen and its protection in the bacterial cell. By E. F. GALE. (With eleven figures)	1012
CXXVI. <i>iso</i> Citric dehydrogenase and glutamic acid synthesis in animal tissues. By E. ADLER, H. v. EULER, G. GÜNTHER and M. PLASS. (With thirteen figures)	1028
CXXVII. Aconitase. By W. A. JOHNSON	1046

INDEX OF AUTHORS

	PAGE		PAGE
Adler, E.	1028	King, E. J.	944
Bennett, M. A.	885	Kocholaty, W.	893
Blauth-Opieńska, J.	1005	Krebs, H. A.	984, 990, 995
Callow, N. H.	931	McCollum, E. V.	935
Callow, R. K.	931	Mackenzie, C. G.	935
Davies, W. L.	898	Mackenzie, J. B.	935
Eggleston, L. V.	995	Magnes, J.	866
v. Euler, H.	1028	Michael, S. E.	924
Fearon, W. R.	902	Nowiński, W. W.	978
Gale, E. F.	1012	Örstrom, Å.	984, 990, 995
Gaunt, W. E.	908	Örstrom, M.	990, 995
Geiger, A.	866	Plass, M.	1028
Godfried, E. G.	955	Reich, W. S.	1000
Günther, G.	1028	Rimington, C.	960
Haslewood, G. A. D.	920	Smith, L. D.	893
Hemmings, A. W.	960	Strookman, T. A.	920
Iwanowska, J.	1005	Truszkowski, R.	1005
Johnson, W. A.	1046	Weil, L.	893
		Wormall, A.	908
