	PAGE
The effect of insulin on incorporation of amino acids into protein of normal rat diaphragm <i>in vitro</i> . By K. L. MANCHESTER and F. G. YOUNG. (With one figure)	353
Synthesis of ϵ -aspartyl-lysines and of isohexylamides of aspartic acid. By D. L. SWALLOW, I. M. LOCKHART and E. P. ABRAHAM. (With one figure)	359
Formation of ϵ -(aminosuccinyl)-lysine from ϵ -aspartyl-lysine from bacitracin A, and from the cell walls of lactobacilli. By D. L. SWALLOW and E. P. ABRAHAM. (With three figures)	364
The production of an esterase inhibitor from schradan in the fat body of the desert locust. By M. L. FENWICK. (With five figures)	373
Cytochromes and some respiratory enzymes in mitochondria from the spadix of <i>Arum maculatum</i> . By D. S. BENDALL. (With three figures)	381
The chemical composition and structure of the cell wall of <i>Chlorella pyrenoidosa</i> . By D. H. NORTHCOTE, K. J. GOULDING and R. W. HORNE. (With one figure and four plates)	391
Phosphorolysis of citrulline by mammalian liver: the effect of a bacterial activator. By H. A. KREBS, P. K. JENSEN and L. V. EGGLESTON	397
The formation of acetoacetate in homogenates of the mammary gland. By C. TERNER	402
Separation and composition of the phospholipids of ox heart. By G. M. GRAY and M. G. MACFARLANE. (With six figures)	409
The structure of the plasmalogens of ox heart. By G. M. GRAY. (With two figures)	425
Electrophoresis in a density gradient. By P. A. CHARLWOOD and A. H. GORDON. (With seven figures)	433
Assimilation of carbon dioxide by yeasts. By A. O. M. STOPPANI, L. CONCHES, S. L. S. DE FAVELUKES and F. L. SACERDOTE. (With fourteen figures)	438
The production of secondary potassium depletion, sodium retention, nephrocalcinosis and hypercalcaemia by magnesium deficiency. By I. MACINTYRE and D. DAVIDSSON. (With seven figures)	456
The estimation of iodine in biological materials: a modification of the method of Ellis & Duncan. By K. RODGERS and D. B. POOLE. (With four figures)	463
Aminopterin inhibition in <i>Aerobacter aerogenes</i> : alanine and valine accumulation during the inhibition and their utilization on recovery. By M. WEBB. (With two figures)	472
<i>Addendum</i> —A factorial experiment to study factors which reverse aminopterin inhibition. By J. D. BIGGERS and M. WEBB. (With one figure)	487
Regulation of glucose uptake by muscle. 1. The effects of insulin, anaerobiosis and cell poisons on the uptake of glucose and release of potassium by isolated rat diaphragm. By P. J. RANDLE and G. HOWARD SMITH. (With two figures)	490
Regulation of glucose uptake by muscle. 2. The effects of insulin, anaerobiosis and cell poisons on the penetration of isolated rat diaphragm by sugars. By P. J. RANDLE and G. H. SMITH. (With three figures)	501
Effect of cyanide on the biosynthesis of ascorbic acid by an enzyme preparation from goat-liver tissue. By I. B. CHATTERJEE, J. J. GHOSH, N. C. GHOSH and B. C. GUHA. (With five figures)	509
Identification of 6-O-acetyl-D-glucopyranose in <i>Bacillus megaterium</i> cultures. Synthesis of 6-O-acetyl-D-glucopyranose and 6-O-acetyl-D-galactopyranose. By R. B. DUFF and V. C. FARMER. (With three figures)	515
Metabolism of 6-O-acetyl-D-glucopyranose and other monoacetyl-sugars by strains of <i>Bacillus megaterium</i> and other soil organisms. By R. B. DUFF and D. M. WEBLEY. (With one figure)	520
