

CONTENTS OF VOLUME 71, No. 4, 1959

(All rights reserved)

	PAGE
The fatty acid composition and glyceride structure of Indian wild-boar fat. By S. P. PATHAK, S. K. ROY and B. N. TRIVEDI	593
Plant enzyme reactions leading to the formation of heterocyclic compounds. 3. Plant amine oxidase and the formation of pyrrolidine and piperidine alkaloids. By A. J. CLARKE and P. J. G. MANN	596
Calcium and magnesium metabolism in calves. 4. Bone composition in magnesium deficiency and the control of plasma magnesium. By R. H. SMITH	609
Lecithinase and lysolecithinase of intestinal mucosa. By B. EPSTEIN and B. SHAPIRO	615
Properties and specificity of pancreatic phospholipase A. By A. RIMON and B. SHAPIRO	620
Rates of oxidation of galactose and glucose in erythrocytes and liver after lactose feeding. By A. CHOWDHURY and D. P. SADHU	624
Studies on gastric proteolysis. 4. Proteinase activity of gastric juice and gastric-mucosal extracts at pH 6 to 8. By W. H. TAYLOR	626
The effect of insulin antibodies on glucose uptake by the isolated rat diaphragm. By P. H. WRIGHT	633
Studies in detoxication. 78. Glucuronide and ethereal sulphate formation in hens. By B. C. BALDWIN, D. ROBINSON and R. T. WILLIAMS	638
Nitrogenous compounds and nitrogen metabolism in the Liliaceae. 6. Changes in nitrogenous composition during the growth of <i>Convallaria</i> and <i>Polygonatum</i> . By L. FOWDEN	643
Nitrogenous constituents of the thoracic muscle of the African migratory locust (<i>Locusta migratoria migratorioides</i>). By W. O. KERMAK and J. M. STEIN	648
γ -Amino- <i>n</i> -butyric, aspartic, glutamic and pyrrolidonecarboxylic acid; their determination and occurrence in grass during conservation. By H. T. MACPHERSON and J. S. SLATER	654
Studies on biosynthesis of cholesterol. 8. The effect of Mg ²⁺ and Mn ²⁺ ions and of adenosine triphosphate on enzymic activity of microsomes in sterol biosynthesis from mevalonic acid. By L. GOSSELIN and G. POJÁK	660
The metabolism of [16- ¹⁴ C]oestrone <i>in vitro</i> . By P. H. JELLINCK	665
The biochemistry of rumen protozoa. 1. Carbohydrate fermentation by <i>Dasytricha</i> and <i>Isotricha</i> . By B. H. HOWARD	671
The biochemistry of rumen protozoa. 2. Some carbohydrases in cell-free extracts of <i>Dasytricha</i> and <i>Isotricha</i> . By B. H. HOWARD	675
The formation of mercapturic acids. 1. Formation of mercapturic acid and the levels of glutathione in tissues. By M. M. BARNES, S. P. JAMES and P. B. WOOD	680
The formation of mercapturic acids. 2. The possible role of glutathionase. By H. G. BRAY, T. J. FRANKLIN and S. P. JAMES	690
Hormonal factors affecting glucose 6-phosphatase activity. 1. Effect of hypophysectomy and replacement therapy in the rat. By A. E. HARPER and F. G. YOUNG	696
Hormonal factors affecting glucose 6-phosphatase activity. 2. Some effects of diet and of alloxan diabetes in the rat. By A. E. HARPER	702
Metabolism of 11-oxygenated steroids. 1. Influence of the A/B ring junction on the reduction of 11-oxo groups. By I. E. BUSH and V. B. MAHESH	705
Metabolism of 11-oxygenated steroids. 2. 2-Methyl steroids. By I. E. BUSH and V. B. MAHESH	718

	PAGE
Studies on the biosynthesis of riboflavin. 5. General factors controlling flavinogenesis in the yeast <i>Candida flareri</i> . By T. W. GOODWIN and D. McEVOY	742
Partial purification and some properties of a cellulase from <i>Helix pomatia</i> . By F. L. MYERS and D. H. NORTHCOTE	749
The transport of carotenoids, vitamin A and cholesterol across the intestines of rats and chickens. By J. GANGULY, S. KRISHNAMURTHY and S. MAHADEVAN	756
The interaction of some factors affecting the kinetics of a molluscan β -glucuronidase. By R. I. COX	763

Proceedings of the Biochemical Society

Adrenocortical steroids: their separation, identification and estimation. By I. E. BUSH	33 P
The biosynthesis of adrenocortical steroids. By J. K. GRANT	33 P
The morphology of the adrenal gland. By T. SYMINGTON	34 P
The relation of steroid secretion to the histological zones of the adrenal cortex. By P. J. AYRES	34 P
The secretion of sex hormones by the adrenal gland. By R. V. SHORT	35 P
The control of the secretion of adrenocorticosteroids. By M. VOGT	36 P
The mode of action of corticotrophin from the biochemical point of view. By N. SABA	36 P
