- The *Biochemical Journal* (ISSN 0264-6021 for print/online journal; ISSN 1470-8728 for online only journal) is published and distributed by Portland Press Ltd on behalf of the Biochemical Society (the owner), and appears twice monthly.
- **Editorial and publishing offices:** *Biochemical Journal*, 59 Portland Place, London W1B 1QW, U.K.
- **Biochemical Journal**, c/o Mercury Airfreight International Ltd, 365 Blair Road, Avenel, NJ 07001, U.S.A.
- **Subscriptions department:** Portland Customer Services, P.O. Box 32, Commerce Way, Colchester CO2 8HP, U.K.
- All rights reserved. Apart from any fair dealing for the purposes of research or private study, or criticism or review, as permitted under the Copyright, Designs and Patents Act, 1988, this publication may be reproduced, stored or transmitted, in any forms or by any means, only with the prior permission in writing of the publishers, or in the case of reprographic reproduction in accordance with the terms of permissions granted by copyright clearing houses such as the Copyright Licensing Agency (U.K.) or the Copyright Clearance Center (U.S.A.). The CCC item-fee code for this publication is 0264-6021/2005/\$40.00 + 0.00. Inquiries concerning reproduction outside those terms should be sent to the publishers at the above-mentioned address.
- Although, at the time of going to press, the information contained in this publication is believed to be correct, neither the authors nor the editors nor the publisher assume any responsibility for any errors or omissions herein contained. Opinions expressed in articles are not necessarily those of the editors, the publisher or the owner.
- Periodicals postage paid at Rahway, NJ, U.S.A.
- **Postmaster:** send address corrections to *Biochemical Journal*, c/o Mercury Airfreight International Ltd, 365 Blair Road, Avenel, NJ 07001, U.S.A.
- **Cover illustration:** Expression of MUC4 apomucin in the pancreatic cell line CAPAN-2 transfected with a PEA3 expression vector. For further details see Fauquette et al. (2005) *Biochem. J.* **386**, 35–45.

● **General policy** The *Biochemical Journal* publishes papers in English in all fields of biochemistry and cellular and molecular biology, provided that they make a sufficient contribution to biochemical knowledge. Papers may include new results obtained experimentally, descriptions of new experimental methods of biochemical importance, or new interpretations of existing results. Novel theoretical contributions will be considered equally with papers dealing with experimental work. All work presented should have as its aim the development of biochemical concepts rather than the mere recording of facts. Preliminary, confirmatory or inconclusive work will not be published. The *Biochemical Journal* will not publish material that has been wholly or largely published elsewhere, even as a preliminary communication or in refereed symposium proceedings or on the World Wide Web (WWW); equally, fragmentation of research into the 'least publishable unit' is discouraged.

Submission of a paper implies that it has been approved by all the named authors, that all persons entitled to authorship have been so named, that it reports unpublished work that is not under consideration elsewhere, and that if the paper is accepted for publication the authors will transfer to the Biochemical Society the copyright in the paper, which will then not be published elsewhere in the same form, in any language, without the consent of the Society. Authors will be required to sign an undertaking to these effects.

Authors may suggest potential reviewers for their papers, but the journal is under no obligation to follow such suggestions. Authors may also specify the names of those they wish to be excluded from the review process, and such wishes are usually respected unless, in the opinion of the journal, such a request unreasonably excludes all the expertise available to it in that scientific area.

To allow the reviewers to assess possible overlap with previous work, all submitted papers must be accompanied by duplicate copies of the author's relevant published work, including that on the WWW, and of all related papers in press or under editorial consideration in this or other journals.

The following types of paper are included in the journal.

● **Research Papers** are the normal form of publication, and may be of any length that is

justified by their content. However, because of pressure for space in the journal, no paper, whatever its scientific merits, will be accepted if it exceeds the minimum length required for precision in describing the experiments and clarity in interpreting them. As a guide, most Research Papers published in the *Biochemical Journal* are of between six and eight printed pages. A concise well-written paper tends to be published more rapidly.

● **Accelerated Publications (APs)** are short (normally four printed pages) papers bringing particularly novel and significant findings to the attention of the research community. It is intended that a decision on acceptance or rejection will be made within 10 working days of receipt, and publication of accepted APs in an issue will follow within 2 months. APs receive full but accelerated reviewing. The criteria of 'novelty and significance' are strictly enforced, and papers may be rejected solely on the grounds of lack of novelty and significance. APs are not a path to accelerated publication of sound but non-urgent material. Authors must include in their letter of submission a brief statement of why they believe their AP merits accelerated treatment. Papers reporting nucleotide sequences only are not acceptable as APs. One colour figure will be published free of charge in APs; subsequent figures will cost £300 each.

● **Reviews** will usually be solicited, although unsolicited reviews will be considered for publication. Prospective writers of reviews should first consult the Reviews Editor, via the editorial office, and should enclose a short (one typed page) summary of the area they propose to cover.

● **Procedure for submission** These instructions do not replace the official *Biochemical Journal* Instructions to Authors (<http://www.BiochemJ.org>). Authors are encouraged to refer to these for overall guidelines on submitting a paper. Before preparing papers for the journal, authors should consult a current issue to make themselves familiar with the general format, such as the use of cross-headings, layout of tables and figures and citation of references. A full page of text in the *Biochemical Journal* contains approximately 1200 words; when calculating the printed length of papers, allowance must be made for the space occupied by tables and figures and the number of text words reduced accordingly.

The numerical system of references must be used. A reference to 'unpublished work'

must be accompanied by the names of all persons concerned: a reference to a 'personal communication' must be supported by written permission for the quotation from the person or persons concerned; both of these types of citation are permitted in the text only, not in the list of references.

● **Submit manuscripts online** Authors should submit manuscripts electronically using the Online Submission and Review System available at <http://www.BiochemJ.org/submit/>

● **Immediate Publications** Manuscripts are published online in PDF format as soon as they are accepted, unless on submission the author requests that this not be done. Immediate Publications are listed in and accessible through Medline, and are freely available to anyone with Internet access.

● **Queries and correspondence** Authors in the Americas should address all queries and correspondence about their submission to: Dr Sharon Schendel, BJ USA, The Burnham Institute, 10901 N. Torrey Pines Road, La Jolla, CA 92037, U.S.A. (telephone +1 858 713 6283; fax +1 858 713 6284; email [editorial@biochemjusa.org](mailto:editorial@biochemjusa.org)). Authors in the U.K., the rest of Europe, Japan and the rest of the world should contact: The Publisher, *Biochemical Journal*, 59 Portland Place, London W1B 1QW, U.K. (telephone +44 20 7637 5873; fax +44 20 7323 1136; email [editorial@portlandpress.com](mailto:editorial@portlandpress.com)).

● **Colour figures** The first colour figure is published at no charge provided that one author has been a member of the Biochemical Society for at least 2 years and that the use of colour is deemed scientifically necessary by the reviewers. Subsequent colour figures in the same paper cost £300 each.

● **Multimedia adjuncts** The *Biochemical Journal* Online offers authors the opportunity to enhance their papers with multimedia adjuncts (e.g. time-lapse movies, three-dimensional structures, animated schemes). These will be submitted to peer review alongside the manuscript. To submit a paper with a multimedia adjunct, please attach the file when you submit your manuscript electronically. Preferred formats are QuickTime for time-lapse movies and PDB for structures. There is no extra charge associated with the publication of a multimedia adjunct online.

## Other information

The *Biochemical Journal* is published and distributed by Portland Press Ltd on behalf of the Biochemical Society. It is published twice monthly; in 2005 volumes 386–392 (three parts each) will appear. The subscription also includes an author and key-word index.

● **Subscription rates** Institutional subscription rates for 2005 are shown below. Subscribers to the *Biochemical Journal* can subscribe additionally to *Biochemical Society Transactions* and *Biotechnology and Applied Biochemistry* on a joint subscription at a reduced rate. Terms are cash with order (US\$ in N. America, £ sterling for rest of the world, or US\$ equivalent at current rate of exchange; subscribers in the EU may pay in £ sterling or Euros), or against pro forma invoice. Orders should be sent to the address shown, or through your usual agent.

	N. America	Rest of world	Euro price
One year (8 vols)			
Print and online	US\$2830	£1496	€2545
Online only	US\$2500	£1325	€2250
Single issues (print only)	US\$138.70	£73	€124.10

Overseas rates include airfreight delivery. Priority delivery is available at an additional cost of £61.80/€105.

VAT is due on some supplies to subscribers within the UK, and to non-registered subscribers elsewhere in the EU. If in the EU please state your VAT number otherwise VAT may be charged at the appropriate national rate.

● **Electronic back archive** This is freely available to all users with Internet access.

● **Microfiche and back issues** Volumes 102–336 of the *Biochemical Journal* are available on microfiche. Back issues are also available. Further details may be obtained from the address below.

### ● Subscription Department

Portland Customer Services  
P.O. Box 32, Commerce Way  
Colchester CO2 8HP, Essex, U.K.  
(telephone 01206 796351; fax 01206-799331;  
email [sales@portland-services.com](mailto:sales@portland-services.com)).

● **Advertising** Enquiries about advertising should be addressed to: Nicky Peacock, Mainline Media Ltd, The Barn, Oakley Hay Lodge Business Park, Great Folds Road, Great Oakley, Corby, Northamptonshire NN18 9AS, U.K. (telephone 01536 747333; email [Nickyppmm@aol.com](mailto:Nickyppmm@aol.com)).

**Review****PAK and other Rho-associated kinases – effectors with surprisingly diverse mechanisms of regulation**

*Published as BJ Immediate Publication 17 November 2004,  
DOI 10.1042/BJ20041638*

Z.-s. Zhao and E. Manser

201–214

**Online Commentary**

More roles for selenoprotein P: local selenium storage and recycling protein in the brain

*Published on the Internet 22 February 2005,  
DOI 10.1042/BJ20050149*

*(see accompanying paper pp. 221–226)*

D.R. Richardson

e5–e7

**Accelerated Publications**

Compartmental oxidation of thiol–disulphide redox couples during epidermal growth factor signalling

*Published as BJ Immediate Publication 13 January 2005,  
DOI 10.1042/BJ20041829*

P.J. Halvey, W.H. Watson, J.M. Hansen, Y.-M. Go, A. Samali and D.P. Jones

215–219

Hepatically derived selenoprotein P is a key factor for kidney but not for brain selenium supply

*Published as BJ Immediate Publication 7 January 2005,  
DOI 10.1042/BJ20041973*

U. Schweizer, F. Streckfuß, P. Pelt, B.A. Carlson, D.L. Hatfield, J. Köhrle and L. Schomburg

221–226

**Research Papers**

Human xylosyltransferase I: functional and biochemical characterization of cysteine residues required for enzymic activity

*Published as BJ Immediate Publication 4 October 2004,  
DOI 10.1042/BJ20041206*

S. Müller, M. Schöttler, S. Schön, C. Prante, T. Brinkmann, J. Kuhn, C. Götting and K. Kleesiek

227–236

Stimulation of hepatocytic AMP-activated protein kinase by okadaic acid and other autophagy-suppressive toxins

*Published as BJ Immediate Publication 4 October 2004,  
DOI 10.1042/BJ20040609*

H.R. Samari, M.T.N. Møller, L. Holden, T. Asmyhr and P.O. Seglen

237–244

Compartmentalization of transport and phosphorylation of glucose in a hepatoma cell line

*Published as BJ Immediate Publication 8 October 2004,  
DOI 10.1042/BJ20040901*

R.R. Whitesell, H. Ardehali, J.M. Beechem, A.C. Powers, W. Van Der Meer, L.M. Perriott and D.K. Granner

245–253

Essential role of ATF-1 in induction of NOX1, a catalytic subunit of NADPH oxidase: involvement of mitochondrial respiratory chain

*Published as BJ Immediate Publication 18 October 2004,  
DOI 10.1042/BJ20041180*

M. Katsuyama, C.Y. Fan, N. Arakawa, T. Nishinaka, M. Miyagishi, K. Taira and C. Yabe-Nishimura

255–261

Anomalous pH-dependence of the activity of human matrilysin (matrix metalloproteinase-7) as revealed by nitration and amination of its tyrosine residues

*Published as BJ Immediate Publication 15 October 2004,  
DOI 10.1042/BJ20040985*

Y. Muta, H. Oneda and K. Inouye

263–270

Quantitative determination of the binding of $\beta_2$ -glycoprotein I and prothrombin to phosphatidylserine-exposing blood platelets <i>Published as BJ Immediate Publication 2 November 2004, DOI 10.1042/BJ20041167</i>	E.M. Bevers, M.P. Janssen, P. Comfurius, K. Balasubramanian, A.J. Schroit, R.F.A. Zwaal and G.M. Willems	<b>271–279</b>
Subtype-specific regulation of equilibrative nucleoside transporters by protein kinase CK2 <i>Published as BJ Immediate Publication 25 October 2004, DOI 10.1042/BJ20041571</i>	M. Stolk, E. Cooper, G. Vilks, D.W. Litchfield and J.R. Hammond	<b>281–289</b>
Activation of ryanodine receptors induces calcium influx in a neuroblastoma cell line lacking calcium influx factor activity <i>Published as BJ Immediate Publication 14 October 2004, DOI 10.1042/BJ20040900</i>	D.D. Bose, R. Rahimian and D.W. Thomas	<b>291–296</b>
The roles of Sp1, Sp3, USF1/USF2 and NRF-1 in the regulation and three-dimensional structure of the Fragile X mental retardation gene promoter <i>Published as BJ Immediate Publication 13 October 2004, DOI 10.1042/BJ20041124</i>	D. Kumari, A. Gabrielian, D. Wheeler and K. Usdin	<b>297–303</b>
Steady-state kinetics and inhibition of anaerobically purified human homogentisate 1,2-dioxygenase <i>Published as BJ Immediate Publication 13 October 2004, DOI 10.1042/BJ20041370</i>	E.J.A. Veldhuizen, F.H. Vaillancourt, C.J. Whiting, M.M.-Y. Hsiao, G. Gingras, Y. Xiao, R.M. Tanguay, J. Boukouvalas and L.D. Eltis	<b>305–314</b>
Kinetic investigation of human dipeptidyl peptidase II (DPPII)-mediated hydrolysis of dipeptide derivatives and its identification as quiescent cell proline dipeptidase (QPP)/dipeptidyl peptidase 7 (DPP7) <i>Published as BJ Immediate Publication 18 October 2004, DOI 10.1042/BJ20041156</i>	M.-B. Maes, A.-M. Lambeir, K. Gilany, K. Senten, P. Van der Veken, B. Leiting, K. Augustyns, S. Scharpé and I. De Meester	<b>315–324</b>
Mapping residues of SUMO precursors essential in differential maturation by SUMO-specific protease, SENP1 <i>Published as BJ Immediate Publication 18 October 2004, DOI 10.1042/BJ20041210</i>	Z. Xu and S.W.N. Au	<b>325–330</b>
Cephalopod vision involves dicarboxylic amino acids: D-aspartate, L-aspartate and L-glutamate <i>Published as BJ Immediate Publication 18 October 2004, DOI 10.1042/BJ20041070</i>	S. D'Aniello, P. Spinelli, G. Ferrandino, K. Peterson, M. Tsesarskia, G. Fisher and A. D'Aniello	<b>331–340</b>
Regulation of adenylylase type VIII splice variants by acute and chronic $G_{i/o}$ -coupled receptor activation <i>Published as BJ Immediate Publication 10 November 2004, DOI 10.1042/BJ20041670</i>	D. Steiner, T. Avidor-Reiss, E. Schallmach, E. Butovsky, N. Lev and Z. Vogel	<b>341–348</b>
Characterization of a new family of cyclin-dependent kinase activators <i>Published as BJ Immediate Publication 1 December 2004, DOI 10.1042/BJ20041779</i>	A. Dinarina, L.H. Perez, A. Davila, M. Schwab, T. Hunt and A.R. Nebreda	<b>349–355</b>
<i>Drosophila melanogaster</i> NEP2 is a new soluble member of the neprilysin family of endopeptidases with implications for reproduction and renal function <i>Published as BJ Immediate Publication 22 November 2004, DOI 10.1042/BJ20041753</i>	J.E. Thomas, C.M. Rylett, A. Carhan, N.D. Bland, R.J. Bingham, A.D. Shirras, A.J. Turner and R.E. Isaac	<b>357–366</b>
Zebrafish ( <i>Danio rerio</i> ) matrilins: shared and divergent characteristics with their mammalian counterparts <i>Published as BJ Immediate Publication 9 December 2004, DOI 10.1042/BJ20041486</i>	Y.-P. Ko, B. Kobbe, M. Paulsson and R. Wagener	<b>367–379</b>

---

Examination of mitochondrial protein targeting of haem synthetic enzymes: <i>in vivo</i> identification of three functional haem-responsive motifs in 5-aminolaevulinic synthase <i>Published as BJ Immediate Publication 14 October 2004, DOI 10.1042/BJ20040570</i>	T.A. Dailey, J.H. Woodruff and H.A. Dailey	<b>381–386</b>
Direct oxidation of polymeric substrates by multifunctional manganese peroxidase isoenzyme from <i>Pleurotus ostreatus</i> without redox mediators <i>Published as BJ Immediate Publication 4 October 2004, DOI 10.1042/BJ20040968</i>	H. Kamitsuji, T. Watanabe, Y. Honda and M. Kuwahara	<b>387–393</b>
Analysis of normal and mutant iduronate-2-sulphatase conformation <i>Published as BJ Immediate Publication 25 October 2004, DOI 10.1042/BJ20040739</i>	E. Parkinson-Lawrence, C. Turner, J. Hopwood and D. Brooks	<b>395–400</b>
