- The *Biochemical Journal* (ISSN 0264-6021 for print/online journal; ISSN 1470-8728 for online only journal) is published and distributed by Portland Press Ltd on behalf of the Biochemical Society (the owner), and appears twice monthly.
- **Editorial and publishing offices:** *Biochemical Journal*, Portland Press Ltd, Third Floor, Eagle House, 16 Procter Street, London WC1V 6NX, U.K.
- **Biochemical Journal**, c/o Mercury Airfreight International Ltd, 365 Blair Road, Avenel, NJ 07001, U.S.A.
- **Subscriptions department:** Portland Customer Services, P.O. Box 32, Commerce Way, Colchester CO2 8HP, U.K.
- All rights reserved. Apart from any fair dealing for the purposes of research or private study, or criticism or review, as permitted under the Copyright, Designs and Patents Act, 1988, this publication may be reproduced, stored or transmitted, in any forms or by any means, only with the prior permission in writing of the publishers, or in the case of reprographic reproduction in accordance with the terms of permissions granted by copyright clearing houses such as the Copyright Licensing Agency (U.K.) or the Copyright Clearance Center (U.S.A.). The CCC item-fee code for this publication is 0264-6021/2005/\$40.00 + 0.00. Inquiries concerning reproduction outside those terms should be sent to the publishers at the above-mentioned address.
- Although, at the time of going to press, the information contained in this publication is believed to be correct, neither the authors nor the editors nor the publisher assume any responsibility for any errors or omissions herein contained. Opinions expressed in articles are not necessarily those of the editors, the publisher or the owner.
- Periodicals postage paid at Rahway, NJ, U.S.A.
- **Postmaster:** send address corrections to *Biochemical Journal*, c/o Mercury Airfreight International Ltd, 365 Blair Road, Avenel, NJ 07001, U.S.A.
- **Cover illustration:** Human macrophage stained for filamentous actin (white) and DNA (red). Image kindly supplied by Björn Önfelt and Daniel Davis (Imperial College London).

Instructions to Authors

● **General policy** The *Biochemical Journal* publishes papers in English in all fields of biochemistry and cellular and molecular biology, provided that they make a sufficient contribution to biochemical knowledge. Papers may include new results obtained experimentally, descriptions of new experimental methods of biochemical importance, or new interpretations of existing results. Novel theoretical contributions will be considered equally with papers dealing with experimental work. All work presented should have as its aim the development of biochemical concepts rather than the mere recording of facts. Preliminary, confirmatory or inconclusive work will not be published. The *Biochemical Journal* will not publish material that has been wholly or largely published elsewhere, even as a preliminary communication or in refereed symposium proceedings or on the World Wide Web (WWW); equally, fragmentation of research into the 'least publishable unit' is discouraged.

Submission of a paper implies that it has been approved by all the named authors, that all persons entitled to authorship have been so named, that it reports unpublished work that is not under consideration elsewhere, and that if the paper is accepted for publication the authors will transfer to the Biochemical Society the copyright in the paper, which will then not be published elsewhere in the same form, in any language, without the consent of the Society. Authors will be required to sign an undertaking to these effects.

Authors may suggest potential reviewers for their papers, but the journal is under no obligation to follow such suggestions. Authors may also specify the names of those they wish to be excluded from the review process, and such wishes are usually respected unless, in the opinion of the journal, such a request unreasonably excludes all the expertise available to it in that scientific area.

To allow the reviewers to assess possible overlap with previous work, all submitted papers must be accompanied by duplicate copies of the author's relevant published work, including that on the WWW, and of all related papers in press or under editorial consideration in this or other journals.

The following types of paper are included in the journal.

● **Research Papers** are the normal form of publication, and may be of any length that is

justified by their content. However, because of pressure for space in the journal, no paper, whatever its scientific merits, will be accepted if it exceeds the minimum length required for precision in describing the experiments and clarity in interpreting them. As a guide, most Research Papers published in the *Biochemical Journal* are of between six and eight printed pages. A concise well-written paper tends to be published more rapidly.

● **Accelerated Publications (APs)** are short (normally four printed pages) papers bringing particularly novel and significant findings to the attention of the research community. It is intended that a decision on acceptance or rejection will be made within 10 working days of receipt, and publication of accepted APs in an issue will follow within 2 months. APs receive full but accelerated reviewing. The criteria of 'novelty and significance' are strictly enforced, and papers may be rejected solely on the grounds of lack of novelty and significance. APs are not a path to accelerated publication of sound but non-urgent material. Authors must include in their letter of submission a brief statement of why they believe their AP merits accelerated treatment. Papers reporting nucleotide sequences only are not acceptable as APs. One colour figure will be published free of charge in APs; subsequent figures will cost £300 each.

● **Reviews** will usually be solicited, although unsolicited reviews will be considered for publication. Prospective writers of reviews should first consult the Reviews Editor, via the editorial office, and should enclose a short (one page) summary of the area they propose to cover.

● **Procedure for submission** These instructions do not replace the official *Biochemical Journal* Instructions to Authors (<http://www.BiochemJ.org>). Authors are encouraged to refer to these for overall guidelines on submitting a paper. Before preparing papers for the journal, authors should consult a current issue to make themselves familiar with the general format, such as the use of cross-headings, layout of tables and figures and citation of references. A full page of text in the *Biochemical Journal* contains approximately 1200 words; when calculating the printed length of papers, allowance must be made for the space occupied by tables and figures and the number of text words reduced accordingly.

The numerical system of references must be used. A reference to 'unpublished work'

must be accompanied by the names of all persons concerned: a reference to a 'personal communication' must be supported by written permission for the quotation from the person or persons concerned; both of these types of citation are permitted in the text only, not in the list of references.

● **Submit manuscripts online** Authors should submit manuscripts electronically using the Online Submission and Review System available at <http://www.BiochemJ.org/submit/>

● **Immediate Publications** Manuscripts are published online in PDF format as soon as they are accepted, unless on submission the author requests that this not be done. Immediate Publications are listed in and accessible through Medline, and are freely available to anyone with Internet access.

● **Queries and correspondence** Authors in the Americas should address all queries and correspondence about their submission to: Dr Sharon Schendel, BJ USA, The Burnham Institute, 10901 N. Torrey Pines Road, La Jolla, CA 92037, U.S.A. (telephone +1 858 713 6283; fax +1 858 713 6284; email editorial@biochemjusa.org). Authors in the U.K., the rest of Europe, Japan and the rest of the world should contact: The Publisher, *Biochemical Journal*, Portland Press Ltd, Third Floor, Eagle House, 16 Procter Street, London WC1V 6NX, U.K. (telephone +44 20 7280 4110; fax +44 20 7280 4169; email editorial@portlandpress.com).

● **Colour figures** The first colour figure is published at no charge provided that one author has been a member of the Biochemical Society for at least 2 years and that the use of colour is deemed scientifically necessary by the reviewers (a saving of £550). Subsequent colour figures in the same paper cost £300 each.

● **Multimedia adjuncts** The Biochemical Journal Online offers authors the opportunity to enhance their papers with multimedia adjuncts (e.g. time-lapse movies, three-dimensional structures, animated schemes). These will be submitted to peer review alongside the manuscript. To submit a paper with a multimedia adjunct, please attach the file when you submit your manuscript electronically. Preferred formats are QuickTime for time-lapse movies and PDB for structures. There is no extra charge associated with the publication of a multimedia adjunct online.

Other information

The *Biochemical Journal* is published and distributed by Portland Press Ltd on behalf of the Biochemical Society. It is published twice monthly; in 2006 volumes 393–400 (three parts each) will appear. The subscription also includes an author and key-word index.

● **Abstracted by/indexed in:** BIOBASE, BIOSIS, CAB International, Chemical Abstracts Service, Current Contents, EMBASE, International Food Information Service, Medline/Index Medicus, Proquest Information & Learning, Science Citation Index.

● **Subscription rates** Institutional subscription rates for 2006 are shown below. Subscribers to the *Biochemical Journal* can subscribe additionally to *Biochemical Society Transactions* and *Biotechnology and Applied Biochemistry* on a joint subscription at a reduced rate. Terms are cash with order (US\$ in N. America, £ sterling for rest of the world, or US\$ equivalent at current rate of exchange; subscribers in the EU may pay in £ sterling or Euros), or against pro forma

invoice. Orders should be sent to the address shown, or through your usual agent.

	N.	Rest of	Euro
One year (8 vols)	America	world	price
Print and online	US\$3084	£1630	€2774
Online only	US\$2600	£1378	€2340
Single issues	US\$152	£80	€136
(print only)			

Overseas rates include airfreight delivery. Priority delivery is available at an additional cost of £64.90/€110.

VAT is due on some supplies to subscribers within the UK, and to non-registered subscribers elsewhere in the EU. If in the EU please state your VAT number otherwise VAT may be charged at the appropriate national rate.

● **Electronic back archive** This is freely available to all users with Internet access.

● **Microfiche and back issues** Volumes 102–336 of the *Biochemical Journal* are available

on microfiche. Back issues are also available. Further details may be obtained from the address below.

Portland Customer Services
P.O. Box 32, Commerce Way
Colchester CO2 8HP, Essex, U.K.
(telephone 01206 796351; fax 01206 799331;
email sales@portland-services.com).

● **Advertising** Enquiries about advertising should be addressed to: Nicky Peacock, Mainline Media Ltd, The Barn, Oakley Hay Lodge Business Park, Great Folds Road, Great Oakley, Corby, Northamptonshire NN18 9AS, U.K. (telephone 01536 747333; email Nickyppmm@aol.com).

● The paper and cover-boards used in this journal are sourced from sustainable, managed and renewed commercial forests, and are fully recyclable. The bleaching process used for the pulp is 100% ECF (elemental chlorine free).

Research Papers

- A proprotein convertase-inhibiting serpin with an endoplasmic reticulum targeting signal from *Branchiostoma lanceolatum*, a close relative of vertebrates
Published as *BJ Immediate Publication* 31 January 2006, doi:10.1042/BJ20051947 **449–456**
C. Bentele, O. Krüger, U. Tödtmann, M. Oley and H. Ragg
- Crystal structure of inactivated *Thermotoga maritima* invertase in complex with the trisaccharide substrate raffinose
Published as *BJ Immediate Publication* 16 January 2006, doi:10.1042/BJ20051936 **457–462**
F. Alberto, E. Jordi, B. Henrissat and M. Czjzek
- Structure and stability of 2S albumin-type peanut allergens: implications for the severity of peanut allergic reactions
Published as *BJ Immediate Publication* 22 December 2005, doi:10.1042/BJ20051728 **463–472**
K. Lehmann, K. Schweimer, G. Reese, S. Randow, M. Suhr, W.-M. Becker, S. Vieths and P. Rösch 
- Crystal structure of a glycosylated Fab from an IgM cryoglobulin with properties of a natural proteolytic antibody
Published as *BJ Immediate Publication* 20 January 2006, doi:10.1042/BJ20051739 **473–481**
P.A. Ramsland, S.S. Terzyan, G. Cloud, C.R. Bourne, W. Farrugia, G. Tribbick, H.M. Geysen, C.R. Moomaw, C.A. Slaughter and A.B. Edmundson
- Crystal structures and inhibitor identification for PTPN5, PTPRR and PTPN7: a family of human MAPK-specific protein tyrosine phosphatases
Published as *BJ Immediate Publication* 30 January 2006, doi:10.1042/BJ20051931 **483–491**
J. Eswaran, J.P. von Kries, B. Marsden, E. Longman, J.É. Debreczeni, E. Ugochukwu, A. Turnbull, W.H. Lee, S. Knapp and A.J. Barr 
- Inefficient coupling between proton transport and ATP synthesis may be the pathogenic mechanism for NARP and Leigh syndrome resulting from the T8993G mutation in mtDNA
Published as *BJ Immediate Publication* 10 January 2006, doi:10.1042/BJ20051748 **493–500**
G. Sgarbi, A. Baracca, G. Lenaz, L.M. Valentino, V. Carelli and G. Solaini
- Tissue-specific expression of ferritin H regulates cellular iron homeostasis *in vivo*
Published as *BJ Immediate Publication* 1 February 2006, doi:10.1042/BJ20060063 **501–507**
J. Wilkinson, IV, X. Di, K. Schöning, J.L. Buss, N.D. Kock, J.M. Cline, T.L. Saunders, H. Bujard, S.V. Torti and F.M. Torti
- Probing the importance of hydrogen bonds in the active site of the subtilisin nattokinase by site-directed mutagenesis and molecular dynamics simulation
Published as *BJ Immediate Publication* 17 January 2006, doi:10.1042/BJ20050772 **509–515**
Z.-l. Zheng, M.-q. Ye, Z.-y. Zuo, Z.-g. Liu, K.-c. Tai and G.-l. Zou
- Characterization of the amino acid response element within the human sodium-coupled neutral amino acid transporter 2 (SNAT2) System A transporter gene
Published as *BJ Immediate Publication* 31 January 2006, doi:10.1042/BJ20051867 **517–527**
S.S. Palii, M.M. Thiaville, Y.-X. Pan, C. Zhong and M.S. Kilberg
- Mapping and conformational characterization of the DNA-binding region of the breast cancer susceptibility protein BRCA1
Published as *BJ Immediate Publication* 7 February 2006, doi:10.1042/BJ20051646 **529–535**
R. Naseem, A. Sturdy, D. Finch, T. Jowitt and M. Webb

The chemical chaperone CFcor-325 repairs folding defects in the transmembrane domains of CFTR-processing mutants <i>Published as BJ Immediate Publication 18 January 2006, doi:10.1042/BJ20060013</i>	T.W. Loo, M.C. Bartlett, Y. Wang and D.M. Clarke	537–542
Two glucose/xylose transporter genes from the yeast <i>Candida intermedia</i> : first molecular characterization of a yeast xylose-H ⁺ symporter <i>Published as BJ Immediate Publication 11 January 2006, doi:10.1042/BJ20051465</i>	M.J. Leandro, P. Gonçalves and I. Spencer-Martins	543–549
The conformational state of polyphenol oxidase from field bean (<i>Dolichos lablab</i>) upon SDS and acid-pH activation <i>Published as BJ Immediate Publication 4 January 2006, doi:10.1042/BJ20051509</i>	S.R. Kanade, B. Paul, A.G.A. Rao and L.R. Gowda	551–562
Yeast Hsl7 (histone synthetic lethal 7) catalyses the <i>in vitro</i> formation of ω -N ^ε -monomethylarginine in calf thymus histone H2A <i>Published as BJ Immediate Publication 23 January 2006, doi:10.1042/BJ20051771</i>	T.B. Miranda, J. Sayegh, A. Frankel, J.E. Katz, M. Miranda and S. Clarke	563–570
MITF mediates cAMP-induced protein kinase C- β expression in human melanocytes <i>Published as BJ Immediate Publication 17 January 2006, doi:10.1042/BJ20051388</i>	H.-Y. Park, C. Wu, L. Yonemoto, M. Murphy-Smith, H. Wu, C.M. Stachur and B.A. Gilchrist	571–578
Collagen binding by the mannose receptor mediated through the fibronectin type II domain <i>Published as BJ Immediate Publication 27 January 2006, doi:10.1042/BJ20052027</i>	C.E. Napper, K. Drickamer and M.E. Taylor	579–586
Reinvestigation of the dysbindin subunit of BLOC-1 (biogenesis of lysosome-related organelles complex-1) as a dystrobrevin-binding protein <i>Published as BJ Immediate Publication 1 February 2006, doi:10.1042/BJ20051965</i>	R. Nazarian, M. Starcevic, M.J. Spencer and E.C. Dell'Angelica	587–598
Role of Nrf2 in the regulation of the <i>Mrp2</i> (<i>ABCC2</i>) gene <i>Published as BJ Immediate Publication 23 January 2006, doi:10.1042/BJ20051518</i>	V. Vollrath, A.M. Wielandt, M. Iruretagoyena and J. Chianale	599–609
Different mechanisms of mitochondrial proton leak in ischaemia/reperfusion injury and preconditioning: implications for pathology and cardioprotection <i>Published as BJ Immediate Publication 26 January 2006, doi:10.1042/BJ20051927</i>	S.M. Nadtochiy, A.J. Tompkins and P.S. Brookes	611–618
Synergy of fatty acid and reactive alkenal activation of proton conductance through uncoupling protein 1 in mitochondria <i>Published as BJ Immediate Publication 2 February 2006, doi:10.1042/BJ20052004</i>	T.C. Esteves, N. Parker and M.D. Brand	619–628
Dual-function protein in plant defence: seed lectin from <i>Dolichos biflorus</i> (horse gram) exhibits lipoxygenase activity <i>Published as BJ Immediate Publication 27 January 2006, doi:10.1042/BJ20051889</i>	S. Roopashree, S.A. Singh, L.R. Gowda and A.G.A. Rao	629–639
Characterization of <i>Medicago truncatula</i> (barrel medic) hydroperoxide lyase (CYP74C3), a water-soluble detergent-free cytochrome P450 monomer whose biological activity is defined by monomer-micelle association <i>Published as BJ Immediate Publication 2 February 2006, doi:10.1042/BJ20051667</i>	R.K. Hughes, E.J. Belfield, M. Muthusamay, A. Khan, A. Rowe, S.E. Harding, S.A. Fairhurst, S. Bornemann, R. Ashton, R.N.F. Thorneley and R. Casey	641–652
Akt phosphorylates and suppresses the transactivation of retinoic acid receptor α <i>Published as BJ Immediate Publication 18 January 2006, doi:10.1042/BJ20051794</i>	H. Srinivas, D. Xia, N.L. Moore, I.P. Uray, H. Kim, L. Ma, N.L. Weigel, P.H. Brown and J.M. Kurie	653–662
