	PAGE
A study of the carotenoids echinenone and myxoxanthin with special reference to their probable identity. By T. W. GOODWIN and M. M. TAHA. (With one figure)	513
Relationship between the structure of the simple sugars and their behaviour on the paper chromatogram. By F. A. ISHERWOOD and M. A. JERMYN. (With one figure)	515
The mechanism of the formation of organic acids by mould fungi. 5. The influence of arsenite on <i>Aspergillus niger</i> . By M. I. D. CHUGHTAI and T. K. WALKER.	524
Studies on the biochemistry of zinc. 1. Effect of feeding zinc on the liver and bones of rats. By V. SADASIVAN	527
<i>In vitro</i> measurements of the turnover rate of potassium in brain and retina. By H. A. KREBS, L. V. EGGLESTON and C. TEENER	530
Studies in detoxication. 35. Spectrophotometric determination of β -glucuronidase using <i>p</i> -chlorophenylglucuronide as substrate. By B. SPENCER and R. T. WILLIAMS. (With eleven figures)	537
Studies in detoxication. 36. A note on the glucuronides of benzeneazophenol and benzeneazoresorcinol. By J. N. SMITH and R. T. WILLIAMS. (With two figures)	546
The specificity of phosphomonoesterases in human tissues. By J. L. REIS. (With three figures)	548
Observations on the use of <i>Escherichia coli</i> for the reduction and estimation of dehydroascorbic acid. By L. W. MAPSON and M. INGRAM. (With ten figures)	551
The stimulant involved in the germination of <i>Orobancha minor</i> Sm. 1. Assay technique and bulk preparation of the stimulant. By R. BROWN, A. D. GREENWOOD, A. W. JOHNSON and A. G. LONG. (With three figures)	559
The stimulant involved in the germination of <i>Orobancha minor</i> Sm. 2. Chromatographic purification of crude concentrates. By R. BROWN, A. D. GREENWOOD, A. W. JOHNSON, A. G. LONG and G. J. TYLER. (With two figures)	564
An electrophoretic investigation of the mixture of oligonucleotides formed by the enzymic degradation of deoxyribonucleic acid by deoxyribonuclease. By A. H. GORDON and P. REICHARD. (With seven figures)	569
Improved nomograms for manometer constants. By M. DIXON. (With five figures)	575
Recognition and estimation of 5-methylcytosine in nucleic acids. By G. R. WYATT. (With two figures)	581
The purine and pyrimidine composition of deoxypentose nucleic acids. By G. R. WYATT. (With two figures)	584
DL- β -3-Oxindolyalanine (DL-hydroxytryptophan). 1. Synthesis. By J. W. CORNFORTH, R. H. CORNFORTH, C. E. DALGLIESH and A. NEUBERGER	591
β -3-Oxindolyalanine (hydroxytryptophan). 2. Spectroscopic and chromatographic properties. By J. W. CORNFORTH, C. E. DALGLIESH and A. NEUBERGER. (With six figures)	598
On the role played by formate in serine biosynthesis. By P. KRUGHÖFFER	604
The vitamin B ₁ sparing action of fat and protein. 4. The effect of carbohydrate in diets deficient in vitamin B ₁ upon the survival and vitamin B ₁ content of the rat. By J. YUDKIN	608
Mode of formation of milk fatty acids from acetate in the goat. By G. POPJÁK, T. H. FRENCH, G. D. HUNTER and A. J. P. MARTIN	612
Formation of cellulose by certain species of <i>Acetobacter</i> . By R. KAUSHAL and T. K. WALKER	618
Studies in detoxication. 37. Metabolism of benzene. Examination of the glucuronide fraction of rabbit urine after administration of benzene. Isolation of phenylglucuronide. By D. V. PARKE and R. T. WILLIAMS	621
Studies in detoxication. 38. The metabolism of benzene. (a) The determination of phenylmercapturic acid in urine. (b) Mercapturic acid excretion by rabbits receiving benzene. By D. V. PARKE and R. T. WILLIAMS. (With five figures)	624
Esterification of the carboxyl groups in wool. By P. ALEXANDER, D. CARTER, C. EARLAND and O. E. FORD. (With six figures)	629
Blood glutathione and non-glucose reducing substances in diabetes. By E. K. B. ILLING, C. H. GRAY and R. D. LAWRENCE	637

CONTENTS

Proceedings of the Biochemical Society

	PAGE
Fertilization <i>in vitro</i> of the mammalian egg. By A. U. SMITH	lxiii
Mammalian semen: composition, metabolism and survival. By T. MANN	lxiii
Hormonal and nutritional factors in the metabolism of the male accessory organs of reproduction. By C. LUTWAK-MANN	lxiv
Hyaluronidase and fertilization. By G. I. M. SWYER	lxiv
Sperm-egg interacting substances and metabolic changes associated with fertilization. By LORD ROTHSCHILD	lxv
Biochemistry of sexual reproduction in plants. By L. E. HAWKER	lxv

INDEX OF AUTHORS
