

Reviews

- Mechanisms and functional features of polarized membrane traffic in epithelial and hepatic cells** 257–269
by M.M.P. Zegers and D. Hoekstra
- Molecular aspects of the endocytic pathway** 271–282
by M.J. Clague

Research Communications

- A trypsin-like platelet protease propagates protease-activated receptor-1 cleavage and platelet activation F.A. Oforu, J. Freedman, L. Dewar, Y. Song and J.W. Fenton, II 283–285
- Direct demonstration of a specific interaction between cyclophilin-D and the adenine nucleotide translocase confirms their role in the mitochondrial permeability transition K. Woodfield, A. Rück, D. Brdiczka and A.P. Halestrap 287–290

Research Papers**Proteins**

- A topologically conserved aliphatic residue in α -helix 6 stabilizes the hydrophobic core in domain II of glutathione transferases and is a structural determinant for the unfolding pathway L.A. Wallace, G.L. Blatch and H.W. Dirr 413–418
- Comparative studies on peptides representing the so-called tachykinin-like region of the Alzheimer $A\beta$ peptide [$A\beta(25-35)$] O.M.A. El-Agnaf, G.B. Irvine, G. Fitzpatrick, W.K. Glass and D.J.S. Guthrie 419–427
- Conformationally variable Rab protein surface regions mapped by limited proteolysis and homology modelling L. Nikolova, K. Soman, J.C. Nichols, D.S. Daniel, B.F. Dickey and S. Hoffenberg 461–469

Enzymes

- Purification of human dihydro-orotate dehydrogenase and its inhibition by A77 1726, the active metabolite of leflunomide J.-M. Bruneau, C.M. Yea, S. Spinella-Jaegle, C. Fudali, K. Woodward, P.A. Robson, C. Sautès, R. Westwood, E.A. Kuo, R.A. Williamson and E. Ruuth 299–303
- ω -Oxidation impairs oxidizability of polyenoic fatty acids by 15-lipoxygenases: consequences for substrate orientation at the active site I. Ivanov, K. Schwarz, H.G. Holzhütter, G. Myagkova and H. Kühn 345–352
- Effect of mutation of lysine-128 of the large subunit of ribulose biphosphate carboxylase/oxygenase from *Anacystis nidulans* G. Bainbridge, P.J. Anralojc, P.J. Madgwick, J.E. Pitts and M.A.J. Parry 387–393
- Oxidation of guaiacol by myeloperoxidase: a two-electron-oxidized guaiacol transient species as a mediator of NADPH oxidation C. Capeillère-Blandin 395–404
- Roles of the C-terminal domains of human dihydrodiol dehydrogenase isoforms in the binding of substrates and modulators: probing with chimaeric enzymes K. Matsuura, A. Hara, Y. Deyashiki, H. Iwasa, T. Kume, S. Ishikura, H. Shiraishi and Y. Katagiri 429–436
- Purification and characterization of a lysophosphatidic acid-specific phosphatase M. Hiroyama and T. Takenawa 483–489

Gene structure and expression

- Functional characterization of transcriptional regulatory elements in the upstream region and intron 1 of the human S6 ribosomal protein gene M. Antoine and P. Kiefer 327–335
- Gene organization and alternative splicing of human prohormone convertase PC8 K.A. Goodge, R.J. Thomas, T.J. Martin and M.T. Gillespie 353–359
- chk-YB-1b, a Y-box binding protein activates transcription from rat $\alpha 1(I)$ procollagen gene promoter A.K. Dhalla, S.S. Ririe, S.K. Swamynathan, K.T. Weber and R.V. Guntaka 373–379
- Regulation of gene expression by alternative polyadenylation and mRNA instability in hyperglycaemic mesangial cells N. Abdel Wahab, J. Gibbs and R.M. Mason 405–411

Genomic organization, 5'-flanking region and chromosomal localization of the human glutathione transferase A4 gene	F. Desmots, C. Rauch, C. Henry, A. Guillouzo and F. Morel	437–442
Regulation of metabolism		
Opposing effects of tumour necrosis factor α and hyperosmolarity on Na ⁺ /myo-inositol co-transporter mRNA levels and myo-inositol accumulation by 3T3-L1 adipocytes	M.A. Yorek, J.A. Dunlap and W.L. Lowe, Jr.	317–325
Cell proliferation, apoptosis and accumulation of lipid droplets in U937-1 cells incubated with eicosapentaenoic acid	H.S. Finstad, C.A. Drevon, M.A. Kulseth, A.V. Synstad, E. Knudsen and S.O. Kolset	451–459
Interleukin 1 β decreases prostacyclin synthase activity in rat mesangial cells via endogenous peroxynitrite formation	M.-H. Zou, T. Klein, J.-P. Pasquet and V. Ullrich	507–512
Membranes and bioenergetics		
Biochemical and functional characterization of the GLUT5 fructose transporter in rat skeletal muscle	F. Darakhshan, E. Hajduch, S. Kristiansen, E.A. Richter and H.S. Hundal	361–366
Lysine-691 of the anion exchanger from human erythrocytes is located on its cytoplasmic surface	H.K. Erickson and J. Kyte	443–449
Mitochondrial permeability transition during hypothermic to normothermic reperfusion in rat liver demonstrated by the protective effect of cyclosporin A	N. Leducq, M.-C. Delmas-Beauvieux, I. Bourdel-Marchasson, S. Dufour, J.-L. Gallis, P. Canioni and P. Diolez	501–506
Receptors and signal transduction		
Fates of endocytosed somatostatin sst ₂ receptors and associated agonists	J.A. Koenig, R. Kaur, I. Dodgeon, J.M. Edwardson and P.P.A. Humphrey	291–298
Molecular study of the Na ⁺ /Ca ²⁺ exchanger in bovine adrenal chromaffin cells	C.-Y. Pan, Y.-S. Chu and L.-S. Kao	305–310
Protein kinase C-dependent activation of K _{ATP} channel enhances adenosine-induced cardioprotection	B.T. Liang	337–343
Low-density-lipoprotein-receptor-related protein (LRP) interacts with a GTP-binding protein	L. Goretzki and B.M. Mueller	381–386
Stimulatory and inhibitory actions of lysophosphatidylcholine, depending on its fatty acid residue, on the phospholipase C/Ca ²⁺ system in HL-60 leukaemia cells	F. Okajima, K. Sato, H. Tomura, A. Kuwabara, H. Nochi, K. Tamoto, Y. Kondo, Y. Tokumitsu and M. Ui	491–500
Cell biology and development		
Furin and proprotein convertase 7 (PC7)/lymphoma PC endogenously expressed in rat liver can be resolved into distinct post-Golgi compartments	S. Wouters, M. Leruth, E. Decroly, M. Vandenbranden, J.W.M. Creemers, J.-W.H.P. van de Loo, J.-M. Ruysschaert and P.J. Courttoy	311–316
C-terminal tripeptide Ser-Asn-Leu (SNL) of human D-aspartate oxidase is a functional peroxisome-targeting signal	L. Amery, C. Brees, M. Baes, C. Setoyama, R. Miura, G.P. Mannaerts and P.P. Van Veldhoven	367–371
Human carbon catabolite repressor protein (CCR4)-associative factor 1: cloning, expression and characterization of its interaction with the B-cell translocation protein BTG1	J.A. Bogdan, C. Adams-Burton, D.L. Pedicord, D.A. Sukovich, P.A. Benfield, M.H. Corjay, J.K. Stoltenborg and I.B. Dicker	471–481
