

## Reviews

### Division of labour: how does folate metabolism partition between one-carbon metabolism and amino acid oxidation?

Version of Record published 13 November 2015,  
doi:10.1042/BJ20150837

M.E. Brosnan, L. Macmillan, J.R. Stevens and  
J.T. Brosnan

135–146

## Commentary

### Use of a mutant OGA for detecting O-GlcNAc modified proteins

Version of Record published 13 November 2015,  
doi:10.1042/BJ20150970

R.J. Chalkley

e25–e26

## Research Papers

### miRNA let-7 expression is regulated by glucose and TNF- $\alpha$ by a remote upstream promoter

Accepted Manuscript online 16 September 2015,  
doi:10.1042/BJ20150224

M. Katayama, R.J. Sjögren, B. Egan and A. Krook

147–156

### Characterization of a sialate-O-acetyltransferase (NanS) from the oral pathogen *Tannerella forsythia* that enhances sialic acid release by NanH, its cognate sialidase

Accepted Manuscript online 16 September 2015,  
doi:10.1042/BJ20150388

C. Phansopa, R.P. Kozak, L.P. Liew, A.M. Frey, T. Farmilo,  
J.L. Parker, D.J. Kelly, R.J. Emery, R.I. Thomson,  
L. Royle, R.A. Gardner, D.I.R. Spencer and G.P. Stafford

157–167

### The trimeric serine protease HtrA1 forms a cage-like inhibition complex with an anti-HtrA1 antibody

Accepted Manuscript online 18 September 2015,  
doi:10.1042/BJ20150601

C. Ciferri, M.T. Lipari, W.-C. Liang, A. Estevez, J. Hang,  
S. Stawicki, Y. Wu, P. Moran, M. Elliott, C. Eigenbrot,  
K.J. Katschke, M.V.L. Campagne and D. Kirchhofer

169–181

### Soybean extracts increase cell surface ZIP4 abundance and cellular zinc levels: a potential novel strategy to enhance zinc absorption by ZIP4 targeting

Accepted Manuscript online 18 September 2015,  
doi:10.1042/BJ20150862

A. Hashimoto, K. Ohkura, M. Takahashi, K. Kizu,  
H. Narita, S. Enomoto, Y. Miyamae, S. Masuda,  
M. Nagao, K. Irie, H. Ohigashi, G.K. Andrews  
and T. Kambe

183–193

### The activating role of phospho-(Tyr)-calmodulin on the epidermal growth factor receptor

Accepted Manuscript online 23 September 2015,  
doi:10.1042/BJ20150851

S.R. Stateva, V. Salas, A. Benguría, I. Cossío, E. Anguita,  
J. Martín-Nieto, G. Benaim and A. Villalobo

195–204

### Biophysical and physiological characterization of ZraP from *Escherichia coli*, the periplasmic accessory protein of the atypical ZraSR two-component system

Accepted Manuscript online 5 October 2015,  
doi:10.1042/BJ20150827

I. Petit-Härtlein, K. Rome, E. de Rosny, F. Molton,  
C. Duboc, E. Gueguen, A. Rodrigue and J. Covès

205–216

### Glutathione selectively modulates the binding of platinum drugs to human copper chaperone Cox17

Accepted Manuscript online 23 September 2015,  
doi:10.1042/BJ20150634

L. Zhao, Z. Wang, H. Wu, Z. Xi and Y. Liu

217–223

## Contents

---

- A new level of regulation in gluconeogenesis:  
metabolic state modulates the intracellular  
localization of aldolase B and its interaction with  
liver fructose-1,6-bisphosphatase  
*Accepted Manuscript online 28 September 2015,*  
*doi:10.1042/BJ20150269* C.A. Droppelmann, D.E. Sáez, J.L. Asenjo, A.J. Yáñez,  
M. García-Rocha, I.I. Concha, M. Grez, J.J. Guinovart and  
J.C. Slebe **225–237**
- Site specificity analysis of Piccolo NuA4-mediated  
acetylation for different histone complexes  
*Accepted Manuscript online 29 September 2015,*  
*doi:10.1042/BJ20150654* Y.-M. Kuo, R.A. Henry, S. Tan, J. Côté and A.J. Andrews **239–248**
